

Global Trade Tensions Escalate: Mexico Tariffs, JLR Cyber Attack, and Wealth Shifts

【【生词双高亮】BBC经济新闻 20250911 墨西哥对华关税战升级！中国汽车关税升至50% | 捷豹路虎遭网络攻击停产 | 甲骨文创始人短暂登顶全球首富】

Summary: Mexico announces tariffs on \$52 billion of Asian imports, primarily targeting Chinese goods like cars (50% tariff), steel, toys, and motorcycles. The move aims to protect domestic jobs and reduce the \$120 billion trade deficit with China, framed under "Plan Mexico" to boost local production. This decision is seen as aligning with U.S. trade pressures to preserve the USMCA agreement.

摘要：墨西哥计划对520亿美元亚洲进口商品加征关税，中国汽车关税升至50%，钢铁、玩具和摩托车关税提高至35%。此举旨在保护本国就业，减少对华1200亿美元贸易逆差，是"墨西哥计划"的一部分，以促进本土生产。分析认为墨西哥此举是为维护美墨加协定（USMCA）而向美国贸易保护主义政策靠拢。

▶ Is this simply Mexico trying to preserve its free trade relationship with the U.S.?

这是墨西哥为维护与美国的自由贸易关系采取的措施吗？

▶ Do you think?

您如何看待？

▶ I think it's certainly a huge step in that direction.

这无疑是在朝此方向迈出的重大一步

🎧 Mexico has long been a frustrating back door for President Trump, for goods in the United States, coming from China, and other countries like Thailand and Indonesia.

墨西哥长期作为中国、泰国和印尼等国商品进入美国的"后门" 令特朗普总统深感不满

 00:03:17

🎧 And this is President Trump's way of almost instructing Mexico that if they still want USMCA, which is the free trade agreement between Mexico and the United States, she has to make overtures in the protectionist direction of Trump, which she is now doing.

特朗普实则在告诫墨西哥：若想维持《美墨加协定》就必须配合其贸易保护主义政策——墨西哥现正照做

🎧 Almost 90% of Mexico's exports to the U.S. are currently tariff free, because of that trade agreement that they have.

受益于该协定 墨西哥近90%对美出口商品目前享受#关税#减免

🎧 Is Mexico one of the most vulnerable countries, do you think, to the impact of Trump's tariffs and global trade?

您认为墨西哥是否最易受特朗普关税政策和全球贸易影响的#脆弱#国家之一？

 00:03:52

🎧 It is indeed the risk of a imposition of major tariffs by the United States and Mexico's huge.

美国加征重大关税对墨西哥确实构成巨大风险

🎧 The U.S. is Mexico's largest trading partner, as you rightly said.

如您所言 美国是墨西哥最大贸易伙伴

🎧 At the same time, up to 50% tariffs on a whole host of Chinese made goods, up to 1400 goods, including auto parts and steels, is a huge cost to the Mexican consumer.

同时 对包括汽车零部件和钢材在内的近1400种中国商品征收最高50%关税 将大幅增加墨西哥消费者成本

▶ Who's going to pay that?

最终由谁承担？

▶ It's Mexican businesses, as well as the Mexican consumer who can no longer avail of cheaper goods coming from China.

墨西哥企业和消费者将无法再#享受#来自中国的廉价商品

▶ So there is a cost to this.

因此需要付出代价

▶ It's not a cost-free exercise.

这不是零成本举措

▶ She's well aware of it, but she's weighing the two when choosing the free trade agreement with the U.S. on balance.

总统深知这一点 但她在权衡利弊后选择维护与美国的自贸协定

▶ And from what I've seen so far, Sunnety, there's not been reaction or official lines from China on this at all, but they will feel this, won't they?

据我观察 中国目前尚未对此作出官方回应 但必将感受到冲击 对吗？

▶ China will feel this acutely and knowing China is being very thoughtful and deliberate about how they count back.

中国将#深切#感受到压力 但以中国风格 其回应方式必将#深思熟虑#且精准有力

▶ If you saw yesterday, President Trump was telling the European Union to impose tariffs on China, India, and others, as a way of pressuring Russia.

昨日特朗普还要求欧盟对中国、印度等国加征关税以向俄罗斯施压

▶ So this is very much the age of geoeconomics where geopolitics is influencing economic decisions by by countries.

这充分体现地缘政治影响各国经济决策的地缘经济时代特征

 00:05:06

 It's just fascinating to watch, Sineneh.

形势发展令人#着迷# 辛内

 Thank you very much for giving us your take on that.

非常感谢您的见解

 Sineneh, Sinhal, Haldair from Raymond James.

雷蒙德詹姆斯公司的辛内·辛哈尔

 Well, let's turn our attention now to Jaguar Land Rover.

现在关注捷豹路虎#

 It's factories remain close after the firm was hit by a cyber attack over a week ago.

该企业遭网络攻击逾一周后 旗下工厂仍处于停产状态

 Here in the UK, car plants at Hellwood and Solihole and its Wolverhampton engine facility have all halted production.

英国黑木、索利哈尔的整车厂与伍尔弗汉普顿发动机工厂均已停产

 00:05:30

 So two have facilities in Slovakia, China and India.

斯洛伐克、中国和印度的两处设施也受影响

 Former Land Rover Chief Engineer Dr Charles Tenant said the cyber attack was costing the firm around £5 million in lost profits a day.

前路虎#首席工程师查尔斯·#特南特#博士称 网络攻击导致企业日均利润损失约500万英镑

 A group of young hackers behind high profile attacks on other UK businesses have claimed responsibility for the JLR attack.

曾攻击多家英国企业的年轻黑客组织已宣称对捷豹路虎事件负责

▶ So how do we deal with this situation effectively, Professor Karen Martin is chair of the technical committee of the UK Cyber Monitoring Centre?

如何有效应对？英国网络监控中心技术委员会主席卡伦·马丁教授将进行分析

bilibili 00:06:02

▶ First of all, what can you tell us about the situation at JLR?

首先请介绍捷豹路虎现状

▶ What are you hearing about their situation?

您了解到哪些情况？

▶ Well, it's ongoing.

事件仍在#持续#

▶ It's into its second week.

已进入第二周

▶ Some of the disruption has been caused by Jaguar Land Rover taking their own systems offline to try to contain it.

部分停产是捷豹路虎#为控制事态主动关闭系统所致

▶ That can be standard practice.

这属于标准操作

▶ It's a big risky call.

但决策风险极大

▶ In a lot of these cases in the past, and indeed in this case, we've heard a lot about people worrying about customer data protection and so forth, and that reflects the legal position, the legal obligations of these companies.

既往多数案例（包括本次）中 企业多关注客户数据保护等法律义务

bilibili 00:06:37

▶ But here, as the former engineer at Jaguar has said, the real issue is they've had to shut down plant and they've had to shut down plant, not because really complicated pieces of machinery aren't working, but their own operating corporate system isn't working.

但正如前工程师所言 本次停产根源并非精密机械故障 而是企业运营系统瘫痪

▶ So shift patterns can't be maintained, things can't be paid and so forth.

导致无法排班、支付款项等#

▶ So it's just that huge disruption, which has led to not just the temporary closure and restriction of four factories in the UK, but factories in China, India, Slovakia and Brazil as well.

巨大 disruption 不仅造成英国四家工厂停产 中国、印度、斯洛伐克和巴西工厂也受波及

 00:07:12

▶ So it's one of the most disruptive industrial cyber attacks ever to hit the UK.

这是英国史上最具破坏性的工业网络攻击之一

▶ Yeah, and we shall see how that plays out, but how should a company deal with this when they realise they are a victim?

后续发展值得关注 企业#意识到#受害后应如何应对?

▶ What should they be doing?

具体措施?

▶ Well, I think in terms of prevention, there is, now it has to be much more focus on preventing these disruptive attacks.

当前必须更加注重#预防#此类破坏性攻击

 00:07:37

▶ These things that stop you from working, from producing goods, from delivering services.

防止运营、生产和服务中断

▶ And we've built this whole edifice around an almost obsession, around personal data.

我们过度关注个人数据保护 建立了整套#体系#

▶ It's the ability to keep going that absolutely matters.

但持续运营能力才至关重要

▶ And I think, again, in terms of prevention, something that a lot of the recent cyber attacks in the UK and elsewhere have in common, there appears to be a strong link with the supplier or third party partner of some kind.

近期全球多起网络攻击都存在共同点：与供应商或第三方合作伙伴密切相关

bilibili 00:08:04

▶ So companies really need to be checking in on those, checking in on their cyber security.

企业必须加强对合作方的网络安全审查

▶ And the third thing is having a plan for disruption.

第三是制定应急预案

▶ Every organisation should be thinking about how they would cope if a key system went offline.

所有#组织#都应规划关键系统瘫痪时的应对方案

▶ Once you're in the position, it's essentially about getting the technical details right, getting work around so that you can keep some of the operations going for some of the time and getting the support ends so you can fix the system as quickly as possible.

事发后需精准技术处理 建立临时解决方案维持部分运营 并获取技术支持以尽快修复系统

bilibili 00:08:34

▶ And what about the hackers themselves?

黑客方面如何应对？

▶ Are they getting away with criminal damage here?

他们能逍遥法外吗？

▶ Often they are.

往往如此

▶ And what you find in these sorts of attacks, although it looks like not this one, is that around three quarters of the perpetrators tend to be in difficult to reach jurisdictions like Russia, where our police forces can't get at them.

此类攻击中（本案除外）约四分之三作案者位于俄罗斯等司法管辖区 警方难以缉拿

▶ These hackers, apparently,

这些黑客显然

 00:08:55

▶ If media reporting is correct, are English native speakers of English and perhaps some of them at least being British-born and based in the UK.

如果媒体报道属实，这些被捕者都是英语母语者，其中至少部分人可能是在英国出生并定居的英国人。

▶ Those arrested, they're not yet charged if the Marxist-sponsors attacks are resident in the UK.

被捕者尚未被起诉——如果这些#马克思主义#煽动性攻击者确实居住在英国。

▶ But I think one of the things that you find, the technical details and the forensic details for police in cases like this take quite a while to come through.

但值得注意的是，此类案件中警方获取技术细节和取证细节通常需要较长时间。

 00:09:21

▶ So there may well be arrests, watch this space, the National Crime Agency, and all those will be working around the clock to try to make sure that they apprehend the perpetrators if they can and when the criminals are based in some more likely UK, that's often what happens.

因此很可能会有逮捕行动，请持续关注——英国国家犯罪调查局及相关机构将全天候工作，力争缉拿罪犯。当犯罪分子更可能以英国为基地时，这种情况经常发生。

▶ Professor Kiran Martin, thank you for for explaining all of this.

基兰·马丁教授，感谢您对这些情况的详细解读。

🎧 Now let's ask the question, who is the world's richest person?

现在让我们关注这个问题：谁是世界首富？

 00:09:47

🎧 Well, it was changing by the minute yesterday.

昨日的首富之位每分钟都在变化。

🎧 Elon Musk briefly lost the title to Larry Ellison, co-founder of Oracle.

埃隆·马斯克曾短暂将这一头衔让给#甲骨文#联合创始人拉里·埃里森。

🎧 Ellison's wealth surged nearly \$400 billion on Wednesday morning according to the Bloomberg Billionaires index.

根据彭博亿万富豪指数，埃里森的财富在周三早晨暴涨近4000亿美元。

🎧 That's after shares in Oracle's soared on Wall Street, it meant that for a time his wealth was estimated to be around \$8 billion higher than that of Tesla boss Elon Musk.

此前甲骨文公司在华尔街股价飙升，这意味着其财富一度比特斯拉老板埃隆·马斯克高出约80亿美元。

 00:10:13

🎧 Watching all the action in New York was Aaron Delmore.

亚伦·德尔莫尔在纽约见证了全程。

🎧 Larry Ellison, the founder and chairman of the Software Giant Oracle briefly became the richest person in the world on Wednesday after shares of his tech firm soared by more than a third.

软件巨头甲骨文创始人兼董事长拉里·埃里森周三曾短暂成为世界首富，因其科技公司股价涨幅超三分之一。

🎧 Mr. Ellison is also the top shareholder of Oracle and owns more than 40 percent of the company.

埃里森同时是#甲骨文#的最大#股东#，持有公司超40%股份。

bilibili 00:10:31

▶ Oracle reported huge orders for its cloud computing services on the strength of AI, sending its growth forecast and its share price soaring.

#甲骨文#宣布凭借人工智能获得大量云计算服务订单，推动其增长预期与股价飙升。

▶ That briefly put Mr. Ellison's wealth at more than \$390 billion on Wednesday according to the Bloomberg Billionaires index, marking a more than \$100 billion increase on Wednesday alone.

根据彭博亿万富豪指数，这使埃里森周三财富一度突破39000亿美元，仅单日增幅就超1000亿美元。

▶ Now, you can bet that was the biggest one-day increase on record.

这无疑创下了史上最大单日财富增长纪录。

bilibili 00:10:53

▶ Mr. Ellison's been waiting a long time to claim this title.

埃里森为获得这一头衔已等待多年。

▶ Oracle's been around since the late 1970s and Mr. Ellison himself is 81 years old.

#甲骨文#自1970年代末成立至今，埃里森本人现已81岁高龄。

▶ For a time on Wednesday, Mr. Ellison's net worth exceeded that of Elon Musk who has a net worth of \$385 billion according to the Bloomberg Billionaires index.

周三期间，埃里森净资产一度超过身家3850亿美元的埃隆·马斯克（据彭博亿万富豪指数）。

▶ Tesla shares make up the bulk of Mr. Musk's fortune and have fallen by more than 12 percent this year.

特斯拉股票构成马斯克财富的#主体#，但今年已下跌超12%。

bilibili 00:11:15

▶ Now, let's head to Frankfurt, where the Eurozone is very much in focus because the European Central Bank is holding its meeting to decide on interest rates.

现在转向法兰克福——欧元区正备受关注，因欧洲央行正在召开利率决策会议。

▶ And it's expected they will keep them steady at 2 percent.

预计将维持利率在2%不变。

▶ The Eurozone is facing mountain economic challenges in both France and Germany, the two biggest economies in the Eurozone, not to mention, of course, the effects of Trump's tariffs.

欧元区正面临法德两大经济体的严峻经济挑战，更不用说特朗普关税政策的影响。

bilibili 00:11:39

▶ Marika Blom is chief economist and head of research at IMG.

玛丽卡·布洛姆是IMG首席经济学家兼研究主管。

▶ Hello to you.

您好。

▶ Good morning.

早上好。

▶ So rates will stay unchanged across the Eurozone, do you believe?

您认为欧元区利率将维持不变吗？

▶ Yes, and most of all, they've already indicated all the decision-makers have said that they believe that the bar for another rate cut, which of course they've been doing over the last couple of months, is set really high at this moment.

是的，最关键的是所有决策者都已表态：进一步降息的门槛目前设得非常高——尽管过去几个月他们一直在降息。

bilibili 00:12:02

▶ Why would they say that because we are seeing that the numbers that are coming in despite the trade we're going on and so forth, are okay-ish.

之所以如此判断，是因为尽管存在贸易摩擦等问题，当前经济数据表现尚可。

▶ The economy is performing rather well.

经济表现相当良好。

▶ You can see that industrial production seems to be picking up a bit when you're looking at business sentiment, for example.

例如观察商业#情绪#可见工业生产正略有回升。

▶ Also that has bottomed out, so maybe we will see a bit of growth in the industrial sectors.

该指标已触底反弹，工业领域或将出现增长。

 00:12:30

▶ And the trade deal is not something to be very happy about, but maybe also it's not that dramatic.

贸易协议虽不令人满意，但可能也不至于造成剧烈影响。

▶ So all that information coming in combined with inflation still being a dead above that 2% that they're trying to achieve, we believe that they won't be cutting rates any further.

综合这些信息，加上通胀率仍略高于他们试图实现的2%目标，我们认为不会进一步降息。

▶ How tricky is it to manage this at the moment for Christine Legaud and her team?

当前克里斯蒂娜·拉加德及其团队管理政策的难度有多大？

 00:12:55

▶ Of course, all over our output yesterday was the protest going on in France, the political turmoil there.

当然，我们昨日全程报道了法国持续进行的抗议活动及其政治#动荡#。

▶ It's about the economic woes of France.

这关乎法国的经济困境。

▶ We know that Germany is having a tough time.

我们知道德国也处境艰难。

▶ It's not easy at the moment, is it?

目前形势确实不容乐观，对吗？

▶ No, no, it isn't because there's so many mixed signals.

确实如此，因为存在太多矛盾信号。

▶ And when you're thinking about it, it's not just these countries, it's not just France that's going on.

值得注意的是，不仅法国如此，其他国家也面临类似情况。

 00:13:19

▶ It's also that we're seeing a strong euro, for example, which means that everything we're importing will become cheaper.

例如欧元走强意味着进口商品价格下降。

▶ We're also seeing low energy prices.

能源价格也处于低位。

▶ And there still is, as you're saying, a lot of uncertainty.

如您所说，不确定性依然存在。

▶ And when you look at France, there will be a lot of debate within the governing council, whether that's already a reason to respond to this.

观察法国局势时，管理委员会内部将就是否需要对此作出反应展开激烈讨论。

 00:13:41

▶ All that political turmoil slows the economy down because it leads to uncertainty.

政治#动荡#会导致不确定性，从而拖累经济发展。

▶ It also leads to higher interest rates at the longer end of the interest rate curve.

还会推高利率曲线远端的利率水平。

▶ But at the other hand, it's also a symbol of politicians that are not able to come to sustainable budget conclusions amongst themselves.

另一方面，这也反映出政界人士无法在内部达成可持续的预算结论。

▶ And that pressure coming from the market is also something that some of the decision makers within the ECB will find important to keep on.

欧洲央行部分决策者认为维持市场压力也至关重要。

bilibili 00:14:10

▶ So we expect the heat of debate, but not necessarily a change.

因此我们预期将出现激烈辩论，但不一定会有政策变化。

▶ All right.

好的。

▶ Marie Cableon, thank you from ING.

感谢ING的玛丽·凯布尔隆。

▶ Let's squeeze in some other business news.

现在插播其他商业新闻。

▶ Shares in by now, pay later, Linda Klaner, jumped on their first day of public trading in the US, giving the firm a market value of more than 19 billion dollars.

"先买后付"公司Klarna在美国首日上市股价大涨，市值突破190亿美元。

▶ It's a significant milestone for the Swedish lending giant, which cost itself as a challenger to credit cards and traditional banks.

这对这家自诩为信用卡和传统银行挑战者的瑞典借贷巨头而言是个重要里程碑。

bilibili 00:14:37

▶ Founded in 2005, the company is known for allowing shoppers to pay for purchases in smaller, interest-free installments and has proven popular with roughly 93 million active users across 26 countries.

该公司成立于2005年，以允许消费者免息分期付款而闻名，在26个国家拥有约9300万活跃用户。

▶ The American farmer, Sue Tegelstein, MSD, is scrapping the plan.

美国制药公司默沙东（MSD）宣布取消计划。

▶ Billion pound expansion of its operations in the UK, saying the government here is not investing enough in the sector.

放弃在英国耗资数十亿英镑的业务扩张，称英国政府对该领域投资不足。

 00:15:01

▶ The multinational business, known as Merck in the US, said it would move its life sciences research to the US and cut more than 100 UK jobs, blaming successive governments for undervaluing innovative medicines.

这家在美国名为默克的跨国企业表示，将把生命科学研究转移至美国，并削减超100个英国岗位，指责历届政府低估创新药物价值。

▶ Around the world and across the UK, this is BBC News.

BBC新闻为您报道全球与英国各地消息。

▶ The full story of some of the UK's most shocking crimes, one of the most dramatic trials that the old Bailey has seen, told by those who lived through them, one of the most horrific weapons I've seen, and those who live to deal with the aftermath.

通过亲历者叙述还原英国最骇人罪案全貌：老贝利法院史上最戏剧性审判之一、“我见过最可怕的武器”以及善后工作者的故事。

 00:15:41

▶ Justice doesn't take away my pain.

正义无法消除我的痛苦。

▶ The big cases watch on BBC iPlayer.

重大案件请关注BBC iPlayer。

▶ The art of good conversation is to say the right thing at the right time and in the right way.

优质对话的艺术在于在恰当时间以恰当方式说恰当的话。

▶ You have to be original, sympathetic, encouraging and also keep an open mind and you really do just need to sit back and listen.

需要具备原创性、同理心、激励性并保持开放心态——有时更需要静心倾听。

▶ Catty Kay meets with visionaries of arts and culture to find out what sparks their creativity.

凯蒂·凯对话艺术文化领域梦想家，探索他们的#创造力#源泉。

 00:16:13

▶ Influential with me, Catty Kay, watch on BBC iPlayer.

#影响力#人物——与凯蒂·凯对话，尽在BBC iPlayer。

▶ This is Business Today.

这里是《今日商业》。

▶ I'm Sally Bondock.

我是莎莉·邦多克。

▶ In the United States, more closely watched inflation data will be released later today.

美国今日稍晚将发布备受关注的#通胀#数据。

▶ This is the Consumer Price Index.

即消费者价格指数。

▶ Economists expect to see a slight rise in prices in August.

经济学家预计8月价格将小幅上涨。

▶ Yesterday, we had producer prices in the US.

昨日公布的美国生产者价格指数。

 00:16:44

▶ It unexpectedly fell in August, which is fueling expectations.

意外出现环比下降，这增强了市场预期。

▶ The Federal Reserve can go ahead with a chunky rate cut when it meets next week.

美联储可能在下周会议实施大幅降息。

▶ Something President Trump has been calling for four months.

这也是特朗普总统四个月来持续呼吁的。

▶ Let's bring in Dr. Sean Snaithe, Director of the Institute for Economic Forecasting at the University of Central Florida.

现在有请中佛罗里达大学经济预测研究所所长肖恩·斯尼思博士。

bilibili 00:17:04

▶ Hello to you.

您好。

▶ So the slight drop in August to produce a price came as a surprise, didn't it?

8月生产者价格指数小幅下降令人意外，对吗？

▶ It did because there was some concern, at least being raised by the Fed that the various tariffs might lead to price pressures going forward.

确实如此，因为美联储曾担忧各类关税可能导致未来价格压力上升。

▶ So this would show up most prominently in these producer price indices.

这种压力最显著体现在生产者价格指数中。

▶ That did materialize.

但这种压力并未成为现实。

bilibili 00:17:31

▶ So I think that data today, the downward revisions to the employment data that took place recently, really build a much more solid case to cut rates than the Fed had back in 2024, quite frankly.

坦率说，今日数据加上近期就业数据下修，比美联储2024年时更有充分理由降息。

🎧 And today, will the data we get on consumer prices will that add to the solid case, do you think?

那么今天即将公布的消费者价格数据，您认为是否会进一步强化这一明确趋势呢？

🎧 I think it depends what happened with producer prices is necessarily going to manifest itself in the CPI data tomorrow.

我认为这取决于生产者价格的变化，其影响必然会在明天的CPI数据中#显现#出来。

 00:18:06

🎧 Unless there's some, you know, shockingly hot data reading here, I would imagine that this probably isn't going to change the likelihood of a cut next week.

除非出现异常火爆的数据读数，否则我认为这大概率不会改变下周降息的可能性。

🎧 What is your outlook for the US economy?

您对美国经济的#展望#如何？

🎧 It feels like for the Fed, obviously, they're in a very difficult position because of the pressure they're getting from the White House.

显然美联储目前处境艰难，因为他们正承受来自白宫的压力。

 00:18:29

🎧 But they've got to really tread carefully, haven't they, in the months ahead, when it comes to their management of rates?

但在未来几个月的利率管理方面，他们必须格外#谨慎#行事，不是吗？

🎧 Yeah, they've come under criticism.

是的，他们一直受到批评。

🎧 And it's not just brow beating from President Trump.

这不仅仅是特朗普总统的#口头#抨击。

▶ Some of the decisions that have been made over the course of the COVID-19 economic cycle here in the United States, I think have been increasingly questioned.

我认为在美国新冠疫情经济周期中做出的一些决策正受到越来越多质疑。

bilibili 00:18:54

▶ Yeah, I think they do have to proceed somewhat cautiously, but also, you know, look at the preponderance of the data.

是的，他们确实需要谨慎推进，但同时也要关注数据的#主导性#趋势。

▶ They started cutting last year, stopped.

他们去年开始降息后又暂停了。

▶ Now we're starting to see inflation much closer to targets, but we're also starting to see softness in the economy, in particular, the labor market.

现在通胀正逐渐接近目标水平，但经济疲软也开始显现，尤其是劳动力市场。

▶ So I wouldn't expect a large cut.

因此我不预期会有大幅降息。

bilibili 00:19:16

▶ I think they'll take baby steps and, you know, starting with a quarter percentage point next week and probably following that up in the final two meetings of the year with similar rate cuts.

我认为他们会小步推进，比如下周先降息25个基点，可能在年底最后两次会议上继续类似幅度的降息。

▶ Okay.

好的。

▶ Dr. Shaw, Snaith, thanks again for your time.

肖博士、斯内斯，再次感谢您拨冗参与。

▶ Staying up late for us.

您为我们熬夜到这么晚。

▶ We'll see you again soon.

我们很快会再联系您。

▶ I'm sure.

一定会的。

▶ Now, technology companies descended on Berlin this week for Europe's biggest consumer electronics show known as the Innovation for All or IFA.

本周科技企业齐聚柏林，参加欧洲最大的消费#电子#展——"全民#创新#"展览会（IFA）。

bilibili 00:19:43

▶ As you would expect, artificial intelligence was at the forefront of many of the gadgets on a show.

正如所料，人工智能成为展会上众多电子设备的#核心#亮点。

▶ Our tech now reporter, Alasdek Keen caught up with Samsung's chief marketing officer who explained how they're using AI to deliver a different experience for consumers.

本台科技记者阿拉斯代尔·基恩采访了三星首席营销官，对方解释了如何利用AI为消费者提供差异化体验。

▶ The data as little as how loud you watch your TV, right?

即便是您看电视的音量大小这样的数据。

bilibili 00:20:06

▶ So I'll give you an example.

我举个例子。

▶ You know, if somebody, you know, sets the volume at level 10 versus 20, right?

如果有人将音量设为10级#对比#20级。

▶ That's a piece of information that's somewhat irrelevant, right?

这个信息本身可能看似#无关紧要#。

🎧 But if you add that data to how you use your smartphone and if you're using a lot more voice versus data and then your volume on TV is set to 25, there's a good chance that you're a senior person, right?

但若结合您使用手机的习惯——比如更多使用语音功能而非数据操作，再加上电视音量设为25级，就很可能推断出您是长者。

 00:20:32

🎧 With that information, now I can suggest services that are more relevant for senior citizens, right?

基于这些信息，我就能推荐更适合老年群体的服务。

🎧 And you didn't have to give me that information.

而您无需主动提供这些信息。

🎧 We were able to need that information together, right?

我们通过数据整合就能实现。

🎧 And then make the suggestion that are relevant, right?

进而提供相关建议。

🎧 And that's just a one piece of example that we could do with just various of data that we're collecting.

这只是我们利用收集到的各类数据所能实现的案例之一。

 00:20:54

🎧 And as an individual piece of data, it may be irrelevant, but once you start needing this data together, it becomes very relevant, that is the sort of thing though that scares customers, right?

单条数据可能无意义，但数据聚合后就会产生价值——不过这种操作确实会让用户担忧。

🎧 You're able to create a very accurate picture of someone, how they live their life when they're in the house, when they're not in the house, how old they are without someone telling

them.

你们能在用户未主动告知的情况下，精准构建其生活画像：居家状态、外出动态甚至年龄信息。

▶ That's a fantastic question, right?

这个问题提得非常好。

bilibili 00:21:20

▶ It's all about your choice, right?

一切取决于用户选择。

▶ So if you opt into these services, we could actually provide those suggestions.

若您#选择#启用这些服务，我们才能提供相应建议。

▶ If you opt not to participate, we will not use your data.

若您#选择#不#参与#，我们绝不会使用您的数据。

▶ Now before we close, let's get some thoughts on how to get our brains operating at peak efficiency.

节目结束前，让我们关注如何让大脑保持巅峰#效率#。

▶ That is the focus of the business book of the year, announced just last night, right here in London.

这正是昨晚在伦敦揭晓的年度最佳商业书籍的核心主题。

bilibili 00:21:51

▶ And this year's winner is Hyper Efficient, published by Yellow, Kite and written by Mittou Stouroni, who I'm delighted to say joins me live this morning.

今年获奖作品是由Yellow Kite出版社出版、米图·斯托罗尼撰写的《超高效》，很高兴作者今早来到节目现场。

▶ Congratulations.

恭喜您。

▶ Thank you so much.

非常感谢。

▶ Thank you for having me.

谢谢邀请。

▶ Have you had much sleep?

您休息得好吗？

▶ I presume you had a late night, celebrating.

我#猜想#您昨晚庆祝到很晚。

▶ I did.

确实。

▶ I did.

是的。

 00:22:12

▶ It was all worth it.

但一切都很值得。

▶ But because you're an expert in getting your brain to peak efficiency, you're coping with this very well.

不过作为大脑巅峰#效率#专家，您应对得游刃有余。

▶ So just talk us through what's in your book.

请简单介绍下您书中的内容。

▶ Yeah, I mean, the way we work currently is modeled almost entirely on the kind of industrial era assembly line type working, where you kind of work continuously at the same pace at the same rate.

当前的工作模式几乎完全模仿工业时代流水线作业——以固定节奏和速度持续工作。

 00:22:35

🎧 And now that we are shifting, that the work landscape is shifting to an era where we're using AI as your last report just mentioned, we are working a lot more with the quality of our thoughts rather than just the quantity of what we're producing.

随着工作场景向AI时代转型（正如刚才报道提到的），我们更应关注思考质量而非单纯的生产数量。

🎧 We really need to think about what environment is best for the brain to flourish in and the assembly line environment really isn't the right one.

需要思考最适合大脑高效运作的环境，而流水线模式显然不合适。

🎧 So in fact, the brain has got its inherent rhythms and it has its own way of working, which is actually incompatible with the continuous sort of slog that we put the brain through in any standard job.

大脑自有其内在节律和工作方式，这与常规工作中持续性的机械劳作根本不相容。

 00:23:16

🎧 So this book tells you what this new way of working is and how if you work slightly differently, you can actually really produce better work rather than just produce quantities and quantities of work that maybe isn't as good as you'd like it to be.

本书阐述了这种新工作模式：通过调整工作方式，你不仅能提升工作质量，还能避免大量低效产出。

🎧 So it's not about quantity, it's about quality and it's about using your brain to get the best performance possible.

核心不在于数量，而在于质量，在于充分激发大脑潜能。

🎧 But for those who are working on a production line, is this not relevant then, because they are doing a monotonous job?

但对于生产线工作者，这是否不适用？因为他们的工作本身就很#单调#。

 00:23:49

🎧 I mean, and there are plenty of people who are in those jobs for good reason.

确实有很多人从事这类工作。

▶ Absolutely, you know, at the moment, the production line template exists and no matter what your job is, your brain will do better if given that template, you make some tiny adjustments so that you allow your brains to still work rhythmically, to still work in a way that is very compatible with the way the brain naturally likes and wants to work.

当然适用。现有流水线模板下，无论从事何种工作，只要稍作调整让大脑保持节律性运作——以符合其天然偏好的方式工作，都能表现更出色。

▶ So what kind of adjustments?

具体哪些调整呢？

 00:24:21

▶ Just briefly, because we're intrigued.

简单说说，我们很好奇。

▶ What kind of little adjustments can we make?

可以做哪些微调？

▶ So the brain is, for instance, it's very rhythmic.

大脑具有很强节律性。

▶ So if you look at the kind of work you're doing in a typical day, you know, as a little example, your creativity peaks first thing in the morning and last thing in the evening, you also have a sort of a 90-minute cycle where you can't force your attention to kind of stay constant for more than around 60 to 100 minutes, so around about 90 minutes.

例如：清晨和夜晚是创造力高峰，注意力集中周期约90分钟（60-100分钟），无法持续更久。

 00:24:50

▶ And if you work in a way that is a little bit like a sort of like a wave, so you're working really short intensities where you have really intense bouts, there's a short duration intense bouts and then you kind of loosen up your pace and intensity of work and you repeat that as a rhythmic cycle.

采用波浪式工作法：短时高强度冲刺后放松节奏，如此循环往复。

▶ You can actually get a lot more out of your brain, out of your mind, out of your workday, in fact, than working in a kind of standard flatline template.

相比平缓的工作模式，这样能更大程度激发大脑潜能，提升每日产出。

▶ So within that template, you can kind of wax and wane according to your brain's own rhythms.

在既定框架内，根据大脑节律#张弛#有度地工作。

bilibili 00:25:24

▶ Okay.

明白了。

▶ Well, it sounds really fascinating and congratulations once again for winning the business book of the year, 2025, Mitu, Sterone, thank you for getting up so early to talk to us.

听起来非常精彩！再次恭喜您获得2025年度最佳商业图书奖，米图·斯托罗尼，感谢您早起接受采访。

▶ Thank you so much for having me.

非常感谢邀请。

▶ Hyper efficient.

《超高效》。

▶ We all want to be that, don't we?

我们都想达到这种状态不是吗？

▶ Hyper efficient.

超高效。

▶ Well, I hope your brain hasn't been too overloaded by this program.

希望本期节目没让您的大脑超负荷。

 00:25:50

 Thank you so much for your company.

感谢各位的陪伴。

 Have a lovely day.

祝您有愉快的一天。

 I will see you soon.

很快再见。

 Hello there.

大家好。

 The weather is looking very unsettled through the rest of this week and into next week as well.

本周剩余时间直至下周，天气都将非常#多变#。

 For Wednesday, we're going to find some spells of sunshine, but there will be some showers on some blustery winds as well.

周三间或有阳光，但也会出现阵雨并伴有大风。

 We've seen a band of rain sweep across the UK on Tuesday as heading out into the north, seeing up towards the northern aisles, but low pressure sits to the northwest and that's going to feed in the showers.

周二降雨带横扫英国北部地区，低压系统盘踞西北部将继续带来阵雨。

 00:26:32

 So, mainly showers across western areas in the east.

西部和东部地区以阵雨为主。

 It may start dry, but those showers will develop more widely, some heavy and thundery and blown across by some quite blustery winds.

东部初期或放晴，但阵雨范围将扩大，部分地区有强雷雨并伴随大风。

▶ Strongest winds, probably towards the northwest of Scotland, where we could see some longer spells of rain.

最强风势可能出现在苏格兰#西北部#，当地可能出现持续降雨。

▶ It's likely to feed a bit cooler, I think, on Thursday,

预计周四气温会略有下降。

 00:26:49

▶ The temperatures only around 15 at best in Northern Ireland and perhaps 19 towards East Anglia and the southeast of England.

北爱尔兰最高气温仅15度左右，东安格利亚和英格兰#东南部#或许能达到19度。

▶ That low pressure is still close by as we head into Friday.

随着周五的到来，该低压系统仍徘徊在附近。

▶ So, not too much is going to be changing.

因此天气不会有太大变化。

▶ Again, it's going to be a mixture of sunshine and showers.

依然会是阳光和阵雨交替的天气。

▶ Perhaps not quite as many showers, Eastern Air is looking a little bit drier.

东部地区的阵雨可能有所减少，天气略显干燥。

 00:27:08

▶ There won't be as many heavy showers, either.

强降雨天气也不会像之前那样频繁。

▶ And the winds not quite as strong on Friday, but those temperatures aren't changing very much at all.

周五风力也会减弱，但气温基本维持原状。

▶ Again, it will feel a little on the cool side.

体感上仍会有些凉意。

🎵 We've got temperatures, typically around 16 to 18 Celsius.

气温普遍维持在16至18摄氏度之间。

🎵 And even into the weekend, we've got a mixture of sunshine and showers, the start of the weekend.

直到周末初期，仍将持续晴雨相间的天气。

 00:27:26

🎵 On Sunday, though, we're going to find a spell of rain moving in, and that will be accompanied by some much stronger winds with another area of low pressure.

但到周日，将会迎来一段降雨天气，伴随另一低压系统而来的还有更强风力。
