bilibili 00:29:54

▶ Hi Jane, thanks very much.

你好简，非常感谢。

▶ Good evening to you.

晚上好。

▶ We have noticed the weather is turning, got more unsettled.

我们注意到天气正在转变，变得更加不稳定。

▶ We've got low pressure, firmly in the driving seat now.

现在是低压牢牢主导着天气。

⏮ So the next few days look pretty blustery at times with sunny spells scattered heavy, thundry downpours.

所以未来几天有时会相当大风，间中有阳光，并有分散的强雷阵雨。

⏮ Of course, our gardens, lotments and the crops do need it.

当然，我们的花园、小片土地和庄稼确实需要雨水。

🎵 00:30:11

⏮ Here it is, this area of low pressure, which is going to continue to throw weather fronts our way, enhancing the showers by Friday.

就是这片低压区，它将继续向我们输送天气锋面，到周五时会增强阵雨。

⏮ It could be something a little bit heavier across the southeast, to being a more than that in just a moment.

东南部地区的雨势可能会稍大一些，稍后详细说明。

⏮ The showers which we've had today, central and eastern areas of England, eastern Scotland will fade away.

今天英格兰中部和东部地区、苏格兰东部的阵雨将会逐渐减弱停止。

🎵 00:30:26

⏮ So here it'll be drier, a bit cooler, could be down to single digits across the eastern areas, but further west we hold onto the blustery weather with further showers.

所以这些地方会更干燥，更凉爽一些，东部地区气温可能降至个位数，但更西边的地方将继续有大风天气和阵雨。

⏮ So we start with the showers tomorrow and the west, further east we start with some sunshine before scattered showers develop widely.

所以明天西部以阵雨开始，更东边的地方则以一些阳光开始，之后广泛地区会发展出分散阵雨。

⏮ And again, there will be blustery, some of them heavy, thundry, maybe some hail mixed into some of them.

同样地，会有大风，有些阵雨会很大、有雷声，可能有些还夹杂着冰雹。

bilibili 00:30:44

⏮ And temperatures closer to where we should be for the time of year, but it won't feel quite warm when we have the showers moving through.

气温将更接近这个季节应有的水平，但当阵雨经过时，不会感觉很暖和。

⏮ Could see a spell of heavy rain spreading across southern and southeast England early on Friday.

周五早些时候可能会有一段时间的大雨蔓延至英格兰南部和东南部。

⏮ That'll clear through to leave once again another day of sunshine and blustery heavy, thundry downpours and temperatures perhaps a little bit lower, 20, maybe 21 degrees.

大雨过后将再次迎来另一天，有阳光和大风的强雷阵雨，气温可能会稍低一些，20或21度。

bilibili 00:31:04

⏮ Otherwise, it's the high teens for most.

除此之外，大部分地区最高气温在十几度（华氏温度，约-7到-1摄氏度；此处按原文数字直译，实际指华氏温度的高位十几度，约摄氏-7到-1度）。

⏮ Now, our area of low pressure does ease a little bit as we head into the weekend.

现在，随着我们进入周末，我们的低压区确实会略有减弱。

⏮ So a rich of high pressure might bring a nice start to Saturday before this next area of low pressure moves in to bring wet windy weather with gales across central, northern and western areas.

所以一股强高压可能会给周六带来一个良好的开端，然后下一个低压区会移入，带来潮湿多风的天气，并伴有大风，影响中部、北部和西部地区。

bilibili 00:31:20

⏮ So a dry day for much of the eastern England eastern Scotland before the clouds build, the strong winds, the rain pushes in and during Saturday night, it'll sweep across England and Wales as well.

因此，英格兰东部和苏格兰东部大部分地区将是干燥的一天，之后云层增厚，强风和雨水涌入，周六夜间，风雨将席卷英格兰和威尔士。

🎧 So probably Sunday looking like being the better day of the weekend regards to drier weather, certainly in the south and east, but you'll see the upcoming week.

所以周日可能是周末天气较好的一天，会更干燥，尤其是在南部和东部，但你会看到未来一周的天气。

🎧 Well, next week, I should say, is going to stand settle with further sunshine and showers.

嗯，应该说，下周天气将保持稳定，继续是阳光和阵雨。
