

The Engineering Marvel of Aircraft Carrier Launching: How America's Floating Fortresses Come to Life

【【生词双高亮】美国海军最强战力：10万吨级福特级航母下水全过程】

Summary: USS John F. Kennedy Launch: A Marvel of Modern Engineering

摘要： 2019年10月，美国第二艘福特级航母"肯尼迪"号在纽波特纽斯造船厂完成历史性下水。这座耗资130亿美元的钢铁堡垒通过精密控制的注水过程，在容纳1亿加仑水的干船坞中实现首次浮起。该航母采用革命性电磁弹射系统，可搭载90架舰载机，代表着美国海军工程技术的最高成就。

🕒 Estimated Reading Time: 26 min.

📖 四级生词 📖 六级生词 📖 雅思生词 📖 托福生词 📖 专八生词 📖 SAT生词 📖 考研生词 📖 GRE生词

bilibili 00:00:05

🎵 A massive steel fortress weighing 100,000 tons sits motionless in a concrete canyon surrounded by towering walls.

一座重达10万吨的巨型钢铁#堡垒#静静地#矗立#在混凝土#峡谷#中，四周环绕着#高耸#的墙壁。

🎵 Then, with the push of a button, 100 million gallons of water rush in like a controlled tsunami.

随后，随着按钮启动，一亿加仑的水如受控海啸般奔涌而入。

▶ Within hours, this colossal warship, longer than three football fields, rises from its concrete cradle and floats for the very first time.

几小时内，这艘比三个足球场还长的#巨舰#从混凝土#船坞#中升起，首次漂浮在水面上。

bilibili 00:00:29

▶ This isn't science fiction.

这并非科幻#小说#。

▶ This is how America's most powerful naval weapons come to life.

这就是美国最强大#海军#武器的诞生过程。

▶ The USS John F. Kennedy, our nation's second Ford class super carrier, experienced this exact moment in October 2019.

我国第二艘福特级超级#航母#——约翰·F·肯尼迪号，正是在2019年10月经历了这一时刻。

▶ After 4 years of construction, this 13 billion Guardian of Freedom finally touched water.

历经4年建造，这座耗资130亿美元的"自由#守护者#"终于入水。

bilibili 00:00:51

▶ But the process that gets these floating cities from dry land to open ocean is far more complex and fascinating than most people realize.

但将这些浮动城市从陆地移往海洋的过程，远比大多数人想象的更为复杂和#引人入胜#。

▶ Today, we're taking you inside the incredible engineering marvel that is aircraft carrier launching.

今天，我们将带您深入飞机#航母#下水的非凡工程#奇迹#。

▶ From the massive dry docks of Newport News ship building to the revolutionary electromagnetic systems that catapult fighter jets into the sky, you'll discover why America's carrier fleet remains the most feared and respected naval force on Earth.

从纽波特纽斯造船厂的巨型干船坞，到将战斗机弹射升空的革命性电磁系统，您将明白为何美国航母舰队始终是全球最令人敬畏的海军力量。

 00:01:24

▶ If you're proud of our Navy's incredible achievements, type proud in the comments below.

若您为我们海军的非凡成就感到自豪，请在评论区输入"自豪"。

▶ The birthplace of giants.

巨舰诞生之地。

▶ Deep in Virginia along the James River sits a facility that has been building America's floating fortresses for over a century.

弗吉尼亚州詹姆斯河深处，坐落着已为美国建造浮动堡垒逾百年的设施。

▶ Newport News ship building isn't just any shipyard.

纽波特纽斯造船厂并非普通船厂。

▶ It's the only place in America capable of building nuclearpowered aircraft carriers.

这是美国唯一能建造核动力航空母舰的地方。

 00:01:56

▶ The heart of this operation lies in massive concrete structures called graving docks.

其核心在于名为"干船坞"的巨型混凝土结构。

▶ These aren't ordinary construction sites.

这些并非普通工地。

▶ Drydock 12, where the USS John F. Kennedy was born, stretches over 2,000 ft long and 250 ft wide.

建造肯尼迪号的12号干船坞长达2000英尺（约610米），宽达250英尺（约76米）。

▶ To put this in perspective, you could park nearly 500 school buses end to end in this space.

直观来说，这个空间可首尾停放近500辆校车。

 00:02:21

▶ But here's what makes this even more remarkable.

但更非凡之处在于：

▶ These carriers aren't built like regular ships.

这些航母的建造方式不同于普通船舶。

▶ While most vessels are constructed in pieces and assembled, aircraft carriers are built from the keel up as one continuous structure.

多数船只采用分段建造再组装，而航母则是从#龙骨#开始作为整体连续建造。

▶ Every pipe, every cable, every room is carefully planned and installed while the ship sits on massive concrete blocks called keel blocks.

当舰体坐落在名为"#龙骨#墩"的巨型混凝土块上时，每根管道、每条电缆、每个舱室都经过精心规划与安装。

 00:02:45

▶ These keel blocks are engineering marvels themselves.

这些#龙骨#墩本身就是工程奇迹。

▶ Made of concrete and topped with wood caps, they support the entire weight of the carrier during construction.

由混凝土制成并加盖木顶，它们在建造过程中支撑着整艘#航母#的重量。

▶ The USS John F. Kennedy, weighing as much as 800 fully loaded Boeing 747s, rested on these blocks for four solid years, while thousands of skilled workers brought her to life.

相当于800架满载波音747重量的肯尼迪号，在这些墩块上静置了整整四年，数千名技术工人赋予其生命。

 00:03:10

▶ More than 3,200 ship builders and 2,000 suppliers from across our great nation contributed to Kennedy's construction.

来自全美各地的3200名造船工人和2000家供应商为肯尼迪号的建造贡献力量。

▶ From the steel workers who shaped her hull to the electronic specialists who installed her radar systems, this represents American craftsmanship at its finest.

从塑造#船体#的钢构工人到安装#雷达#系统的电子专家，这展现了美国工艺的巅峰水准。

▶ The controlled flood.

受控注水。

▶ October 29th, 2019 marked a historic day not just for the Navy, but for everyone who believes in American maritime superiority.

2019年10月29日不仅是海军的历史性时刻，更是所有坚信美国#海洋##优势#者的重要日子。

 00:03:39

▶ On this crisp autumn morning, shipyard workers prepared to witness something truly spectacular.

在这个清爽的秋晨，船厂工人们准备见证真正#壮观#的场景。

▶ The first flooding of dry dock 12 with the Kennedy inside.

12号干#船坞#首次注水，肯尼迪号静卧其中。

▶ But this isn't simply opening a valve and letting water rush in.

但这并非简单打开#阀门#任水涌入。

▶ The flooding process is a carefully orchestrated ballet of engineering precision that unfolds over several days.

注水过程是持续数日、精心编排的工程#精度#之#芭蕾#。

 00:03:59

▶ Every step is monitored, measured, and controlled to ensure the safety of both the ship and the workers.

每个步骤都经过监控、测量与控制，确保舰船和人员安全。

▶ The process begins with flooding the dock to about 10 ft high, just enough to reach the keel blocks.

注水过程首先将#船坞#注水约10英尺（3米）深，刚好触及#龙骨#墩。

⌂ At this stage, engineers conduct critical tests to ensure everything is working perfectly.

此时工程师进行关键测试，确保万无一失。

⌂ The water doesn't just flow in randomly.

水流并非#随意#涌入。

⌂ 00:04:19

⌂ It's directed through specific channels and measured to the inch.

通过特定渠道引导，精确至英寸的测量。

⌂ As the water level rises, something magical happens.

随着水位上升，神奇之事发生。

⌂ This massive steel structure, which has sat motionless for years, begins to feel the gentle embrace of buoyancy.

这座静置数年#岿然不动#的钢铁巨构，开始感受#浮力#的温柔#拥抱#。

⌂ The laws of physics that keep every ship afloat start to take effect even while the carrier remains supported by its keel blocks.

即使#航母#仍受#龙骨#墩支撑，使船舶#漂浮#的物理定律已开始生效。

⌂ 00:04:41

⌂ Mike Butler, the program director for Kennedy, described this moment perfectly.

肯尼迪号项目总监迈克·巴特勒完美诠释了这一时刻：

⌂ The flooding of the dry dock is truly a historic event in the construction of the ship and a special moment for the men and women who have worked to get the ship to the point.

"干船坞注水确实是舰船建造的历史性事件，更是为此刻付出努力的所有男女员工的特殊时刻"

⌂ What makes this achievement even more impressive is that Kennedy reached this milestone 3 months ahead of schedule.

更令人惊叹的是，肯尼迪号提前三个月达成此#里程碑#。

 00:05:01

▶ This speaks volumes about the dedication and skill of American ship builders who work tirelessly to strengthen our nation's defense capabilities.

这充分体现了美国造船工匠为#增强#国防能力不懈奋斗的#奉献#精神与精湛技艺。

▶ When the dock reaches full capacity, over 100 million gallons of water, the Kennedy experiences true flotation for the first time.

当#船坞#注满超1亿加仑水时，肯尼迪号首次实现真正漂浮。

▶ The massive carrier, no longer dependent on its concrete supports, floats freely within the confines of the dry dock.

这座巨型#航母#不再#依赖#混凝土支撑，在干#船坞#内自由漂浮。

 00:05:26

▶ The moment of truth.

关键时刻。

▶ The transition from supported structure to floating vessel represents one of the most critical moments in carrier construction.

从支撑结构到浮动#船舶#的#转变#，是#航母#建造最关键的阶段。

▶ Once fully afloat, the Kennedy must be carefully maneuvered to the west end of the dry dock, where she'll undergo additional testing before her official christening.

完全漂浮后，肯尼迪号需精密操控至干船坞西端，在正式命名前进行额外测试。

▶ This movement requires incredible precision.

移动过程需要惊人#精度#。

 00:05:46

▶ Tugboats, positioning systems, and experienced pilots work together to guide this floating city with millimeter accuracy.

拖船、定位系统与经验丰富的引航员协同作业，以#毫米#级#精度引导这座浮动城市。

▶ There's no room for error when you're moving a vessel worth more than the GDP of some small countries.

移动价值超过某些小国GDP的#船舶#时，不容有任何差错。

▶ The christening ceremony itself carries deep tradition and meaning.

命名仪式本身承载深厚传统与意义。

▶ On December 7th, 2019, Pearl Harbor Day, Caroline Kennedy performed the time-honored ritual of breaking a champagne bottle against the ship's bow.

2019年12月7日珍珠#港#纪念日，卡罗琳·肯尼迪执行了用#香槟#瓶敲击舰#艏#的古老#仪式#。

 00:06:13

▶ This wasn't just ceremony.

这不仅是个仪式。

▶ It was Caroline Kennedy recreating the exact same moment she performed 52 years earlier when the first USS John F. Kennedy was christened.

更是卡罗琳·肯尼迪重现52年前为首艘肯尼迪号命名时的历史场景。

▶ Following christening, the real adventure begins.

命名之后，真正冒险就此开始。

▶ The Kennedy undocks into the James River, where she begins her journey toward becoming a fully operational guardian of American interests, but she's far from ready for combat.

肯尼迪号出坞进入詹姆斯河，开启成为美国利益全面作战守护者的征程，但距实战准备尚远。

 00:06:36

▶ Months of additional outfitting, testing, and crew training lie ahead.

还需数月进行额外舾装、测试和船员训练。

▶ This process showcases the incredible patience and precision required to build these floating fortresses.

此过程彰显建造这些浮动堡垒所需的非凡耐心与#精度#。

▶ Unlike commercial ships that might be rushed to market, military vessels undergo exhaustive testing to ensure they can perform their mission when our nation's security depends on it.

不同于可能急于上市的商船，军用舰艇需经 exhaustive 测试，确保在国家安全攸关时能履行职责。

 00:06:57

▶ The movement from dry dock to river represents more than just a change of location.

从干#船坞#移往河流不仅是位置变更。

▶ It symbolizes the transformation from construction project to naval vessel, from static structure to dynamic weapon system capable of projecting American power anywhere in the world.

更象征着从建设工程到海军舰艇的蜕变，从静态结构到能在全球任何地方投射美国力量的动态武器系统。

▶ Revolutionary technology While the launch process itself is impressive, what makes modern Ford class carriers truly extraordinary lies in their revolutionary technology.

#革命性#技术 虽然下水过程已令人震撼，但现代福特级航母真正非凡之处在于其#革命性#技术。

 00:07:27

▶ These ships represent the biggest leap forward in carrier design since the introduction of nuclear power.

这些舰船代表着自采用核动力以来#航母#设计的最大#飞跃#。

▶ The crown jewel of this technological revolution is the electromagnetic aircraft launch system known as EMAs.

这场#技术#革命的 crown jewel 是被称为EMALS的电磁飞机弹射系统。

▶ For decades, carriers used steam catapults to launch aircraft.

数十年来，航母使用蒸汽弹射器放飞飞机。

▶ A system that worked but had limitations.

这个系统有效但存在局限。

bilibili 00:07:47

▶ Emails changes everything.

电磁弹射系统改变了一切。

▶ Instead of using steam pressure, emails employs electromagnetic force through linear induction motors.

它通过#线性##感应#电机运用电磁力，而非蒸汽压力。

▶ This isn't just a minor upgrade.

这不仅是小幅#升级#。

▶ It's a complete reimagining of how aircraft launches work.

这是对飞机弹射方式的彻底重构。

▶ The system provides smoother

该系统能提供更平稳

▶ Acceleration, putting less stress on both aircraft and pilots.

#加速#装置，减少对飞机和飞行员的压力。

bilibili 00:08:06

▶ This means our brave aviators experience less physical strain and our expensive aircraft last longer.

这意味着我们勇敢的飞行员承受的身体压力更小，而我们昂贵的飞机寿命更长。

▶ But Emails offers even more advantages.

但电磁弹射系统（EMALS）还有更多优势。

▶ It can launch everything from lightweight drones to heavy strike fighters with equal precision.

它能以同样的#精度#弹射从轻型无人机到重型攻击机的所有机型。

▶ The system recharges faster than steam catapults, allowing for higher sorty rates when our forces need maximum striking power.

该系统充电速度比蒸汽弹射器更快，能在部队需要最大打击力量时实现更高出动率。

bilibili 00:08:30

▶ The numbers tell the story.

数据说明一切。

▶ Fordclass carriers can generate 25% more sorties than their predecessors while requiring 25% fewer crew members.

福特级航母能比前代机型多生成25%架次，同时所需船员数量减少25%。

▶ This efficiency translates directly into combat effectiveness and cost savings for taxpayers.

这种#高效#性直接转化为战斗力，并为纳税人节省#开支#。

▶ However, this cuttingedge technology hasn't come without challenges.

然而这项尖端技术也面临挑战。

▶ Early testing revealed reliability issues with the system achieving only 600 cycles between failures instead of the desired 4,000.

早期测试发现#可靠性#问题，系统仅实现600次故障间隔周期，未达预期4,000次目标。

bilibili 00:08:59

▶ But this is exactly why extensive testing exists, to identify and fix problems before our sailors depend on these systems in combat.

但这正是进行全面测试的意义——在水兵于战斗中依赖这些系统之前发现并解决问题。

▶ The Navy's commitment to getting this right demonstrates the professional excellence that defines our military.

海军确保系统完善的承诺体现了定义我军力量的卓越专业性。

▶ Rather than rushing flawed systems into service, they continue testing and improving until emails meets the high standards our forces deserve.

他们没有仓促部署缺陷系统，而是持续测试改进，直至电磁弹射系统达到部队应有的高标准。

bilibili 00:09:20

▶ Recent reports show significant progress.

最新报告显示重大进展。

▶ The USS Gerald R. Ford has successfully completed over 22,900 aircraft launches and recoveries, proving that American engineering and determination can overcome any challenge.

杰拉尔德·R·福特号已成功完成超过22,900次战机起降，证明美国工程技术与决心能克服任何挑战。

▶ Human dedication behind the technology.

技术背后是人类的#奉献#精神。

▶ Behind every technological marvel stands the human element that makes it all possible.

每个#技术##奇迹#背后，都是使其成为可能的人力要素。

bilibili 00:09:45

▶ The men and women who build these carriers represent the best of American craftsmanship and dedication.

建造这些航母的男女工匠代表着美国工艺水平和#奉献#精神的巅峰。

▶ Consider the scope of what these workers accomplish.

请看这些工人#完成#的工程#规模#。

▶ Over 3,200 ship builders contribute directly to each carrier's construction, supported by 2,000 suppliers from across the country.

逾3,200名造船工人直接参与每艘#航母#建造，并获得全美2,000家供应商支持。

▶ This network represents communities from coast to coast, all contributing to our nation's defense.

这个网络代表从东海岸到西海岸的社区，都在为我国国防做贡献。

bilibili 00:10:11

▶ These aren't just jobs, their generational callings.

这不仅是工作岗位，更是世代相传的使命。

▶ Many shipyard families have worked at Newport News for decades, passing down skills and pride from parent to child.

许多船厂家族在纽波特纽斯工作数十年，将技艺与自豪感代代相传。

▶ This continuity ensures that the knowledge and expertise required to build these complex vessels never disappears.

这种#延续#性确保建造这些复杂舰船所需的知识与#专长#永不失传。

▶ The challenges these workers face would overwhelm most people.

这些工人面临的挑战足以#压垮#大多数人。

bilibili 00:10:32

▶ They work with nuclear reactors, advanced electronics, precision machinery, and weapon systems that represent the cutting edge of military technology.

他们操作核反应堆、先进#电子#设备、#精密#机械以及代表军事技术尖端的武器系统。

▶ Every weld, every installation, every test must meet exacting standards because lives depend on their work.

每次#焊接#、每个#安装#步骤、每项测试都必须符合#苛刻#标准，因为生命取决于他们的工作质量。

▶ What makes this even more impressive is the timeline pressure.

更令人惊叹的是工期压力。

bilibili 00:10:52

▶ While the Kennedy faced some delays, now expected to deliver in March 2027 instead of the original 2025 target.

虽然肯尼迪号有所延期（现预计2027年3月交付，而非原定2025年）。

▶ These delays often result from the Navy's commitment to excellence rather than construction problems.

这些延期通常源于海军对卓越品质的追求，而非建造问题。

▶ Supply chain challenges, workforce shortages, and the complexity of incorporating lessons learned from the first Ford-class carrier all contribute to extended timelines.

供应链挑战、劳动力短缺以及吸收首艘福特级#航母#经验教训的#复杂性#，共同导致工期延长。

bilibili 00:11:17

▶ But these challenges also demonstrate the Navy's refusal to compromise on quality.

但这些挑战也证明海军拒绝在质量上#妥协#。

▶ The dedication shows in the details.

#奉献#精神体现在细节中。

▶ When workers discovered ways to improve Kennedy's construction by incorporating lessons from the Gerald R. Ford, they didn't hesitate to implement changes, even if it meant longer construction times.

当工人通过借鉴福特号经验找到改进肯尼迪号建造的方法时，他们毫不犹豫实施变更，即使这意味着更长建造周期。

bilibili 00:11:36

▶ This commitment to continuous improvement ensures each carrier surpasses its predecessor.

这种持续改进的承诺确保每艘#航母#都超越#前代#。

▶ The pride these workers take in their craft is evident in every aspect of construction.

这些工人对技艺的自豪感体现在建造的每个方面。

▶ They understand they're not just building ships.

他们明白自己不仅在造船。

▶ They're creating the platforms that will carry our brave sailors and aviators into harm's way to defend freedom around the world.

而是在打造承载勇敢水兵与飞行员奔赴险境、捍卫全球自由的平台。

bilibili 00:11:57

▶ Global impact and deterrence.

全球影响力与威慑力。

▶ The moment an aircraft carrier slides into the water, it begins reshaping global military calculations.

航母#滑入水中的那一刻，就开始重塑全球军事格局。

▶ These floating cities don't just project American power, they provide reassurance to allies and pause to potential adversaries worldwide.

这些浮动城市不仅投射美国力量，更为盟友提供保障，令全球潜在对手踌躇不前。

▶ Recent events demonstrate this impact perfectly.

近期事件完美印证这种影响力。

bilibili 00:12:18

▶ When tensions escalated in the eastern Mediterranean following the Hamas attack on Israel, the USS Gerald R. Ford carrier strike group deployed within hours.

哈马斯袭击以色列后东#地中海#局势紧张之际，杰拉尔德·R·福特号#航母#打击群数小时内即完成部署。

▶ This rapid response capability exists only because of the massive infrastructure investment required to build, launch, and maintain these vessels.

这种快速响应#能力#的存在，完全得益于建造、下水与维护这些舰船所需的大规模#基础设施#投资。

▶ The deterrent effect cannot be overstated.

其#威慑#效应怎么强调都不为过。

bilibili 00:12:40

▶ A single Ford class carrier carries more firepower than many entire national air forces.

单艘福特级#航母#携带的#火力#超过许多国家整个空军。

▶ With up to 90 aircraft, including F-35C Lightning 2 stealth fighters, these ships can project power hundreds of miles inland while remaining safely positioned in international waters.

凭借最多90架战机（含F-35C闪电II隐身战机），这些舰船能在安全停靠国际水域的同时，向数百英里内陆投送力量。

▶ But carriers don't operate alone.

但航母从不单独行动。

▶ Each one travels with a strike group, including cruisers, destroyers, and submarines.

每艘航母都配属巡洋舰、驱逐舰及潜艇组成打击群航行。

bilibili 00:13:06

▶ This combined force represents overwhelming military capability that few nations can match and none want to challenge directly.

这支联合力量代表#压倒性#的军事#能力#，鲜有国家能匹敌，更无国家愿直接挑战。

▶ The economic impact extends far beyond military considerations.

经济影响远超越军事范畴。

▶ The carrier construction program supports hundreds of thousands of jobs across America.

#航母#建造计划支撑全美数十万个工作岗位。

▶ From the steel mills that provide raw materials to the high- techch companies that build sophisticated electronics, this program strengthens our entire industrial base.

从提供原料的钢厂到制造#精密##电子#设备的高科技公司，该计划强化我们整个工业基础。

bilibili 00:13:34

▶ International partners recognize this capability.

国际伙伴认可这种#能力#。

▶ The French Navy has contracted for emails and advanced arresting gear systems for their next generation carrier, acknowledging American technological superiority in this critical area.

法国海军已为其下一代航母采购电磁弹射系统与先进拦阻装置，承认美国在此关键领域的技术优势。

▶ The Navy's current plan calls for maintaining an 11 carrier fleet, ensuring multiple carriers remain available for deployment while others undergo maintenance or training.

海军现行计划要求维持11艘#航母#的#舰队#规模，确保多艘航母可随时部署，其余则#进行#维护或训练。

bilibili 00:13:58

▶ This sustained presence around the world provides the flexibility our nation needs to respond to crises anywhere, anytime.

这种全球#持续#存在提供我国应对随时随地危机的#灵活#性。

▶ Critics sometimes question the cost of these vessels.

批评者有时质疑这些舰船的成本。

▶ But consider the alternative.

但请考虑替代方案。

Without carrierbased power projection, America would need massive overseas bases, enormous transport aircraft fleets, and forward deployed ground forces.

若无航母力量#投送#，美国将需要大量#海外#基地、庞大运输机群与前沿部署地面部队。

bilibili 00:14:19

Carriers provide flexibility and capability that no other military system can match.

航母提供的#灵活#性与#能力#是其他军事系统无法比拟的。

The future of American naval power.

美国#海军#力量的未来。

Looking ahead, the carrier construction program represents America's long-term commitment to maintaining naval superiority.

展望未来，#航母#建造计划体现美国维持#海军##优势#的长期承诺。

With plans for 10 Ford class carriers total, this program will extend well into the 2050s and beyond.

计划建造总计10艘福特级航母，该计划将持续至2050年代及以后。

bilibili 00:14:44

The USS Enterprise CVN80 and USS Doris Miller CVN81 are already under construction, incorporating lessons learned from both Gerald R. Ford and John F. Kennedy.

企业号CVN80与多里斯·米勒号CVN81已在建造中，吸收了福特号与肯尼迪号的经验教训。

Each successive carrier benefits from improved construction techniques, updated technology, and refined processes.

每艘#后续##航母#都受益于改进的建造技术、升级的科技与#完善#的流程。

Perhaps most significantly, these carriers are designed with growth potential built in.

或许最重要的是，这些航母设计时内置了增长潜力。

 00:15:08

⌂ Only half of their electrical generation capacity is currently utilized, leaving enormous room for future technologies.

目前仅使用其一半发电容量，为未来技术留下巨大空间。

⌂ Whether that's directed energy weapons, advanced radar systems, or technologies we haven't yet invented, Ford class carriers can adapt and evolve.

无论是定向能武器、先进#雷达#系统，还是我们尚未发明的技术，福特级航母都能适应并#演进#。

⌂ The naming of CBN81 as USS Doris Miller holds special significance.

将CVN81命名为多里斯·米勒号具有特殊#意义#。

 00:15:30

⌂ Miller, an African-American sailor who heroically manned anti-aircraft guns during the Pearl Harbor attack, represents the courage and diversity that strengthens our military.

米勒是在#珍珠##港#事件中英勇操作防空炮的非裔美国水兵，代表增强我军力量的勇气与#多样性#。

⌂ This carrier will be the first named for an African-American and the first named for an enlisted sailor.

这艘#航母#将是首艘以非裔美国人命名、首艘以现役水兵命名的航母。

⌂ Recent announcements reveal that CVN82 and CVN83 will honor Presidents Bill Clinton and George W. Bush.

最新公告显示CVN82与CVN83将致敬比尔·克林顿总统与乔治·W·布什总统。

 00:15:54

⌂ Respectively, continuing the tradition of naming these magnificent vessels for American leaders who understood the importance of strong naval forces.

#分别#，延续为理解强大#海军#力量重要性的美国领导人命名这些#宏伟#舰艇的传统。

🎵 Supply chain improvements and lessons learned continue reducing construction times and costs.

供应链改进和经验总结持续降低建造成本与周期。

🎵 The two ship procurement strategy for Enterprise and Doris Miller has already generated significant savings while maintaining quality standards.

针对#企业号#和多丽丝·米勒号的双舰采购策略在保持质量标准的同时已实现显著#成本节约#。

bilibili 00:16:18

🎵 Conclusion.

结论。

🎵 From that first moment when 100 million gallons of water rush into the dry dock to the day these floating fortresses deploy worldwide, the process of launching aircraft carriers represents American ingenuity, craftsmanship, and commitment to freedom at its finest.

从亿加仑海水涌入干船坞的首刻，到这些浮动堡垒全球部署之日，航母下水历程彰显了美国卓越的智慧、工艺及对自由的坚守。

🎵 These ships carry more than aircraft and weapons.

这些舰船承载的不仅是战机与武器。

🎵 They carry the hopes and prayers of a grateful nation.

它们承载着整个感恩国家的希望与祈愿。

bilibili 00:16:42

🎵 Every time one of these magnificent vessels slides into the water, it sends a clear message to the world.

每当这些#宏伟#舰艇滑入水中，便向世界传递明确讯息。

🎵 America remains committed to defending liberty and supporting our allies wherever they may be.

美国始终致力于捍卫#自由#，并无论何处皆支援盟友。

▶ The men and women who build, launch, and operate these carriers deserve our deepest respect and gratitude.

建造、下水与操作这些航母的男女将士值得最深切敬意与#感激#。

▶ Their dedication ensures that America's naval forces remain the most capable and respected in the world.

他们的#奉献#确保美国#海军#力量始终保持世界最强战力与威望。

bilibili 00:17:07

▶ The next time you see footage of an aircraft carrier at sea, remember the incredible journey that brought her there.

当您再次看见航母#在海驰骋的画面，请铭记造就此刻的非凡征程。

▶ From the first steel cut to that magical moment when she first touched water, ready to serve our nation with pride and distinction.

从首块钢板切割到首次触水的神奇时刻，始终准备以自豪与#卓越#服务国家。

▶ Thanks for joining us on this incredible journey behind the scenes of American naval power.

感谢参与这场美国#海军#力量幕后的非凡之旅。

bilibili 00:17:27

▶ If this video gave you a new appreciation for our Navy's capabilities, hit that like button and subscribe for more content celebrating the men and women who keep America safe.

若本片使您重新认识海军实力，请点赞订阅，获取更多颂扬护佑美国安全的男女勇士的内容。

▶ Until next time,

下次再见时，

▶ stay proud of the greatest Navy in the

请继续为世界上最伟大的#海军#而
