是的，艾米，正如你所说，这不是开始新学年的最好消息。

▶ Over 30 faculty members at VCC have received notice that this will be their last semester.

 00:02:06

bilibili 00:02:48

是的。

bilibili 00:03:06

▶ Earlier today, we also spoke to Frank Cosco with VCC's faculty association.

今天早些时候，我们还与VCC教师协会的弗兰克·科斯科进行了交谈。

▶ Here's what he had to say.

以下是他的说法。

▶ I feel the Canada's and BC's approach to postsecondary is immature and embarrassing.

我觉得加拿大和BC省对待大专院校的方式不成熟且令人尴尬。

🎧 I mean imagine for 20 years we've relied on foreign families to fund our postsecondary system and some colleges have built up huge surpluses and the government loves that and built buildings with that money.

我的意思是，想象一下，20年来我们一直依靠外国家庭来资助我们的大专教育系统，一些学院积累了巨额盈余，政府很喜欢这样，并用这些钱建造了大楼。

 00:03:37

🎧 Yes, Amy.

是的，艾米。

🎧 So just a bit more on that.

再补充一点。

🎧 Earlier this year, KPU has said that they're projecting revenue from international tuition and fees to go down by \$49 million in the 2026 fiscal year.

今年早些时候，KPU表示他们预计2026财年来自国际学费和杂费的收入将减少4900万加元。

🎧 A researcher at UBC has also said that more and more universities are relying on international tuition as funding from the province declines.

UBC的一位研究人员还表示，随着来自省政府的资助减少，越来越多的大学依赖国际学费。

 00:03:58

🎧 Amy, and I think the question a lot of people have is what impact might this have on on students?

艾米，我想很多人想问的问题是，这会对学生产生什么影响？

🎧 Will these cuts, you know, say impact their ability to complete their courses or graduate?

这些削减，你知道，是否会影响他们完成课程或毕业的能力？

🎧 So VCC the faculty associations has said that it will definitely impact all students not just international students but domestic students as well you know with fewer instructors fewer staff there will be less programming fewer course offerings um and we also spoke to Paula

Greaves with Langara College Faculty Association here is how she would describe it makes it really difficult for our students um domestic students who are the ones that the college is structured to provide programs to to get the credentials that they need.

所以VCC的教师协会表示，这肯定会影响所有学生，不仅是国际学生，国内学生也会受到影响，你知道，教师和员工减少，课程设置和课程提供就会减少，嗯，我们还与兰加拉学院教师协会的保拉·格里夫斯进行了交谈，她是这样描述的：这让我们的学生，嗯，国内学生——学院本就是为他们提供课程以获取所需文凭的——变得非常困难。

 00:04:47

▶ We are a university transfer institution and so it would make it incredibly difficult for students to actually come to Langara if they can't get the courses to transfer to UBC or SFU.

我们是一个大学转学机构，因此，如果学生无法获得可以转学到UBC或SFU的课程，那么他们来兰加拉学院就会变得异常困难。

▶ Now Amy, of course, in addition to students, uh, sorry, in addition to students, the, uh, college, the faculty association with VCC has said it will also impact staff for sure, many of whom who've spent years investing in the college and their students and in the community as well.

当然，艾米，除了学生，呃，对不起，除了学生，VCC的教师协会表示，这也肯定会影响员工，他们中的许多人多年来一直为学院、他们的学生以及社区投入。

▶ Yeah, of course.

是的，当然。

 00:05:19

▶ And is there any sign that the province is stepping in?

那么有没有迹象表明省政府会介入？

▶ So, what we've heard from BC's Ministry of Postsecondary Education and Future Skills is that they're monitoring the situation.

我们从BC省高等教育和未来技能部了解到，他们正在密切关注情况。

▶ They have said that they are working with uh the institutions with the schools on managing costs and reducing uh sorry and increasing revenues although they did not specify how specifically.

他们表示，他们正在与呃各机构、各学校合作管理成本并减少呃对不起并增加收入，尽管他们没有具体说明如何操作。

 00:05:43

▶ Amy Janna thank you so much for for joining us.

艾米，詹娜，非常感谢你加入我们。

▶ I know you've been there uh for much of the morning and we'll continue to check in with you.

我知道你在那里待了呃一上午了，我们会继续与你保持联系。

▶ That is that is the CBC's reporter Janna Balon and she joined us from VCC.

▶ Yesterday we asked you about public transit in your community and whether or not the services meet your needs.

许多人打来电话，告诉我们关于过度拥挤、公交车班次以及您认为需要哪些投资。

▶ And this week, TransLink just expanded services in 53 routes of Metro Vancouver as part of its 2025 investment plan.

▶ TransLink CEO Kevin Quinn was on the early edition this morning and told Stephen Quinn about the transportation authorities priorities.

运联首席执行官凯文·奎因今天早上参加了早间节目，并向斯蒂芬·奎因讲述了交通局的优先事项。

bilibili 00:06:35

▶ Meeting the needs of the region today that we know are so so important and that folks are are encountering with overcrowded buses, the need to move around this region more than ever before.

满足本地区当前的需求，我们知道这些需求非常重要，人们正面临着公交车过度拥挤的问题，在这个地区出行的需求比以往任何时候都大。

▶ And so we were able to fund with that investment plan a 5% uh bus service expansion.

因此，我们能够通过该投资计划为公交车服务扩展提供资金，扩展幅度为5%。

▶ Now, 5% that may not sound like a lot, but I got to tell you, you know, this is our largest bus service expansion in nearly a decade.

5%听起来可能不算多，但我必须告诉你，你知道，这是我们近十年来最大的一次公交车服务扩展。

bilibili 00:07:00

▶ Uh that, as you noted, will serve uh 53 routes.

呃，正如你指出的，这将服务于呃53条路线。

▶ We'll be increasing service on 53 routes, which you know, to put in terms of people, serves about 100,000 people a day.

我们将增加53条路线的服务，你知道，按人数计算，每天服务大约10万人。

▶ And you had a lot to say about public transit.

关于公共交通，您有很多话要说。

单程两个小时的公交车程真的让我失去了乐趣。

▶ Was the same for Vancouver Folkfest and Burnaby Bluesfest.

温哥华民谣节和本拿比蓝调节也是如此。

▶ Very, very disappointing."

非常非常令人失望。"

▶ And Christina says, "Public transit is not meeting my needs for a variety of reasons.

克里斯蒂娜说：“公共交通由于多种原因无法满足我的需求。

▶ The most important one is unreliability."

最重要的一点是不可靠。"

▶ It was ironic that this morning while your colleagues from early edition were praising the service service extensions, I got three notifications from TransLink about SkyTrain suspension and buses.

具有讽刺意味的是，今天早上，当您早间节目的同事还在称赞服务扩展时，我却收到了三条来自运联关于天车停运和公交车的通知。

bilibili 00:07:51

▶ This is the time when universities try out the service and if Translate can't get it right, they will lose customers for the school year.

这是大学试用这项服务的时候，如果Translate无法做好，他们将在整个学年失去客户。

▶ All right, time to admit it.

好了，是时候承认了。

▶ If you're a parent or a guardian, you may or may not battle that temptation to just grab your child's phone and look through their internet history.

如果你是父母或监护人，你可能会与那种抓起孩子的手机查看其上网历史的冲动作斗争，也可能不会。

 00:08:22

▶ And that content can be a minefield.

而这些内容可能是个雷区。

▶ There's social media, social media bullying to pornography and toxic podcasts.

这里有社交媒体、社交媒体霸凌、色情内容和有毒播客。

▶ But on the positive side, there's also fun dance trends or lifestyle tips or maybe even they're part of an online fan community.

但在积极的一面，也有有趣的舞蹈潮流、生活方式小贴士，或者他们甚至可能是一个在线粉丝社区的一部分。

▶ So, we're asking you, what online content is your child consuming?

所以，我们想问你，你的孩子正在消费什么在线内容？

 00:08:45

▶ How do you navigate the somewhat endless stream of online content with your child?

你如何与你的孩子一起驾驭这近乎无穷无尽的在线内容流？

▶ Thank you for having me as always.

一如既往地感谢你们的邀请。

▶ So, this topic is one that a parent can find themselves thinking about for days and falling into endless rabbit holes of whatifs.

所以, 这个话题是父母可能会花好几天思考、并陷入无尽“万一”的兔子洞的话题。

 00:09:40

▶ Can you give us a sense of just that range of things a child or a teen can be seeing when say they're scrolling through like Tik Tok or even Instagram?

你能给我们介绍一下, 当一个孩子或青少年在滚动浏览Tik Tok或Instagram时, 他们可能看到的各种东西吗?

▶ Well, they can land on on your program on a Tik Tok live.

嗯, 他们可能会在Tik Tok直播上看到你们的节目。

▶ The reality of it is that it does come down to the child and and their ability to get online.

现实情况是，这确实取决于孩子以及他们上网的能力。

 00:09:58

⌂ Uh we see parents who obviously abdicate their uh guidance and and overseeing of their kids's use of the internet when it comes to personal mobile technology.

呃，我们看到一些父母在涉及到个人移动技术时，显然放弃了他们对孩子使用互联网的指导和监督。

⌂ We also see the parents who only allow uh big screens in open spaces when it comes to static uh home technology.

我们也看到一些父母只允许在开放空间使用大屏幕，当涉及到固定的家庭技术时。

⌂ The reality of it is that kids will navigate in a variety of spaces whether it be school to to and from school, the backseat of the car or on the family home.

现实情况是，孩子们会在各种空间里浏览，无论是在学校、上下学途中、汽车后座还是在家里。

 00:10:22

⌂ um a wide range of content, whether it be streaming a a television show, a movie, whether it be consuming social media content that is generated by influencers or their friends, uh whether it be listening to a podcast, whether it be sportsbased, politics, it doesn't really matter.

嗯，内容范围很广，无论是流媒体播放电视节目、电影，还是消费由网红或朋友生成的社交媒体内容，呃，无论是听播客，还是体育类、政治类，这其实并不重要。

⌂ The content uh itself, it just comes down to the child and where their interests lie or what they stumble into.

内容本身，只取决于孩子以及他们的兴趣所在或他们偶然遇到的东西。

⌂ Well, and that's the stumbling into I think that um does does raise alarms for a lot of parents.

嗯，我认为正是这种“偶然遇到”让很多父母警铃大作。

 00:10:49

🎤 I I'm not trying to fearonger here, but the internet can be, you know, a a sort of vast and dangerous space, especially for young people.

我我并不是想在这里危言耸听，但互联网，你知道，可能是一个广阔而危险的空间，尤其对年轻人来说。

🎤 What are some of the the harms that that people have to watch out for?

人们必须警惕哪些危害？

🎤 So, we we're at this interesting point here where we actually have a lot of parents who are raising kids where those parents themselves use the internet in a dialup stage of of debauchery, if we could put it that way, because they themselves got themselves into chat rooms, they were downloading pornography, they were stealing music.

所以，我们正处在一个有趣的节点，实际上有很多正在养育孩子的父母，他们自己就是在拨号上网的“放荡”阶段使用互联网的——如果可以这么说的话——因为他们自己就进过聊天室，下载过色情内容，偷过音乐。

 00:11:19

🎤 um they were doing a lot of things online that really gave us the foundation of our our primal concerns about safety.

嗯，他们在网上做了很多事情，这真正奠定了我们对安全的最初担忧的基础。

🎤 Now the thing is the majority of those individuals um had positive experiences.

现在的问题是，这些人中的大多数都有过积极的经历。

🎤 Maybe they maybe they tested some waters but the reality of it is they have a good experience to kind of give to their children about that content that they themselves consumed and they recognize that their children live in a a boundaryless society where the borders of parents shutting down the phone, taking away the dialup um are out of our societal control.

也许他们也许他们试探过一些领域，但现实是，他们拥有良好的经验可以传授给他们的孩子，关于他们自己消费过的那些内容，并且他们认识到他们的孩子生活在一个无边界的社会，父母关掉手机、拿走拨号上网设备的那种边界已经超出了我们社会的控制范围。

 00:11:47

▶ So within that we think about the kids, the families, uh educators themselves.

因此，在此范围内，我们会考虑到孩子、家庭，呃，以及教育者本身。

▶ I mean now we have a huge amount of educators coming into the field who grew up with social media.

我的意思是，现在有大量在教育领域工作的教育者，他们是伴随着社交媒体长大的。

▶ So they're not bringing an archaic viewpoint of what is good and bad versus the internet.

所以他们带来的不是关于互联网好坏过时的观点。

▶ They themselves have shared experience.

他们自己就有共享的经验。

 00:12:04

▶ So in the approach of what is bad, we have to really kind of talk about what we think is a collective problem for our kids accessing.

因此，在探讨什么是坏的时候，我们真的必须讨论我们认为什么是孩子们访问时遇到的共同问题。

▶ Whether that be pornography, which is obviously a leading concern, uh whether it be them generating the porn pornography themselves in the sense of self-made content and what the risk factors are there.

无论是色情内容（这显然是一个主要担忧），呃，还是他们自己生成色情内容（即自制内容）以及其中存在的风险因素。

▶ Uh at the same time, when it comes to consumption, we have a huge amount of conflicting data.

呃，同时，在消费方面，我们有大量相互矛盾的数据。

 00:12:27

▶ Um sorry, not data, but uh but viewpoints about how much is too much.

嗯，抱歉，不是数据，而是呃，是关于多少算是过量的观点。

▶ And then we have books.

然后我们还有书籍。

▶ And the big thing about books is that that's an easy grab.

而关于书籍的重要一点是，那很容易成为靶子。

▶ And it's like, oh, here's what's wrong with society.

就好像，哦，这就是社会的问题所在。

▶ We saw the anxious generation become a a top seller over the past two years.

我们看到《焦虑的一代》在过去两年成为了畅销书。

▶ And that book itself is rooted in very poor data collection.

而那本书本身是基于非常糟糕的数据收集。

 00:12:45

▶ So we have to take a local approach as opposed to a worldwide approach to how kids are using the internet in British Columbia communities.

因此，我们必须采取一种本地化的方法，而不是全球化的方法，来看待不列颠哥伦比亚省社区的孩子们是如何使用互联网的。

▶ Oh, and that's very good way of putting it.

哦，这种说法非常好。

▶ Even though like you know they have access to so much all around the world.

即使你知道他们能接触到全世界如此多的内容。

▶ We need to really bring it down to what they their local influences are and and and what they will be impacted for.

我们真的需要将其归结为他们的本地影响是什么，以及他们将受到什么影响。

 00:13:04

▶ I do want to bring in a caller that we've had from Haley in Colona.

我确实想接入一位来自科洛纳的来电者海莉。

▶ Hi Haley, thanks for joining BC today.

嗨，海莉，感谢今天加入《BC今日》。

▶ Hi, can you hear me?

嗨，能听到我说话吗？

▶ Okay, I sure can.

好的，当然能。

▶ And what are your thoughts about online content for kids?

你对给孩子的在线内容有什么看法？

▶ Well, I find it all quite overwhelming.

嗯，我觉得这一切都让人不知所措。

▶ Um, I am a mother to three, my eldest is 13, but I'm also a psychotherapist.

呃，我是三个孩子的母亲，最大的13岁，但我也是一名心理治疗师。

bilibili 00:13:25

▶ So, the approach I've taken is to kind of duck in right at the source.

所以，我采取的方法是直接从源头入手。

▶ Um, I understand kids need to be in touch with their friends, in touch with me.

呃，我理解孩子们需要与他们的朋友保持联系，与我保持联系。

▶ And so, what I've opted to do is my daughter, who's 13, has an Apple Watch.

因此，我选择的做法是，我13岁的女儿拥有一块Apple Watch。

▶ Okay.

好的。

▶ And I think that the watch format is a really great tool for parents to have um that would help them be in contact with their kid but would also limit the kid from being able to say take pictures of herself and uh upload those or to really take part in uh social media in a meaningful way.

我认为手表形式对父母来说是一个非常好的工具，嗯，它既能帮助父母与孩子保持联系，也能限制孩子，使她无法给自己拍照、呃上传那些照片，或者真正有意义地参与呃社交媒体。

bilibili 00:13:56

▶ So I know most parents are pretty tired in the evening and the thought of having to go through all of my children's data streams uh that's just a bit bit much more that I think I could take on.

我知道大多数父母晚上都很累，一想到要检查我所有孩子的数据流，呃，这实在有点超出我的承受能力。

▶ So this way I don't feel I need to do that.

所以这样我就不觉得我需要那样做了。

▶ her watch is fully enabled with its own number, internet connection, but it's also connected to my phone, so I know kind of exactly what she is doing if I wanted to take a look.

她的手表功能齐全，有自己的号码和互联网连接，但也连接到我的手机，所以如果我想查看，我大致能确切知道她在做什么。

bilibili 00:14:17

▶ And has there been any push back from the from the kids either, you know, sort of initially or as they've gotten a bit older and maybe want some more independence, they they want you to be less involved with what they're looking at.

那么孩子们是否有过抵触呢，无论是刚开始的时候，还是随着他们长大一点、可能想要更多独立时，他们希望你少管他们在看什么。

▶ Um, not in that way.

呃，不是那样。

▶ My daughter would like a phone, but she admits it so that she could take photos.

我女儿想要一部手机，但她承认是为了拍照。

 00:14:38

 Okay.

好的。

 Um, and that would be of her and her friends.

嗯，是给她自己和她的朋友拍照。

 And she also knows my job, so she's pretty understanding.

她也知道我的工作，所以她很理解。

 I'm pretty relaxed in almost every other way.

我在几乎所有其他方面都很放松。

 And so when I take a hard line on this one, um, she's been pretty good about it.

所以当我在这一点上采取强硬立场时，嗯，她一直表现得很好。

 You know, we might reassess once she reaches 16, which I think is what most of the literature is saying now is is a reasonable age for children to be able to manage their social media presence.

你知道，我们可能会在她16岁时重新评估，我认为现在大多数文献都说这是孩子能够管理自己社交媒体形象的合理年龄。

 00:15:01

 Um, but certainly before that it's just a hard no-go.

嗯，但在此之前肯定是不行的，坚决不行。

 And I did get her the phone fairly or sorry, the watch fairly young.

而且我给她买手机相当...抱歉，是相当早地给她买了手表。

 So, she did feel special that way, right?

所以，她确实因此感到特别，对吧？

▶ So, I think I've struck a pretty decent balance where she can talk to her friends, she can look up things, um, but she can't take part in the more harmful kind of video accessing social media sites and those kinds of things.

所以，我认为我达到了一个相当不错的平衡，她可以和朋友们聊天，可以查东西，嗯，但不能参与那些更有害的视频访问社交媒体网站之类的事情。

bilibili 00:15:21

▶ Yeah, for sure.

是的，当然。

▶ Haley, I really appreciate you sharing that with us.

海莉，非常感谢你与我们分享这些。

▶ A and Jesse um you know is is that an approach that maybe parents need to to look at sort of uh baby steps into the world of being online where they can stay in touch with their friends.

还有杰西，呃，你知道这是不是一种父母可能需要考虑的方法，算是呃小步地进入网络世界，让他们可以与朋友保持联系。

▶ They're not removing that.

他们并没有移除这一点。

▶ They're just removing that temptation to post photos or or dig into social media.

他们只是移除了发布照片或沉迷社交媒体的诱惑。

bilibili 00:15:42

▶ Yeah.

是的。

▶ Some really good points from Haley obviously from an academic and and family based approach.

海莉提出了一些非常好的观点，显然是从学术和家庭的角度出发的。

▶ One of the things we have to keep in mind here is that um we we heard three kids.

我们必须记住的一点是，呃，我们听说她有三个孩子。

▶ we focus on the

我们关注的是

▶ Elder of the of the of the children and and the reality of it is is that when we have that really uh rooted academic approach we are we are going okay what what are the balances we're looking for not every family in British Columbia has that privilege

孩子们的老人，现实情况是，当我们采用那种非常根深蒂固的学术方法时，我们会想，好吧，我们正在寻找的平衡是什么，并不是不列颠哥伦比亚省的每个家庭都有这种特权。

 00:16:03

▶ so within that we have to keep in mind that the majority of kids in BC um who receive handme-down phones or they receive devices for the purpose of keeping the kid entertained um there isn't as much active parenting

因此，我们必须记住，在BC省，大多数孩子收到的是二手手机，或者他们收到设备的目的是为了让孩子娱乐，并没有那么多的主动育儿。

▶ and so when I heard Haley say you know at the end of the night we don't actually have this time that's where actually more parents do need to take a step forward and approach media literacy.

所以当我听到海莉说，你知道，在晚上结束时，我们实际上没有这个时间，这实际上正是更多父母需要向前迈进一步并接触媒体素养的时候。

▶ Uh watch shows together as a family.

嗯，一家人一起看节目。

 00:16:25

▶ Talk about the themes that your kids are seeing.

谈论你的孩子正在看到的主题。

▶ Even if it's not necessarily a 30-minute consumption of a show, you're looking at the the snippets and what the trending topics are within their multimedia consumption.

即使不一定是看30分钟的节目，你也在看那些片段以及他们多媒体消费中的热门话题是什么。

▶ And so we approach it in the sense of each child, not all kids in the family home, recognize that there are tech limitations we can actually introduce in the sense of the Apple Watch is a great tool to minimize some of those concerns, especially with photo sharing.

因此，我们以每个孩子（而不是家里所有孩子）的角度来处理这个问题，认识到我们可以引入技术限制，从这个意义上说，Apple Watch 是一个很好的工具，可以最大限度地减少其中一些担忧，尤其是在照片共享方面。

 00:16:49

▶ But just keep in mind, we as parents, we've set this up as an expectation because if you grew up in the 80s and 90s, no one was taking 24 photos of them with a with a camera and then taking it to the drugstore to get developed.

但请记住，我们作为父母，已经把这当成了一种期望，因为如果你在80年代和90年代长大，没有人会用相机拍24张照片，然后拿到药店去冲洗。

▶ We are in a a consumptionbased society where the ease of use is primarily where our kids are.

我们处在一个消费型社会，易用性正是我们孩子所在的主要领域。

▶ So, in that idea of limiting photos because we're worried about the content, um it's really good to actually introduce other tools that could allow your kids to take pictures but aren't connected to the internet.

所以，出于担心内容而限制拍照的想法，嗯，实际上引入其他工具真的很好，这些工具可以让你的孩子拍照，但不连接到互联网。

 00:17:17

▶ So, a old digital camera, something along those lines.

所以，一台旧的数码相机，诸如此类的东西。

▶ Well, and I've noticed that those are are are coming back a little bit in in fashion as kids want all things retro.

嗯，我注意到这些东西有点重新流行起来，因为孩子们想要所有复古的东西。

▶ Uh, and the the sigh of relief that crossed my mind.

呃，我心中掠过一丝宽慰。

▶ Even Polaroids, you know, something like that can be sort of novel and a way for them to have that experience without that temptation necessarily of online.

即使是宝丽来相机，你知道，类似的东西可能会有点新奇，也是一种让他们获得那种体验的方式，而不必受到网络的诱惑。

 00:17:37

▶ I want to bring in another call.

我想接入另一个电话。

▶ This one from Jen in Prince George.

这位是来自乔治王子城的珍。

▶ Good afternoon, Jen.

下午好，珍。

▶ Hi there.

你好。

▶ Um I mostly wanted to share some resources that have been super helpful for our family.

嗯，我主要是想分享一些对我们家非常有帮助的资源。

▶ So um one is um Powered Up.

所以，嗯，一个是“Powered Up”。

▶ It's run by this amazing lady named Carrie from Naimo.

它是由一位来自纳奈莫名叫卡丽的了不起的女士经营的。

▶ And what I love about Carrie is um she's so positive.

我喜欢卡丽的地方是，嗯，她非常积极。

bilibili 00:18:00

▶ So like kids and teens are going to love learning from her.

所以孩子们和青少年都会喜欢向她学习。

▶ And she's also one of the only adults who that I've come across who wants to talk about media literacy who is going to dive in to pornography which as a culture we have to get a hold on because um it's really unhealthy the way um what's out there for access and adults got to get real about it and Carrie gets real about it and I just love that

她也是我遇到的唯一一个愿意谈论媒体素养、并会深入探讨色情内容的成年人，作为一种文化，我们必须控制住这个问题，因为嗯，目前接触到的内容和方式真的非常不健康，成年人必须认真对待它，而卡丽就认真对待它，我非常喜欢这一点。

▶ and uh she has lots of different programs in person in Nimo which I don't live in and so I haven't attended but I've done some of her online ones.

嗯，她在纳奈莫有很多不同的线下项目，我不住在那里，所以我没有参加过，但我参加过她的一些在线项目。

bilibili 00:18:36

▶ The other one is the White Hatter.

另一个是“白帽黑客”(The White Hatter)。

▶ Uh you can follow him online and if your family's ever in a crisis, you can contact them if your child is in like a media crisis where they're being sexed or anything like that.

呃，你可以在网上关注他，如果你的家庭陷入危机，如果你的孩子处于媒体危机，比如被性勒索或类似的事情，你可以联系他们。

▶ And what I love about him is he's like more pro tech than I am.

我喜欢他的一点是，他比我更支持技术。

▶ So, it's nice to have an expert who kind of like pushes my boundaries a bit, who I read about and engage with his ideas.

所以，有一位专家能稍微推动我的认知边界，让我阅读并参与他的想法，这很好。

bilibili 00:19:04

▶ And the last recommendation I have is this book by Jillian Roberts.

我最后一个推荐是吉莉安·罗伯茨的这本书。

▶ And she's a therapist and an academic from Victoria.

她是一位来自维多利亚的治疗师和学者。

▶ And the book's called Kids, Sex, and Screens.

这本书名叫《孩子、性和屏幕》。

▶ And it's amazing because the main point in that book is you have to accept your kids for who they are.

它很棒，因为书中的主要观点是你必须接受你的孩子本身的样子。

▶ And we talk about like we want to teach kids how to be make good choices and all that stuff, but if we don't accept our children for who they are unconditionally, we can't accept them.

我们谈论说我们想教孩子们如何做出好的选择等等，但如果我们不无条件地接受我们的孩子本身的样子，我们就不能接受他们。

bilibili 00:19:30

▶ We can't expect them to make good choices because they're going to go to the internet for that acceptance.

我们不能指望他们做出好的选择，因为他们会去互联网上寻求那种接纳。

▶ Yeah.

是的。

▶ And um yeah, I just wanted to share those things.

嗯，是的，我只是想分享这些。

🎧 Well, thank you very much for that, Jenna.

嗯，非常感谢你，珍娜。

🎧 And I just want to ask you when you said he sort of pushes your uh your boundaries of tech and he's a bit more pro tech, um in what ways do you do you mean?

我只是想问你，当你说他有点推动你的技术边界，并且他更支持技术时，嗯，你指的是哪些方面？

 00:19:47

🎧 Well, like for example, he will like he'll take the concept of AI, which I just think like honestly I think AI is the end of a lot of positive things about our culture and our civilization, but he'll be more nuanced about it.

嗯，比如说，他会拿人工智能（AI）的概念来说，我个人诚实地认为AI是我们文化和文明中许多积极事物的终结，但他会对此有更细致的看法。

🎧 He'll be like, "Here's some aspects that might be helpful or might be healthy and and here's what you have to look out for."

他会说，“这里有一些可能有益或健康的方面，而这里是你必须注意的地方。”

🎧 And I I mean, that's really great to read.

我意思是，读这些真的很好。

 00:20:12

🎧 Even though I'm not moving my own dial on that, it's just really nice to have somebody who is really nuanced about things and not just coming from a like fear-mongering point of view, which he could easily do because he he helps people in the most worst situations online.

尽管我自己的想法没有因此改变，但有一个对事物有真正细致见解、而不仅仅是来自散播恐惧观点的人，真的很好，他本可以轻易那样做，因为他帮助那些在网上陷入最糟糕处境的人。

🎧 Right.

对的。

🎧 And I really appreciate that, Jen.

我真的很感激这一点，珍。

 00:20:31

🎧 Thank you so much.

非常感谢。

🎧 And and and Jesse, you know, that sort of brings up it is good to we we do fall into this this habit, I suppose, this sort of fear spiral when we're like it's all terrible, it's all bad, but it is good to to remember that that technology is a part of our life.

还有，杰西，你知道，这引出了一个问题，我们确实会陷入这种习惯，我想，这种恐惧循环，当我们觉得一切都很可怕，一切都很糟糕时，但记住技术是我们生活的一部分是好的。

🎧 And then you know learning how to use it in a beneficial way and teaching our children how to have balance and and adapt and you know use it wisely is also very important instead of just saying no it's terrible you can't have it.

然后，你知道，学习如何以有益的方式使用它，教我们的孩子如何平衡、适应以及明智地使用它也非常重要，而不是直接说不，这太糟糕了，你不能拥有它。

 00:21:03

🎧 Yeah and great resources offered uh by the caller in the sense of care Ishram and the lower family.

是的，来电者提供了很好的资源，嗯，指的是Care Ishram和Lower家庭。

🎧 Just as a couple notes though that if you as a family are focused on some concerns involving sextortion, you shouldn't be sending that to any charities or private businesses, those should be going directly to the police or through the erase program that the province of British Columbia offers because one, you're maximizing reporting tools, but you're also using what the government has in place.

不过有几点需要注意，如果你的家庭关注一些涉及性勒索的担忧，你不应该将其发送给任何慈善机构或私营企业，这些应该直接交给警方或通过不列颠哥伦比亚省提供的“擦除”(erase)项目，

因为一方面，你最大化了报告工具，但你也正在使用政府已有的资源。

🎧 And so in that when we look at the overarching concerns that parents have, yes, being tech positive is very, very good in our schools.

因此，当我们审视父母们首要的担忧时，是的，在学校里保持对技术的积极态度是非常非常好的。

 00:21:34

🎧 It's very good when teachers are leading with that.

当老师们以此为主导时，这是非常好的。

🎧 And the more that parents are having healthy conversations around the technology that we are all using every day, the more the kids are going to understand that there are not only uh experts in the field, but the thing is majority of adults really have no idea what they're doing on social media.

父母们围绕我们每天都在使用的技术进行的健康对话越多，孩子们就越能理解，不仅该领域有专家，而且事实上大多数成年人在社交媒体上真的不知道自己在做什么。

🎧 Um and we can learn that from looking at any Facebook group based in the British Columbia when it comes to community dialogue.

嗯，在社区对话方面，我们可以通过查看任何位于不列颠哥伦比亚省的Facebook群组来了解到这一点。

 00:21:55

🎧 Um the reality here is that there are so many individuals who are either uh rooted in one belief of how the internet has to come into our everyday lives or how children are using these tools.

嗯，现实情况是，有太多人要么根植于一种关于互联网必须如何进入我们日常生活的信念，要么根植于一种关于儿童如何使用这些工具的信念。

🎧 And again, each child is different.

再说一次，每个孩子都是不同的。

▶ There are obviously trends themselves, but the trends themselves will change very quickly.

显然存在趋势本身，但趋势本身会很快改变。

bilibili 00:22:11

▶ We just have to look at the overarching behaviors.

我们只需要审视那些首要的行为。

▶ Yeah.

是的。

▶ And it always is that that big picture aspect that um I think a lot of us are not so good at at using.

而总是那个大局观方面，嗯，我认为我们很多人都不太擅长运用。

▶ We tend to focus on one specific thing, one thing that scares us quite typically and and we don't take that measured approach.

我们往往专注于一个具体的事情，一个通常让我们非常害怕的事情，并且我们没有采取那种权衡过的方法。

▶ I would love more people to join our discussion, Jesse.

安尼斯表示，她的工作重点将包括为城市带来更多就业机会、改善交通以及建造更多的公共游乐场和游泳池。

▶ She also criticized current mayor Brenda Lock's efforts in transitioning the Siri Police Service from RCMP during her term.

▶ And was the only Suri first party candidate elected to council in 2018 and was reelected in 2022.

▶ We're joined today by Jesse Miller of Mediated Reality and it is uh an education company focused on media education and media literacy.

今天加入我们的是“媒介现实”公司的杰西·米勒，这是一家专注于媒体教育和媒体素养的教育公司。

▶ Hi Jesse.

你好，杰西。

▶ We do have another call that's come in and this one is from Lee in Colona.

我们确实有另一个电话打进来，这位是来自科洛纳的李。

▶ Hi Lee, thanks for joining the show.

你好，李，感谢参加节目。

▶ Hi, how are you?

嗨，你好吗？

▶ I'm doing very well.

我很好。

▶ What are your thoughts on today's topic?

你对今天的话题有什么看法？

 00:25:40

▶ Um well uh I'm finding that there are many many studies coming out uh about how um online use uh from children and even adults are very addictive and can be very harmful mentally to children.

嗯，我发现有很多很多研究出来，关于儿童甚至成年人的网络使用非常容易上瘾，并且可能对儿童的心理非常有害。

▶ And I'm wondering if there should be a distinction between children, of course, educating them with technology, but conflating it with actually being able to go on the internet um and using Tik Tok, for example, when you have scrolling features and whatnot.

我想知道是否应该对儿童加以区分，当然，用技术教育他们，但将其与实际能够上网和使用 TikTok 等混为一谈，例如，当你使用滚动功能等等时。

▶ These are dopamine hits from what I can tell.

据我所知，这些都会刺激多巴胺分泌。

bilibili 00:26:10

▶ And this can be very harmful, very addictive to children.

这可能非常有害，对儿童来说非常容易上瘾。

▶ And to conflate technology with just online content, I I feel there should be a distinction.

而将技术与单纯的在线内容混为一谈，我觉得应该加以区分。

▶ Uh I I don't think that children should have any business being online in any kind of media uh until they're much older.

呃，我认为儿童根本不应该接触任何形式的在线媒体，直到他们年龄大得多。

▶ Uh and even adults these days are becoming addicted to these kinds of platforms.

呃，甚至如今成年人也对这些平台上了瘾。

bilibili 00:26:31

▶ Well, I appreciate that um that comment, Lee, and and Jesse, I I do see you uh shaking your head perhaps in in disagreement a little bit, so I'd like to give you a chance to to rebut.

嗯，李，我感谢你的评论，还有杰西，我确实看到你也许有点不同意地在摇头，所以我想给你一个反驳的机会。

▶ I mean, she's talking about a dopamine hit and uh guilty of of scrolling for that cute cat photo, but um what are your thoughts about making that distinction and how kids are online?

我的意思是，她谈到了多巴胺的刺激，以及有罪恶感地滚动寻找那张可爱的猫咪照片，但是，嗯，你对于区分技术使用和上网，以及孩子们如何上网有什么看法？

▶ So, the hard part with the addiction statement is that we really have to quantify what addiction looks like.

所以，关于成瘾的说法，困难的部分在于我们真的必须量化成瘾是什么样子。

 00:26:57

⏮ And so, if if anybody who's listening has had experience with somebody who really struggles with addictions in their lives, whether it be alcohol or narcotics, we recognize how how destructive addictions can be in our in our family homes and our communities.

因此，如果任何听众有过与生活中真正与成瘾（无论是酒精还是毒品）作斗争的人打交道的经历，我们就会认识到成瘾对我们的家庭和社区可能具有多大的破坏性。

⏮ And so we have to be careful how we throw that in with the idea of our kids are addicted.

所以我们必须小心，不要将这种说法与“我们的孩子上瘾了”的想法混为一谈。

⏮ We have built a society around technology using technology for the purpose of communication uh convenience-based uh tools in the sense of going places and driving.

我们围绕技术建立了一个社会，使用技术是为了通信，呃，基于便利的工具，比如去某个地方和开车。

 00:27:23

⏮ But the reality of it is is that this is our society.

但现实是，这就是我们的社会。

⏮ And so what we actively look for in the sense of removing ourselves from technology use is a self-control, a choice of when and how we use these tools.

因此，我们在摆脱技术使用方面积极寻找的是一种自我控制，一种选择何时以及如何使用这些工具的能力。

⏮ And you ask any child if they've seen their parents at practice or at the dinner table choosing to scroll through the device.

你可以问任何一个孩子，他们是否见过他们的父母在练习时或餐桌上选择滚动设备。

 00:27:41

⏮ It is about our our justifications, not so much about our addictions, but justifications of time management.

这关乎我们的理由，与其说是上瘾，不如说是时间管理的理由。

▶ Oh, I was just checking an email.

哦，我只是在查看一封电子邮件。

▶ Oh, I got a text message.

哦，我收到一条短信。

▶ I want to see what somebody wrote on Facebook.

我想看看有人在Facebook上写了什么。

▶ And so within that within that data set, um there is no collective data that shows that kids are are collectively um addicted to this these tools that we introduce.

因此，在那个数据集中，嗯，没有集体数据表明孩子们集体对我们引入的这些工具上瘾。

 00:28:00

▶ But yes, these tech companies do introduce ways of keeping us subscribed, keeping us looking at the contents.

但是，是的，这些科技公司确实引入了让我们保持订阅、让我们持续观看内容的方法。

▶ And so, yes, you have to look at regulatories that minimize how much time we spend online.

因此，是的，你必须考虑那些能最小化我们上网时间的监管措施。

▶ But the thing is, if if we're using technology for purpose, I could use my computer, my screens for about 8 to nine hours a day for the purpose of messaging, emails, work, something like this.

但问题是，如果我们是为了特定目的使用技术，我每天可以使用我的电脑、我的屏幕大约8到9个小时，目的是处理消息、电子邮件、工作之类的事情。

 00:28:22

▶ But if our children are going to school using technology for the purpose of education, what does social media inclusion look like in that space?

但如果我们的孩子上学是为了教育目的而使用技术，那么社交媒体在该领域的包容性是什么样的？

▶ Can they use Instagram to further their learning?

他们能使用Instagram来促进学习吗？

▶ Can they use a tool like Zoom?

他们能使用像Zoom这样的工具吗？

▶ And if we learned anything from the pandemic was that without these tools, we as a society actually would not have done very well.

如果我们从疫情中学到了什么，那就是没有这些工具，我们作为一个社会实际上不会做得很好。

bilibili 00:28:38

▶ So when we consider are our kids addicted or adults, yes, media literacy is definitely needed when it comes to understanding the content on the internet and what we consume.

所以当我们考虑我们的孩子或成年人是否上瘾时，是的，在理解互联网上的内容以及我们消费的内容时，媒体素养绝对是必需的。

▶ But each individual has to look at their their wherewithal and how much do they they use as that dopamine hit or how many times in a day do they just find the balance themselves and do they find times to to disconnect and say here's where I have my own regulatories and if there is a problem how to balance that with those who support them in their lives right

但每个人都必须审视自己的能力和资源，他们使用多少来获得那种多巴胺刺激，或者一天中有多少次他们自己能找到平衡，他们是否找到时间断开连接，并说这是我自己的规定，如果出现问题，如何与生活中支持他们的人平衡这一点，对吧

▶ okay um you know across the Atlantic the UK took a you know they kind of took it to an extra step with the online safety act and it requires websites to ask UK users to verify their age for websites that contain pornography and and other content deemed harmful to minors.

好的，嗯，你知道在大西洋彼岸，英国通过《网络安全法》将其推进了一步，它要求网站让英国用户验证年龄，以访问包含色情内容和其他被认为对未成年人有害的内容的网站。

bilibili 00:29:22

▶ What kids uh what kind of age protections are there in Canada other than just clicking a box that says I'm over 18?

在加拿大，除了点击一个写着“我年满18岁”的方框之外，还有什么样的年龄保护措施？

▶ There there's not a lot when it comes to the idea of verification.

在验证方面，措施并不多。

▶ We can't really actually introduce a lot of age gating in these social media communities.

我们实际上无法在这些社交媒体社区中引入很多年龄门槛。

▶ And even then with the UK law, you there is no legal consequence of using a VPN.

即便如此，根据英国法律，使用VPN也没有法律后果。

 00:29:42

▶ You can bypass it in in a heartbeat if you choose to.

如果你选择这样做，你可以瞬间绕过它。

▶ So within that this idea of 18, let's just get away from age regulation for a second because the age part for me is just an argument of is somebody emotionally mature enough and we know that the developing brain is not emotionally mature enough for most things until 25.

所以关于18岁这个想法，我们暂且抛开年龄 regulation 一会儿，因为对我来说，年龄部分只是争论一个人是否情感上足够成熟，而我们知道发育中的大脑在25岁之前对大多数事情在情感上都不够成熟。

▶ So we had a second caller who highlighted you know the scourge of pornography.

所以我们有第二位来电者，他强调了，你知道，色情内容的危害。

 00:30:03

▶ Pornography that is ethical, it's created in a in a healthy way that is marketed and and designed for adults can be something that our society relies on to basically explore something that's very normal.

合乎道德的色情内容，以健康的方式创作、营销和设计给成年人，可以是我们社会赖以探索一些非常正常的事物的东西。

⏮ But when we have concerns about kids accessing it, there is still always going to be content online that kids can access.

但当我们担心孩子接触它时，网上总会有孩子可以访问的内容。

⏮ So you want that media literacy piece of what is appropriate based on age.

所以希望你希望媒体素养部分能根据年龄来判断什么是合适的。

bilibili 00:30:22

⏮ And so the program that was introduced, yes, there are extremes in the sense of some content may be totally detrimental, but there is healthy explicit content that people can access and have good conversations about which families should be doing based on how we talk about the content our kids consume.

因此，所引入的计划，是的，存在极端情况，即某些内容可能完全有害，但也有健康的露骨内容，人们可以访问并就此进行良好的对话，家庭应该根据我们如何谈论孩子消费的内容来做这件事。

⏮ So that can be produced within school-based uh assemblies in the sense of of sexual health education and then media literacy can fit into that.

所以这可以在学校的集会上进行，比如性健康教育，然后媒体素养可以融入其中。

⏮ But when you introduce law, you're saying you have to verify.

但当你引入法律时，你是在说必须进行验证。

bilibili 00:30:48

⏮ So how do our kids verify most things in their everyday now?

那么我们的孩子现在如何验证日常生活中的大多数事情呢？

⏮ They don't have driver's licenses.

他们没有驾照。

⏮ They don't carry their birth certificates around.

他们不会随身携带出生证明。

▶ So during pandemic, we saw this idea of a digital wallet being introduced in the sense of yes, you had a vaccination card.

所以在疫情期间，我们看到数字钱包的概念被引入，意思是，是的，你有一个疫苗接种卡。

▶ It was you are.

那就是你。

▶ But we saw this huge push back from usually the same voices who don't like government control, but they want some form of of of control for their kids.

但我们看到通常来自同一批人的巨大反弹，他们不喜欢政府控制，但他们希望对自己的孩子有某种形式的控制。

 00:31:10

▶ And so a digital wallet, no matter where we are on this planet, is one of the best things that people could carry to identify who they are, how old they are, but we need a structure and an oversight system that really protects our private information.

因此，数字钱包，无论我们在这个星球上的哪个地方，都是人们可以携带的用来识别他们是谁、他们多大年龄的最佳物品之一，但我们需要一个真正保护我们私人信息的结构和监督系统。

▶ What the UK is doing is that you go to a website, a a computer scans your screen and basically identifies whether your face looks old enough to access a website.

英国的做法是，你访问一个网站，电脑扫描你的屏幕，基本上识别你的脸是否看起来足够大可以访问网站。

▶ In that space, there is no gating.

在那个空间里，没有门槛。

 00:31:34

▶ There's no verification other than you don't look like you're 11.

除了你看起来不像11岁之外，没有其他验证。

▶ But in that, what does

但在那之中，什么

▶ Privacy look like when it comes to individuals who want to access explicit content, but they don't want the government to know?

隐私对于想要访问露骨内容但又不想让政府知道的个人来说是什么样的？

▶ In certain states, in United States, you have to upload your driver's license to access a website like Upuporn.

在美国的某些州，你必须上传你的驾驶执照才能访问像Upuporn这样的网站。

 00:31:49

▶ So the reality of it here is that yes, we can introduce things that are extreme in a sense of we're going to protect the kids.

所以这里的现实是，是的，我们可以引入一些极端的東西，从某种意义上说，我们要保护孩子。

▶ We're going to make sure they can't get in, but there is no bouncer.

我们要确保他们进不去，但那里没有保安。

▶ There's no doorman.

没有看门人。

▶ There's nobody at the store checking the driver's license.

商店里也没有人检查驾驶执照。

▶ And if we as a society rely on our driver's license or ID to make choices around alcohol or or tobacco, what does it mean for our children to have to carry something that identifies that they shouldn't go to bad places?

如果我们作为一个社会依靠我们的驾驶执照或身份证来做出关于酒精或烟草的选择，那么让我们的孩子必须携带某种身份证明来表明他们不应该去不好的地方，这意味着什么？

 00:32:11

▶ We have to address how those bad places exist and then talk about whether or not there should be a verification for adults, not for kids.

我们必须解决这些不良场所是如何存在的，然后再讨论是否应该对成年人进行验证，而不是对孩子。

▶ No.

不。

▶ very uh very strong points and I hadn't I hadn't particularly looked at it from that point of view in that to to to hold our children to this sort of um identification and law then we have to hold the rest of society up to it and there are many people that are doing nothing wrong it's just simply not something that they want to have publicly acknowledged.

非常有道理的观点，我之前没有特别从这个角度考虑过，即要让我们的孩子遵守这种身份识别和法律，那么我们也必须让社会其他成员遵守它，而且有很多人并没有做错任何事，这只是他们不想公开承认的事情。

 00:32:40

▶ Um yeah, it is an interesting way, but also too um as a parent, how do you sort of navigate whether it's um you know, the manosphere or or your children are going into to say, you know, online groups talking about things that, you know, morally you you don't align with or or you wish that they weren't engaging with.

嗯，是的，这是一种有趣的方式，但同样地，作为一个家长，你如何应对这种情况，无论是男性圈，还是你的孩子进入，比如说，一些在线群组讨论一些你在道德上不认同或者不希望他们参与的事情。

▶ How do you have those discussions with with your children?

你如何与你的孩子进行这些讨论？

▶ So when we look at podcasts that are deemed to be extreme radicalization, things like that, yes, there are going to be places that kids go that in the mainstream people say, "Well, that's that's just your liberal viewpoint, right?"

因此，当我们审视那些被认为是极端激进化的播客之类的东西时，是的，总会有一些地方是孩子们会去的，而主流人士会说，“嗯，那只是你的自由主义观点，对吧？”

 00:33:18

▶ So I would be concerned if if if a child of mine was consuming solely Joe Rogan."

所以，如果我的孩子只消费乔·罗根的内容，我会感到担忧。”

▶ But the thing is is that in that there are episodes of Joe Rogan's podcast that enlighten about certain ideas.

但问题是，乔·罗根的播客中有些集数确实能启发某些想法。

▶ And the thing is, you can't just say that one side of the coin is the right.

问题是，你不能简单地说硬币的某一面就是正确的。

▶ You have to look for that medium.

你必须寻找那个中间立场。

▶ So, as equally as people are consuming a podcast that we would say from one point, yes, that that podcast addresses diversity, equity, inclusion, you might want to look at a podcast that also highlights other concerns that come from a different vantage point.

所以，就像人们消费一个我们可以说从一个角度看是讨论多样性、公平、包容的播客一样，你可能也想看看另一个从不同角度强调其他关切问题的播客。

 00:33:45

▶ And the more we do that, that's where we find that middle ground that we actually have vacated so quickly in our adult society.

我们越是这样做，就越是能找到那个我们在成人社会中如此快速就抛弃了的中间立场。

▶ young kids who bring forward conversations that they've uh consumed from places that one person may say is wrong.

年幼的孩子会提出一些他们从某些地方（可能有人会说这些地方不好）消费来的对话内容。

▶ They may actually say, "Well, yes, I can see why those points there are not appropriate, but I did learn something here about something that hasn't been spoken about from the other side, and I'd like to have a dialogue about it."

他们实际上可能会说，“嗯，是的，我明白为什么那些观点不合适，但我确实在这里学到了一些从另一面没有被谈论过的东西，我想就此进行对话。”

 00:34:06

▶ And that's really kind of the healthy use of the internet we're looking for.

而这正是我们所寻求的健康使用互联网的方式。

⏮ But looking at radicalization, parents have to be on the outlook for those concerns.

但就激进化而言，父母必须警惕这些担忧。

⏮ And we see obviously groups that are rooted in hate, that are entrenched in creating division, creating more and more content that is mainstream, that is targeted towards children.

而且我们显然看到一些植根于仇恨、致力于制造分裂的团体，他们创作出越来越多面向儿童的主流内容。

 00:34:21

⏮ And whether that's on Tik Tok or Snapchat, whatever the app, the app isn't the issue, it's the content.

无论这是在Tik Tok还是Snapchat上，无论是什么应用程序，应用程序本身不是问题，内容才是。

⏮ So looking periodically at what your kids do online is a a healthy way of approaching what should be talked about.

因此，定期查看你的孩子在网上做什么，是处理哪些话题应该被讨论的一种健康方式。

⏮ But again, is oversight going to give you the tools you need?

但话说回来，监督能给你所需的工具吗？

⏮ The first caller highlighted, yes, you don't have the time or day out of your day to go through all the things your kids do online.

第一位来电者强调说，是的，你没有时间或精力去仔细检查你孩子在网上做的所有事情。

 00:34:41

⏮ You shouldn't necessarily be doing that in the first place because oversight does not necessarily equate to trust because kids will find the ability to go into a variety of different tools to get online where they want to go.

你首先就不必这样做，因为监督并不一定等同于信任，因为孩子们会找到使用各种不同工具上网去他们想去的地方的能力。

▶ So having conversations with your kids about themes in our society, trends that are occurring, not just dismissing it going, "Oh, everything's so stupid because the internet, the reality of it is the internet is the conduit."

因此，与你的孩子讨论我们社会的主题、正在发生的趋势，而不是仅仅 dismiss 地说“哦，因为互联网，一切都太愚蠢了”，现实是互联网只是一个渠道。

▶ And it's not like watching cable TV where you can say, "Hey, we don't have Fox News in this house."

这不像看有线电视，你可以说，“嘿，我们家不看福克斯新闻。”

 00:35:05

▶ Your kids are going to consume things that you don't know about.

你的孩子会消费一些你并不知道的内容。

▶ But if you open up dialogues based on what's happening in our world, conversations around politics, conversations around the environment, and you start to see those red flags and your child saying, "Well, climate change isn't real."

但如果你基于世界上正在发生的事情开启对话，围绕政治的对话，围绕环境的对话，然后你开始看到那些危险信号，比如你的孩子说“嗯，气候变化不是真的”。

▶ Where did you hear that from?

你从哪里听到这个的？

 00:35:20

▶ If you hear it based on an educator, you can go to school.

如果你听说这是来自一位教育者，你可以去学校。

▶ But if they say, "Well, I heard it on Joe Rogan's podcast."

但如果他们说，“嗯，我是在乔·罗根的播客上听到的。”

▶ Now you have a good idea of what your child is consuming, right?

现在你就很清楚你的孩子在消费什么了，对吧？

▶ Okay.

好的。

▶ Um, we, you know, we're we're starting a new school year.

嗯，你知道，我们正在开始一个新学年。

▶ There's already calls for um, you know, they they've implemented cell phone bans.

已经有人呼吁，嗯，你知道，他们已经实施了手机禁令。

 00:35:37

▶ There's calls for um less reliance on um technology in in online learning.

有人呼吁在在线学习中减少对技术的依赖。

▶ A lot of parents think there's no time for screens in the classroom, but it's it's it's varies widely from, you know, not necessarily even just school to school, but teacher to teacher.

很多家长认为课堂上不应该有屏幕时间，但这差异很大，你知道，甚至不一定只是校与校之间，而是老师与老师之间。

▶ What are your thoughts of sort of that that that role?

你对那种角色有什么看法？

▶ I sometimes feel like, you know, you can't unbring that bell.

我有时觉得，你知道，覆水难收。

 00:36:03

▶ You've brought technology uh especially since the pandemic so fully into a student's life and integrated it into the curriculum, but do we need to, you know, perhaps push for a greater balance in in our in our schools at the very least?

你已经将技术，尤其是自疫情以来，如此充分地融入学生的生活并整合到课程中，但我们是否需要，你知道，或许至少在我们的学校中推动更大的平衡？

▶ Well, it's not so much looking for the balance, it's really addressing how much we have.

嗯，与其说是寻找平衡，不如说是要解决我们拥有多少的问题。

🎧 And so, for the past couple years in teaching at the University of Victoria, I've had the privilege of working with future educators in how to find that balance using tech in the classroom.

因此，在过去几年于维多利亚大学任教期间，我有幸与未来的教育工作者一起研究如何在课堂上使用技术来找到这种平衡。

 00:36:31

🎧 And whether the extreme be a teacher creating an Instagram account so that they can do nature walks and document content so kids can use Google's AI to cross reference what they found.

无论是像一位老师创建Instagram账户这样极端的方式，以便他们可以进行自然漫步并记录内容，让孩子们可以使用谷歌的AI来交叉参考他们的发现。

🎧 There are ways of bringing the classroom into the devices that kids bring from home.

有很多方法可以将课堂带入孩子们从家里带来的设备中。

🎧 And the reality of it is when we talk about cell phone bans uh over the past year we've seen numbers of kids bringing in multiple devices.

现实情况是，当我们谈论手机禁令时，嗯，在过去的一年里，我们看到很多孩子带多个设备来学校。

 00:36:51

🎧 You're not going to curb the use solely with bans.

你无法仅靠禁令来遏制使用。

🎧 You really have to get kids to make a choice to put it down.

你真的必须让孩子们做出选择，把它放下。

🎧 And when parents see their kids playing sports, they actively know that the child's not on the cell phone, right?

当父母看到他们的孩子运动时，他们明确知道孩子没在用手机，对吧？

🎧 So if kids can constructively put phones away for the purpose of sport, we can introduce not only ideas but but boundaries that allow them to put it down because they want to in the classroom.

所以，如果孩子们可以为了运动而有建设性地放下手机，那么我们不仅可以引入想法，还可以引入界限，让他们因为自己想放下而放下，在课堂上也是如此。

 00:37:11

🎧 But in the idea where we heard about the concerns around AI from from our third caller there, I just want to highlight here that AI itself, the bigger concern is whether kids are going to be learning.

但就我们从第三位来电者那里听到的关于AI的担忧而言，我只想在此强调，AI本身，更大的担忧是孩子们是否会学习。

🎧 But if they're using AI as a learning addendum, as a tutor, uh we recently saw superintendent of West Vancouver, Chris Kennedy, introduce a whole conversation about how AI can be used in partnership with learning to not only get a measurement, but really identify how kids can use these tools as they uh progress into post-secary in the working world.

但如果他们将AI用作学习的补充，作为导师，嗯，我们最近看到西温哥华的教育局长克里斯·肯尼迪发起了一场全面的讨论，关于AI如何与学习合作使用，不仅是为了获得衡量标准，更是为了真正确定孩子们如何在使用这些工具的过程中进入高等教育和工作世界。

🎧 Because if we see this contraction of employment due to AI, what does it mean for the learner themselves to learn how to best optimize it so that they can have a working tool in their pocket that says, I know how to use these tools.

因为如果我们看到由于AI导致的就业收缩，那么学习者自己学会如何最好地优化它，以便他们口袋里有一个能工作的工具，表明我知道如何使用这些工具，这意味着什么？

 00:37:51

🎧 I'm emerging from a learning uh facility that is secondary based, but I'm ready to hit the ground running.

我来自一个以中学为基础的学习机构，但我已经准备好立即投入工作。

🎵 And then you also have educators who go, well, as much as we can have concerns about plagiarism, I'm looking to see whether or not a student can use these tools to maximize their learning.

然后你也有教育工作者会说，嗯，尽管我们担心抄袭，但我关注的是学生是否能够使用这些工具来最大化他们的学习。

🎵 I don't want students having to pay for a textbook.

我不想让学生必须为教科书付费。

 00:38:07

🎵 I want them learning how to use the tools that are going to be in their everyday life to not only produce great content, but show me the human in partnership with the tech generation because all the AI we're using right now when it comes to chat GPT and searching is a maximized Google result that gives us everything we could possibly get from that Google search and then put it into a contextual way that we can consume it.

我希望他们学习如何使用将成为他们日常生活的工具，不仅是为了制作优秀的内容，更是为了向我展示人与技术时代的合作，因为我们现在使用的所有AI，无论是聊天GPT还是搜索，都是一个最大化的谷歌结果，它给了我们可能从那次谷歌搜索中得到的一切，然后将其置于我们可以消费的语境中。

🎵 Years and years ago, Google was the worst thing you'd ever use as a resource because the professor would say, "I'm not accepting you going to Google.

很多很多年前，谷歌是你曾经使用过的最糟糕的资源，因为教授会说：“我不接受你去谷歌搜索。

🎵 I want you to read the paper."

我要你读论文。"

 00:38:36

🎵 Yes, we can read the paper, but all I'm really looking for is the paragraph that gives me the context of what the question I'm being asked is.

是的，我们可以读论文，但我真正寻找的只是能给我所问问题背景的那一段落。

⏮ And so, we want educa education to become something that is harmonized with the workforce.

因此，我们希望教育变得与劳动力市场相协调。

⏮ We have to use these tools in healthy ways and then balance that out where children are learning more and more about the tools at their disposal, but also where the consequence of um using it in an abusive way could exist.

我们必须以健康的方式使用这些工具，然后平衡这一点，让孩子们越来越多地了解他们可用的工具，同时也了解滥用它可能存在的后果。

 00:38:58

⏮ Okay.

好的。

⏮ Um a lot of I've grappled with this.

嗯，很多，我一直在努力应对这个问题。

⏮ I I have uh kids in their teens, their late teens.

我，我有，嗯，十几岁的孩子，他们快成年了。

⏮ They've asked you oh maybe I could have a YouTube channel or can I have um you know something that they're create you know they want to be content creators as as so many people do now.

他们问过你，哦，也许我可以有一个YouTube频道，或者我能不能，嗯，你知道，他们想创造一些东西，你知道他们想成为内容创作者，就像现在很多人那样。

⏮ um what are those what are your thoughts on on that for for kids having these these content channels and and how do you navigate that with your children

嗯，对于那些拥有这些内容频道的孩子们，你对此有什么看法，以及你如何与你的孩子们一起处理这件事。

 00:39:28

▶ if if your kids came forward and said I want to be a journalist I want to get a microphone I want to go interview people I think you'd be you'd be inclined to say Yes, because of your experience, but also your experience is different than let's say the 1970s '80s mail reporter because your lived experience when it comes to comments or or or people making judgment um gives you a unique ability to kind of feed your children information about the job.

如果你的孩子站出来说，我想成为一名记者，我想拿一个麦克风，我想去采访别人，我想你会倾向于说“是的”，因为你的经验，但你的经验也不同于，比如说，20世纪70、80年代的邮件记者，因为你在评论或人们做出评判方面的生活经历，嗯，给了你一种独特的能力，可以向你的孩子提供关于这份工作的信息。

▶ The thing is is that a lot of parents hear YouTube content and are like, "Oh, you're just going to be, you know, making some stupid stupid themes."

问题是，很多父母听到YouTube内容就会说，“哦，你只是要，你知道，做一些愚蠢愚蠢的主题。”

我们确实有百万富翁是靠创作内容起家的，它现在是一个可行的职业。

 00:40:03

▶ Viable career.

可行的职业。

问题是你已经去掉了那个在商场里看到一个孩子就说我们必须让这个孩子出名的执行制片人。

▶ We saw we take away the toxic parents who are firmly invested to make sure their kid stays in the sitcom.

我们看到我们去掉了那些投入巨资以确保自己的孩子留在情景喜剧中的有毒父母。

▶ The thing is that if there is positive content if there is information that can be shared if it is something that even at the end of the day is kind of stupid.

问题是，如果有积极的内容，如果有可以分享的信息，如果它即使是最终有点愚蠢的东西。

▶ Our consumption based society allows young people to do so many amazing things.

我们以消费为基础的社会允许年轻人做这么多惊人的事情。

▶ Wouldn't you rather be a guide who's willing to help and help children learn more about the risk factors as opposed to that's stupid.

你难道不愿意成为一个愿意帮助并帮助孩子更多地了解风险因素的引导者，而不是说那很愚蠢。

▶ to go back and put your head back into a textbook.

▶ We know the city of Suriri is growing quickly and set to become the largest municipality in BC in the years coming forth.

▶ Earlier today, Suriri Councilor Linda Annis announced her plans to run for the position of mayor of Suriri in the next municipal election.

▶ Good afternoon and thank you so much for having me on this afternoon.

下午好，非常感谢您今天下午邀请我。

▶ a pretty big and exciting day for for you and your supporters.

对您和您的支持者来说，这是相当重大和激动人心的一天。

 00:44:01

▶ Tell us why you are running for mayor of Siri next year.

请告诉我们您为什么明年要竞选素里市市长。

▶ Well, I'm running for several reasons.

嗯，我参选有几个原因。

▶ First and foremost, uh we are lagging behind desperately in Suriri in terms of infrastructure.

首先，呃，我们在素里的基础设施方面严重落后。

▶ We have issues around transportation.

我们在交通方面存在问题。

▶ We have too many school portables.

我们有太多的学校临时教室。

⏮ Uh are we don't have a strong economic plan for the city.

呃，我们没有一个强有力的城市经济计划。

🎵 00:44:21

⏮ There's so many things that need to be addressed and you know you're not new to politics but by some standards you are fairly new.

有太多事情需要解决，而且你知道你并非政治新手，但按某些标准来看，你还相当新。

⏮ Do you feel you have that leadership and and decisionmaking experience that's needed to run a city that's coming up as you said you know to 1 million residents soon.

您是否觉得自己具备领导力和决策经验，来管理一个如您所说即将达到100万居民的城市。

⏮ It it is growing at an enormous rate.

它正在以惊人的速度增长。

🎵 00:44:46

⏮ I absolutely do think so.

我绝对认为是这样。

⏮ I wouldn't be putting my name forward if I had any hesitation whatsoever.

如果我有什么犹豫，我就不会提出我的名字了。

⏮ I have seven years on city council and prior to that.

我在市议会有七年的经验，在那之前。

⏮ A lot of experience in the corporate sector which I think will be uh a real nice addition to city hall and I've done a lot of community service uh throughout the years.

在企业界有很多经验，我认为这将是呃对市政厅一个非常好的补充，而且这些年来我做了很多社区服务呃。

🎵 00:45:06

▶ So I do come with a lot of experience uh and seven years as I said in municipal government and you know with that experience you have obviously seen a lot under um Brenda Lockach and Doug Macallum what are the failings that that you find right now with the current city council under Brenda Lock

所以我确实带来了许多经验呢，正如我所说，在市政府有七年经验，你知道，凭借这些经验，你显然在布伦达·洛克和道格·麦卡勒姆领导下看到了很多，你认为布伦达·洛克领导下的现任市议会目前有哪些不足之处

▶ we've been stuck on one issue one single issue and that's the police transition you know it's it's not helping to move it forward

我们一直卡在一个问题，一个单一的问题上，那就是警察过渡，你知道这并没有帮助推动它前进

▶ There's been roadblocks put in one after the other and we've just been focused on that for the past 3 years with getting little else done in the city and that's not right.

一个又一个的路障被设置起来，在过去的3年里我们只专注于这件事，在城市里几乎没有完成其他事情，这是不对的。

 00:45:45

▶ You know, we have between 12 and 1500 people moving to Suriri each and every month.

你知道，我们每个月有1200到1500人搬到素里。

▶ We need to be focusing on building more infrastructure.

我们需要专注于建设更多的基础设施。

▶ We need more rec centers, pools, you know, we need more schools here.

我们需要更多的娱乐中心、游泳池，你知道，我们需要这里更多的学校。

▶ There's so much that we need.

我们需要的东西太多了。

▶ me thinking this morning as I was driving here uh the transit issue.

我今天早上开车来这里时想到的呢交通问题。

 00:46:04

▶ It took me over an hour to get from South Suri to um my announcement which was just close by uh in city center.

我从南素里到呃我的公告发布地点，就在市中心附近，花了一个多小时。

▶ Uh and it is you know one thing to to point out the the issues and and identify the problems that are in the city of Suri.

呃，你知道，指出问题并识别素里市存在的问题是一回事。

▶ What would you do to to concretely change and improve these issues if you were to become mayor?

如果您成为市长，您将具体做些什么来改变和改善这些问题？

 00:46:33

▶ Well, a few things.

嗯，有几件事。

▶ First and foremost, we need to build a strong economic plan.

首先，我们需要制定一个强有力的经济计划。

▶ The residents of Suriri commute far too often to other cities uh in the Lower Mainland.

素里的居民通勤到大温哥华地区其他城市的频率太高了。

▶ In fact, there's a study that shows the uh residents of Suriri uh commute twice as much as any other residents in neighboring communities.

事实上，有一项研究表明，呃素里的居民呃通勤时间是邻近社区任何其他居民的两倍。

▶ We need to fix that.

我们需要解决这个问题。

 00:46:53

▶ We need to have jobs here in Siri.

我们需要在素里这里有工作。

⏮ We also need to be looking at our public safety uh and looking at how we can get um you know better training for our police service.

我们还需要审视我们的公共安全呢，并研究如何为我们的警察部门获得更好的培训。

⏮ And one

还有一个

⏮ Of the things that I've been advocating for is building a center of excellence, a police academy where all municipal police officers could be trained right here in Surrey.

我一直在倡导的事情之一是建立一个卓越中心，一个警察学院，所有市政警察都可以在这里，在素里接受培训。

 00:47:17

⏮ And to keep with the theme of Surrey police, you've obviously criticized the length of time it has taken for the Surrey police transition and the amount of focus that has been on this transition.

为了契合素里警察的主题，你显然批评了素里警察过渡所花费的时间长度，以及这次过渡所受到的关注程度。

⏮ If you were elected as mayor, what would you do differently to address this transition and perhaps diffuse some of that ongoing tension?

如果你当选市长，你会采取什么不同的措施来处理这次过渡，或许还能化解一些持续存在的紧张局势？

⏮ Well, we need to be working in a very collaborative relationship with the provincial government, the Surrey Police Board, the Surrey Police Service.

嗯，我们需要与省政府、素里警察委员会、素里警察局建立非常协作的关系。

 00:47:47

⏮ The people that we should be picking the fights with aren't those.

我们不应该与那些人争斗。

▶ We should be picking the fights with the gangs, the extortionists, and people that are doing crime here in Surrey.

我们应该与帮派、勒索者以及在素里这里犯罪的人作斗争。

▶ We want them off our streets, and we need to be focusing on that, not picking fights with the government and police service.

我们希望他们从我们的街道上消失，我们需要专注于这一点，而不是与政府和警察部门争吵。

▶ Well, and that is a valid point, but also a question is as we see Surrey continue to grow and as you mentioned it's causing problems with infrastructure, it's causing problems with transportation but the gang violence has been an ongoing and growing issue as well.

嗯，这是一个合理的观点，但还有一个问题是，我们看到素里持续发展，正如你所提到的，这导致了基础设施问题，导致了交通问题，但帮派暴力也一直是一个持续存在且日益严重的问题。

 00:48:23

▶ What specific steps need to be taken to deal with this in the city of Surrey?

需要采取哪些具体步骤来解决素里市的这个问题？

▶ We know that kids as young as 14 years old are being targeted in schoolyards in Surrey and in other Lower Mainland cities as well.

我们知道，在素里以及其他低陆平原城市的校园里，年仅14岁的孩子也成为目标。

▶ We need to make sure that those vulnerable kids have someplace to go after school that's a healthy productive activity.

我们需要确保那些脆弱的孩子放学后有机会去，进行健康有益的活动。

 00:48:46

▶ Many of these kids don't have after school programs.

这些孩子中的许多人没有课后活动项目。

所以，我希望看到我们的娱乐中心免费向青少年开放，让他们去使用我们所有的设施。

▶ It's a great place for them to build team and learn a new sport or new activity.

这是一个让他们建立团队、学习新运动或新活动的好地方。

▶ And, as you've been a counselor, what have your conversations been like with Surrey residents throughout your term when it comes to say prioritizing public safety?

而且，作为一名市议员，在你的任期内，当你谈到优先考虑公共安全时，你与素里居民的对话是怎样的？

 00:49:18

▶ Well, I talked to a lot of the residents in Surrey about public safety.

嗯，我和素里的很多居民谈论过公共安全。

▶ I also do a dual role.

我还身兼双职。

▶ I'm a city counselor, but I'm also the executive director of Crimestoppers.

我是市议员，但也是“灭罪热线”的执行董事。

▶ So, I hear a lot from the residents in Surrey about their concerns around public safety.

所以，我听到很多素里居民对公共安全的担忧。

▶ And much of it has been focused in terms of fighting whether we should keep or not keep this transition going through first of all through Doug McCallum's term and then through Brenda's.

其中很多焦点在于争论我们是否应该继续推进这次过渡，首先是道格·麦卡勒姆任期，然后是布伦达任期。

 00:49:48

▶ And what I would say to that we should have done in 2018 we should have had a referendum and settled this issue once and for all so that we could have moved forward in a much quicker way to complete the transition or to stay with the RCMP.

对此我想说的是，我们在2018年就应该做的事情是举行一次公投，一劳永逸地解决这个问题，这样我们就可以以更快的方式推进，完成过渡或保留加拿大皇家骑警。

▶ Mhm.

嗯。

▶ Earlier this year, Mayor Brenda Locke confirmed the city's plans to build a new 10,000 seat arena and entertainment district, and it's part of plans to really showcase Surrey as a leading city.

▶ Absolutely not.

绝对不符合。

▶ Mayor Locke has only \$4 million allocated to this particular structure.

洛克市长只为这个特定建筑拨款400万美元。

▶ And this structure we know based on what other recreation facilities cost is going to cost us over \$600 million.

而我们根据其他娱乐设施的成本可知，这个建筑将花费我们超过6亿美元。

▶ That money is better spent in building more pools, recreation facilities, playing fields, and perhaps culture and activities for kids.

这笔钱最好用于建造更多的游泳池、娱乐设施、运动场，以及或许用于儿童的文化和活动。

我们只剩下一分钟左右的时间，但在我让你离开之前，如果你当选市长，与我们的省和联邦政府合作对你作为素里市长有多重要？

bilibili 00:51:10

▶ Consulting and cooperation, I should say.

咨询与合作，我应该说。

▶ We need to be meeting regularly with our MPs and MLAs.

我们需要定期与我们的国会议员和省议员会面。

素里是10位省议员的所在地，我们知道那是维多利亚的一个大型投票集团。

▶ We need to be making meeting with them regularly and making sure that they know and they're representing us in terms of what our needs are here in Surrey.
