

UK and US Forge Landmark Nuclear Deal Amid Trump's State Visit

【【生词双高亮】BBC经济新闻 20250915 中美代表在西班牙进行第四次贸易谈判 | 英美签署历史性核能协议 | 英国少年欧文获艾美奖创纪录】

Summary: The UK and US are set to sign a major nuclear energy agreement during President Trump's state visit, aiming to accelerate nuclear power station construction and create thousands of jobs. The deal includes partnerships with US firms worth up to £40 billion, with significant investment targeted in northeast England. Tech leaders from Nvidia and OpenAI accompany the visit, potentially announcing UK AI infrastructure investments. Jaguar Land Rover faces extended factory shutdowns and supply chain crises due to a cyber attack. Meanwhile, UK-China trade talks continue amid slowing Chinese economic data, and British teenager Owen Cooper makes Emmy history for his role in Netflix's "Adolescence".

Good morning to you, Grace.

早上好，格雷斯。

Good morning.

早上好。

So what do you know about what we might hear in terms of announcements and tie-ups in the AI sector?

关于人工智能领域可能发布的公告与合作，您有哪些信息？

I think this week when President Trump lands with Jensen Huang as well as Sam Altman, we're expecting to hear what I imagine will be music to the prime minister's ears and the form of significant investment in the UK's digital infrastructure.

我认为本周特朗普总统与黄仁勋、萨姆·奥尔特曼抵英时，预计将宣布令首相欣喜的重大消息——对英国数字基础设施的重大投资。

bilibili 00:07:29

When Jensen Huang and Sir Keir Starmer met at London Tech Week earlier this year, he describes his ambition to make the UK the best state partner for tech investors around the world.

今年伦敦科技周期间黄仁勋与基尔·斯塔默爵士会晤时，曾提出将英国打造为全球科技投资者最佳合作伙伴的愿景。

▶ And I think the investment we're expecting to hear announced this week, which could very well be an extension of the so-called project stargate development in the United States all around AI infrastructure will certainly put the UK on the path to achieving that ambition.

本周预计宣布的投资很可能是在美国"星门计划"人工智能基础设施开发基础上的扩展，这将助推英国实现该愿景。

▶ And will we have to let go of the digital services tax, do you think?

那么您认为我们是否将不得不放弃数字服务税？

 00:08:02

▶ Is that going to be a part of this negotiation process?

这会成为本次#谈判#进程的一部分吗？

▶ So as you point out rightfully, President Trump has made digital services taxes around the world a sticking point for sort of global trade conversations across the board.

正如您正确指出的，特朗普总统已使全球数字服务税成为全面全球贸易对话的焦点问题。

▶ We have seen, according to our research, three major markets, Canada, India, and New Zealand, appear to bow to that pressure and abandon either existing digital service tax frameworks or abandoned plans for new frameworks,

根据我们的研究，加拿大、印度和新西兰三大市场似乎迫于压力放弃了现有数字服务税框架或新框架计划，

 00:08:28

▶ but at the same time, we've also seen a number of major European markets, including France, Italy, and Germany ramp up their plans or expand their plans or expand existing frameworks and digital services tax?

但与此同时，我们也看到法国、意大利、德国等欧洲主要市场加强或扩展了现有数字服务税框架及计划？

▶ Within this context, the UK does have one of the lowest digital services tax rates around the world, sitting at 2%.

在此背景下，英国确实拥有全球最低的数字服务税率之一，仅为2%。

▶ And I think it represents a pretty significant source of revenue for the country.

我认为这对英国而言是相当可观的收入来源。

 00:08:50

▶ I'd be very surprised to see a significant move there.

若出现重大变动反倒会令我非常惊讶。

▶ And is this a win-win, i.e. for Nvidia, for OpenAI and for the UK government?

这对英伟达、OpenAI和英国政府是双赢局面吗？

▶ Is it really a win-win?

这真的是双赢吗？

▶ I presume the two US tech giants will get a lot from building the infrastructure in the UK, providing AI technology within our public sector in the UK.

我认为这两家美国科技巨头将通过在英国建设基础设施、为英国公共部门提供人工智能技术获益良多。

▶ So as I mentioned, Sir Keir Starmer in this government has set out a number of policy initiatives related to public investment and public computing power, building the digital skills pipeline, designating data centers as critical national infrastructure to attempt to attract this very form of investment.

如我所述，基尔·斯塔默爵士领导的政府已推出多项政策举措，涉及公共投资、公共算力建设、数字技能人才培养、将数据中心列为关键国家基础设施等，以吸引此类投资。

 00:09:33

▶ However, I would also highlight the government's past, its stated ambition to see the UK become an AI maker and not simply an AI taker.

但我也要强调政府过往宣称的雄心——让英国成为人工智能创造者而非单纯使用者。

🎧 I do question the extent to which these sorts of investments actually help home grow that sort of AI ecosystem, or for simply setting up the country to become a taker of US AI solutions.

我确实质疑这类投资究竟能在多大程度上助力本土培育人工智能生态，还是仅让英国成为美国人工智能解决方案的接收方。

🎧 Good point, Grace, thank you.

🎧 It is a critical week for Jaguar Land Rover,

对捷豹路虎Rover而言这是关键一周，

🎧 it says it's still dealing with the impact of a cyber attack which has forced it to halt all production.

公司称仍在处理迫使全面#停产#的网络攻击影响。

🎧 It has been hoped that it could resume operations today, but that has been put back to at least Wednesday, raising fears companies in its supply chain could go bankrupt.

原本预计今日复产，但现已推迟至周三，引发其供应链企业可能破产的担忧。

▶ JLR has closed all its factories worldwide, following a cyber attack at the end of last month leading to huge financial losses.

上月末遭遇网络攻击导致巨额财务损失后，捷豹路虎已关闭全球所有工厂。

▶ Another week begins and this is still not resolved.

新的一周开始，问题仍未#解决#。

▶ It's costing JLR, some say £5 million a day.

据称捷豹路虎每日损失约500万英镑。

▶ Yes, it is.

确实如此。

▶ If you look at, let's say now they're not going to reopen until Wednesday by which time the value of lost output will be about £1 billion on which they've lost £70 million in profit for longer that this goes on, the bigger they hit to profit.

若周三才能复工，停产损失将达10亿英镑，其中利润损失7000万英镑——停产越久，利润冲击越大。

bilibili 00:11:14

▶ The more likely is that customers simply go elsewhere, so that becomes permanent.

客户更可能永久转向其他品牌。

▶ The bottom line is that Jaguar Landry have got to sort this out sooner rather than later.

关键是捷豹路虎必须尽快解决此事。

▶ And why is it not sorted out yet?

为何至今未能解决？

▶ Do we know any detail on what the problem is?

我们了解具体问题细节吗？

▶ Well, JLR themselves shut down the system when they detected the cyber attack, and clearly this is taking much longer than they initially expected.

捷豹路虎检测到网络攻击后自行关闭了系统，显然恢复时间远超最初预期。

bilibili 00:11:38

▶ Remember as well that when MNS, Marxist-Benz's Anglo-Covap were attacked, that took months.

需知此前Marxist-奔驰旗下 Anglo-Covap 遭攻击时耗时数月才恢复。

▶ Now, if we're looking at output being down for all of September, then you could see it hit to profit of maybe £150 million.

若整个九月产量停滞，利润损失可能达1.5亿英镑。

▶ I'm confident JLR can get through this.

我相信捷豹路虎能渡过难关。

▶ My real concern is about the supply chain where you've got firms reliant on Jaguar Land Rover who are increasingly running out of money.

真正担忧的是供应链——依赖捷豹路虎Rover的企业正面临资金枯竭。

bilibili 00:12:02

▶ And there are calls on the government to bail out those businesses if that were to happen.

有人呼吁政府在此情况下#救助#这些企业。

▶ Do you think that could happen?

您认为这可能实现吗？

▶ Will the government come to their rescue?

政府会施以援手吗？

▶ I certainly think the government have got to start thinking about emergency support.

我认为政府必须开始考虑紧急支援措施。

▶ I wouldn't use the term bail out.

我不会用"#救助#"一词。

▶ These are normally very successful companies and they will have a bright future with JLR.

这些通常都是成功企业，与捷豹路虎合作前景光明。

 00:12:23

▶ But as the orders have stopped coming, then the impact of this cyber attack has cascaded down the supply chain.

但由于订单中断，网络攻击的影响已蔓延至整个供应链。

▶ We've seen workers sent home some laid off, firms looking to banks for loans to keep them going.

我们看到工人被遣返或解雇，企业寻求银行贷款维持运营。

▶ But by the back end of this week, some of them will be running out of money.

但到本周末，部分企业将耗尽资金。

▶ So I think the government have got to look at some temporary financial support.

因此政府应考虑提供临时财政支持。

 00:12:43

▶ And maybe some kind of Covid style furlough scheme to keep workers in place.

或采取类似新冠疫情期间的留职计划。

▶ And of course, if that were to happen, this would set a precedent.

当然这可能会开创#先例#。

▶ Because as you say, it's happened to other businesses, Mox and Spenter co-op and others.

如您所言，其他企业如Mox和Spenter合作社也曾遭遇类似情况。

▶ And of course, the consequences for them was not the same as JLR.

但其后果与捷豹路虎不同。

▶ We didn't see factories close down, etc.

当时未见工厂关闭等情况。

 00:13:00

▶ But if the government were to, as you say, put in some sort of support scheme, that would be assumed that's in place for other future scenarios.

若政府如您所说推出支持计划，可能被视为适用于未来其他情形。

▶ It may well set a precedent.

这很可能确立#先例#。

▶ I think manufacturing needs different than retail because of these very, very long manufacturing supply chains.

鉴于制造业供应链极长，我认为其需要与零售业不同的政策。

▶ And also, this is JLR's complete output of shut.

况且捷豹路虎是全面停产。

 00:13:20

▶ It's not just their online retail sales.

不仅是线上零售受阻。

▶ They're not producing anything.

他们无法生产任何产品。

▶ They haven't been able to sell cars.

也无法销售汽车。

▶ And also, it's very difficult to even service their cars because they can't access parts.

甚至难以提供维修服务，因为无法获取零部件。

▶ So I think what's different here is that everything has ground to our halt at the company.

因此特殊之处在于公司运营已完全#停滞#。

▶ Okay, interesting.

好的，很有意思。

▶ Thank you again for your time.

再次感谢您。

传统上作为中国增长重要引擎的投资也出现明显放缓。

▶ Of course, if you remember, July, now we have August numbers.

当然若您记得，七月数据公布时，如今我们拿到的是八月数据。

▶ Both months were pretty weak months where we saw stimulus momentum.

这两个月都是我们观察到#刺激#政策#势头#相当疲软的月份。

▶ The supportive measures from Beijing really coming to a bit of a hot.

北京的支持措施确实略显停滞。

▶ I think this really brings into focus the urgency of stimulus for the rest of the year.

我认为这真正凸显了今年剩余时间推行#刺激#政策的紧迫性。

bilibili 00:17:16

▶ And why is the stimulus so far not working?

为何迄今为止#刺激#政策未见成效？

▶ Because I know the authorities in China have really tried to focus on boosting domestic demand partly because of the tariffs war going on when the United States cannot rely on exact exports.

因为我知道中国当局确实着力提振内需，部分原因是中美关税战持续且无法依赖出口。

▶ It's got to really get growth internally and yet doesn't seem to bearing fruit.

必须真正实现内部增长，但似乎尚未#结出#果实。

▶ Yeah, exactly.

确实如此。

bilibili 00:17:37

▶ And I think part of that is because your exports have provided quite a decent buffer here today.

我认为部分原因在于出口目前提供了相当#可观#的#缓冲#空间。

▶ Yes, the August numbers came in weaker than most people expected, but they were still fairly good exports.

八月数据确实弱于多数人预期，但出口表现仍相当不错。

▶ So there is still a bit of breathing room from policy makers standpoint to put in maybe more incremental policies.

因此从政策制定者#角度#来看仍有回旋余地，或可推出更渐进的政策。

 00:17:54

⏮ Obviously, they are keen to not put in big stimulus that could be physically very expensive.

显然他们不愿推出可能耗费巨资的大规模#刺激#措施。

⏮ But again, the experimental approach to stimulus means that some could work, some may not work as well.

但这种#实验性#的#刺激#手段意味着某些政策可能有效，某些可能效果不佳。

⏮ And so we're seeing this experimental policies work out not so well in the Chinese economy.

因此我们看到这些#实验性#政策在中国经济中表现并不理想。

⏮ Okay, Louise, thank you so much, sharing your expertise with us, head of Asia Economics at Oxford Economics.

感谢路易丝分享您的#专业见解#，这位是牛津#经济#研究院亚洲#经济#研究主管。

⏮ Two airlines now, historically, one of the most competitive industries in the world.

航空业历来是全球竞争最激烈的行业之一。

⏮ So how do you succeed in that market?

如何在这个市场取得成功？

⏮ One person who's done that is David Nealman, his chief executive and founder of the US Startup Breeze Airways.

大卫·尼尔曼便是成功者之一，他是美国#初创#企业#微风#航空的首席执行官兼创始人。

⏮ He's been involved in the founding of five airlines and is looking to utilize artificial intelligence in his latest venture.

他参与创办过五家航空公司，并计划在最新项目中#运用#人工智能。

▶ He was talking to my colleague Ben Thompson and explained how AI is helping.

他向我的同事本·汤普森解释了人工智能如何助力航空业。

▶ In the general sense, you want to make the planes more reliable.

总体而言，要让飞机更#可靠#。

▶ You want to make the lower your costs so you can offer lower fares.

要降低成本才能提供更低票价。

▶ You want to make the customers even happier, our guests, even happier, because you know them.

要让客户——我们的旅客更满意，因为您了解他们。

▶ So you want to accomplish all of that, run a smoother operation and all those things kind of work hand in hand with each other.

所有这些目标与运营顺畅度都是相辅相成的。

▶ Because if you cancel no flights because you can do predictive maintenance, then people will fly you more.

若能通过预测性维护实现零航班取消，乘客就会更频繁选择您的航班。

▶ If you can tell them, if you know that they're a swifts and that tailor swifts over here and you can shoot them a text and say we have extra sections on them to do that, to take care of you.

若知道某位旅客是泰勒·斯威夫特粉丝，可以发消息告知为其加开特别班次——这样无微不至的服务。

▶ And the operation runs smoother than it all kind of works hand in hand.

运营越顺畅，这些环节就越能形成良性循环。

▶ What is your biggest frustration right now, because the industry has gone through tough times before.

目前您最大的#挫折感#来自何处？毕竟航空业经历过艰难时期。

▶ It feels at the moment there's still fall out from COVID, even all these years after.

感觉疫情至今仍存后续影响。

▶ There are still supply chain problems.

供应链问题依然存在。

▶ There are still pilot shortages, particularly in the United States issues with things like air traffic control.

飞行员仍然短缺，美国尤其存在空管等问题。

 00:19:50

▶ So much of what you do as an airline, he's outside of your control.

作为#航空公司#，诸多事务都超出您的控制范围。

▶ Where are your biggest hurdles, your biggest frustrations?

您最大的障碍和挫折是什么？

▶ Well first of all, I tell our people, we need to be flourished on what we can control.

首先我告诉员工要聚焦可控因素。

▶ So if you can schedule a plane for a 40 minute turn, but you can do it in 30.

若原定40分钟周转的飞机能30分钟完成。

▶ So if something happens to thunderstorms or air traffic delays, we can make up time and say a losing time during the day, that's really important.

遇到雷暴或空管延误时，我们就能抢回时间——这非常重要。

 00:20:15

▶ So obviously it's you worry about fuel prices, but we have the most fuel-fishing airplanes.

虽然需要担心油价，但我们拥有最省油的飞机。

▶ So we're trying to close that loop.

正努力形成闭环#。

▶ Air traffic control is a problem in the US, so we don't fly to congested airports, so we try and close that loop.

美国空管是个问题，因此我们避开#拥堵#机场，试图解决这个环节#。

▶ So you have to do self-help in this business because nothing moves quickly.

在这个行业必须自助，因为任何变革都进展缓慢。

▶ Yeah, and you're a bit of a veteran of the industry.

您是行业#资深#人士。

 00:20:34

▶ I think this is your fifth airline, isn't that you've set up.

这是您创办的第五家#航空公司#吧？

▶ I wonder how you've seen the industry change and be what those changes have looked like for you in terms of how you respond every time you set up a new airline.

您如何看待行业变迁？每次创办新航空公司时如何应对这些变化？

▶ Do you do it differently?

做法会有所不同吗？

▶ Yeah, of course.

当然会。

▶ I do it differently because it's an evolving world.

因为世界在不断发展。

▶ You know, the first airline I had looked more like Southwest Airlines.

我第一家#航空公司#更像#西南#航空。

bilibili 00:21:01

▶ The next airline, Jeppe Blue, looked like Southwest Airlines with TVs and leather seats.

接下来的捷蓝航空像是带电视和真皮座椅的#西南#航空。

▶ Azul, we have six different aircraft types in Brazil, and here we have one aircraft type, but we're flying to cities like Azul flies.

巴西阿苏尔航空有六种机型，而这里我们虽只有一种机型，但通航城市与阿苏尔类似。

▶ So you learn and adapt and change, and you don't just do it for the sake of doing it.

需要学习、适应、改变，而不是为改变而改变#。

▶ There needs to be an opportunity there, otherwise you just get slaughtered.

必须存在市场机遇，否则只会一败涂地。

bilibili 00:21:24

▶ Do you think you'll ever get bored of the airline industry?

会厌倦#航空#业吗？

▶ Well, some days I wish I was what had started department stores or something, but even with brick and mortar in trouble.

有时希望当初创办的是百货公司，但实体店#如今也陷入困境。

▶ But you know, it's exciting, and there's a lot more good days in bed for sure.

但航空业令人兴奋，未来肯定还有更多美好时光。

▶ Now, let's go back to the Emmys in Los Angeles, where the stars of the small screen have been gathering for this year's awards ceremony.

现在回到洛杉矶艾美奖现场，电视明星们正齐聚年度颁奖礼。

bilibili 00:21:52

▶ And as we've already mentioned, a huge night for the British teenager Owen Cooper, just 15 years old, has become the youngest person ever to win an Emmy for lead actor in a drama

series.

正如之前提到的，英国15岁少年欧文·库珀成为史上最年轻剧情类最佳男主角艾美奖得主。

▶ And this was for his role in the Netflix mini-series adolescence, a huge night for the British drama filmed in a small town in Yorkshire, which ended up with a host of awards with lead actor, Stephen Graham, director, Philip Barantini, and supporting actress Erin Doherty amongst them.

他凭借Netflix短剧《青春》获奖。这部在约克郡小镇拍摄的英剧今晚大放异彩，斩获包括男主角斯蒂芬·格雷厄姆、导演菲利普·巴兰蒂尼、女配角艾琳·多尔蒂在内的多项大奖。

▶ In something of a big night for the UK television industry, slow horses, also among the winners.

对英国电视业而言这是个重要夜晚，《慢马》同样获奖。

 00:22:30

▶ Let's bring in Jeremy Goldman, senior director of marketing, retail and tech briefings at E-Mocketeer.

有请E-Mocketeer零售与科技简报营销高级总监杰里米·戈德曼。

▶ Good to see you.

很高兴见到您。

▶ Great to be with you.

荣幸之至。

▶ So we've got to talk about Owen Cooper, I mean, an incredible performance from him at such a young age.

必须谈谈欧文·库珀，如此年轻便有惊人表现。

▶ And actually, I wasn't surprised adolescence just gripped the world, didn't it, when it was launched on Netflix?

其实《青春》登陆Netflix后风靡全球并不令我意外。

 00:22:54

🎵 Well, you know, it's amazing because it's about, of course, a lot of social activities moving online, just like we're talking about how a lot of viewing has moved online, right?

这部剧精彩之处在于展现社交活动向线上迁移，正如我们讨论的观影方式线上化。

🎵 The idea of primetime, these were the primetime Emmys, but what is primetime anymore?

黄金时段的概念——这是黄金时段艾美奖，但如今何谓黄金时段？

🎵 You know, some people watch the adolescence or the studio, or other things that their convenience, whenever they want to do.

人们根据自身#便利#随时观看《青春》或影视工作室内容。

 00:23:18

🎵 I mean, there were lots of things about it that were breathtaking.

该剧有多处令人叹为观止。

🎵 It was the subject, it was the performances, but also it was quite radical, wasn't it, in the way it was shot, that each episode was one shot.

无论是主题、表演，还是每集一镜到底的拍摄手法都相当激进。

🎵 And those of us who work in television, it's just hard to get your head around that.

电视从业者都觉得难以置信。

🎵 How are you going to make that work?

如何实现这种拍摄？

🎵 Yeah, absolutely.

确实如此。

 00:23:39

🎵 And I think that it was cited for its immersive storytelling.

该剧因其#沉浸式#叙事手法备受赞誉。

⏮ Again, this is one of those things where I think it just really shows the power of screaming to allow so many different types of storytelling to come to life in a new way.

再次，我认为这恰恰展现了#尖叫#的力量——它让如此多不同类型的叙事以全新方式获得新生。

⏮ You know, you're able to take a chance on a limited series like Adam Lassons, known that it's going to be three episodes and knowing that it might have a chance to, you know, be as impactful as, you know, just in a way they're an extra-anger things you can even say.

要知道，像《亚当·拉森》这样的限定剧，明知只有三集篇幅，却仍敢于冒险尝试，是因为它有可能产生巨大影响力——甚至可以说这是一种额外的情感冲击。

 00:24:11

⏮ We also mentioned Slow Horses, got some awards as well, which is brilliant.

我们还提到了《慢马》，这部剧也斩获数奖，表现非常出色。

⏮ And that's Stars, of course, British actor Gary Oldman and also Christian Scott Thomas among, another really great cast.

当然还有星光熠熠的阵容：英国演员加里·奥德曼、克里斯汀·斯科特·托马斯等众多优秀演员。

⏮ So they got the Emmy for Outstanding Director.

他们获得了艾美奖最佳导演奖。

⏮ What does this do for the British industry?

这对英国产业意味着什么？

⏮ These kind of wins at the Emmys.

这类艾美奖的胜利。

 00:24:33

⏮ I mean, these are fantastic in the same way that, you know, just getting some type of recognition out there for a service like Apple TV Plus, which is not as big, you know, in the US or the UK, of course.

我的意思是，这些成就非常了不起——就像为Apple TV+这样的平台赢得认可，虽然它在英美市场规模尚不及其他平台。

▶ But just getting more visibility for the British film industry or an Apple TV Plus can be huge to get future investment into that sector.

但让英国电影产业或Apple TV+获得更多关注，对吸引未来投资至关重要。

▶ You even saw with Apple TV Plus being, you know, a lot at onstage Seth Rogan, who won for the studio for Apple TV Plus, thanked Tim Cook.

您甚至看到，凭借Apple TV+获奖的塞斯·罗根在台上特别感谢了蒂姆·库克。

 00:25:08

▶ You know, and that's why you have major players like Apple get into the entertainment industry.

这正是像苹果这样的巨头进军娱乐行业的原因。

▶ It's a great credential driver.

这是极佳的#资质#背书。

▶ Yeah, certainly is.

确实如此。

▶ It's been quite the night.

真是个不平凡的夜晚。

▶ Jeremy Goldman, thank you very much for talking us through some of the winners and also the impact this has on the British television industry and film industry as well.

杰里米·高曼，非常感谢您为我们解析部分获奖作品及其对英国电视和电影产业的影响。

 00:25:28

▶ Very important to the UK economy.

这对英国经济至关重要。

▶ Absolutely.

完全正确。

▶ That's business today, as I mentioned.

正如我提到的，以上就是今日商业动态。

▶ There is a very busy agenda here in the United Kingdom this week, which could have lots of implications for business deals.

本周英国日程安排#非常紧凑#，可能对商业交易产生诸多影响。

▶ Do take a look at our website and the BBC News app for more detail on the stories I've touched on and the ones we couldn't fit in.

欢迎访问我们的网站和BBC新闻客户端，获取我提及及未涵盖新闻的详细内容。

bilibili 00:25:50

▶ Have a lovely day.

祝您度过愉快的一天。

▶ I'll see you soon.

下次再见。
