 00:12:42

▶ I've kind of outlined the scheme as best I can.

我已尽力概述该计划。

▶ But do you think it will work in its current form?

您认为现行方案会有效吗？

▶ It has a limited capacity to be successful, not in the early stages, because it's going to be too few numbers.

初期效果有限，因涉及人数太少。

▶ People will still take the chance that they won't be amongst the one or two or three percent of individuals who get caught at that particular time.

人们仍会赌自己不属于被抓的1%-3%。

 00:13:07

▶ But if it's successful, if the French continue to accept individuals, it has the potential to slow down the traffic on small boats.

但若成功且法国持续接收，有望减缓小船偷渡。

▶ But it doesn't apply to individuals who use other means to reach the UK clandestinely, so hidden in a lorry, for example, or on a privately owned yacht.

但不适用于卡车藏匿或私人游艇等其他偷渡方式。

▶ It's aimed solely at those who are using these small boats and wanting, or they used to be wanting, to be caught by British Border Force.

仅针对乘小船且希望被英边境部队截获者。

 00:13:32

▶ And what are the numbers on the lorries and the private yachts?

卡车和游艇偷渡的数字是多少？

▶ Because the small boats make the news, don't they?

因为小船偷渡更受关注对吗？

▶ Much more than the other forms of transports.

远比其他方式受关注。

▶ Absolutely, the small boats have been newsworthy for some years now.

确实小船偷渡多年来都是新闻焦点。

▶ The numbers being caught intercepted on lorries did drop last year.

去年卡车偷渡截获量下降。

▶ But Kent Police certainly this year has reported an increase in the number of callouts that they've had to things like motorway service stations with migrants found climbing out of lorries.

但今年肯特警方报告高速公路服务区发现卡车移民的报警增加。

 00:13:59

▶ The problem is that we don't know what it is we don't see.

问题在于我们不知道未发现的偷渡规模。

▶ We know how many we catch, but it's inherently unknowable how many we miss.

我们知道抓获数量，但漏网之鱼难以统计。

▶ And logically that's going to be a fair number.

逻辑上这个数字不小。

▶ What's the answer?

解决方案是什么？

▶ Do you think to the large number of small boats coming to the UK from France?

针对大量从法国来的小船？

▶ If migrants on a small boat knew that they were going to be returned to France, we've got their fingerprints, so they're not ever going to be able to be lawfully in the UK, that will limit the small boat traffic.

若偷渡者知道会被遣返法国且指纹录入永不能合法居英，将限制小船偷渡。

 00:14:30

▶ But we know from over a decade of irregular migration, all that does is displace it.

但十余年非法移民经验表明，这只会转移偷渡方式。

▶ So at the moment, people board these small boats wanting to be intercepted by border force in the channel.

目前，人们登上这些小船，希望被英吉利海峡的边境部队拦截。

▶ They don't make any effort to hide themselves once they're away from French police.

他们完全公开。

▶ They want to be caught.

他们希望被抓到。

bilibili 00:14:48

▶ They want to be picked up.

他们希望被接走。

▶ If they beat themselves in the UK, they sit and wait patiently.

如果他们成功抵达英国，他们会耐心坐着等待。

▶ They want to be caught.

他们希望被抓到。

▶ What this will do is it will drive them into not wanting to be caught.

这将导致他们不再希望被抓到。

▶ And in fact, it will just push them further into organized crime, into modern slavery and into human trafficking.

事实上，这将把他们进一步推向有组织犯罪、现代奴隶制和人口贩卖。

▶ Okay.

好的。

▶ We'll Lucy Morton, good to talk to you.

露西·莫顿，很高兴和你交谈。

bilibili 00:15:08

 00:15:28

▶ Around the world and across the UK, this is the world today on BBC News.

这里是BBC新闻的《今日世界》，覆盖全球和英国各地。

以色列总理本杰明·内塔尼亚胡会见了他的参谋长，讨论继续加沙战争的选项。

▶ Israel's media is reporting the Cabinet will convene on Thursday to consider a full Gaza takeover.

▶ The red on this map you're seeing here of Gaza shows the areas controlled by the Israel Defence Forces now.

你现在看到的加沙地图上的红色区域显示了以色列国防军目前控制的地区。

 00:16:59

▶ There's a little left of Gaza not already under Israel's control, but many Palestinians still in Gaza have taken refuge in those areas.

加沙还有一小部分未被以色列控制，但许多仍在加沙的巴勒斯坦人已逃往这些地区避难。

▶ Well, because much of Gaza now looks like this, this footage was filmed by a French broadcaster in the last few days from the French military aid plane, you can see the sheer devastation.

由于加沙大部分地区现在看起来像这样，这段画面是法国广播公司过去几天从法国军事援助飞机上拍摄的，你可以看到彻底的破坏。

▶ Let's get the latest on those reports of an expanding idea of operation in Gaza with our correspondent in Jerusalem.

让我们联系在耶路撒冷的记者，获取关于加沙行动扩大的最新报道。

bilibili 00:17:26

▶ You go, but, Chagin, you go, what have we been hearing?

你来说，查金，我们听到了什么？

▶ Yeah, Maryam.

是的，玛丽亚姆。

▶ So there was a meeting today between Prime Minister Benjamin Netanyahu and senior security officials, and there have been some reports suggesting a very tense exchange between the Prime Minister and the chief of staff of the army who is against the idea of expanding military operations in Gaza, and also against this idea of fully occupying Gaza.

今天，总理本杰明·内塔尼亚胡与高级安全官员举行了会议，有报道称总理与反对扩大加沙军事行动并反对全面占领加沙的陆军参谋长之间发生了激烈争执。

bilibili 00:17:54

▶ He apparently warned the Prime Minister that this would be a trap, and that this would endanger the lives of the Israeli hostages who remain in captivity in Gaza.

他显然警告总理，这将是一个陷阱，并危及仍被关押在加沙的以色列人质的生命。

▶ And this is very much the position of the families of the hostages who say that military pressure hasn't really resulted in hostages being freed.

这也是人质家属的立场，他们认为军事压力并未真正导致人质获释。

▶ They say that a negotiated deal is the only way to guarantee the release of the hostages, and they say that any kind of expansion of military activity in Gaza would mean that the military hostages would be in the same way as the hostages.

他们表示，谈判达成的协议是保证人质获释的唯一途径，并称任何扩大加沙军事活动的行为都将使人质处于危险之中。

 00:18:23

⏮ And that would mean that the military would enter parts of Gaza where the hostages are believed to be held.

这意味着军队将进入据信关押人质的加沙地区。

⏮ 20 hostages are believed to be alive in Gaza, and their relatives are saying that time is running out to rescue them.

据信有20名人质在加沙还活着，他们的亲属表示救援时间不多了。

⏮ Now, also, you know, the Prime Minister has been facing, you know, accusations that he's prolonging the conflict to guarantee the survival of his governing coalition.

此外，总理还面临指责，称他延长冲突以保证其执政联盟的生存。

 00:18:48

⏮ He's supported by ultra-nationalist ministers who have been threatened to quit the government.

他得到极端民族主义部长的支持，这些部长威胁要退出政府。

⏮ If there's any kind of deal with Hamas, they've been talking about expelling Palestinians from Gaza, resettling it with Jews.

如果与哈马斯达成任何协议，他们一直在讨论将巴勒斯坦人驱逐出加沙，并重新安置犹太人。

⏮ And so any kind of expansion of this military activity would also raise concerns about the humanitarian situation in Gaza, and it's likely to be criticized by some of Israel's allies who have been urging the government to strike a deal with Hamas and to end the war.

因此，任何扩大军事活动的行为都会引发对加沙人道主义局势的担忧，并可能遭到以色列一些盟友的批评，他们一直敦促政府与哈马斯达成协议并结束战争。

 00:19:18

⏮ Here you go.

给你。

⏮ Thank you very much.

非常感谢。

▶ What is that that mean to fully conquer and occupy an area like that?

完全征服和占领这样的地区意味着什么？

 00:19:42

▶ That didn't have a positive effect.

这并没有产生积极效果。

▶ So what Netanyahu is now trying to do, I think, from a military perspective is he's trying to show the Israeli people that he's placing an emphasis on getting those hostages back.

所以我认为，从军事角度来看，内塔尼亚胡现在试图向以色列人民展示他重视让人质获释。

▶ Now, how do you do that?

那么，如何做到这一点？

▶ Hamas are what we call an asymmetric adversary, so they don't wear uniforms.

哈马斯是我们所说的不对称对手，他们不穿制服。

▶ They don't go with conventional laws, international humanitarian law, Geneva Conventions law and crime conflict.

他们不遵守常规法律、国际人道法、《日内瓦公约》法律和冲突罪行。

 00:20:59

 It's all outside of that.

他们完全不受这些约束。

 So we saw these pictures from Hamas of the two hostages in tunnels.

所以我们看到了哈马斯发布的两名人质在隧道中的画面。

 There are hundreds of kilometers of tunnels inside Gaza, specifically in the north in Gaza City.

加沙内部有数百公里的隧道，特别是在北部的加沙城。

 A lot of those, you can see the devastation that we've seen.

其中许多隧道，你可以看到我们看到的破坏。

 A lot of those will have succumbed to the sledgehammer of the Israeli bombing campaign.

其中许多隧道已被以色列的轰炸行动摧毁。

 00:21:20

 But what it hasn't done is it hasn't brought all the hostages back.

但它没有做到的是让人质全部获释。

 And also, it hasn't, quote unquote, destroyed Hamas.

而且，它也没有“摧毁”哈马斯。

 Now, there's an argument to say in my 30 years of terrorism and carrying servency, you can't put a bomb, a bullet, a missile or a mortar on an ideology.

在我30年的反恐和服役经历中，有一种说法是，你无法用炸弹、子弹、导弹或迫击炮消灭一种意识形态。

 So there are two components here that I think Netanyahu will be telling his IDF strategic planning teams to look at.

所以我认为内塔尼亚胡会让以色列国防军战略规划团队关注两个部分。

 00:21:41

▶ And then the second component is in doing so.

第二部分是在这样做时。

▶ How do they further?

他们如何进一步？

▶ And I use the word carefully, degrade, not destroy because I don't think you can destroy an ideology.

我谨慎地使用“削弱”这个词，而不是“摧毁”，因为我认为你无法摧毁一种意识形态。

▶ But how do you degrade Hamas even further using this, what is being called, an occupation?

但如何通过所谓的“占领”进一步削弱哈马斯？

▶ I think the second important bit to ask the question on here is, does a IDF military ideology, is does a IDF military occupation or increase of military occupation?

我认为第二个重要的问题是，以色列国防军的军事意识形态，或者说以色列国防军的军事占领或增加军事占领？

 00:22:13

▶ What does that mean in terms of the civilian population that's inside Gaza?

这对加沙内部的平民意味着什么？

▶ Because at the moment, most of the population has been displaced because of starvation, because of the IDF's a distribution points using the so called Gaza Humanitarian Foundation.

因为目前，大多数人口因饥饿和以色列国防军使用所谓的加沙人道主义基金会的分发点而流离失所。

▶ So a lot of the, as we've seen, a lot of the population is already massively displaced, which will leave areas, which we saw at the beginning of this, would have been devastated up

in the north, easier for any IDF increase in IDF capability to negotiate in terms of going into those tunnels, literally block by block, writing off, you know, where the hostages haven't been found and narrowing that gap down and degrading any Hamas capability as they do so.

所以我们看到，许多人口已经大规模流离失所，这将使北部地区更容易让以色列国防军增强能力，逐块进入隧道，排除未找到人质的区域，缩小范围并在过程中削弱哈马斯的能力。

 00:22:56

 Mikey, thank you very much indeed for coming on the show and explaining that to us.

 At least four people have been killed and dozens have been trapped in the foothills of the Himalayas in northern India.

印度北部喜马拉雅山麓至少有四人死亡，数十人被困。

 After a massive cloud burst this morning triggered heavy flash floods, driving a torrent of mud down the mountain into a tourist village full of hotels, resorts and restaurants.

今天早上，一场巨大的暴雨引发了严重的山洪，泥石流从山上冲下，涌入一个满是酒店、度假村和餐厅的旅游村庄。

 It happened in here, Uttarakhand state, rescue teams have arrived at Darali, which has borne the brunt of these floods, Samir Hussain has more.

这发生在北阿坎德邦，救援队已抵达受灾最严重的达拉里村，萨米尔·侯赛因将带来更多报道。

🎵 Rescuers frantically getting to survivors, a normally difficult place to access, made more challenging by the weather.

🎵 Rescue operations are underway until now around 20 people have been rescued of which those who are injured are received treatment in the battalion M.I.Ring.

🎵 Oceansgate, the firm behind the fatal submersible expedition to the wreck of the Titanic has been heavily criticized by the US Coast Guard Marine Board of Investigation in a damning report.

泰坦尼克号残骸致命潜水探险背后的公司“海洋之门”遭到美国海岸警卫队海事调查委员会的严厉批评。

🎵 All five people on board the Titan Sab died when the vessel imploded on a deep sea dive in June 2023.

2023年6月，泰坦号潜水器在深海潜水时内爆，船上五人全部遇难。

 00:25:09

🎵 The report found that Oceansgate's failure to follow established engineering protocols for safety, testing and maintenance of their submersible was the primary cause of the disaster.

报告发现，“海洋之门”未能遵循既定的工程规程进行潜水器的安全测试和维护是灾难的主要原因。

🎵 With me now as our science editor Rebecca Moralbecker, thanks for joining us and just talking through exactly what this report has found.

现在和我一起的是我们的科学编辑丽贝卡·莫拉贝克，感谢加入我们并详细解读这份报告的发现。

🎵 Yes, a very damning report, the investigation by the US Coast Guard has been going on for the last two years and has taken on board lots of interviews with technical experts, passengers who have been on the sub and of course looking at the wreckage itself.

是的，这是一份非常严厉的报告，美国海岸警卫队的调查已持续两年，并采纳了技术专家、曾乘坐潜水器的乘客的访谈，当然还检查了残骸本身。

 00:25:40

🎵 Basically they found that this was a disaster that was preventable.

基本上，他们发现这是一场本可避免的灾难。

🎵 Essentially the submersible was made of a very unusual material for a subcarbon fiber.

本质上，潜水器采用了一种非常不寻常的材料——碳纤维。

▶ Most subs are normally have a hull which is a bit where the passengers go made of titanium or metal but carbon fiber is a material with known flaws.

大多数潜水器的乘客舱通常由钛或金属制成，但碳纤维是一种已知有缺陷的材料。

▶ And basically that's what led to Titan imploding.

这基本上导致了泰坦号的内爆。

 00:26:05

▶ The blame for this has largely laid at the door of Stockton rush the CEO of Titan who actually died in the disaster.

责任主要归咎于泰坦号的CEO斯托克顿·拉什，他本人也在灾难中丧生。

▶ He said he was warned about the submersible on countless occasions but he didn't act on them.

据说他曾无数次收到关于潜水器的警告，但未采取行动。

▶ There were problems with the testing of the submersible, it wasn't tested properly.

潜水器的测试存在问题，未进行适当测试。

▶ There was a long range of issues with it and they said actually if he had survived the disaster he probably could have been criminally prosecuted for it.

存在一系列问题，他们表示，如果他幸存，可能会因此面临刑事起诉。

 00:26:32

▶ And it showed that it happened very quickly didn't it?

这表明事件发生得非常快，对吧？

▶ The whole event just took a matter of even under a second.

整个事件甚至不到一秒。

▶ Yeah that's right so the submersible was heading 3,800 meters down to see the Titanic and the implosion happened about 90 minutes in.

是的，潜水器下潜至3800米处观看泰坦尼克号，内爆发生在约90分钟后。

▶ And it would have been instant it would have been very very fast so the people on board wouldn't have known what was about to happen to them.

这是一瞬间发生的，速度非常快，所以船上的人不会知道即将发生什么。

bilibili 00:26:56

▶ But yeah it's a very damning investigation.

但这是一项非常严厉的调查。

▶ I mean one of the issues was that the submersible never had its safety assessed by an independent third party organisation.

其中一个问题是，这艘潜水器从未经过独立第三方机构的安全评估。

▶ And that's something the US Coast Guard wants to change going going forward with this.

而美国海岸警卫队希望在这方面做出改变。

▶ Okay Rebecca thank you so much thanks.

好的，丽贝卡，非常感谢。
