

What's Killing Our Rivers? | BBC Documentary

【BBC纪录片 20250715 是什么在摧毁我们的河流？】

Summary: The documentary investigates pollution in rivers, focusing on sewage, farming runoff, and phosphate contamination, which harm wildlife and human health, while exploring regulatory challenges and potential solutions.

摘要：这部纪录片调查了河流污染问题，重点关注污水、农业径流和磷酸盐污染对野生动物和人类健康的危害，同时探讨了监管挑战和潜在解决方案。

-

▶ They're going to blasts to the ridge down the river.

他们将沿河而下，前往山脊爆破。

▶ Please, please stay up the river.

请务必留在河的上游。

▶ It was the story of the summer.

这是整个夏天的焦点事件。

▶ Look at this.

看看这个。

▶ Sewage seeping into our rivers and polluting our clean spaces.

污水渗入我们的河流，污染了清洁的水域。

▶ Pollution from a pumping station killed at least a thousand fish.

泵站的污染导致至少一千条鱼死亡。

▶ Pollution warnings are in place for dozens of beaches in England and Wales after untreated sewage was discharged into the sea.

未经处理的污水排入大海后，英格兰和威尔士数十个海滩发布了污染警告。

[Back to Top](#)

▶ But while human waste is threatening our health and harming wildlife, there's something else lurking in the water.

但除了人类排泄物威胁健康和危害野生动物外，水中还潜伏着其他问题。

▶ We want to start to see.

我们想开始调查。

▶ Farming has intensified to meet our demand for cheap food.

农业集约化以满足我们对廉价食品的需求。

▶ That more food means more muck.

更多的食物意味着更多的粪肥。

▶ We investigate if farmers are following the rules and if those who should be checking are doing their job.

我们调查农民是否遵守规则，以及监管者是否履职。

[Back to Top](#)

 00:00:59

▶ Quite simply, if it carries on as it is now, that river ecosystem will just collapse.

简而言之，若现状持续，河流生态系统将崩溃。

▶ You see herons and dragonflies.

你能看到苍鹭和蜻蜓。

▶ You see lots of little fish in the shallow parts and then sometimes you'll see like a salmon jumping up the water.

浅水区有许多小鱼，偶尔还能看到鲑鱼跃出水面。

▶ You start to realise that how many people don't have stuff like this, particularly in lockdown, when we were very grateful to have it.

你会意识到多少人没有这样的环境，尤其在封锁期间，我们对此心怀感激。

[Back to Top](#)

▶ These school friends have made the most of a record-breaking summer, like thousands of others.

这些学生朋友和成千上万人一样，充分利用了这个破纪录的夏天。

▶ But there's something wrong with our rivers.

但我们的河流出了问题。

▶ It's absolutely devastating what we're finding out yesterday.

昨天的发现令人震惊。

▶ A bit of water.

一点水。

▶ Look at this.

看看这个。

▶ Just look at it.

仔细看看。

▶ This is algae.

这是藻类。

▶ It's taking over our rivers and waterways.

它们正在占领我们的河流和水道。

[Back to Top](#)

▶ Now when human and animal waste gets into a river, no one is it bad for our health.

当人类和动物排泄物进入河流，不仅危害健康。

▶ It's also full of nutrients like phosphate, which act like a kind of superfood for the algae.

还富含磷酸盐等养分，成为藻类的"超级食物"。

▶ And when this algae gets into a river, it strips the water of oxygen, killing off other plants in animal life.

藻类侵入河流后会耗尽氧气，杀死其他动植物。

▶ One third of rivers in Wales are now failing phosphate targets.

威尔士三分之一的河流未达到磷酸盐标准。

[Back to Top](#)

 00:02:53

▶ While in some areas it's mainly from the sewage system.

部分地区主要污染源是污水系统。

▶ In others, it's largely agriculture.

其他地区则以农业为主。

▶ The river Y is a case in point.

Y河就是典型例子。

▶ Here more than 70% of phosphates come from rural land runoff.

这里70%以上的磷酸盐来自农田径流。

▶ As our demand for cheap food has grown, farming production has intensified.

随着对廉价食品需求增长，农业生产日益集约化。

▶ And that's led to a growing mountain of muck.

这导致粪肥堆积如山。

▶ I'm Gemma Price, I'm 22, and I've lived on this farm all my life.

我是22岁的Gemma Price，一生都生活在这个农场。

[Back to Top](#)

 00:03:37

▶ Me and my sisters would always help with the jobs, even when we're younger, we'd always be out in amongst it.

我和姐妹从小就参与农活，总在田间忙碌。

▶ And it's always just been something I knew that I would want to do, which is why I think I'm still here now and I'm wanting to carry on the farm.

我一直知道自己想从事农业，这也是我坚持至今的原因。

▶ Gemma works on a family farm next to one of the rivers that feeds into the Y.

Gemma家在Y河支流旁的家族农场工作。

▶ Along with a dad-gwin, they raise cows, sheep and chickens.

她和父亲Gwyn饲养牛、羊和鸡。

[Back to Top](#)

 00:04:03

▶ All right, church.

好了，伙计们。

▶ Feeding them keeps Gwyn busy, as does dealing with a mountain of manure.

喂养牲畜和处理粪肥让Gwyn忙碌不已。

▶ That muck is gathered underneath this barn, so what happens to it then?

粪肥堆积在谷仓下，之后如何处理？

▶ Some of the manure is collected in there, but there's always a bit of runoff.

部分粪肥被收集，但总有径流产生。

▶ Please, let's go.

请跟我来。

▶ See his trench here?

看到这条沟了吗？

▶ Yeah.

是的。

▶ Down that trench there.

沿着那条沟。

[Back to Top](#)

 00:04:25

▶ Down through the grid there.

穿过那个栅格。

▶ OK.

好的。

▶ There's a manhole there.

那里有个检修孔。

▶ There's some.

有一些。

▶ The storage tank, holds about 3,000 gallons.

储罐容量约3000加仑。

▶ Can you see that little bit of chicken like floating on top of the water?

看到水上漂浮的鸡粪了吗？

▶ In about, you know, a month or six weeks, that'll want to end gene again.

大约一个月或六周后，又需要清理了。

▶ This muck is full of phosphates, vital for growing the crops we need.

这些粪肥富含作物生长必需的磷酸盐。

[Back to Top](#)

 00:04:45

▶ It goes by tanker, right, sucked out by tanker.

用罐车抽运。

▶ Actually, we'll go up on that dry hill up there.

我们实际上会运到那边干燥的山丘上。

▶ It's dry, it's as dry as a cork.

那里非常干燥。

▶ There's no land rains, there's no nothing.

没有雨水，什么都没有。

▶ And we have the right.

我们有权这样做。

▶ We have a license to spread there.

我们有在那里施肥的许可证。

▶ The prices can't see how muck could be getting into our rivers, when there are so many rules and regulations governing how farmers like them can safely use it.

Price一家不明白粪肥如何进入河流，毕竟有众多法规约束安全使用。

[Back to Top](#)

 00:05:18

▶ We just had a valley from the prices farm, and this is the river Eisen, which runs eventually into the river by itself.

我们刚经过Price家的山谷，这是最终汇入Y河的Eisen河。

▶ We've tested the water here for phosphates, and as expected, phosphate levels in this actual tributary are very low.

检测显示这条支流的磷酸盐含量很低。

▶ But further downriver, they're too high.

但下游含量过高。

▶ And that's putting wildlife at risk.

这危及野生动物。

▶ Otters have thrived in parts of the Y, along with many other rare species.

水獭等珍稀物种曾在Y河部分流域繁衍生息。

[Back to Top](#)

 00:06:00

▶ It's one of the most protected rivers in Britain, because of this rich wildlife.

因其丰富的生态，它曾是英国保护最严格的河流之一。

▶ All of our rivers in Wales are now at risk for extinction for salmon and sea trout.

威尔士所有河流的鲑鱼和海鳟都面临灭绝风险。

▶ Gail Davis-Wolch has over 20 years experience in the water industry.

Gail Davis-Wolch拥有20多年水务行业经验。

▶ She says that farming and sewage are having a combined effect.

她表示农业和污水产生复合影响。

▶ It's much more than the direct species and habitats within the river.

影响远不止于河流内的直接物种和栖息地。

[Back to Top](#)

 00:06:31

▶ So our river is the source of drinking water.

河流是饮用水源。

▶ It's used by farmers as crop irrigation.

农民用于灌溉。

▶ It's used to feed cattle.

用于喂养牲畜。

▶ You know, we've just reached a point really where rivers cannot cope anymore with how they're being used and what we're putting into them.

河流已无法承受当前的使用方式和排放物。

▶ Our agricultural land use has changed.

我们的农业用地方式已改变。

▶ It's poultry units just did not exist at the top of that catchment 15 years ago.

15年前上游还没有家禽养殖场。

[Back to Top](#)

 00:06:57

⌂ And you know, what we've seen is a, it is a huge burst of poultry units in a very short amount of time, which has sort of saturated that landscape.

短时间内涌现大量养殖场，使该地区趋于饱和。

⌂ There are startling figures on the number of intensive poultry farms that have sprung up.

集约化家禽农场的激增数字令人震惊。

⌂ Powerous council only started keeping records from 2018.

Powys议会2018年才开始记录。

⌂ But we've discovered the rapid growth in intensive farming started a decade earlier.

但我们发现集约化农业十年前就已快速增长。

[Back to Top](#)

 00:07:31

⌂ Since 2008, planning permission has been granted to dozens of intensive poultry farms and barn extensions every year.

自2008年起，每年批准数十个集约化农场和畜舍扩建。

⌂ Today, there are now more than 300 intensive poultry farms in power, with a capacity for 9.6 million chickens.

如今Powys有300多家集约化农场，可养殖960万只鸡。

⌂ Many believe this rapid expansion is causing pollution in the Y.

许多人认为这种扩张导致Y河污染。

⌂ But with poor water quality monitoring across the UK, there's currently no evidence of a direct link.

但由于英国水质监测不足，目前缺乏直接证据。

[Back to Top](#)

 00:08:11

 I think so.

我想是的。

 Say hello.

打个招呼吧。

 Firstly, Jane, you know you.

首先，Jane，你知道的。

 Hello.

你好。

 Hello.

你好。

 Sweet, yeah.

好的。

 Hi, we're, how are we doing?

嗨，我们怎么样？

 You invite me in.

你邀请我进来。

[Back to Top](#)

🎧 Scientists here approach the problem from a different angle, looking at how much muck is being produced in the Y catchment.

科学家从不同角度研究Y河流域的粪肥产量。

🎧 Where you have these high areas of intensive livestock production, you end up with too much phosphorus available in the manure that's there to go onto the land.

集约化畜牧区会产生过量含磷粪肥。

🎧 They estimate that around 7.5,000 tonnes of phosphorus gets into the soil around the river Y every year, much of that by spreading muck from poultry farms.

估计每年约7500吨磷通过禽类粪肥进入Y河流域土壤。

[Back to Top](#)

🎧 But only some of that is absorbed by crops.

但作物仅吸收部分。

🎧 The rest is excess.

其余都是过剩的。

🎧 So you left with a difference of about 3,000 tonnes of phosphorus that's above the crop requirement of what we will call a surplus, which nationally is very high.

因此每年约3000吨磷超出作物需求，形成全国罕见的高盈余。

🎧 It's about 60% greater than a national average.

比全国平均水平高约60%。

🎧 Fundamentally, if you have a surplus, you have too much phosphorus in your environment, it's likely that you're going to have worse water quality.

磷过剩必然导致水质恶化。

[Back to Top](#)

 00:09:20

▶ I mean, the data shows quite clearly.

数据非常清晰。

▶ There are parts of the catchment where soil phosphorus levels are already high enough, if not even a little bit too high.

部分流域土壤磷含量已足够高，甚至略超标。

▶ So those areas do not need phosphorus input at the moment.

这些地区目前不需要磷输入。

▶ They do not need muck spreading.

不需要施粪肥。

▶ No, you did not need any phosphorus input.

完全不需要磷输入。

▶ They do not need muck or fertiliser or any phosphorus inputs.

不需要粪肥、化肥或任何磷输入。

[Back to Top](#)

 00:09:41

▶ Scientists here are clear to start fixing the problem muck spreading should be stopped completely in some parts of the Y.

科学家明确表示，修复问题需在Y河部分流域完全停止施肥。

▶ Oh, there's loads of algae.

哦，大量藻类。

▶ Ew.

呃。

▶ Oh, I'm going to have to go in, it's all slimy.

我得进去，全是黏液。

▶ For those who get out on the river regularly, the current state of the Y is having a real impact.

对常去河边的人而言，Y河现状影响巨大。

▶ I mean, you were swimming and jumping off the rock stuff when everything looked OK.

以前状况良好时，我们常在岩石边游泳跳水。

[Back to Top](#)

 00:10:23

▶ I think about a year and a half ago maybe, maybe two years ago, the whole river went green and the water.

约一两年，整条河变绿了。

▶ Then one of their friends became ill.

后来有朋友生病。

▶ We all got a bit scared, so we kind of just stayed on puddles and things rather than going in and accidentally consuming the water.

我们害怕了，只敢在水坑边玩，避免误饮河水。

▶ As well as driving people out of the water, pollution from animal and human waste is having a wider impact.

除驱离人群外，排泄物污染影响更广。

[Back to Top](#)

 00:10:53

▶ We estimate that we've got around 1100 houses that are held up in the planning system currently.

约1100套住房因规划系统受阻。

▶ Housing at this site has been put on hold.

该地块住房建设暂停。

▶ The plans that have been prepared for this site show 25 affordable homes.

原计划建设25套保障房。

▶ We've got quite a lot of people on the housing wait in list here in Talgoth.

Talgoth有大量轮候住房者。

▶ Barry Davis helps developers and housing associations to build new homes.

Barry Davis协助开发商和住房协会建房。

[Back to Top](#)

 00:11:21

▶ So this is a Brownfield site.

这是棕地。

▶ What is holding this development back right now?

目前阻碍因素是什么？

🎥 Well, the planning application is ready for submission and it has been ready for submission for 18 months or so.

规划申请已准备18个月。

🎥 Unfortunately, there's the current phosphate situation affecting the river Y special area of conservation, which means that developments like this can't currently proceed.

Y河保护区的磷酸盐问题使此类开发暂停。

[Back to Top](#)

 00:11:47

🎥 Last year, natural resources Wales tightened phosphate targets for rivers with special protection.

去年威尔士自然资源局收紧保护河流的磷酸盐标准。

🎥 That meant all new developments in those areas were affected.

这些地区所有新开发受影响。

🎥 The moratorium effectively came in overnight, with little or no consultation with the development industry, which we found to be very frustrating, particularly given that the amount of phosphate that new development contributes to this phosphate issue is relatively low.

突然实施的禁令令行业沮丧，尤其新开发对磷酸盐问题贡献很小。

[Back to Top](#)

 00:12:17

🎥 We felt that it was very much a sledgehammer to crack a nut.

这就像用大锤砸坚果。

▶ And here we are, 20 months on and this site is still laying follow.

20个月后，地块仍闲置。

▶ What we need is for all of the public bodies to work together with the development industry to come up with a solution together.

需要公共机构与行业共同解决。

▶ We're not really seeing that.

目前未见进展。

▶ In total, 12 councils and all three national parks in Wales are affected by the new phosphate targets.

威尔士12个议会和3个国家公园受新标准影响。

[Back to Top](#)

 00:12:46

▶ We contacted all of them and they estimated more than 5,000 new homes are impacted and could be delayed or even abandoned.

估计超5000套住房可能延迟或取消。

▶ If 5,000 homes aren't built, the last two economic activity would be in excess of £700 million.

若5000套未建成，经济损失超7亿英镑。

▶ This tough new planning guidance has also been brought in over the border where an estimated 100,000 new homes across 74 planning authorities in England are affected.

英格兰74个规划区的10万套住房也受影响。

[Back to Top](#)

▶ And the last two economic activity here would be more than £15 billion.

经济损失超150亿英镑。

▶ And it's become a hot political topic.

这成为政治热点。

▶ The Royal Welsh show in Bill Thwells is a major event on farmers' calendars.

皇家威尔士秀是农民年度盛事。

▶ One of the big talking points is the ban on building in rural communities.

热议话题是乡村建设禁令。

▶ The First Minister has called an emergency summit here to try and reach a solution.

首席部长召开紧急峰会寻求解决方案。

[Back to Top](#)

▶ I've got a chance to ask him a few questions.

我有机会提问。

▶ Are you only now perhaps taking notice because this has become an economic problem?

您现在关注是否因经济问题？

▶ Economic issues are genuine and relevant.

经济问题确实重要。

▶ The need to provide homes in those communities is urgent and a priority for us.

解决住房需求是当务之急。

▶ When you put all those things together, this is an issue that has rapidly gained.

综合来看，这个问题迅速凸显。

▶ In public attention, it deserves to have proper political attention and that's what today's seminar was designed to create.

公众关注值得政治重视，这也是研讨会的目的。

[Back to Top](#)

 00:14:27

▶ Right, yes.

是的。

▶ Well, that's the first one that's there, recognising the scale of this problem that perhaps some rivers like the Y haven't been this badly polluted for years.

首先承认问题的严重性——Y河等水域多年未见如此污染。

▶ But the big question now is, yes, to identify who's responsible for it, but also to do something about it.

关键问题是明确责任并采取行动。

▶ The show is over and the crowds have left.

展会结束，人群散去。

▶ But farmers are still dealing with the raft of changes facing their industry.

但农民仍面临行业巨变。

[Back to Top](#)

 00:14:58

▶ And if you, Cumbry President, Aled Jones, wants more proof that farming is causing pollution before asking his members to invest in costly solutions.

如果Cumbry主席Aled Jones在要求成员投资昂贵的解决方案之前，还想要更多证明农业正在造成污染的证据。

▶ Agriculture is part of the problem.

农业是问题的一部分。

▶ It's a very complex issue.

这是一个非常复杂的问题。

▶ There are so many other contributors to water failing in these rivers.

这些河流的水质恶化还有许多其他因素。

▶ Do you worry that the pressure being put on government by these housebuilders further down the catchment is going to result in restrictions for you as farmers on the upper wire?

你是否担心下游的建筑商对政府施加的压力会导致上游农民受到限制？

[Back to Top](#)

 00:15:28

▶ Yes, there's no simple answer, I'm afraid, because obviously, population growth is searched that there needs to be housing developments.

是的，恐怕没有简单的答案，因为显然人口增长需要住房开发。

▶ At the same time, those people need to be fed as well.

与此同时，这些人也需要食物。

▶ We need to go with the evidence and as that evidence is clarified clearly, then we will respond.

我们需要依据证据，当证据明确时，我们就会做出回应。

▶ It certainly seems to be on the agenda, but could authorities work more closely with farmers to find answers?

这显然已经在议程上，但当局能否与农民更紧密合作以找到解决方案？

[Back to Top](#)

 00:15:57

▶ In another part of the UK, they've been doing just this.

在英国的另一地区，他们已经在这样做。

▶ It can of course take years to completely turn around a polluted river.

当然，彻底扭转一条被污染的河流可能需要数年时间。

▶ But here on the west coast of Scotland, locals and Scottish environment officials say that benefits are already being felt on beaches like this one.

但在苏格兰西海岸，当地人和苏格兰环境官员表示，像这样的海滩已经感受到了好处。

▶ Because of the work they're doing with farmers on the river air.

因为他们与农民在河流治理上的合作。

[Back to Top](#)

 00:16:25

▶ Ian Watson is one of three brothers who all have dairy farms in this part of airshare.

Ian Watson是三个兄弟之一，他们都在这一地区经营奶牛场。

▶ Water runs off this farm straight into streams that feed the nearby river.

水从农场直接流入附近河流的支流。

▶ But unlike most farmers in Wales, he's regularly inspected by officials checking how he stores and spreads his slurry.

但与威尔士的大多数农民不同，他定期接受官员检查粪便储存和排放情况。

▶ Yeah, this is Keese Hill Farm.

是的，这里是Keese Hill农场。

[Back to Top](#)

 00:16:47

▶ We'll just go in here and media in the farmer.

我们会进去和农民交流。

▶ These inspectors are from SEPA, the Scottish equivalent of natural resources Wales.

这些检查员来自SEPA，相当于苏格兰的自然资源威尔士。

▶ They started noticing problems with phosphates in their rivers as far back as 2004.

早在2004年，他们就注意到河流中的磷酸盐问题。

▶ Well, farmers always say they want to be compliant and compliant with rules and regulations.

农民总是说他们希望遵守规则和法规。

▶ It's only when you actually show them where they're non-compliant.

只有当你真正指出他们不合规的地方时。

[Back to Top](#)

 00:17:12

▶ Well, they actually undertake some regulatory improvements.

他们才会进行一些监管改进。

🎧 And we said we're going to walk every river in our priority catchments, the 57 of them, every tributary, and gather physical evidence of non-compliance with regulation, good practice and for practice.

我们说过要巡查优先流域的每一条河流，共57条，每条支流，并收集不合规、良好实践和不良实践的实际证据。

🎧 We did that between 2010 and 2015.

我们在2010年至2015年期间完成了这项工作。

🎧 Results have been dramatic.

结果非常显著。

[Back to Top](#)

 00:17:34

🎧 Compliance in this area has risen from 34% in 2010 to 99% now.

该地区的合规率从2010年的34%上升到现在的99%。

🎧 Seeing a difference in nutrient concentration in the river course isn't going to happen overnight.

河流中营养物浓度的变化不会一夜之间发生。

🎧 It's going to take a number of years for improvements in reduction in nitrates and phosphate levels, but it can be done.

减少硝酸盐和磷酸盐水平的改善需要数年时间，但这是可以做到的。

🎧 But it's something that probably has to be started sooner rather than later.

但这件事可能需要尽早开始。

[Back to Top](#)

 00:17:58

▶ Scotland's environmental regulator spends £900,000 a year on a dedicated team of 12 inspectors and support staff just checking water pollution from farms.

苏格兰的环境监管机构每年花费90万英镑，专门雇佣12名检查员和支持人员，仅用于检查农场的水污染。

▶ So what about in Wales?

那么威尔士的情况如何？

▶ Natural resources Wales are the environmental regulator.

自然资源威尔士是环境监管机构。

▶ But while they do inspect some farms, they don't have a full-time fully funded team like in Scotland.

但他们虽然检查一些农场，却没有像苏格兰那样的全职全额资助团队。

[Back to Top](#)

 00:18:26

▶ I don't even have a log in here at my first.

我甚至没有在这里的登录记录。

▶ In charge of water quality at NRW, it's Sean Williams.

负责NRW水质的是Sean Williams。

▶ We know there are problem areas in the wire catchment.

我们知道wire流域存在问题区域。

▶ Have you done what the Scots are doing?

你们是否采取了苏格兰的做法？

▶ We've done a lot of targeting different kinds of farms.

我们对不同类型的农场进行了大量针对性工作。

▶ So we had a dairy project that we ran for a couple of years, which we're now looking at how we can evolve that dairy project into looking at different farms.

我们运行了一个为期几年的乳制品项目，现在正在研究如何将其扩展到不同类型的农场。

[Back to Top](#)

 00:18:54

▶ And looking more around nutrients and phosphates as well.

并更多地关注营养物和磷酸盐。

▶ It's key having people on the ground to deliver is so important.

关键是要有实地人员执行，这非常重要。

▶ And as I said, that's why we're looking into not just external funded programmes that are temporary, but we're also looking at our baseline funding with Welsh Government.

正如我所说，这就是为什么我们不仅研究临时的外部资助项目，还在研究威尔士政府的基础资金。

▶ Because your budgets have gone down by a third, I think, since inception.

因为自成立以来，你们的预算已经减少了三分之一。

[Back to Top](#)

 00:19:20

▶ Does it sometimes come down to resources?

这是否有时归结为资源问题？

▶ We would like to do more, we will do more, and we can work with others as well.

我们希望做得更多，我们会做得更多，也可以与他人合作。

▶ The Welsh Government has been phasing in new laws to tackle water pollution from farms, and is currently talking to NRW about resources.

威尔士政府正在逐步引入新法律以解决农场水污染问题，并正在与NRW讨论资源问题。

▶ NRW told us they have yet to receive any funding to enforce those new rules.

NRW告诉我们，他们尚未收到任何资金来执行这些新规定。

[Back to Top](#)

 00:19:47

▶ This is a simple solution around investment and funding into that.

这是一个关于投资和资金的简单解决方案。

▶ You know, Scottish Government have invested in that, and we need to look at how we can achieve that in Wales.

苏格兰政府已经投资于此，我们需要研究如何在威尔士实现这一点。

▶ We can put in as much change in policy and legislation as we like.

我们可以制定尽可能多的政策和立法变革。

▶ It is only as good as the strength of our regulation and enforcement against that policy.

只有监管和执行力度足够强，这些政策才能有效。

[Back to Top](#)

 00:20:09

▶ If there's little enforcement of the new regulations in Wales, it's down to farmers to follow the rules as best they can.

如果威尔士对新法规的执行力度不足，农民只能尽力遵守规则。

▶ Now this chicken farm reeds birds for their meat.

现在这个养鸡场饲养肉鸡。

▶ This year it was granted permission to double its capacity to 180,000 broiler chickens.

今年它获准将产能翻倍至18万只肉鸡。

▶ Once that new shed is built, this farm's muck will be taken off site to an anaerobic digester.

一旦新鸡舍建成，农场的粪便将被运往厌氧消化池。

[Back to Top](#)

 00:20:41

▶ He's following the rules.

他遵守了规则。

▶ That digester is licensed to take animal waste from farms and after producing energy, it sends the phosphate-rich leftovers to be spread on the land.

该消化池获得许可接收农场动物粪便，并在产生能源后将富含磷酸盐的残留物用于土地施肥。

▶ We followed some of that waste product.

我们追踪了部分废弃物。

▶ It's been spread on this field.

它被撒在这片田地上。

▶ But as we were filming, we noticed that on this occasion, muck appears to have been spread here around 2 metres from the water in this culvert.

但在拍摄过程中，我们注意到这次粪便似乎被撒在距离这条涵洞水边约2米的地方。

[Back to Top](#)

 00:21:20

▶ Legally, this gap should be at least 6 metres.

法律规定，这个距离至少应为6米。

▶ I took a walk in the field a few months later.

几个月后，我在这片田地散步。

▶ It's been a bumper summer.

这是一个丰收的夏季。

▶ Crops have been planted, harvested and taken away already.

庄稼已经种植、收获并运走。

▶ And over there is the culvert that runs down the edge of the field and it finishes just over here.

那边是沿着田地边缘的涵洞，终点就在这里。

▶ And this is what we're looking for.

这就是我们要找的。

▶ This is a culvert or gully right on the edge of the field.

这是田地边缘的涵洞或沟渠。

[Back to Top](#)

 00:21:58

🎧 And this is where we saw a apparently muck being spread far too close to the edge of the field to the culvert itself.

这就是我们当时看到粪便被撒得过于靠近田地边缘和涵洞的地方。

🎧 And the concern is that wherever is in the culvert, water and muck then goes down here into the river just there and then three miles down river to the big old river why itself.

令人担忧的是，涵洞中的水和粪便会流入那里的河流，然后顺流而下三英里到达大河why。

🎧 So who was responsible for the questionable spreading?

那么谁应对这种可疑的施肥行为负责？

[Back to Top](#)

 00:22:22

🎧 We asked the digestive company but they didn't respond.

我们询问了消化池公司，但他们没有回应。

🎧 The farmer whose land it is didn't want to comment.

土地所属的农民不愿置评。

🎧 We followed muck to just one farm and found that rules appeared to be broken.

我们追踪了一个农场的粪便，发现似乎存在违规行为。

🎧 The question is, could this also be happening elsewhere?

问题是，其他地方是否也存在这种情况？

🎧 So who's actually responsible for inspecting this?

那么谁真正负责检查这项工作？

🎧 Powers Council says it isn't them unless there's been a breach of planning conditions.

Powers Council表示除非违反规划条件，否则不归他们管。

 00:22:50

⏮ And it's actually NRW's job to check and to enforce regulations around muck management.

实际上检查并执行粪便管理法规是NRW的职责。

⏮ But when it comes to muck spreading itself, they've told us they don't proactively check how it's done.

但在粪便施肥本身方面，他们告诉我们不会主动检查操作方式。

⏮ If you're not inspecting the actual spreading of muck, isn't that an obvious loophole in the system?

如果不检查实际的粪便施肥，这不是系统中的明显漏洞吗？

⏮ Well, as I said, it's about how we can be better at doing a lot of this stuff.

正如我所说，关键在于我们如何更好地处理这些事情。

[Back to Top](#)

 00:23:16

⏮ So monitoring will pick up issues in catchments.

监测会发现流域中的问题。

⏮ We're monitoring better now than we have done before.

我们现在比过去监测得更好。

⏮ So it's important that we're using our evidence, that we're using the data and that we're responding to that and targeting our visits in the right places.

因此，重要的是我们利用证据和数据，并据此做出反应，有针对性地访问正确的地点。

⏮ But even if monitoring finally improves, is that enough?

但即使监测最终改善，这就足够了吗？

⏮ We have failure on lots of different parts of the system at the minute.

目前系统中许多不同环节都存在缺陷。

[Back to Top](#)

 00:23:42

⏮ It's not just about land spreading.

不仅仅是土地施肥问题。

⏮ You know, the whole management of soils on farms and the management of how water is controlled.

还包括农场土壤的整体管理以及水控制的管理。

⏮ Have we got sufficient enforcement and regulations on sewer overflows and on waste water treatment, work discharges, industrial discharges and misconnections?

我们对污水溢流、废水处理、工作排放、工业排放和错误连接是否有足够的执法和法规？

⏮ It's a huge cumulative impact to the river wire.

这对wire河产生了巨大的累积影响。

[Back to Top](#)

 00:24:05

⏮ And I think all of our rivers, and that's what's perhaps not being understood at the minute.

我认为我们所有的河流都是如此，而这可能是目前未被理解的。

▶ I want to do Master Chef next.

接下来我想参加《厨艺大师》。

▶ I just think I would like to carry on and I would like to stay here, farming here.

我只是想继续留在这里务农。

▶ Farmers like Gemma continue to try and make a living, but decisions made by policymakers will have an impact on their future.

像Gemma这样的农民继续努力谋生，但政策制定者的决策将影响他们的未来。

[Back to Top](#)

 00:24:35

▶ And at the moment, the messages are mixed.

而目前的信息是混乱的。

▶ You can't go far without being not very far from a chicken shed.

你走不远就会看到一个鸡舍。

▶ If they stopped giving a planning permission for chicken farms in this area, if they supposedly thought we were the main contributors, I think it would have an impact on the families around here who are wanting to diversify, who are wanting to make more money and it's slightly unfair.

如果他们停止批准该地区的养鸡场规划许可，如果他们认为我们是主要污染源，我认为这会影响那些希望多元化、希望赚更多钱的周边家庭，这有点不公平。

[Back to Top](#)

 00:25:02

▶ Gemma's family diversified into poultry farming 20 years ago.

Gemma的家族20年前开始多元化经营家禽养殖。

▶ Since then, hundreds have followed suit and they've been encouraged to do so by the Welsh government.

自那以后，数百人效仿，威尔士政府也鼓励这样做。

▶ In Paris alone, more than £4 million in grants have been given to poultry and egg producers.

仅在巴黎，就向家禽和鸡蛋生产商提供了超过400万英镑的补助金。

▶ But we found something else.

但我们还发现了其他情况。

▶ While one arm of Welsh government was handing out grants to chicken farmers, another, the planning directorate, was writing to councils, warning them to fully consider the impact of intensive agriculture like chicken farming on the environment.

威尔士政府一方面向养鸡户发放补助金，另一方面规划部门却在写信给议会，警告他们要充分考虑养鸡等集约农业对环境的影响。

[Back to Top](#)

 00:25:45

▶ This letter sent to Welsh councils in 2018 is clear.

2018年发给威尔士议会的这封信很明确。

▶ It says they should be fully aware of the cumulative impact of too many intensive farms in one area.

信中表示，他们应充分意识到一个地区过多集约农场的累积影响。

▶ The Labour-led Welsh government has made much of its plan for a greener Wales.

工党领导的威尔士政府大力宣传其绿色威尔士计划。

▶ But amid all the targets and regulations, is there an effective plan to support farmers and to protect our rivers?

但在所有目标和法规中，是否有支持农民和保护河流的有效计划？

[Back to Top](#)

 00:26:12

▶ We know we had an issue around too many poultry farms, for instance, being put in the same place.

我们知道存在家禽养殖场过于集中的问题。

▶ Do we agree there are too many poultry farms in here for why?

我们是否同意why地区家禽养殖场过多？

▶ I think we saw in the Powys area in the previous administration there, we saw a lot of planning permissions.

我认为我们在Powys地区的前任政府时期看到了大量规划许可。

▶ But as your government gave the grants for those poultry farms.

但你们的政府为这些家禽养殖场提供了补助金。

[Back to Top](#)

 00:26:32

▶ What I'm saying is you've got to make sure that the local authority knows the cumulative impact of all these poultry farms.

我的意思是，你们必须确保地方当局了解所有这些家禽养殖场的累积影响。

▶ So you've given them a low authority?

所以你们给了他们低权限？

▶ No, I'm not trying to blame anybody.

不，我不是在责怪任何人。

▶ What I'm saying is it's about working together to make sure that where you can get perhaps quicker wins, I see that it's a long-term issue.

我的意思是需要共同努力，在可能取得快速成效的地方着手，但我认为这是一个长期问题。

[Back to Top](#)

 00:26:48

▶ What we need to look for quick gains too.

我们也需要寻求快速收益。

▶ NRW, which oversees much of this, has had its funding consistently cut.

负责监督大部分工作的NRW资金持续削减。

▶ If nobody's policing things like muck spreading, I'd prepare to tell farmers that they can't spread muck on their land because there's too much phosphate in the river already.

如果没有人监管粪便施肥之类的事情，我准备告诉农民他们不能在土地上施肥，因为河流中已经含有过多磷酸盐。

▶ Well, we have to look at the regulations.

我们必须研究法规。

[Back to Top](#)

 00:27:05

▶ We have to look at the individual farmings.

我们必须研究个体农场。

⏮ And one of the things that we're bringing forward in relation to delay in the one regulation is a licensing scheme.

我们针对一项法规延迟提出的措施之一是许可制度。

⏮ Now if a farmer wants to apply for a licensing scheme and we think that it's not pertinent for that farm, we can do that.

如果农民想申请许可制度，而我们认为这不适合该农场，我们可以这样做。

⏮ But that's from here going forward.

但这是从现在开始。

⏮ I mean, a lot of this is legacy phosphorus.

我的意思是，很多是历史遗留的磷问题。

[Back to Top](#)

 00:27:24

⏮ That is part of the problem.

这是问题的一部分。

⏮ We are where we are now.

我们处于目前的状况。

⏮ And if that's part of it, obviously we can look at it.

如果这是问题的一部分，显然我们可以研究它。

⏮ Do you take responsibility for what's happening to our rivers?

你是否对河流现状负责？

⏮ Well, of course I'm part of the solution just as other people are.

当然，和其他人一样，我也是解决方案的一部分。

▶ We all have to take responsibility each and every one of us.

我们每个人都必须承担责任。

▶ The scale of the problem is daunting.

问题的规模令人望而生畏。

[Back to Top](#)

 00:27:42

▶ There's a sewage as well as a slurry problem to fix.

既有污水问题，也有泥浆问题需要解决。

▶ So is there still time for the why and other iconic Welsh rivers to be saved?

那么，现在还有时间拯救这些标志性的威尔士河流吗？

▶ Yes, it is salvageable, but it is going to take a huge amount of working together and it's going to require all of those sectors to play their part in this.

是的，这是可以挽救的，但需要大量的合作，并要求所有相关行业都发挥作用。

▶ And what we see at the moment is actually quite a lot of delays in that happening and we cannot wait any longer.

而目前我们看到的是，这一进程实际上被严重拖延，我们不能再等了。

[Back to Top](#)

 00:28:09

▶ Quite simply if it carries on as it is now, that river ecosystem will just collapse.

很简单，如果继续这样下去，河流生态系统将会崩溃。

🎵 Gemma hopes to be the next generation of her family to make a living from the land.

Gemma希望成为家族中下一代靠土地谋生的人。

🎵 And the friends hope that day once again will be able to get out on the water.

朋友们希望有一天能再次下水。

🎵 The pace of modern life is killing our rivers.

现代生活的节奏正在杀死我们的河流。

🎵 The situation is retrievable, but the longer we leave it, the more likely it is to slip through our fingers.

情况是可以挽回的，但我们拖得越久，它就越可能从我们指间溜走。

[Back to Top](#)
