

Nvidia Bets \$100 Billion on OpenAI in AI Arms Race

【BBC经济新闻 20250923 英伟达千亿美元押注OpenAI | TikTok算法受审 | 西班牙野火损失惨重】

Summary: Nvidia, the world's most valuable company, announces a massive \$100 billion investment into OpenAI to build next-generation AI data centers. Separately, the White House reveals a deal for Oracle to audit TikTok's US algorithm to counter Chinese influence. Meanwhile, Spain faces severe economic losses from summer wildfires, and a new report highlights empathy as a crucial driver for business success, warning companies against over-relying on AI for customer interactions.

摘要：全球市值最高的公司英伟达宣布向OpenAI投资高达1000亿美元，用于建设下一代人工智能数据中心。与此同时，白宫披露协议，将由甲骨文公司审计TikTok在美国的算法，以应对中国影响力。此外，西班牙因夏季野火面临严重经济损失，一份新报告强调同理心是商业成功的关键驱动力，并警告企业不要过度依赖AI进行客户互动。

bilibili 00:00:06

🎬 In video puts its chips on the table as it announces plans to invest a massive \$100 billion into OpenAI.

英伟达亮出底牌，宣布计划向OpenAI投入高达1000亿美元的巨额资金。

🎬 Coming to America, the White House announces TikTok's US algorithm will be audited by Oracle as the Trump administration tries to reduce China's influence.

转向美国，白宫宣布TikTok的美国算法将接受#甲骨文#公司的审计，这是特朗普政府试图削弱中国影响力的举措。

▶ So the financial pain in Spain as the country counts the cost of the devastating damage caused by this summer's wildfires.

西班牙正承受着经济阵痛，该国正在统计今年夏季野火造成的毁灭性损失代价。

bilibili 00:00:35

▶ And a new report finds empathy can be a key factor to drive business success.

一份新报告发现，#共情力#可能是推动商业成功的关键因素。

▶ We'll tell you how more human interaction can create loyalty and boost a firm's bottom line.

我们将为您解析更具人情味的#互动#如何培养#客户忠诚度#并#提升#企业盈利。

▶ It's the human touch, don't you know.

这正是人性化关怀的力量，您明白吗。

▶ Not necessarily AI is the answer to everything.

人工智能并非万能解药。

▶ You're with Business Today, I'm Sally Bondock.

您正在收听《今日商业》，我是莎莉·邦多克。

bilibili 00:00:57

▶ Let's get started in Silicon Valley where the tech giant Nvidia has announced it will make a major investment into OpenAI.

首先关注#硅#谷，科技巨头英伟达宣布将对OpenAI进行重大投资。

▶ That's the firm behind chat GPD.

这家公司正是聊天机器人GPD的开发者。

▶ Nvidia, which is the world's most valuable company, said its latest investment will go towards data centers for OpenAI's next generation AI infrastructure.

作为全球市值最高的企业，英伟达表示最新投资将用于建设OpenAI下一代AI#基础设施#的数据中心。

 00:01:18

⏮ And as part of the deal, Nvidia will be investing up to \$100 billion into OpenAI's.

作为协议组成部分，英伟达将向OpenAI投入高达1000亿美元。

⏮ The latest move by two high profile tech firms in the global race where China is emerging as a rival.

这是两家顶尖科技企业在全球竞赛中的最新动作，而中国正逐渐成为这场竞赛的竞争者。

⏮ OpenAI currently has more than 700 million weekly active users and said its new partnership with Nvidia would advance its mission to build artificial general intelligence that benefits all of humanity.

OpenAI目前拥有超7亿周活跃用户，称与英伟达的新合作将推进其构建惠及全人类的通用人工智能的使命。

 00:01:47

⏮ And it is our North American business correspondent, Erin Delmo.

现在连线本台北美商业#记者#艾琳·德尔莫。

⏮ It's a blockbuster deal and it's a credit to the demand for new AI technology like OpenAI's chat GPT.

这项重磅交易印证了市场对OpenAIGPT等新型AI技术的旺盛需求。

⏮ While OpenAI makes the artificial intelligence chat bot, Nvidia makes the high powered chips that enable its use.

OpenAI开发人工智能聊天机器人，而英伟达则生产支持其运行的高性能芯片。

⏮ Nvidia makes specialized processors or chips that are used for large language models like chat GPT and that's what lets the technology process data and execute tasks.

英伟达制造用于GPT等大语言模型的专用处理器或芯片，这正是该技术处理数据和执行任务的核心。

 00:02:13

⏮ So a deal like this brings the two technology giants closer together.

因此此类合作让两大科技巨头关系更为紧密。

🎧 Nvidia reportedly is receiving a stake in OpenAI as part of the deal.

据报道，作为协议部分内容，英伟达将获得OpenAI的#股权#。

🎧 Now Nvidia is the world's most valuable company and was the first to reach a market cap of \$4 trillion.

目前英伟达是全球市值最高企业，也是首家市值突破4万亿美元的公司。

🎧 Counting OpenAI as a major customer could propel it to new heights.

将OpenAI列为重要客户可能#推动#其再创新高。

 00:02:30

🎧 But it also calls into question a concern around the circularity of the AI boom.

但这也引发了对AI#热潮#循环性的担忧。

🎧 The tech giants have been spending big bucks as they've jockeyed for market position amid the AI race, often to the benefit of the other tech giants who've been on the receiving end of the funds.

科技巨头在AI竞赛中为争夺市场地位持续投入重金，而这些资金往往最终流入其他科技巨头的口袋。

🎧 So in a case like this, investors are clearly excited, but those warning of an AI bubble have fodder for their talk as well.

在此情况下，投资者显然感到兴奋，但警告AI泡沫的人士也获得了讨论素材。

 00:02:51

🎧 Erin Delmo there will let some pack this with Anna McDonald, investment manager at Aubrey Capital Management.

艾琳·德尔莫的报道暂告段落，现在有请奥布里资本管理公司投资经理安娜·麦克唐纳。

🎧 Good morning to you Anna.

安娜，早上好。

🎧 So is this a win-win then for Nvidia and OpenAI?

那么这对英伟达和OpenAI是双赢局面吗？

🎧 Well, yes, I mean, it has driven the Nvidia share price up another 4% yesterday.

是的，这项合作昨日推动英伟达股价再涨4%。

🎧 It takes up 37% this year.

年内累计涨幅达37%。

🎧 They are investing \$100 billion in cash, but in increments with each gigawatt, sorry, megawatt of power that is built out, they will invest a further \$10 billion.

他们以现金投入1000亿美元，但会随每兆瓦（纠正：兆瓦）电力设施的建设分批追加投资，每建成1兆瓦增投100亿美元。

 00:03:23

🎧 So that is very positive for OpenAI, but OpenAI are going to have to spend about \$100 billion in Nvidia chips and those 5 billion new generation chips that are going to be launched.

这对OpenAI非常有利，但OpenAI也需花费约1000亿美元购买英伟达芯片及即将发布的50亿枚新一代芯片。

🎧 We expect this will start getting going second half of 2026 with the new Vera Rubin chips.

预计2026年下半年将随着新型维拉·鲁宾芯片的推出正式启动。

🎧 And there's also, as we talked about, a whole infrastructure around this.

正如我们讨论的，还需要配套的完整#基础设施#。

 00:03:46

🎧 So we've got the cooling systems, the power grids, the chips, the servers.

包括冷却系统、电网、芯片和服务器等。

🎧 In all, it's going to be about another \$400 billion invested in OpenAI and in Nvidia and in the whole ecosystem.

总投资额将达约4000亿美元，覆盖OpenAI、英伟达及整个#生态系统#。

▶ And this is all in the US, isn't it?

这些投资都集中在美国，对吗？

▶ And does this for Nvidia counter the lack of growth it's seeing in China?

这对英伟达能否抵消其在华增长乏力的问题？

▶ Well, they are trying to work out how they're going to deal with China.

他们正在设法制定对华策略。

 00:04:11

▶ I think, Jensen Wang has been trying to make the case that if they can still supply chips to China, then that will in some ways limit how much China needs to develop on its own.

我认为黄仁勋一直试图论证，若能继续向中国供应芯片，将在某种程度上限制中国自主发展的需求。

▶ And there will still be that, they will still rely on US chips.

中国仍会依赖美国芯片。

▶ I think that's still quite a quite a discussion, but in video, they're trying to get very close to the White House.

这仍是热议话题，但英伟达正努力与白宫建立密切关系。

 00:04:32

▶ They're trying to get close to all we saw, we saw Jensen Wang at the State dinner last week in the UK.

我们看到他们积极贴近政要，比如黄仁勋上周出席了英国国宴。

▶ It's all about staying close to governments and to be able to really build on their dominance.

核心在于保持与政府的亲密关系，以巩固其主导地位。

▶ And, you know, we're hearing a lot about them splashing the cash, a hundred billion here, ten billion there, whatever it is, the sums.

我们不断听闻他们大手笔投资，这里千亿那里百亿，金额惊人。

 00:04:52

 It's a lot of money and capital investment.

这涉及大量资金和资本投入。

 Are you concerned about a bubble here, perhaps bursting at some point because it's not monetized yet?

您是否担心存在泡沫风险？毕竟尚未实现货币化，可能在某时刻破裂？

 Well, there is, there are definitely concerns that that Nvidia is actually making hundred billion dollars in free cash flow this year, according to analyst expectations, which is an enormous amount of money.

确实存在担忧。根据分析师预测，英伟达今年实际自由现金流将达千亿美元，这是巨额资金。

 00:05:14

 So they actually do have that cash.

他们确实拥有这些现金。

 It is available to them.

资金可供支配。

 They've actually got 57 billion dollars on their balance sheet right now.

目前资产负债表上已有570亿美元现金。

 So they have the cash.

所以他们资金充裕。

 Valuations on Nvidia, often video are not as high as you might think, because they are actually making a lot of progress.

英伟达的估值并不像人们想象的那样过高，因为他们确实取得重大进展。

 They're generating a lot of revenue, a lot of earnings.

他们正创造巨额收入和#盈利#。

 00:05:34

▶ There are other companies which are receiving pretty high valuations.

其他一些公司估值相当高。

▶ And yes, there, I think the warnings are that some of those smaller players might might be overvalued, but some of those, some of the Nvidia's sort of technological force and dominance probably means that it doesn't seem as overvalued as as as some of those other players out there.

是的，我认为需要警惕的是部分小型企业可能估值过高，但英伟达的技术实力和统治地位可能意味着其不似其他企业那样存在高估。

▶ OK, and thanks so much.

好的，非常感谢。

 00:05:57

▶ Nice to see you.

很高兴与您交流。

▶ We'll see you again soon.

期待下次再见。

▶ I'm a little bit old there.

我刚才有点显老了。

▶ Well, let's stay in the US TikTok's algorithm.

接下来继续关注美国TikTok算法事件。

▶ That's the technology that determines what users see in their feed.

该技术决定用户信息流显示内容。

▶ Will be copied and retrained using US user data as part of a deal to secure the apps future in the country.

作为确保该应用在美运营协议的一部分，算法将被复制并利用美国用户数据重新训练。

▶ A White House official said that TikTok's recommendation system will be audited by tech giant Oracle.

白宫官员称TikTok的#推荐#系统将接受科技巨头#甲骨文#的审计。

bilibili 00:06:21

▶ Here's our North America technology correspondent Lily Jamali.

现在连线本台北美科技#记者##莉莉#·贾马利。

▶ After extending that January deadline four times over the last nine months, in recent days, there has been a constant barrage of commentary about a potential TikTok deal coming from the White House.

过去九个月四次延长1月截止日期后，近日白宫持续释放关于潜在TikTok协议的评论。

▶ That's despite the fact that Beijing appears to remain non-committal about a potential deal, even after President Trump.

尽管北京方面对潜在协议似乎仍持保留态度，甚至在特朗普总统通话后亦然。

bilibili 00:06:47

▶ And she spoke by phone on Friday.

她周五进行了电话沟通。

▶ The White House had previewed that call with the expectation that a deal would be finalized.

白宫曾预告此次通话预期将敲定协议。

▶ That didn't end up happening.

但最终未果。

▶ Now, senior White House officials are saying that Donald Trump will approve a deal by executive order.

目前白宫高级官员表示唐纳德·特朗普将通过行政命令批准协议。

⏮ Under that executive order, they say that TikTok would become a joint venture based in the United States that they would receive a copy of TikTok's valuable recommendation algorithm.

根据该行政命令，TikTok将成为总部设在美国的合资企业，美方将获得TikTok宝贵推荐算法的副本。

 00:07:22

⏮ And they would retrain that algorithm.

并将对该算法进行#重新训练#。

⏮ All of this process would be audited by tech giant Oracle, whose chairman happens to be a close political ally of Donald Trumps.

整个过程将由科技巨头#甲骨文#审计，其董事长恰是特朗普的亲密政治盟友。

⏮ Again, these details coming to us from senior White House officials on Monday, but neither bite dance nor TikTok have commented.

这些细节周一来自白宫高级官员，但字节跳动和TikTok均未置评。

⏮ Lily, Jamali there, let's bring you some other business stories.

#莉莉#·贾马利的报道至此，现在带来其他商业资讯。

 00:07:45

⏮ Argentina's President Javier Millet is set to meet President Trump in New York today.

阿根廷总统哈维尔·#米莱#今日将在纽约会见特朗普总统。

⏮ Also at the meeting will be US Treasury Secretary Scott Bessent, following the US promise to do what is needed to help stabilize Argentina's escalating financial turmoil.

美国财政部长斯科特·贝森特也将参会，此前美方承诺采取必要措施帮助稳定阿根廷不断升级的金融动荡。

⏮ Bessent said Argentina was a systematically important US ally in Latin America.

贝森特称阿根廷是美国在拉丁美洲一个#具有系统重要性#的盟友。

▶ The message helped calm financial markets, which have been rattled as recent election losses raised out about the future of Millet's cost-cutting free market agenda.

这一消息帮助稳定了金融市场，此前由于近期选举失利引发了对米勒削减成本自由市场议程未来的担忧，市场一直动荡不安。

▶ A federal judge has given Allsted the green light to restart work on a major offshore wind farm in the US.

联邦法官已批准奥尔斯特德公司重启美国一个大型海上风电项目。

▶ The Danish firm halted work on the five billion dollar project off the post of Rhode Island after the Trump administration blocked its construction.

这家丹麦公司位于罗德岛附近海域的50亿美元项目，因特朗普政府阻止其建设而停工。

▶ Allsted's US listed shares were up almost 10% on the news.

受此消息影响，奥尔斯特德在美上市股价涨幅近10%。

▶ And shares in Tylenol's parent company Kenview fell sharply on Monday after Donald Trump linked the paracetylvol maker to autism.

而泰诺母公司肯维股价周一大跌，因特朗普将该对乙酰氨基酚制造商与自闭症关联。

▶ Kenview shares fell around 7%, despite the company dismissing reports its drugs were of high risk to pregnant women.

肯维股价下跌约7%，尽管公司否认其药物对孕妇有高风险的报道。

▶ The company shares are now trading at their lowest level in more than a year.

该公司股价目前处于一年多以来的最低水平。

▶ Over the weekend, the Trump administration caused dismay for a number of American industries with its plan to start charging \$100,000 for each new H1B visa, which is used by firms to secure highly skilled workers.

上周末，特朗普政府计划对每份新H1B签证收取10万美元费用，令多个美国行业感到沮丧，该签证是企业获取高技能人才的途径。

▶ But could this be an opportunity for the UK to grab more of the world's top talent, according to multiple press reports the UK government's recently set up global talent task force and is planning to go in the opposite direction.

但这是否会成为英国吸引更多全球顶尖人才的机会？据多家媒体报道，英国政府近期成立了全球人才工作组，并计划反其道而行。

▶ It's looking at waving visa fees and bureaucracy to make it easier for foreign academics and tech experts to move to the UK.

正考虑免除#签证#费用和简化#行政程序#，以方便外国学者和技术专家移居英国。

 00:09:40

▶ Well, Jamie Aras Smith is Director of University's UK International and International Arm of the Lobby Group for British Universities.

杰米·阿拉斯·史密斯是英国大学国际组织主任，该组织是英国大学的#游说#团体国际分支。

▶ Good morning.

早上好。

▶ Good morning.

早上好。

▶ So what is the opportunity for the UK?

那么英国面临怎样的机遇？

▶ Well, we think the government is right to look for ways to make the UK more attractive for the world's best researchers, innovators and entrepreneurs.

我们认为政府寻求使英国对全球顶尖研究人员、创新者和企业家更具吸引力的做法是正确的。

 00:10:00

▶ We have fantastic universities and businesses that need access to global talent to thrive.

我们拥有出色的大学和企业，它们需要全球人才才能#蓬勃发展#。

🎧 Research by the Royal Society, however, has shown that the UK has a relatively high cost system and it's not just visa keys, visa fees, it's other things like the immigration health charge.

但皇家学会的研究表明，英国的成本体系相对较高，不仅是签证关键、签证费用，还有移民医疗附加费等。

🎧 So we've welcomed the fact that in the immigration white paper that was published in May, the Home Office committed to making things simpler and easier for top scientific talent to choose the UK because if we really want to compete with other countries, we need a system that attracts and fosters global talent.

因此我们欢迎内政部在5月发布的移民白皮书中承诺简化流程，方便顶尖科学人才选择英国。因为若想真正与他国竞争，我们需要能吸引和培养全球人才的体系。

 00:10:33

🎧 I think that would be good for the UK science and research capabilities, good for our universities and ultimately good for the country.

我认为这将有利于英国的科研能力，有利于我们的大学，最终有利于国家。

🎧 What do you make of that Davies idea, the leader of the Liberal Democrats who's saying the UK government should offer discount visas to US cancer scientists who are facing their research being cancelled by the Trump administration?

如何看待自由民主党领袖戴维斯的提议？他建议英国政府向面临特朗普政府取消研究资助的美国癌症科学家提供折扣签证。

🎧 I think the US has long been the UK's number one in science and research.

美国长期以来都是英国在科研领域的头号伙伴。

 00:10:58

🎧 I think the technology partnership that the government announced last week signals that that close relationship is absolutely going to continue and there may be opportunities there with some of the developments in the US but I think more importantly, we should want the

UK to be an attractive destination for talented researchers and innovators and entrepreneurs wherever they're from.

政府上周宣布的技术合作伙伴关系表明这种紧密关系必将持续，美国的某些发展可能带来机遇。但更重要的是，我们应让英国成为吸引全球人才的研究者、创新者和创业者的目的地。

▶ I think that's vital to growth and prosperity and it's really necessary if we want our country to stay at the forefront of cutting edge science and research in fields such as AI, quantum and indeed counter research.

这对增长和繁荣至关重要，若想国家保持在人工智能、量子及反恐研究等前沿科技领域领先地位，这十分必要。

▶ The government though has announced quite a few changes when it comes to international students and the rules with regarding to them coming to study here then getting a job and whether family members can accompany etc etc so to what extent is that hampering things?

但政府在留学生政策上宣布了不少变更，涉及来英学习、就业、家属陪同等规定，这在多大程度上造成了阻碍？

 00:11:47

▶ It's making it more complicated and confusing isn't it for those who might want to come here to study and work?

这是否让有意来英学习工作的人感到更复杂困惑？

▶ I think that the immigration white paper introduced a wide number of changes that will affect international student recruitment but within that white paper I think it also set out clearly that attracting global talent was a priority and I think that there doesn't seem to be a conflict there between the need to manage overall levels of migration and the desire to attract that top talent to the UK.

移民白皮书引入了诸多影响国际招生的变更，但其中也明确将吸引全球人才作为优先事项。在控制整体移民水平与吸引顶尖人才来英之间似乎并不冲突。

▶ So three things like the global talent visa, those numbers are relatively small but they do have the potential to have a huge impact and contribute to the UK's global reputation and our capability in science and research so I think it really is critical that we work with

government and government works with our universities and businesses to create a system that really allows us to attract that talent to the UK.

像全球人才签证这类措施，数量虽少但潜力巨大，能提升英国全球声誉及科研能力。因此与政府合作、政府与高校企业协作建立真正能吸引人才来英的体系至关重要。

 00:12:39

 Okay Jamie, Aros Smith from Universities UK International thank you very much.

好的，英国大学国际组织的杰米·阿罗斯·史密斯，非常感谢。

 Thank you.

谢谢。

 Around the world and across the UK this is BBC News.

这里是BBC新闻，覆盖全球与英国各地。

 The full story of some of the UK's most shocking crimes, one of the most dramatic trials that the old Bailey has seen and told by those who lived through them, one of the most horrific weapons I've seen and those who live to deal with the aftermath.

揭秘英国最骇人罪案全貌，老贝利法院史上最戏剧性审判，由亲历者讲述——这是我见过最可怕的武器，以及那些处理善后工作的人们。

在这个媒体演变空前迅速的时代，故事以碎片化传播，影响力改变认知，新闻转瞬即达。

▶ We hear from media insiders on their perspective on the world and uncover the stories behind the latest trends.

聆听媒体内幕人士的世界观，#揭示#最新趋势背后的故事。

bilibili 00:13:43

▶ Join us for the media show.

欢迎加入《媒体秀》。

▶ Watch on BBC iPlayer.

BBC iPlayer同步播出。

▶ This is business today.

这里是《今日商业》。

▶ I'm Sally Bundock.

我是莎莉·邦多克。

▶ Now all eyes will be on Malaysia where the relationship between the countries of Southeast Asia and China are under scrutiny this week as the ASEAN economic ministers get together in Kuala Lumpur.

当前焦点转向马来西亚，随着东盟经济部长本周在吉隆坡集会，东南亚各国与中国的关系备受关注。

▶ It comes at a time when there's increasing diplomatic pressure to align more closely with the United States or with the regional superpower China.

此时各国正面临日益增长的#外交#压力，需要在与美国或地区超级大国中国之间更紧密#对接#。

bilibili 00:14:21

▶ Elsewhere in the past our Indonesia and the European Union have rubber stamped their economic agreement which will remove tariffs for 80% of Indonesian products entering the European market.

另一方面，印度尼西亚与欧盟已正式批准经济协议，将为80%进入欧洲市场的印尼产品取消关税。

▶ Let's talk to Adib Zakkalpi who is managing direct a viewpoint global affairs.

有请全球事务管理总监阿迪布·扎卡皮#视角#解读。

▶ Welcome to BBC News.

欢迎来到BBC新闻。

▶ This ASEAN summit coming at a critical time when it comes to global trade.

此次东盟#峰会#正值全球贸易的关键时刻。

 00:14:48

▶ They will be discussing whether the impact tariffs are having on their respective economies.

他们将讨论关税对各国#各自#经济的影响。

▶ I think that will be one focus of the economic ministers.

这将是经济部长们的焦点议题之一。

▶ At this stage they are thinking perhaps that the Liberation Day tariffs or the uncertainty caused by the trade tensions will continue.

现阶段他们可能认为#贸易自由化#进程中的关税问题或贸易紧张带来的不确定性将持续。

▶ So this week's meeting will be about the way forward how to live with the uncertainty of the US policies or the trade tensions in the future.

因此本周会议将探讨前行之路，如何应对美国政策或未来贸易紧张的不确定性。

 00:15:23

▶ So it's about improving the resilience of the member states or how ASEAN could be better structured or restructured to deal with future challenges.

重点是提升成员国#韧性#，或如何优化东盟结构以应对未来挑战。

▶ As you know right now ASEAN is not an entity like the European Union where it can negotiate on behalf of the member states.

众所周知，东盟目前并非像欧盟那样的#实体#，能代表成员国进行#谈判#。

▶ So perhaps this week's meeting will be a start that we will see a stronger ASEAN in the future.

或许本周会议将成为一个起点，未来我们会看到更强大的东盟。

 00:15:53

▶ Not just to fix the current uncertainty or the trade tensions.

不仅为解决当前不确定性或贸易紧张局势。

▶ But also how to live and adapt to this uncertainty that looks like going to be a permanent feature.

但同样重要的是如何在这种看似将成为常态的不确定性中生活与适应。

▶ Part of the adaption and the living with the current status quo is dealing with the intense rivalry between the US and China.

适应和应对现状的一部分，是处理中美之间#激烈的##竞争#。

▶ On the one hand each country wants a good trade deal with the United States but at the same time China is saying we all need to stand up and counter the bullying.

一方面各国都想与美国达成有利的贸易协议，但另一方面中国呼吁大家共同站出来对抗霸凌行为。

 00:16:25

▶ They've called it bullying on the part of President Trump.

他们称特朗普总统的行为是霸凌。

▶ Yeah so far what we've seen since the introduction of the Liberation Day tariffs that ASEAN member states have been somewhat very disciplined about not leaning too far to one side of the trade tensions and honestly they can't afford to do that.

是的，自"解放日关税"实施以来，我们看到东盟成员国始终保持克制，避免在贸易紧张局势中过度偏向任何一方——说实话他们也承担不起这样做的后果。

▶ Both China and US are very important economically to the individual member states but what we are seeing though is very subtle but important shift.

中美对每个成员国经济都至关重要，但我们正观察到一种微妙而关键的转变。

bilibili 00:16:54

▶ You know as the trade tensions hit up the member states are starting to project a more neutral start trying not to frame the whole trade tensions as the zero sum game.

随着贸易紧张局势升级，成员国开始展现更中立立场，试图避免将贸易摩擦框定为零和博弈。

▶ So of course in the long term we can see member states try to reduce their reliance, economic reliance especially in the US trying to set up a separate perhaps a separate rules based system outside of the US but this will not happen overnight.

长期来看，成员国势必会尝试减少对美经济依赖，甚至试图建立独立于美国的新规则体系，但这绝非朝夕可成。

▶ It's a long process for now they have to individually have to deal with the impact of the tariffs from the US while the same time are preparing for the road ahead with the stability at Washington DC.

这是个漫长过程，当前各国不得不独自应对美国关税冲击，同时为华盛顿政局稳定后的未来道路做准备。

bilibili 00:17:39

▶ Adib Zalcapli thank you for your time good to get your take on things.

阿迪布·扎尔卡普利，感谢您抽出时间，很高兴能听取您的见解。

▶ This summer has seen a devastating spate of wildfires across many areas of Europe and while the worst fires have been extinguished the affected areas now have to deal with the damage caused.

今年夏季欧洲多地遭遇毁灭性野火肆虐，虽然最严重的火情已受控，受灾地区现在必须面对后续破坏。

▶ The country that suffered the most this summer in terms of land burned is Spain, Guy Hegeco reports from there on the economic impact of the wildfires.

今夏过火面积最严重的国家是西班牙，盖伊·赫杰科将从当地发回关于野火经济影响的报道。

bilibili 00:18:10

▶ The worst summer of wildfires in three decades nearly 1% of Spain's total surface area was burned in just a few weeks.

这场三十年来最严重的夏季野火在几周内烧毁了西班牙近1%的国土面积。

▶ Here in the rural province of Zamora the impact has been devastating.

在萨莫拉这个乡村省份，破坏程度触目惊心。

▶ Now those affected are gauging the damage.

受灾民众正在评估损失。

▶ Jose Antonio Brunia a local beekeeper was relatively lucky.

当地养蜂人何塞·安东尼奥·布鲁尼亚还算幸运。

▶ The fires stopped just meters short of his 1500 b-hives but the burned fields nearby mean his b's now lack much of the flora they need to survive and because his b-hives were not destroyed he's not able to claim insurance.

大火在距他1500个蜂箱数米处被扑灭，但周边烧焦的田野意味着蜜蜂失去了生存所需的花源，而由于蜂箱未损毁，他无法申请保险理赔。

bilibili 00:18:59

▶ I estimate that my honey production for this year has been halved and I think it's going to take another two years for the flora that my bees need to grow back again.

我估计今年蜂蜜产量将减半，蜜蜂所需的花源恢复可能还需要两年时间。

▶ Tourism which represents 13% of national GDP has been severely affected by the wildfires.

占国民生产总值13%的旅游业受到野火重创。

▶ This lake which is a major attraction for visitors was closed down as the fires approached in the middle of last month.

这座主要旅游景点的湖泊在上月中旬因火势逼近而关闭。

bilibili 00:19:25

▶ In August this area was at full capacity in terms of tourism and people who have second homes here and then on August 18 it dropped down to 10%.

八月本应是该地区旅游和度假屋入住的高峰期，但8月18日入住率骤降至10%。

▶ Since we arrived here at this lake a new fire has started behind us and nearly all the major fires here in Spain this summer have been in the vast sparsely populated rural areas of the country like here in the north west.

自我们抵达湖畔起，身后又燃起新火苗，今夏西班牙几乎所有重大火灾都发生在西北部这样地广人稀的乡村地带。

▶ People who live in these areas have long complained of an abandonment on the part of the central and local authorities which they say has had huge economic repercussions.

当地居民长期抱怨中央与地方政府放任不管，称此举已造成巨大经济后果。

bilibili 00:20:05

▶ Although the summer has ended the fires continue albeit smaller ones like here in the farming town of Castoromil.

尽管夏季结束，小火情仍持续发生，比如卡斯托罗米尔农镇此刻的情况。

▶ Hard enough as it is to survive because of the price of animal feed and fuel.

因饲料和燃料价格，农民本就生存艰难。

▶ Every day it's more difficult for farmers to get by and then on top of that this happens.

农民度日愈艰，如今又雪上加霜。

▶ One farmer we spoke to has had to put down 11 cows which were badly burned recently.

我们采访的一位农民不得不处死11头严重烧伤的奶牛。

bilibili 00:20:34

▶ A farmers association has estimated that losses in the sector across the country this summer amount to at least 600 million euros because of animals killed and land and property destroyed.

农会估算，今夏全国农业部门因牲畜死亡及土地财产损毁造成的损失至少达6亿欧元。

▶ This fire was brought under control but now Spain is counting the enormous cost of a disastrous summer.

这场火灾虽已受控，但西班牙正在清点这个#灾难性#夏季的惨重代价。

▶ Guy Hedgeco BBC News Northwestern Spain.

盖伊·赫杰科，BBC新闻，西班牙西北部报道。

bilibili 00:20:59

▶ Now a new report from Zurich Insurance shows empathy is a key factor in business success.

苏黎世保险最新报告显示，#共情力#是企业成功的关键因素。

▶ The study surveyed more than 11 and a half thousand consumers across 11 countries exposing a growing empathy gap, a disconnect between what consumers want and what companies deliver.

这项涵盖11国11500名消费者的研究揭示了日益扩大的共情鸿沟——消费者需求与企业供给之间的脱节。

▶ The price and quality of products and services are still important to consumers but human interaction and empathy is the driving force behind a loyal customer base.

产品服务的价格质量虽仍重要，但人性化互动与共情才是培养客户忠诚度的驱动力。

bilibili 00:21:30

▶ According to the report ignoring empathy could cost a business dearly.

报告指出，忽视#共情力#可能让企业付出沉重代价。

▶ Well we're joined now by Professor Jamil Zaki who's director of the Stanford Social Neuroscience Laboratory who headed up this research for Zurich Insurance.

现在连线负责此项研究的斯坦福社会神经科学实验室主任贾米尔·扎基教授。

▶ Welcome to BBC News.

欢迎来到BBC新闻。

▶ Good to be with you Sally.

很高兴作客节目，莎莉。

▶ So just explain what you mean when you say empathy is key to business success.

请阐述为何您认为#共情力#是商业成功的关键。

 00:21:54

▶ What does that look like?

具体表现为何？

▶ Well when I started studying this topic 20 years ago the idea was it's great to be empathic but it's too soft and squishy for the world of work but now decades of evidence find that the opposite is true when people feel that you care and are connected to them not only does that increase their happiness and well-being but they're more likely to engage and that's true of workers but also true of customers.

20年前我初涉此领域时，主流观点认为共情虽好却过于绵软不适职场，但数十年证据表明事实恰恰相反——当人们感受到被关怀与联结时，不仅幸福感提升，参与度也会增强，这对员工和客户皆适用。

▶ So as you said this Zurich survey found that 79% of consumers say that empathy is one of the top factors that they think of when choosing a brand.

如您所言，苏黎世调查显示79%消费者将共情力视为品牌选择的首要因素。

 00:22:32

▶ Above for instance reviews and peer recommendations but a huge number of consumers also don't feel that brands are authentically empathic and more than 40% have left a brand

for a lack of empathy pointing to a huge market inefficiency in that companies really aren't giving people what they want which is human connection.

其重要性甚至超过用户评价和亲友推荐，但大量消费者认为品牌缺乏真诚共情，超40%因此更换品牌——这揭示巨大市场失效：企业未满足人们对人性化联结的渴求。

🎧 And how does that work then with artificial intelligence?

这与人工智能如何协调？

🎧 I'm just thinking about all the all the times when I have to try and connect with a company that provides a service for example and I cannot get a human being for a very long time.

比如我多次联系服务商时，长时间无法接通人工客服。

 00:23:08

🎧 I have to work my way through a long time of chat bots and various computer bots before I can get to a real person and I find that very frustrating.

不得经过冗长的聊天机器人流程才能联系真人，这令人非常沮丧。

🎧 I think we you're not alone by any stretch and the Zurich survey found that about 50% of consumers believe that AI chat bots help them interact with companies more efficiently but very few a small minority think that those chat bots are at all actually connecting with them on any deep level.

这种感受极为普遍——苏黎世调查显示约50%消费者认为AI聊天机器人提升沟通效率，但极少数人觉得这些机器人能实现深层情感联结。

🎧 This is going to I think continue and accelerate as companies

我认为随着企业持续推进，这种趋势还将#加速#发展。

 00:23:45

🎧 Integrate AI more into their consumer facing processes and as AI's start to act more like people through sophisticated large language models

#整合#人工智能更多地融入面向消费者的流程中，随着人工智能通过#精密的#大型语言模型开始表现得越来越像人类

▶ but even if an AI tells you you know that we care about what you're feeling

但即使人工智能告诉你我们知道我们在乎你的感受

▶ I don't think people will necessarily believe it

我不认为人们一定会相信它

▶ and often inauthentic seeming empathic statements especially those that come from non-humans might be worse than nothing at all.

而常常显得不真诚的共情陈述，尤其是那些非人类发出的，可能比完全没有更糟。

bilibili 00:24:11

▶ So how does a business get the balance right

那么企业该如何正确把握平衡

▶ because I mean we all we all know the human

因为我的意思是我们都我们都知道人类

▶ Touch is great and and everyone listening to you will understand yes I get it I understand why I want that empathetic response to whatever it is I'm doing buying something or using a service but human beings are expensive and computers are a lot cheaper they don't go on holiday they don't get sick etc so how do you work out your balance as a business to get this right?

触达体验固然重要，倾听者也会理解这种需求——是的，我明白为何渴望获得共情回应，无论是我购物还是使用服务时。但人力成本高昂，计算机则经济得多，它们不休假、不生病等等。那么企业该如何权衡才能把握得当？

bilibili 00:24:40

▶ I think when when I work with organizations and advise them on integration of AI I ask them to think seriously about human moments right it might be that AI's especially as they grow more sophisticated will be excellent at gathering factual information and giving consumers for instance just clear data that they might need but in moments when a consumer has to make a decision or when they are experiencing an emotion Sally like you might be if you've talked to three bots and are just trying to get to a human being companies

need to have people at the ready and not just anybody people who are trained in how to communicate effectively to listen effectively and to to say the right things into mean it as well and if you can integrate AI as a starting point but then a human force for a group of people that can enter those conversations at critical times I think that's one way that you could imagine marrying technology and humanity it is fascinating Jamil we could talk to you for hours but sadly we don't have that time thank you so much to Jamil Zaki that is all from business today I'll see you soon

当我为各类组织提供#人工智能#整合建议时，会要求他们认真思考"人性化时刻"——随着AI日益精密，它们或许擅长收集事实信息并为消费者提供所需数据，但当消费者需要决策或产生情绪波动时（比如像萨莉那样连聊三个机器人后只想找真人），企业必须配备随时待命的人员，且需经过专业培训，掌握高效沟通、有效倾听及真诚表达的能力。若能将AI作为起点，再在关键时刻投入真人介入对话，这或许是实现科技与人文融合的一种方式。贾米尔，这些见解令人着迷，我们本可畅谈数小时，但时间有限。非常感谢贾米尔·扎基，本期《今日商业》到此结束，下次再见。

🎧 Hello for large parts of the UK we're looking at a dry week with spells of sunshine there's certainly lots of sunshine to go around on Monday with sparkling visibility in places visibility was over 40 miles over 70 kilometers and that's not something we see every day at the moment though we do have extensive cloud in Scotland and it's probably going to stay quite cloudy here as we head into the first part of Tuesday morning otherwise we're looking at a chilly old start to the day with temperatures down into low single figures but it's this area of high pressure that's going to be around for the next few days bringing a quiet spell of weather a welcome change after the September soaking that many have had already across the south and the west now there may be a few showers around coastal areas we've got that pretty extensive cloud in Scotland few showers working into coastal areas of east anglia running into eastern areas of Kent otherwise it's dry best to the sunshine across England Wales and there probably will be some breaks in a cloud in Northern Ireland too temperatures similar to those of Monday a bit below average but still feeling pleasant in the afternoon sunshine another cold start of the day you then coming up on Wednesday if you missed and fog patches possible after a sunny start you'll see a bit of cloud building into the early afternoon but not really spoiling things much for most it's dry again temperatures coming up by an odd degree highs of 16 to 18 Celsius this area of high pressure continues to bring fine weather then towards the end of the week as well but we see a change by Saturday's thicker cloud works in off the Atlantic threatening some rain

英国大部分地区本周将以干燥天气为主，间有阳光。周一阳光充沛，局部地区能见度极高，超过40英里（70公里），这在平日并不常见。目前苏格兰上空云层厚重，周二清晨可能持续多云。其他地区清晨气温较低，将降至个位数低值。未来几日受高压系统控制，天气趋于平稳，这对九月以来饱受雨水侵袭的南部和西部地区是个好消息。沿海地区偶有阵雨，苏格兰云量较多，东盎格利亚沿海至肯特郡东部有零星阵雨，其他地区干燥，英格兰和威尔士阳光最佳，北爱尔兰云层也可能出现间隙。气温与周一相近，略低于平均值，但午后阳光仍令人舒适。周三又将迎来寒冷清晨，晴天后可能出现薄雾，午后云量渐增但影响不大，大部分地区保持干燥，气温微升，最高16至18摄氏度。高压系统将持续带来晴好天气直至周末，但周六将由大西洋涌入的厚云层带来降雨可能。
