但是党本身呢？

▶ Because obviously he's the Prime Minister and he's going.

bilibili 00:09:31

⏮ At the trade union congress in Brighton, senior union figures have voiced their concerns that bill would be watered down following the resignation of Deputy Prime Minister Angela Reina on Friday.

在布莱顿举行的工会大会上，高级工会人士表达了他们的担忧：在安吉拉·雷娜副首相周五辞职后，该法案可能会被削弱。

现在有请工会大会助理秘书长凯特·贝尔。

▶ Good morning to you, Kate.

早上好，凯特。

▶ Morning.

早上好。

▶ So tell us more then about what you're calling for today at the TUC.

请详细说明今天您在工会大会上呼吁的内容。

▶ Well, absolutely, it's about getting that employment rights bill over the line.

核心是推动这项就业权利法案最终获得通过。

▶ This is a bill that could deliver a huge step change in workers' rights for the, at least for the four million people in insecure work and for many, many more.

这项法案能为工人权利带来巨大进步，至少为四百万从事不稳定工作的人以及更多群体带来改变。

 00:10:25

▶ It's a landmark piece of legislation and we've seen it going through Parliament.

这是#具有里程碑意义#的立法，我们已见证其在议会通过。

▶ As you said, it's about that ban on zero-hours contracts, a ban on fire and rehire.

如您所说，它包括禁止零工时合同、禁止"先解雇再雇佣"做法。

▶ It's about making sure that people have rights from day one, that new flexible working rights, protection from discrimination and harassment at work.

这将切实改善全国民众的生活水平。

▶ And I guess we're urging the government to get it over that final hurdle.

我们敦促政府克服最后#障碍#推动其通过。

▶ Are you very concerned now without Angela Reina in government, that these kind of rights will not get across the line?

您是否非常担心安吉拉·雷娜离开政府后，这类权利法案无法通过？

bilibili 00:11:04

▶ Well, look, Angela Reina has been a great champion of this bill, but across government we've heard commitment to it.

安吉拉·雷娜一直是该法案的重要推动者，但我们听到政府各部门都对其做出承诺。

▶ It's a manifesto commitment.

这是#竞选宣言#承诺。

▶ And just last week we heard the Prime Minister giving his whole-hearted commitment to it.

就在上周，首相还表示全力支持。

▶ But since this bill was in its inception, there's been rumors swirling that it's about to be watered down, a lot of very heavy business lobbying, calling for that to be watered down, a bit like we saw over 20 years ago when it came to the national minimum wage.

但自该法案提出以来，就一直有传言称其将被削弱，大量商业游说要求淡化内容，类似20多年前设立国家最低工资标准时的情况。

 00:11:32

▶ So I guess we just want to send that clear and strong message to government.

因此我们希望向政府传递清晰而强烈的信息：

▶ This is important to us.

这对我们至关重要。

▶ It's important to working people right across the country.

对全国劳动者都至关重要。

▶ And we know it's popular with every single voter demographic.

且其受到所有选民群体的欢迎。

▶ Let's get on with delivering it.

请务必落实这项法案。

▶ I mean, Chancellor Rachel Reew speaking to us at the BBC last week said very clearly, her budget was going to be about working people right across the country that they are all better off.

▶ Do you have confidence in her?

▶ Absolutely.

当然有信心。

▶ And it's great to hear that message.

听到这个表态很振奋。

意味着要作出与上届政府不同的选择，让劳动者真正看到工党政府带来的好处。

 Let's focus on oil and prices are going up after the OPEC plus cartel agreed to raise output again from next month in a bit to gain a bigger market share of crude sales.

关注原油市场: 在OPEC+联盟同意下月再次增产以争取更大原油市场份额后, 油价正在上涨。

 00:15:29

 Eight members of the group including Saudi Arabia, Iraq and the United Arab Emirates said they would increase their combined production quota by a total of 137,000 barrels a day.

包括沙特、伊拉克和阿联酋在内的八个成员国表示, 每日总产量配额将增加13.7万桶。

 And this comes as global supply threatens to outstrip demand.

此举正值全球供应恐超过需求之际。

▶ Let's get the view of animal adult investment manager at Aubrey Capital Management.

现在有请奥布里资本管理公司投资经理安娜·马尔特。

bilibili 00:15:49

▶ Good morning Anna.

早上好，安娜。

▶ This is an interesting move.

这是个有趣的动作。

▶ It would seem that Saudi Arabia we assume is pushing ahead with this.

看来沙特阿拉伯正在推动此事。

▶ Is changing gear and thinking more let's just flood the market with oil and not so concerned about the high price what's your take.

是否转变策略并更多地考虑直接让石油充斥市场，而不那么担心高油价，你怎么看？

▶ Well originally they cut production over the last couple of years in order to maintain higher prices.

最初他们在过去几年里削减产量是为了维持较高的价格。

bilibili 00:16:11

▶ But it starts unwinding that in earlier this year with some quite big increases over 500,000 barrels a day in August over 400,000 in September.

但今年早些时候开始扭转这一做法，8月日产量大幅增加超过50万桶，9月超过40万桶。

▶ So the market was thinking what are they going to do in October and actually this rise of 137,000 is less than expected.

因此市场原本猜测他们10月的行动，而实际13.7万桶的增幅低于预期。

▶ Hence that small rise rise in the oil price.

故而油价出现小幅上涨。

🎧 I think they say they're a big oil producer and they're kind of leader of the of the OPEC group.

我认为他们自称是大型石油生产国，且在欧佩克集团中处于领导地位。

 00:16:40

🎧 And they see that the market has borne the price rises.

他们看到市场已经承受住了价格上涨。

🎧 Sorry the supply increases reasonably well over the last few months.

抱歉 过去几个月的供应增长相当顺利。

🎧 And so they want to use up a little bit more of their spare production capacity which is really line idle and and and target more of a market share increase.

因此他们希望多动用一些闲置的备用产能，更侧重于提升市场份额。

🎧 I think the reason they've gone for a lower amount is that they are aware that there are tensions with the US.

我认为他们选择较小增幅的原因是他们意识到与美国关系紧张。

 00:17:10

🎧 It's very economic for the Saudis to produce.

对沙特而言生产非常经济。

🎧 They have a very low cost of production but that's not the same with US shell producers who would struggle to make much of a profit at this level.

他们的生产成本非常低，但美国页岩油生产商不同，在这个价格水平很难盈利。

🎧 So ahead of Saudi ruler, Kripranc Mohan had been selling a visit to Trump in to Washington in November I think they're maybe trying to play both sides quite a balance things quite well.

在沙特统治者穆罕默德·本·萨勒曼11月访问华盛顿会见特朗普之前，我认为他们可能在试图平衡双方关系。

 00:17:36

▶ And do you think they'll get it right?

你觉得他们会成功吗？

▶ Do you think prices will sort of bump along where they are at the moment?

你认为油价会在当前水平#震荡#吗？

▶ I'm just looking at Brent Crude right now 66 dollars a barrel just over that.

我正在看布伦特#原油#价格，现在每#桶#66美元多一点。

▶ Yes, I mean that's up from a low of 58 dollars in April when the market started getting wind of these production increases.

是的，这比4月份58美元的低点有所上涨，当时市场刚开始察觉这些增产迹象。

 00:17:54

▶ I think they're playing their cards keep their cards quite close to their chest.

我认为他们出牌非常谨慎。

▶ They'll respond to economic conditions as you say there could be a demand.

他们会根据经济状况做出反应，如你所说可能存在需求问题。

▶ There could be a supply glut or you know the other side of it is what happens to demand what happens to the US economy, the Chinese economy.

可能出现供应过剩，另一方面则是需求变化、美国经济和中国经济的走势。

▶ Those are all things that they're going to want to to monitor on a month-by-month basis.

这些都是他们需要逐月监测的情况。

 00:18:16

▶ And Anna what's this week looking like for you?

安娜，你这周关注什么？

▶ I'm just thinking markets in general.

我正在整体考虑市场情况。

▶ Are you braced for another busy one?

你准备好迎接又一个忙碌周了吗？

▶ What's on your radar?

你的关注#焦点#是什么？

▶ Well what we have seen is we were pretty worried about particularly UK bond yields last week.

我们上周特别担心英国国债收益率。

▶ They did actually start to fall a bit which means that there was some buying of of of UK government debt which was quite reassuring but then we've just seen another whole lot of turmoil within the UK government.

它们确实开始小幅下降，意味着有人买入英国国债令人安心，但随后我们又看到英国政府内部出现大量动荡。

 00:18:46

▶ So that's something I'm going to be keeping an eye on also.

因此这也是我会密切关注的事情。

▶ I know you've been talking about France.

我知道你一直在关注法国。

▶ We'll see you soon.

稍后见。

▶ Anna McDonald there.

安娜·麦克唐纳的报道。

▶ Well let's stay on the subject of energy over the past few decades.

让我们继续关注过去几十年的能源话题。

bilibili 00:19:06

▶ Many countries quietly stepped away from nuclear power as an option following major safety concerns with major disasters such as Chernobyl and Fukushima.

许多国家因切尔诺贝利和福岛等重大灾难引发的安全担忧，悄然放弃了核能选项。

▶ But nuclear is now no longer seen as just a legacy technology.

但核能不再被视为#传统#技术。

▶ It's becoming a cornerstone of the future energy mix climate urgency energy security and new tech like a small modular reactors a re-igniting interest.

它正成为未来能源结构的#基石#——气候紧迫性、能源安全以及小型#模块化#反应堆等新技术重新点燃了兴趣。

bilibili 00:19:33

▶ Well Dr. Samma Bilbao E Leon is director general of the World Nuclear Association and spoke to my colleague Julia Caesar explaining why she feels nuclear must be at the forefront of future energy plans.

世界核协会总干事萨玛·毕尔巴鄂·莱昂博士向我同事朱莉娅·凯撒解释说，为何核能必须处于未来能源计划的前沿。

▶ Our goal is to actually at least triple global nuclear capacity by 2050 which sounds like a very ambitious goal but it's really not.

我们的目标是到2050年至少将全球核能容量#增加两倍#，这听起来是个非常#雄心勃勃#的目标，但其实并非如此。

▶ If we actually triple in 2050 it will be still 10 percent of global nuclear capacity.

即使到2050年#增加两倍#，仍只占全球核能容量的10%。

bilibili 00:20:04

▶ You know why?

知道为什么吗？

▶ Because the demand for electricity is simply exploding.

因为电力需求正在爆炸式增长。

▶ I mean it's not just AI which this is obviously first in all of our minds but think about it we are electrifying everything.

不仅是我们首先想到的人工智能，想想看——我们正在让一切电气化。

▶ Transportation we are all moving to heat pumps we are trying to make everything electric so the demand for electricity is exploding.

交通领域都在转向热泵，我们正努力让所有东西电气化，因此电力需求正在激增。

bilibili 00:20:27

▶ I mean obviously the world is looking for clean energy for the future.

显然世界正在寻找未来的清洁能源。

▶ How clean is nuclear?

核能有多清洁？

▶ Look at the life cycle you have to look at the life cycle not just the generation is the lowest carbon emissions energy equivalent to wind so those are the two lowest carbon emissions energy generation sources that we have today.

从生命周期看——必须看整个生命周期而不仅是发电过程——它是碳排放最低的能源，与风能相当，是当今碳排放最低的两种发电方式。

 00:20:48

⌂ So how safe is nuclear power because many people will remember Chernobyl, they'll remember Fukushima and they'll think should we be putting all of our efforts into nuclear.

那么核能有多安全？因为很多人会记得切尔诺贝利和福岛，他们会思考是否应该全力发展核能。

⌂ Nuclear energy has provided 10 percent of global electricity for the last five decades.

过去五十年来，核能提供了全球10%的电力。

⌂ We've been doing this very quietly, very safely, very reliably, no other things about this but it's 10 percent of global electricity.

我们一直非常低调、安全、可靠地运作，但这就是全球电力的10%。

 00:21:16

⌂ The largest source of carbon free electricity in OECD countries.

是经合组织国家最大的无碳电力来源。

⌂ So what are the major challenges that the industry faces going forward?

该行业未来面临的主要挑战是什么？

⌂ As you know in many countries in the world in North America and Europe we have not built nuclear power plants in a few decades.

如您所知，在北美和欧洲的许多国家，我们已经几十年没有建造核电站了。

⌂ So we really are rebuilding our capabilities.

因此我们确实在重建能力。

⌂ So we are rebuilding supply chains, we are rebuilding industrial infrastructures workforce because we really need to scale at the speed that is needed to actually deliver as we were discussing what the war needs.

我们正在重建供应链、工业基础设施和劳动力，因为我们需要以实际交付要求的速度进行扩展，正如我们讨论战争需求时所说。

▶ Secret.

秘密。

 00:23:55

我们中很少有人知道具体#食谱#是什么，即便是工作团队也不例外。

▶ They'll be given on the spot when they arrive.

他们抵达现场时才会拿到食谱。

▶ They'll be briefly given and they'll be given one hour at 30 minutes to prepare a single dish.

简单说明后，他们只有一小时——确切说是三十分钟——来准备一道菜。

请介绍一下获胜者，也就是获得这项#奖学金#的人。

 00:24:15
