

Apple Unveils New AirPods Pro, Apple Watch Series, and iPhone Lineup

【快速看完苹果2025秋季发布会： AirPods Pro 3降噪升级、Apple Watch血压监测、iPhone 17系列颠覆设计】

Summary: Apple introduced major updates across its product lines at a special event held at Apple Park. The new AirPods Pro 3 feature enhanced noise cancellation and live translation capabilities. Apple Watch Series 11 and SE 3 bring health advancements like blood pressure monitoring and SleepScore. The all-new iPhone 17 series includes a standard model, a ultra-thin iPhone Air, and the powerful iPhone 17 Pro with improved thermal management and camera systems. All products will be available for pre-order soon and launch on September 19th.

摘要： 苹果在Apple Park举行的特别活动中发布了全线产品重大更新。新款AirPods Pro 3具备增强的主动降噪和实时翻译功能。Apple Watch Series 11和SE 3带来了血压监测和睡眠评分等健康功能。全新iPhone 17系列包括标准版、超薄iPhone Air以及搭载改进散热系统和摄像头的iPhone 17 Pro。所有产品即将开启预售，9月19日正式上市。

bilibili 00:00:00

▶ Good morning.

早上好。

▶ Welcome to Apple Park.

欢迎来到Apple Park。

▶ An Apple design has always been fundamental to who we are and what we do.

苹果设计始终是我们身份与行动的核心根基。

▶ Let's start with AirPods.

让我们从AirPods开始。

▶ We designed a custom multi-port acoustic architecture, which precisely controls the airflow that carries sound into the ear.

我们设计了定制的多孔#声学#架构，精准控制将声音传入耳内的气流。

▶ This transforms the bass response.

这彻底改变了低音响应。

▶ It widens the sound stage so you hear every instrument and brings vocals into stunning focus across music, shows and calls.

它拓宽声场让每件乐器清晰可辨，并在音乐、节目和通话中使人声聚焦惊艳呈现。

 00:00:29

▶ And it gets even better with phenomenal active noise cancellation.

结合#非凡#的主动降噪功能，体验更臻完美。

▶ Ultra low noise microphones and advanced computational audio, combined with new foam-infused ear tips, breathing greater noise isolation.

超低噪麦克风与先进计算#音频#技术，搭配全新注入式#泡棉#耳塞，实现更强噪音#隔绝#。

▶ This significantly improved performance, delivering twice the ANC compared to the previous generation, which were already amazing.

此举显著提升性能，主动降噪效果达到已属卓越的上代产品的两倍。

 00:00:48

▶ We're bringing the magic of AirPods to the way you communicate across languages.

我们正将AirPods的魔力赋能跨语言沟通。

▶ With live translation powered by Apple Intelligence now, when you are together with someone who speaks a different language.

如今通过Apple Intelligence驱动的实时翻译，当你与使用不同语言者相处时——

▶ Like exploring a market abroad, AirPods Pro will help you understand them in your preferred language.

例如在异国市场探索时，AirPods Pro能以你偏好的语言助你理解对方。

bilibili 00:01:03

▶ Using a new simple gesture, live translation begins.

通过简单新#手势#即可启动实时翻译。

▶ Translating Spanish, while ANC lowers the volume of the person speaking and to make them fit more securely in your ear, we shake the design to match the natural geometry of the ear canal.

翻译西班牙语时，主动降噪会降低说话者音量；为提升入耳稳固度，我们重塑设计以契合耳道自然曲线。

▶ With entirely new ear tips, now in five sizes, all together, these are the most stable and best fitting AirPods ever.

搭配全新五尺寸耳塞，共同造就史上最稳定、佩戴#贴合度#最佳的AirPods。

bilibili 00:01:24

▶ We're also really excited to add heart rate sensing during workouts with AirPods Pro 3.

我们更激动的是为AirPods Pro 3新增运动时心率监测功能。

▶ Now, when you go to the fitness app on iPhone, you'll see a new workout experience.

现在当你打开iPhone上的#健身#应用，将看到全新运动体验。

▶ Where with just AirPods Pro, you can track up to 50 different workout types.

仅凭AirPods Pro即可追踪多达50种运动类型。

▶ You can track heart rate and calories burned using a new AirPods Pro.

通过新款AirPods Pro可监测心率与卡路里消耗。

bilibili 00:01:39

▶ We are moving from six hours on a single charge to eight hours, taking you through that transatlantic flight, while listening to music with active noise cancellation.

单次续航从6小时延长至8小时，足以支撑横跨大西洋的航班，全程享受主动降噪音乐。

▶ To help our hearing aid users, we are thrilled to provide 10 hours on a single charge in transparency.

为助听器用户惊喜提供通透模式下10小时单次续航。

▶ So that's AirPods Pro 3, delivering since sensational audio performance.

这就是AirPods Pro 3，带来一如既往#震撼#的#音频#表现。

 00:01:56

▶ They will still be available for \$249, and they will be available September 19.

售价保持249美元，将于9月19日正式发售。

▶ Let's turn to Apple Watch.

现在聚焦Apple Watch。

▶ Today, we're making the best watch in the world even better.

今日我们让这款全球最佳手表再臻新境。

▶ Introducing Apple Watch Series 11.

隆重推出Apple Watch Series 11。

▶ It's our thinnest and most comfortable watch, and it's even more durable.

这是我们最纤薄舒适的手表，且更显#耐用#。

▶ It's two times more scratch-resistant.

抗刮擦性能提升两倍。

 00:02:14

▶ Series 11 now includes the latest cellular technology, 5G.

Series 11现支持最新蜂窝技术5G。

▶ The new Watch Face Flow uses liquid-glass new rules to beautifully refract swirls of color.

新表盘"流彩"运用液态玻璃新法则，绚丽折射斑斓旋涡。

▶ This year we're thrilled to share our next advancement focused on a problem of massive proportions.

今年我们激动地分享针对重大健康问题的全新#突破#。

▶ High blood pressure.

高血压。

▶ To help, we've developed a groundbreaking feature that can alert you to possible hypertension, just by wearing your Apple Watch.

我们开发突破性功能，仅需佩戴Apple Watch即可#预警#潜在#高血压#风险。

 00:02:39

▶ We expect clearance from the FDA and other regulators soon, with availability in 150 countries and regions this month, including the UFs in Europe.

预计很快获得FDA等监管机构#批准#，本月将在150个国家和地区推出（含欧洲国家），包括美国。

▶ Now, we'll help you understand the quality of your sleep and how to make it more restorative with SleepScore.

现在，我们将通过SleepScore助你解读睡眠质量并提升恢复效益。

▶ The quality of your sleep is interlens by several factors, such as sleep duration, bedtime consistency, how often you wake up, and the time spent in each sleep stage.

你的睡眠质量受多个因素影响，例如睡眠时长、就寝一致性、夜间醒来的次数以及在每个睡眠阶段停留的时间。

 00:03:03

▶ SleepScore analyzes these factors each night and provides a classification plus a score.

SleepScore 每晚都会分析这些因素，并提供一个#分类#和分数。

▶ We also re-engineered the battery.

我们还重新设计了电池。

▶ Series 11 now gets up to 24 hours of battery life, so you can wear it all day and all night.

Series 11 现在可提供长达 24 小时的续航，因此你可以全天候佩戴。

▶ Series 11 comes in jet black, silver, rose gold, and a beautiful new space gray, all made from 100% recycled aluminum.

Series 11 提供#亮黑#、银色、玫瑰金和全新的太空#灰#，全部采用 100% 回收的#铝#制造。

 00:03:26

▶ There are also gorgeous polish cases made from 100% recycled titanium, in natural, gold, and slate.

还有#华丽#的抛光表壳，采用 100% 回收的钛金属制成，提供原色、金色和板岩色。

▶ And that's Apple Watch Series 11.

这就是 Apple Watch Series 11。

▶ This year we are delighted to introduce Apple Watch S3.

今年我们很高兴推出 Apple Watch S3。

▶ First, it gets our most powerful Apple Watch chip, S10, which enables even more features.

首先，它配备了我们最强大的 Apple Watch 芯片 S10，带来更多功能。

 00:03:46

▶ It brings an always on display to SE for the first time.

它首次为 SE 带来了常亮显示。

▶ With S10, SE also supports gestures, like double tap and wrist flick, so you can easily control your watch with just one hand.

借助 S10，SE 还支持手势操作，例如双击和抖腕，因此你可以单手轻松控制手表。

▶ SE already has important features like heart rate notifications, fall detection, and crash detection.

SE 已经具备心率通知、跌倒#检测#和车祸#检测#等重要功能。

▶ For those moments when you don't have your AirPods handy, you'll be able to play media like music or podcasts directly through the speaker.

当你没有随身携带 AirPods 时，你可以直接通过扬声器播放音乐或播客等媒体。

 00:04:15

▶ And for the first time, SE supports fast charging, making it easy to quickly top off the battery.

SE 首次支持快速充电，可以轻松快速补充电量。

▶ And now charges up to two times faster than the previous model, made with 100% recycled aluminum.

充电速度比上一代快一倍，并采用 100% 回收的#铝#制成。

▶ That's Apple Watch SE 3, featuring a new always on display, 5G, temperature sensing, sleep app notifications, and sleep score.

这就是 Apple Watch SE 3，配备全新常亮显示、5G、温度感应、睡眠应用通知和睡眠评分。

 00:04:40

▶ Apple Watch Ultra is the ultimate sports and adventure watch.

Apple Watch Ultra 是终极运动和探险手表。

▶ This year we're taking it further with Apple Watch Ultra 3.

今年我们更进一步，推出 Apple Watch Ultra 3。

▶ The display is now brighter when viewed at an angle.

在倾斜角度观看时，显示屏亮度更高。

▶ And theater borders allow us to grow the screen area without changing the case size.

而#剧院#边框设计让我们在不改变表壳尺寸的情况下扩大屏幕面积。

▶ The result is the largest display ever in an Apple Watch.

最终实现了 Apple Watch 有史以来最大的显示屏。

bilibili 00:05:02

▶ And Ultra keeps you connected no matter where you are, with 5G cellular, for more coverage and a faster, stronger connection.

Ultra 无论你身在何处，都通过 5G 蜂窝保持连接，提供更广覆盖和更快更强的连接。

▶ Now when you journey off the grid, you can stay safe even touch with loved ones, using satellite and available countries and regions.

现在，当你进入#离网#地区时，你仍然可以通过#卫星#在支持的国家和地区保持安全并与亲人联系。

▶ Just a few taps gather critical information, you can get you their emergency help you need.

只需轻点几下即可收集关键信息，获得所需的紧急帮助。

bilibili 00:05:22

▶ You can also send messages, and share your location with fine line.

你还可以发送信息，并共享你的精确位置。

▶ Ultra 3 also includes a larger battery, and now gets up to 42 hours of battery life.

Ultra 3 还配备更大的电池，现在可实现长达 42 小时的续航。

▶ Ultra will be available in black and natural titanium.

Ultra 将提供黑色和自然钛金属版本。

▶ That's Apple Watch Ultra 3, now featuring the largest display and the longest battery life of any Apple Watch.

这就是 Apple Watch Ultra 3，拥有史上最大的显示屏和最长的电池续航。

bilibili 00:05:42

▶ Apple Watch SE 3 starts at just 249.

Apple Watch SE 3 起售价仅为 249 美元。

▶ Apple Watch Series 11 starts at 399.

Apple Watch Series 11 起售价为 399 美元。

▶ And Apple Watch Ultra 3 starts at 799.

Apple Watch Ultra 3 起售价为 799 美元。

▶ You can pre-order all the new models today, and they will be available starting September 19th.

今天即可预订所有新款机型，9月19日起正式发售。

▶ Today, we're raising the bar once again with an all new iPhone lineup that's unlike anything we've ever created.

如今我们再次突破界限，带来了前所未有的全新iPhone系列。

 00:06:04

▶ iPhone 17 has a beautiful, more durable design, and comes in five gorgeous colors.

iPhone 17采用精美更#耐用#的设计，提供五款#惊艳#配色。

▶ Lavender, Miss Blue, Black, White, and Sage.

淡紫色、浅雾蓝、黑色、白色与#鼠尾草绿#。

▶ The new design has a larger 6.3-inch display with thinner borders, so you can see more and do more.

全新设计配备更大的6.3英寸显示屏与更窄边框，助您看得更多、做得更多。

▶ And the display of iPhone 17 features pro-motion, just like our pro-models, with an adaptive refresh rate up to 120 hertz.

iPhone 17的显示屏还配备与专业机型相同的ProMotion自适应#刷新#率技术，最高可达120赫兹。

 00:06:34

▶ When outside, iPhone 17 is more readable, with 3,000 nits peak outdoor brightness, or highest ever on iPhone.

在户外环境下，iPhone 17具备更佳可读性，峰值户外#亮度#达3000尼特，创iPhone历史新高。

▶ This makes a display on iPhone 17 our best yet.

这使得iPhone 17的显示屏成为我们迄今最出色的屏幕。

▶ iPhone 17 introduces Ceramic Shield 2.

iPhone 17搭载#超瓷晶#玻璃2代。

▶ Now, it has three times better scratch resistance.

现在其抗刮擦性能提升至三倍。

▶ Powering iPhone 17 is the latest generation of Apple Silicon, A19.

为iPhone 17提供动力的是新一代Apple#芯片#A19。

bilibili 00:07:02

▶ Built with the most advanced 3 nanometer technology, A19 is faster and more efficient.

基于最先进的3纳米工艺打造，A19速度更快、能效更高。

▶ It has an updated display engine to power pro-motion and the always on display.

其搭载新版显示引擎，为ProMotion和全天候显示功能提供支持。

▶ It has an improved neural engine, tailored to power, incredible on-device performance for Apple Intelligence.

配备增强型#神经网络#引擎，专为驱动Apple Intelligence的卓越设备端性能而优化。

▶ A19 has a 6-core CPU for our latest performance and efficiency cores to make iPhone 17 responsive while enabling great battery life.

A19采用6核CPU，包含最新性能核心与#能效#核心，令iPhone 17反应#灵敏#的同时实现优异续航。

bilibili 00:07:34

▶ The next generation 5-core GPU provides a big step up for graphics intensive tasks.

新一代5核GPU为图形#密集型#任务带来巨大提升。

▶ If you're upgrading from an older iPhone, you'll experience a huge boost in speed.

若从旧款iPhone升级，您将体验到速度的巨大#飞跃#。

▶ The efficiency of Apple Silicon contributes to all day battery life on iPhone 17.

Apple#芯片#的#能效#为iPhone 17带来全天候续航表现。

▶ And with pro-motion, iPhone 17 gets up to 8 more hours of video playback compared to iPhone 16.

在ProMotion技术加持下，iPhone 17的视频播放时间较iPhone 16最长增加8小时。

bilibili 00:08:01

▶ Our fusion technology combines the capabilities of two cameras in one.

我们的#融合#技术将双摄像头功能集于一体。

▶ With a main camera and an optical quality 2x telephoto, each with dedicated image pipelines.

配备主摄像头和具备#光学#品质的2倍长焦镜头，每个镜头均配有独立图像处理通道。

▶ And now, iPhone 17 gets a new 48 megapixel fusion ultra wide camera.

现在，iPhone 17还新增了4800万像素的#融合#超广角摄像头。

▶ It has four times the resolution compared to iPhone 16.

其分辨率相比iPhone 16提升至四倍。

bilibili 00:08:22

▶ You're going to love how easy it is to take amazing photos and videos.

您定会爱上这种轻松拍摄精彩照片与视频的体验。

▶ So this year, we are thrilled to introduce our phenomenal new center stage front camera.

为此我们今年激动地推出#非凡#的新款居中舞台前置摄像头。

▶ This new front camera has our widest field to view.

这款新前置摄像头具备我们最宽广的视角。

▶ It's enabled by our largest front camera sensor, almost twice the size of our previous front camera.

这得益于我们最大的前置摄像头#传感器#，其尺寸近乎前代的两倍。

bilibili 00:08:43

▶ The center stage camera's unique shape and larger size allow for high resolution photos and videos in any orientation.

居中舞台摄像头独特的形状与更大尺寸，支持任何#方向#的高分辨率照片和视频拍摄。

▶ The extra pixels in the square sensor level up video too.

方形#传感器#中的额外像素也提升了视频质量。

▶ All you're on the move selfie videos will be ultra stabilized using some of the same technology that enables action mode on the rear cameras.

你所有移动中的自拍视频都将通过与后置摄像头动作模式相同的技术实现超强防抖。

bilibili 00:09:04

▶ And that completes the fantastic iPhone 17.

这就是出色的 iPhone 17。

▶ Introducing the newest member of the iPhone family.

现在介绍 iPhone 家族的最新成员。

▶ This is iPhone N.

这就是 iPhone N。

▶ Thrilled to introduce the impossibly thin iPhone Air.

我们非常激动地介绍这款薄得不可思议的 iPhone Air。

▶ At 5.6mm, it's the thinnest iPhone we've ever made.

厚度仅 5.6 毫米，这是我们有史以来最薄的 iPhone。

▶ The gorgeous 6.5 inch display is our best featuring pro motion up to 120 hertz, always on and 3,000 nits of peak brightness.

这块#华丽#的 6.5 英寸显示屏是我们最好的屏幕，支持最高 120Hz ProMotion、自适应常亮和高达 3000 尼特的峰值#亮度#。

bilibili 00:09:34

▶ And is protected by the new ceramic shield too.

并且由全新的#陶瓷# #盾#保护。

▶ It's four times more resistant to cracks than our previous back glass.

它的抗裂性能比之前的背玻璃强#四倍#。

▶ It also protects the new plateau that now houses major internal components at the top of iPhone.

它还保护着新的#平台#，那里安置了 iPhone 顶部的主要内部组件。

▶ The frame of iPhone Air is made of titanium.

iPhone Air 的边框由钛金属制成。

▶ This is an essential material choice for such a thin design and enables it to exceed our stringent Ben strength requirements.

这是如此纤薄设计的重要材质选择，使它能够#超越#我们#严格#的弯折强度要求。

bilibili 00:09:59

▶ There are four stunning colors to choose from.

共有四种令人惊艳的颜色可供选择。

▶ Space black, cloud white, light gold, and sky blue.

分别是太空黑、云白、浅金和天空蓝。

▶ iPhone Air demands the most efficient high performance chip we've ever built for iPhone.

iPhone Air 需要我们为 iPhone 打造过的最高效高性能芯片。

▶ And that is A19 Pro.

那就是 A19 Pro。

▶ Our performance cores gain improvements to front end and bandwidth and branch prediction, making A19 Pro the fastest CPU in any smartphone.

我们的性能核心在前端、带宽和分支#预测#方面都有提升，使 A19 Pro 成为智能手机中最快的 CPU。

bilibili 00:10:24

▶ We are introducing the second generation of our dynamic caching architecture.

我们推出了第二代#动态#缓存#架构#。

▶ We doubled our 16-bit floating point math rates and we built a new unified image compression.

我们将 16 位浮点运算速率翻倍，并构建了全新的#统一#图像#压缩#。

▶ We are now taking a big step forward, building neural accelerators into each GPU core, delivering up to three times the peak GPU compute of A18 Pro.

我们迈出了重要一步，将神经加速器嵌入每个 GPU 核心，提供高达 A18 Pro 三倍的峰值 GPU 性能。

bilibili 00:10:46

▶ This is MacBook Pro levels of compute in an iPhone.

这相当于在 iPhone 上实现了 MacBook Pro 级别的#计算#能力。

▶ What might appear to be a single camera is actually our new powerful 48 megapixel fusion camera system, which works like multiple advanced cameras in one.

看似单摄，其实是全新的 4800 万像素融合相机系统，相当于多颗先进镜头的组合。

▶ The large sensor enables a second optical quality lens, the integrated 2x telephoto, delivering stunning photos and 4K videos.

大尺寸#传感器#支持第二颗#光学#级别的#镜头#——内置 2 倍长焦，拍出惊艳的照片和 4K 视频。

 00:11:10

⏮ And there is so much more to these camera systems, like action mode, audio mix, 4K Dolby Vision, and all the features of camera control.

这套相机系统还有更多功能，比如动作模式、音频混合、4K 杜比视界，以及完整的相机控制特性。

⏮ So now, let's talk about battery life.

现在，让我们谈谈电池续航。

⏮ The internal design has been completely rethought to maximize battery space.

内部设计被彻底重新构思，以最大化电池空间。

⏮ Now despite being much thinner and lighter, iPhone Air still gets amazing all day battery life.

尽管更薄更#轻#，iPhone Air 依然拥有令人惊叹的全天续航。

 00:11:34

⏮ This is incredible all day battery life in our thinnest iPhone ever.

这是我们史上最薄 iPhone，却仍能实现难以置信的全天续航。

⏮ We were able to create a new low profile mag safe battery that when attached feels great in your hand and is slim enough to drop right into your pocket.

我们打造了全新的低矮 MagSafe 电池，连接后手感出色，并且足够纤薄，能直接放进口袋。

⏮ When using them together, iPhone Air has up to 40 hours of video playback.

配合使用时，iPhone Air 可实现长达 40 小时的视频播放。

 00:11:52

⏮ That's enough to binge on all 40 episodes of For All Man Kind, making it a great accessory for long trips.

这足够让你一口气刷完《为全人类》全部40集#狂看#，是长途旅行的绝佳#伴侣#。

▶ We also designed two custom cases for iPhone Air.

我们还为iPhone Air设计了两款定制保护壳。

▶ The first is a translucent case with a back panel that is less than 1mm thin.

第一款是背板厚度不足1毫米的#半透明#保护壳。

▶ The second is a lightweight bumper made from a reinforced polycarbonate.

第二款是由强化聚碳酸酯制成的轻质#边框#保护壳。

bilibili 00:12:12

▶ It perfectly frames iPhone Air and is available in four matching colors.

它能完美包裹iPhone Air，并提供四种配色选择。

▶ Both options can be paired with the new cross body strap.

两款保护壳均可搭配新款斜挎#背带#使用。

▶ It's lined with thin flexible magnets designed to hold the straps together and allow you to easily adjust the length.

背带内置轻薄#柔性#磁条，既能固定带扣又可轻松调节长度。

▶ So that's the incredibly advanced iPhone Air.

这就是突破性创新的iPhone Air。

▶ Our thinnest iPhone ever with pro performance inside.

史上最薄的iPhone机身，蕴藏专业级性能。

bilibili 00:12:35

▶ Introducing iPhone 17 Pro.

现在为您呈现iPhone 17 Pro。

▶ The new definition of Pro.

重新定义专业级标准。

🎵 iPhone 17 Pro.

iPhone 17 Pro。

🎵 The iPhone 17 Pro design is more than just a fresh, bold new look.

iPhone 17 Pro的设计不仅是焕然一新的#大胆#外观。

🎵 It also delivers a dramatic leap in performance that makes this the most powerful iPhone ever.

更实现了性能上的重大#飞跃#，成为迄今最强大的iPhone。

🎵 And it starts with an entirely new approach to thermal management, which is critical to system performance.

这一切始于全新的#散热#管理方案——这对系统性能至关重要。

 00:13:03

🎵 At the heart of the new thermal management system is an Apple design paper chamber.

新#散热#系统的核心是苹果设计的纸质腔体。

🎵 D.I. and I's water is sealed inside the paper chamber, which is laser welded into the aluminum chassis.

去离子水密封在纸质腔体内，通过#激光#焊接技术嵌入#铝金属#机身。

🎵 This efficiently moves heat away from the components.

能高效将热量从元件传导散去。

🎵 We used an Apple designed aerospace grade aluminum alloy, where it's superior thermal conductivity, which is 20 times greater than the titanium we previously used.

我们采用苹果设计的航空航天级铝合金，其导热性远超此前使用的钛金属，提升达20倍之多。

 00:13:28

🎵 And the aluminum is anodized in three stunning finishes, a refined silver, an elegant deep blue, and the bold and eye catching cosmic orange.

#铝金属#外壳通过阳极氧化呈现三种惊艳质感：#雅致#银、深邃蓝，以及#大胆#夺目的#宇宙#橙。

▶ A key element of the design is the forged plateau, which efficiently dissipates heat and creates extra space for components, making room for a larger battery.

设计关键要素是锻造平台，既能高效散热又为元件腾出空间，从而容纳更大电池。

▶ The glass in the back is even better protected by the aluminum unibody design.

背板玻璃在#铝金属#一体化机身的保护下更加安全。

bilibili 00:13:56

▶ In fact, it's no longer glass at all.

事实上这已不再是普通玻璃。

▶ Like iPhone Air, we're now using ceramic shield for the back.

与iPhone Air一样，我们采用#陶瓷##护盾#作为背板材料。

▶ All of these design decisions made it possible to grow the battery significantly, resulting in iPhone 17 Pro Max achieving the best battery life ever in an iPhone.

这些设计使电池容量大幅提升，让iPhone 17 Pro Max成就iPhone有史以来最持久的续航。

▶ Enabling up to an astonishing 39 hours of video playback.

可实现惊人的39小时视频播放。

bilibili 00:14:18

▶ Next, let's talk about the Pro Camera System, which combines incredible hardware, with advanced computational photography, to capture beautiful photos and videos.

接下来介绍Pro摄像系统：它融合卓越的#硬件#与先进计算摄影技术，能拍摄惊艳的照片与视频。

▶ On the front, we have the 18 megapixels center stage camera, our innovative new front camera system.

前置摄像头采用1800万像素居中镜头，这是我们#创新#的全新前置摄像系统。

▶ On the rear, all three cameras are 48 megapixels for the very first time.

后置三摄首次全部升级至4800万像素。

bilibili 00:14:40

▶ And not only are the sensors 48 megapixels, but all three are fusion cameras.

不仅传感器达到4800万像素，三颗摄像头更全部支持#融合#成像技术。

▶ iPhone 17 Pro has our next generation, Tetra Prism Telephoto, with an improved 3D sensor shift image stabilization system.

iPhone 17 Pro搭载了新一代Tetra Prism长焦镜头，配备升级的3D#传感器#位移式光学防抖系统。

▶ We're adding support for ProRes RAW Capture, which is the industry leading Apple Develop Video Codec that records all of the information captured by the camera sensor, provide unparalleled flexibility in post-production.

我们新增支持ProRes RAW拍摄格式——这是行业领先的Apple研发视频编解码技术，能完整记录相机传感器捕捉的所有信息，为后期制作提供无与伦比的灵活性。

bilibili 00:15:10

▶ We're also adding support for GenLoc, which enables super precise video synchronization.

同时新增支持GenLoc功能，可实现超精准的视频同步。

▶ It's particularly useful for content creators and streamers.

这对内容创作者和直播主尤为实用。

▶ We're introducing our tech woven case, with the new innovative materials.

我们推出全新科技编织保护壳，采用#创新#材料打造。

▶ We also have clear cases, as well as a great selection of colors and silicone.

另有透明保护壳，以及丰富多样的配色与硅胶材质可选。

▶ This is a huge upgrade, featuring a stunning design, and powered by A19 Pro for our best performance ever.

这是次重大#升级#, 拥有惊艳的设计, 并搭载A19 Pro芯片实现前所未有的巅峰性能。

bilibili 00:15:35

▶ This is, without question, our best iPhone lineup ever.

这无疑是我们迄今最出色的iPhone系列。

▶ All the new models will start with 256GB of storage.

所有新款机型均以256GB存储容量起步。

▶ iPhone 17 starts at 799, keeping the same great price.

iPhone 17起售价799美元, 保持一贯的优异定价。

▶ iPhone Air starts at 999.

iPhone Air起售价999美元。

▶ An iPhone 17 Pro starts at 1099.

iPhone 17 Pro起售价1099美元。

▶ The same great price is last year 256GB iPhone 16 Pro.

与去年256GB版iPhone 16 Pro的卓越定价保持一致。

bilibili 00:15:59

▶ And for the first time, a two terabyte configuration is available on iPhone 17 Pro Max.

iPhone 17 Pro Max首次提供两 terabytes #配置#选项。

▶ And the iPhone lineup starts at just 599 with iPhone 16e.

iPhone系列现以iPhone 16e的599美元超值起售价为开端。

▶ Pre-orders for all new models start this Friday, and they will be available starting September 19th.

所有新款机型将于本周五开始预购, 并于9月19日起正式发售。

 Have a great day!

祝您有美好的一天！
