Have you ever wanted to go to harvard university welcome back to another episode of campus crawl today we're featuring my childhood dream harvard university.

你是否曾梦想进入哈佛大学？欢迎回到新一期的校园探访，今天我们将带您走进我儿时的梦想——哈佛大学。

This is one of many entrances into harvard now you're officially on harvard campus so right now we are walking in the harbor yard and it's very beautiful everything is all brick red bricks everywhere.

这是哈佛众多入口之一，现在您正式踏入了哈佛校园。此刻我们正漫步在哈佛园，这里非常美丽，到处都是红砖建筑。

00:00:38

And the thing about harvard is that it's the oldest higher education institution in united states and that's why a lot of these are built from bricks as we walk around there's no classes in this area so it's like where a lot of the tourists come and we'll go over there to the main library.

哈佛是美国最古老的高等学府，因此许多建筑由红砖砌成。这片区域没有教室，游客众多，接下来我们将前往主图书馆。

Harvard is very beautiful and elegant to look at there's a lot of dorms in this area actually the thing about harvard is that it was originally founded as a religious institution so that's why you might see a lot of chapel and church like buildings.

哈佛校园美丽而典雅，这片区域有许多宿舍。哈佛最初是一所宗教机构，因此您会看到许多教堂式建筑。

 00:01:20

So right now we're in the dead center of harvard yard which is where you'll probably go when you first visit harvard and this is the most iconic shot you'll ever see because behind me is the memorial library and if we do a pan around right behind me this way is the memorial church two of the most iconic buildings at harvard and you can snap your instagram photos right here.

我们现在位于哈佛园的中心，这是游客必到之地。身后是纪念图书馆，转过去则是纪念教堂——哈佛两大标志性建筑，这里是拍照打卡的绝佳位置。

Harvard is actually a liberal arts school and they encourage exploration so when you first enter harvard you don't actually declare a major you select a bunch of different courses and you just take whatever you want to take.

哈佛是一所文理学院，鼓励探索。新生入学时无需立即选择专业，而是可以自由选课。

Harvard yard is true to its name because look behind me it's an actual garden a lot of grass here so in the summer time when it's warm sunny some bay then read a book that's what harvard life is all about learning and experiencing the world.

哈佛园名副其实，身后是大片草坪花园。夏日暖阳下读书，正是哈佛生活的缩影——学习与体验世界。

Right behind me is the statue of mr john harvard the founder of harvard university himself usually there's like a line of people waiting to take pictures but today is not too bad so we get a chance to rub off on the knowledge and the history of mr john harvard.

身后是哈佛创始人约翰·哈佛的雕像。通常拍照需排队，但今天人不多，我们可以触摸雕像沾沾知识与历史的灵气。

So here's here's what you do you come here you touch his toe because he's gonna kick you to the stratosphere of knowledge as you can see here the toe is actually more of a bronze color where the rest is all like black it's because there's constant rubbing on this toe.

传统做法是触摸他的脚趾——据说能助你登上知识巅峰。如您所见，脚趾因长期摩擦已露出青铜色，其余部分仍是黑色。

There's a tradition at harvard i don't know if i should tell you but i'm going to tell you anyway the tradition at harvard is that before you graduate from your undergraduate program you gotta pee on this statue.

哈佛有个传统（不知该不该说）——本科生毕业前需对着这座雕像小便。

 00:03:23

So when you rub the foot you might be actually rubbing more than just a bronze over here so you might want to wash your hands afterwards.

所以触摸脚趾时接触的可能不止青铜，记得事后洗手。

So we can actually go into the library because it's restricted to students only but i can show you the entrance who am i kidding this is campus crawl we got exclusive access into the library.

图书馆通常仅限学生进入，但作为校园探访节目，我们获得了独家进入权限。

 00:04:00

We're going to crawl to every corner of harvard university so you can get inspired to one day study here oh marble it's almost like a museum you're stepping into the heritage.

我们将走遍哈佛每个角落，激发您的求学向往。大理石地面让这里宛如博物馆，每一步都踏在历史遗产上。

I just finished studying coming down from the harvard library that was my dream to study in there as a little kid so i finally did it.

我刚在哈佛图书馆完成自习，儿时梦想终于成真。

It's called the science center but a bunch of different faculty students have classes in this building all right hello class so this is the science center this is where a lot of the lecture halls and small classrooms like this are located in this building.

这里是科学中心，多个院系在此上课。讲座厅和小型教室都设在这栋建筑内。

So if you go to harvard you'll come here a lot.

哈佛学生常会来此上课。

 00:05:30

All right so right now we're at harvard square this is basically like a city center of harvard it's more commercialized area.

现在我们来到哈佛广场，这里是校园商业中心。

The best thing about harvard is that it's interconnected with the city so as soon as you walk outside the campus what you will see is everything from gift shops sandwich shops banks whatever you want it's very convenient.

哈佛与城市紧密相连，校外就有礼品店、三明治店、银行等，非常便利。

 00:05:53

Yeah they have like bars and restaurants just near here all right let's keep on going.

附近还有酒吧和餐厅，我们继续前进。

They kept a part of the traditional architecture that's why you can feel so much heritage at harvard university.

传统建筑得以保留，因此哈佛充满历史厚重感。

All right so now we're in the smith's building and right behind me is the harvard commons this is one of the best study spots on harvard campus because it's newly renovated it looks extremely aesthetic instagram worthy if you come here.

现在我们在史密斯楼，身后是哈佛公共休息室——校园最佳学习场所之一，新装修后极具美感，适合拍照。

[Back to Top](#)

 00:06:25

All right let's go.

我们继续吧。

Right now i'm just doing some light studying taking a little break it was a lot of walking harvard campus is pretty spread out classroom buildings which are all spread out within like a 10 block radius.

此刻我正在休息学习。哈佛校园分布较广，教学楼分散在约十个街区范围内。

Basically in the harvard commons they have a mix of quiet studying and like conversation space and maybe you'll be starting your next billion dollar company here i love it it's a nice study environment.

公共休息室兼顾安静学习与交流空间，或许下个十亿美元公司就诞生于此。

So we've been let into the chinese department and these are chinese classrooms this is actually very modern and these classrooms range in size they go from 15 to around 40 people.

我们获准进入中文系教室，这些现代化教室可容纳15至40人。

Right let's turn lights off oh dim in the center here it's just like a lounge area where you can sit down uh have conversations with okay now i go back to english.

关灯后，中央休息区适合坐下交谈。（切换回英语）

[Back to Top](#)

 00:07:49

So this is the chinese department but a lot of the faculties are very similar and they have their own buildings each one of them.

这是中文系，其他院系也有各自独立的类似建筑。

So harvard has a mix of modern classrooms and old classrooms the old classrooms definitely fit the stereotype of harvard where this is a huge church for university because originally harvest started as a religious school they still run service on sundays which is amazing look at the organ.

哈佛融合现代与古典教室，老教室符合其宗教起源的刻板印象。这座大教堂至今每周日仍举行礼拜，管风琴令人惊叹。
