And what about the international dimension now?

那么现在的国际层面呢？

Um, let's think about Starlink.

嗯，让我们想想星链。

Starlink is obviously a very, very good internet service.

星链显然是一个非常非常好的互联网服务。

It's sought after all over the world.

它在全世界都备受追捧。

It's critical to the front line in Ukraine.

It is also had more contracts coming its way and there is some evidence that companies are allowing access to it because they want to be close to the Trump administration and send the right signal.

So Bloomberg broke news today that the South African government is working around the rules on black ownership in order to allow Starlink and that is being done on the eve of the visit that President Ramaposa is going to make to the White House.

所以彭博社今天爆料称，南非政府正在绕过黑人所有权规则以允许星链运营，而这发生在拉马福萨总统即将访问白宫前夕。

你认为这是利益冲突吗？

Um so the that's that's the deal that all races should be treated equally um and there should be no preference given to one or the other.

嗯，所以这就是关键——所有种族都应被平等对待，不应偏袒某一方。

Uh whereas there are now 140 laws in South Africa that give u a pre that basically um are give strong preference to to if if you're black South African and um not otherwise.

呃，而南非现在有140条法律基本上强烈偏袒南非黑人，否则则不然。

And so now I'm in this absurd situation where I was born in South Africa but cannot get a license to operate in Starlink because I'm not black.

所以我现在处于这种荒谬的境地——我出生在南非，却因为不是黑人而无法获得星链运营许可证。
