▶ I'm Sally Bundock.

我是莎莉·邦多克。

▶ We start with the tech industry, which has received in the UK certainly a significant shot in the arm as Google owner Alphabet has announced a £5 billion investment here over the next five years.

首先关注科技行业——谷歌母公司Alphabet宣布未来五年将在英国投资50亿英镑，这无疑为英国注入了强心剂。

00:01:13

▶ Perhaps the first of several US tech investments this week as part of President Trump's unprecedented second state visit.

这可能是本周美国科技企业系列投资的首弹，适逢特朗普总统#史无前例#的第二次国事访问。

▶ His due to arrive this evening, Alphabet says the money will go towards building the UK's artificial intelligence infrastructure with things like new data centres over the next two years.

特朗普将于今晚抵达，Alphabet表示资金将用于建设英国人工智能基础设施，包括未来两年新建数据中心等。

▶ And it's not short of cash either.

该公司资金储备同样雄厚。

00:01:37

▶ Breaking into the \$3 trillion market cap club on Monday as its shares surged on Wall Street.

随着股价在华尔街飙升，其周一市值突破3万亿美元大关。

▶ Google's President and Chief Investment Officer Ruth Porat told BBC News in an exclusive interview that they were profound opportunities in the UK.

谷歌总裁兼首席投资官露丝·波拉特在接受BBC新闻独家专访时表示，英国存在#深刻#的发展机遇。

▶ She's been speaking to our economics editor, Faisal Islam.

她接受了本台#经济#编辑费萨尔·#伊斯兰#的采访。

▶ Well, we think this is a pretty profound announcement.

我们认为这是项相当#深远#的声明。

00:02:01

▶ I'm very proud of looking here over your shoulder at our new building here in Kings Cross and we're sitting in the home where the head of our Google Deep Mind AI effort, Demis Hassabis, is based here in the UK.

我无比自豪地望向你们身后国王十字区的新大楼——这里正是我们谷歌DeepMind人工智能项目负责人、索维茨纳贝尔奖得主戴米斯的英国总部。

▶ And so we're doing a lot of innovation here which is key and excited about the potential in the UK.

因此我们在此开展大量#创新#，这对挖掘英国潜力至关重要且令人振奋。

▶ In addition, what we're doing here in the UK is a lot of pioneering work in research around science and advancing science.

此外，我们在英国正进行诸多科学研究与推进领域的开创性工作。

00:02:31

▶ AI can be a partner to make each one of us more productive and in the healthcare area, you can see it firsthand.

人工智能能成为提升个人#生产力#的伙伴，在医疗保健领域尤其显而易见。

▶ There's a shortage of nurses in the UK.

英国面临护士#短缺#问题。

▶ From the work that we've done, we see you can save ballpark 30% of their time that's devoted to administrative tasks.

根据我们的研究成果，人工智能可节省护士约30%用于#行政#事务的时间。

▶ What if that's devoted to you as a patient as opposed to some of the administrative work that an AI partner can do for you and sits better for the nurses, is better for the patient.

若将这些时间用于照顾患者而非处理行政工作——后者可由AI代劳——既能减轻护士负担，也能提升患者体验。

00:02:57

▶ So in the entirety of the experience, AI can be a benefit.

因此从整体来看，人工智能能带来增益。

▶ Isn't the fact that the big tech companies in America, including Google, have now rode back on their commitment to green energy in line with the US government and just need the

energy by whatever means?

包括谷歌在内的美国科技巨头是否正如美国政府一样降低对绿色能源的承诺，转而追求不计手段的能源获取？

▶ We want to continue to build out renewable energy as an invaluable source of energy across the UK.

我们致力于继续发展#可再生#能源这一英国#宝贵#的能源来源。

00:03:21

▶ And one of the important things is that obviously, wind doesn't blow every hour of the day, sun doesn't shine.

关键问题在于风力和日照并非持续不断。

▶ So what do you do to capture the excess when you don't need it, store it, and then redeploy it when you do need it?

因此需要实现剩余能源的捕获储存，并在需求高峰时重新调配。

▶ So that is one of the innovations that we're announcing today.

这正是我们今天宣布的创新举措之一。

▶ Do you understand now that although the great upside of AI is clearly there and you're behind it, that there are people who worried about graduate jobs now who see in things like the law in accountancy in creative industries as well, the entry level jobs are beginning to be done by AI's and CEOs are being asked why are you employing humans to do this when you could get an AI to do this?

您是否理解：尽管人工智能优势显著且贵公司大力推广，但有人担忧毕业生就业——在法律、会计、创意产业等领域，初级岗位正逐渐被AI取代，CEO们也被质问“既然AI能胜任为何还雇佣人力”？

00:04:03

▶ Because something we spend a lot of time focused on, it would be naive to assume that there isn't downside that we need to collectively mitigate against.

这正是我们重点关注的领域，若认为不存在需要共同应对的负面影响未免天真。

🎤 And you've talked about one, one is around energy, the other is around people and jobs and students and every element of what we do on teaching learning and helping people actually have a nourishing career.

您提到的负面影响包括能源问题，以及涉及民众、就业、学生等所有教育环节和职业发展支持体系的问题。

🎤 The important point that I think people should know, 60% of the jobs that exist today did not exist 80 years ago.

关键点在于：当前60%的岗位在80年前根本不存在。

00:04:35

🎤 There has constantly been this evolution and recreation of what are jobs.

职业定义始终处于持续#演进#与#重塑#中。

🎤 If companies just use AI to find efficiencies and that's it, we're not going to see the upside to the UK economy or any economy.

若企业仅用AI提升效率止步于此，英国乃至全球经济都无法实现真正增长。

🎤 The question is then what do you think is in the art of the possible?

关键在于如何发掘可能性艺术？

🎤 What are what new industries are created?

哪些新兴产业将被创造？

🎤 Because what we've seen throughout history is new industries are created and it's that process that actually opens new doors.

历史表明新兴产业总在不断诞生，正是这个过程开启新机遇。

00:05:03

🎤 Let's discuss this now with Russ Shaw, founder of Tech London Advocates and Global Tech Advocates.

现在有请科技伦敦倡导组织及全球科技倡导组织创始人拉斯·肖参与讨论。

▶ Russ, what is your take on that last comment there about the fact that this is a catalyst for more innovation, for more growth in tech in the UK?

拉斯，您如何看待"这项投资将催化英国科技创新与增长"的观点？

▶ I totally agree with that comment Sally.

我完全赞同这个观点，莎莉。

▶ And if you just look at Google's track record from acquiring deep mind over 10 years ago, we saw the catalyst then to turn the UK into an AI hub, a global AI hub.

回顾谷歌10多年前收购DeepMind的往绩，那正是英国成为全球人工智能中心的催化点。

00:05:38

▶ And you're now seeing that play out not only with Google's investment announcement today, they've already, the Google Cloud division has already announced a \$500 million deal to support the Ministry of Defense.

如今不仅看到谷歌今日的投资声明，其云业务部门已宣布斥资5亿美元支持国防部。

▶ And as you've mentioned, we're expecting more investment announcements this week, possibly from Nvidia and Open AI.

如您所言，本周预计还有英伟达和Open AI等公司的更多投资计划。

▶ So what we're seeing is that the world's third largest tech ecosystem in the world, more investment is piling in as a true vote of confidence in what the UK can deliver.

这表明全球第三大科技生态正获得更多投资，这是对英国实力的信心投票。

00:06:10

▶ And just for those who are unaware, a deep mind is London based run by the British Nobel Prize winner, Sir Demis Hasibir.

补充背景：DeepMind由英国诺贝尔奖得主戴米斯·哈萨比斯爵士创立，总部位于伦敦。

▶ So this was the company that got a huge investment from Alphabet.

该公司曾获得Alphabet巨额投资。

▶ What about the argument that I have heard from some analysts though who say, we get getting a bit bulldozed here by big tech in the US.

但有分析认为美国科技巨头正以资金优势"碾压"英国，您如何看待？

00:06:33

▶ They're kind of just arriving, offering huge sums of money because they have that money and they're kind of just bulldozing the UK.

它们携巨额资金涌入，某种程度上正在压制英国本土发展。

▶ And it kind of stifles our own innovation.

这是否会抑制我们的本土#创新#？

▶ Actually on that point, I disagree with that last point.

对此我持不同意见。

▶ Again, let's come back to the deep mind example.

再次以DeepMind为例。

▶ After Google acquired deep mind over 10 years ago, we saw a plethora of AI startup and scale-ups emerge first in London and then across the rest of the UK.

谷歌收购DeepMind后十年间，伦敦乃至全英涌现出大量人工智能初创企业和规模扩张企业。

00:07:04

▶ So with this investment, this significant investment coming in, I think that's a boon for the startup and scale-up community across the UK because they're seeing the money flow in.

当前这笔重大投资将惠及全国初创企业，资金流入意味着发展机遇。

▶ Google will want to leverage that startup and scale-up ecosystem to drive even more innovation.

谷歌将借力这股#初创#及规模扩张企业#生态#推动更深层#创新#。

▶ And one of the comments that Ruth Porock talked about was around life sciences.

露丝·波拉特特别提到了生命科学领域。

00:07:28

▶ We know the UK is a world-leading innovator in health tech and life sciences.

英国在健康科技与生命科学领域具有全球领先优势。

▶ So Google's commitment to that through this investment, I think, is coming through.

谷歌通过此次投资展现了对该领域的承诺。

▶ We have to have our eyes wide open and the UK needs to think about its sovereignty as a tech nation.

但我们必须保持清醒，英国需要思考其科技领域的#主权#问题。

▶ The challenge for the UK is that it doesn't have the depth of funding to do it on its own.

挑战在于英国缺乏独立完成所需的资金深度。

00:07:52

▶ These big tech companies have huge amounts of investment that they can deploy into the UK.

这些科技巨头拥有可投入英国的巨额资金。

▶ So the deals that are being created, I hope, have the transparency and the support to say, let's make sure that we can build a thriving tech ecosystem in the UK.

因此正在达成的协议，我希望，具备透明度和支持度，能够确保我们在英国构建一个蓬勃发展的科技生态系统。

▶ But so far, I think the track record for the UK has been incredibly positive through these investments.

但迄今为止，我认为通过这些投资，英国取得的成果非常积极。

00:08:14

▶ And if we join the dots here, Russ, because Pfizer brought up the very important issue of energy, well, of course, this time yesterday, we were talking about a US-UK nuclear energy deal.

如果我们把这些点串联起来，拉斯——因为辉瑞提出了能源这个非常重要的问题——当然，昨天这个时候我们还在讨论美英核能协议。

⏮ Again, huge investment coming from the US into the United Kingdom, all about energy, infrastructure and security.

这又是一笔来自美国的对英巨额投资，全部涉及能源、#基础设施#和安全领域。

⏮ We will be demanding a lot more energy as AI is rolled out across this country.

随着人工智能在全国推广，我们对能源的#需求#将会大幅增加。

00:08:40

⏮ And then we are expecting, probably, are we open AI announcements with regards to provision of AI for public services here?

接下来我们预计，或许会看到关于为公共服务提供人工智能#解决方案#的公开声明？

⏮ So they all are linked, aren't they?

所以说这些都是相互关联的，对吧？

⏮ They are absolutely all linked.

它们完全相互关联。

⏮ And to support the computing power that we're going to need for AI, the energy question is a key part of this.

为支撑人工智能所需的计算能力，能源问题是关键环节。

⏮ And I really like what Ruth Paura talked about in terms of Google's focus on renewables as they look to build this out in the UK.

我非常欣赏露丝·波拉谈到谷歌在英国布局时对可再生能源的重视。

00:09:10

⏮ We cannot go back on the net zero commitment.

我们不能背弃净零排放的承诺。

▶ So looking at ways in which we can drive the computing power through renewables is absolutely vital.

因此探索通过可再生能源驱动计算力的方法至关重要。

▶ And what I heard from her, she seemed to really double down on how important that would be for this rollout and investment in the UK.

从她的发言中我能感受到，她特别强调了这一点对英国技术推广和投资的重要性。

▶ Russ, thank you for giving us your reaction to all of this.

拉斯，感谢您分享对这些事的见解。

00:09:31

▶ Russ Shaw, their founder of Tech London Advocates and Global Tech Advocates.

拉斯·肖，Tech London Advocates及Global Tech Advocates创始人。

▶ Now while this may all be good news for the tech industry, some are questioning the value for the country as a whole.

虽然这对科技行业都是利好消息，但有人质疑其对国家整体的价值。

▶ And one warning is coming from the Liberal Democrats.

来自自由民主党的警告尤为突出。

▶ This leader Ed Davie is calling for a vote in Parliament over any potential US UK tech deals, setting out red lines, like ensuring any online protections for children are not watered down or taxes should not be cut.

该党领袖埃德·戴维要求议会对所有潜在的美英科技协议进行投票表决，并划出红线——例如确保儿童网络保护不被削弱、税收不应削减。

00:10:03

▶ And one tax at the forefront of all of this is the digital services tax.

处于这一切#前沿#的税种就是数字服务税。

▶ It puts a 2% levy on revenues made in the UK by digital platforms such as Amazon, Instagram, Fabet, President Trump has said these duties unfairly target US firms.

该税针对亚马逊、Instagram、Fabet等数字平台在英收入征收2%税款，特朗普总统曾称该税种不公平地针对美国企业。

▶ Well Joe Wright is policy and advocacy manager at the campaign group tax justice UK.

乔·赖特是运动组织"英国税收正义"的政策与#倡导#经理。

00:10:29

▶ Joe, welcome to the programme.

乔，欢迎来到节目。

▶ I mean, Trump has been very, very clear he wants the UK digital services tax axed.

特朗普已非常明确表示希望英国废除数字服务税。

▶ Do you think he's going to get that as part of all this deal making that's going on this week?

您认为他能在本周的系列交易中得偿所愿吗？

▶ Well, I think it's interesting that your last two speakers mentioned nurses and sovereignty.

值得注意的是，前两位嘉宾都提到了护士和#主权#问题。

▶ So the digital services tax brings in is estimated from research by tax watch to bring in about 5 billion over the course of this Parliament, which could pay for about 125,000 nurses to be trained up.

根据税务观察组织研究估算，数字服务税在本届议会任期内可带来约50亿英镑收入，足以培训约12.5万名护士。

00:11:02

▶ Can you just clarify that figure because I've read much lower around 800 million in the course of a 12 month period?

能否#澄清#这个数据？我看到的12个月期数字要低得多，约8亿英镑。

▶ Were you talking about the period of a Parliament?

您指的是整个议会任期吗？

▶ I was talking about the whole Parliament.

是的，我指的是整个议会任期。

▶ Okay, my apologies.

好的，是我理解有误。

▶ Sorry about that.

抱歉。

▶ Sorry if that wasn't clear.

如果刚才没表述清楚请见谅。

▶ So that would, as I was saying, we'll put a significant dent in the shortage of nurses that your first speaker from Google mentioned.

如我所说，这笔资金将极大#缓解#谷歌嘉宾最先提到的护士#短缺#问题。

00:11:27

▶ On top of that, this is basically the only tax that a lot of these big tech companies pay.

更重要的是，这基本上是所有科技巨头缴纳的唯一税种。

▶ So if we take Amazon, for instance, they had about 30 billion in revenue last year.

以亚马逊为例，去年其在英收入约300亿英镑。

▶ They paid very little corporation tax, indeed, before the digital services tax existed in 2018, Ed Sheeran actually paid more corporation tax than Amazon did.

他们支付的企业所得税极少——事实上在2018年数字服务税开征前，艾德·希兰缴纳的企业税都超过亚马逊。

00:11:48

▶ So this is one of the few taxes that these large companies pay.

因此这是这些大公司少数实际缴纳的税种之一。

🎧 It's making a significant contribution towards the UK's revenue.

它对英国财政收入贡献显著。

🎧 And as your previous speaker mentioned talking about sovereignty there, I don't think it would be particularly good optics for the government to have a head of another country who obviously hasn't been elected in Britain coming in and dictating what Britain's domestic tax policy is.

正如前一位嘉宾提到主权问题，我认为让一个显然非英国民选的外国元首来指挥英国国内税收政策，对政府形象并非好事。

00:12:13

🎧 I don't think that would be a good look for them.

这会让他们显得有失体面。

🎧 Yeah, it's a difficult one, though, isn't it, Joe?

不过这是个两难问题不是吗乔？

🎧 Because I'm sure many will agree with you.

虽然我确信许多人认同您的观点。

🎧 And certainly our viewers, we find those who contact us at BBC News say, you know, we want to see tax justice, i.e. the likes of huge big US companies, whether they be tech or not, pay taxes due in the UK on the sales that they make in this country.

我们的观众联系BBC新闻时也纷纷表示要求税收正义，即所有在英销售的大型美国企业（无论是科技公司）都应缴纳应缴税款。

00:12:39

🎧 But when it comes to all these big investment deals, and let's not forget also the tariffs deal with the US, it's all about negotiation with President Trump and he doesn't really care about the optics in this country at all.

但涉及所有这些重大投资协议时（别忘了还有与美国的关税协议），这都是与特朗普总统的博弈，而他根本不在乎在英国的舆论形象。

▶ Well that's true.

这倒是事实。

▶ He was elected on a America first program.

他是凭借"美国优先"纲领当选的。

▶ James C. doesn't really care what citizens of other countries think.

詹姆斯·C并不真正在意他国公民的想法。

00:13:03

▶ But the British public have very clear on this.

但英国民众对此态度明确。

▶ Recent polling, again from Tax Watch, found that two thirds of voters think that laws on big tech companies and the digital services tax should be made in Britain.

税务观察最新民调显示，三分之二选民认为针对科技巨头和数字服务税的法律应在英国制定。

▶ And half of the public think that the 2% threshold, the 2% tax is actually too low.

半数公众认为2%的#税率#实际上过低。

▶ But Joe, if it means you've got a trade off here, you know, costs and benefits, we give up the tax in return, we get lots of good trade relationships with some of the world's biggest tech companies bringing in billions of investment into the UK, which one is it if it's a choice?

但乔，如果必须权衡利弊——放弃税收以换取与全球科技巨头的良好贸易关系，从而为英国带来数十亿投资，若必须二选一该如何抉择？

00:13:44

▶ I'm not saying that's the situation, but I'm just sort of talking through what could be going through the minds of those in government and also in the Trump administration.

我并非说现状如此，只是推测政府及特朗普政府官员可能的想法。

▶ Of course, well, I would say it's not a false dichotomy.

我认为这不是非此即彼的#二元对立#。

▶ If you look at how companies actually make their investment decisions, taxes very much a second order issue, fundamentally they're investing companies invest in Britain because we have good legal services, good intellectual property rights, good infrastructure, trained and skilled workforce.

从企业实际投资决策看，税收属次要因素——企业投资英国根本原因在于我们拥有优质法律服务、知识产权保护、基础设施及训练有素的劳动力。

00:14:12

▶ These are the things that companies are going to look for, you know, AI development, big tech development requires a skilled workforce and good property rights, fundamentally.

这些才是企业看重的基本要素：人工智能和科技发展需要熟练劳动力和完善的产权保护。

▶ There's a reason why they're not opening these data centres in say, or in say Saudi, well, they're opening some in Saudi Arabia, but let's be honest, that's not, you know, you invest in Britain because of the workforce and the infrastructure, not because of the tax system.

他们不在沙特等地建设数据中心是有原因的（虽然沙特也有部分投资），但说实话投资英国看重的是劳动力和基础设施而非税收制度。

▶ All right.

好吧。

00:14:37

▶ Joe, we're going to have to leave it there.

乔讨论到此为止。

▶ It's a huge, huge debate, but thank you for getting up early to give us your take on that.

这是个极其重大的议题，感谢您早起分享见解。

▶ Joe, right there from the tax campaign group tax justice UK.

乔来自税收正义运动组织"英国税收正义"。

▶ Now an appeals court in the US has ruled that Federal Reserve Governor Lisa Cook can continue to serve ahead of a key policy meeting due to start at the central bank today.

美国上诉法院裁定美联储理事丽莎·库克可继续履职，今日央行将召开关键政策会议。

00:15:00

▶ President Trump announced her firing last month over accusations of mortgage fraud which she has denied.

特朗普总统上月以#抵押贷款##欺诈#指控宣布将其解职（库克予以否认）。

▶ Cook sued to block her removal.

库克提起诉讼阻止免职。

▶ Meanwhile, the Senate has cleared Trump's pick, Stephen Miran, to join the Fed's board as the US Central Bank is set to make its latest call on interest rates, which happens on Wednesday tomorrow, of course.

与此同时参议院已批准特朗普提名的斯蒂芬·米兰进入美联储董事会，美国央行将于明日周三公布最新利率决议。

00:15:21

▶ And it is widely watched by the markets globally.

全球市场高度关注此次决议。

▶ Will Walker R. Not, director of private clients at Charles Stanley joins me now.

查尔斯斯坦利私人客户总监威尔·沃克·R·诺特加入讨论。

▶ Hello to you, Will.

威尔您好。

▶ Morning, Sally.

早上好莎莉。

▶ It would be interesting, wouldn't it be a fly on the wall at this meeting at the Fed this month?

若能旁听本月美联储会议应该会很有趣吧？

🎧 I think it certainly would be, but at least we know who's actually going to be attending, because that wasn't even clear before last night.

确实如此，但至少我们现在明确参会人员——昨晚之前这还是个未知数。

00:15:44

🎧 So Lisa Cook will be there and Steve Miran will be there as well.

丽莎·库克和史蒂夫·米兰都将出席。

🎧 And I think markets and investors will be reassured that the separation of powers remains intact in the US in the sense that the appeals court was able to stop Donald Trump's administration from removing Lisa Cook.

我认为市场和投资者会感到安心，因为美国的三权分立制度依然稳固——上诉法院能够阻止特朗普政府撤销丽莎·库克的职务就证明了这一点。

🎧 But on the other hand, we've got this revolving door of advisors coming out of the White House in the former Steve Miran and going in to make decisions on behalf of the Federal Reserve.

但另一方面，我们看到前白宫顾问史蒂夫·米兰这类人物通过“旋转门”进入美联储并代表其制定决策。

00:16:13

🎧 So there still is concern.

因此人们仍然存在担忧。

🎧 I don't think this will stop Donald Trump.

我认为这不会阻止唐纳德·特朗普。

🎧 His relentless campaign against the Federal Reserve will continue.

他对美联储的#不懈#抨击仍将持续。

🎧 He may even take the Lisa Cook case all the way through to the Supreme Court.

他甚至可能将丽莎·库克案一直上诉至最高法院。

▶ But for the moment, at least we know who's going to be attending.

但至少目前我们确认了参会人选。

▶ Yeah.

是的。

▶ And a view of the view that we will see a cut in interest rates this week of 25 basis points.

市场普遍预期本周将迎来25个基点的降息。

00:16:34

▶ Or do you think they might even go further than that?

您认为美联储可能采取更大幅度的降息吗？

▶ Yeah, I think a 25 basis point cut is baked in.

是的，25个基点的降息已是既定预期。

▶ There may be some dissenting members who like like Steve Miran, who go for a jumbo rate cuts of what we call 50 basis points.

可能会有像史蒂夫·米兰这样的异议成员主张超大幅度降息，即我们所说的50个基点。

▶ But you have to remember the Federal Reserve has a dual mandate.

但必须注意美联储具有#双重# #使命#。

▶ On the one hand, they've got to look after employment.

一方面需要保障就业。

00:16:54

▶ And we've seen employment fall down in recent months.

近期就业数据已呈现下滑趋势。

▶ We've seen big revisions down.

数据经历了大幅下修。

▶ We saw at the last announcements of jobs data in August, only 22,000 jobs were created in the US.

八月最新就业数据显示全美仅新增2.2万个就业岗位。

▶ But at the same time, they've also got a guard against inflation, which has been picking up as we saw from some data last week.

但同时还需防范通胀——上周部分数据已显示通胀正在回升。

▶ So they've got to be cognizant of that dual mandate, which I think a 25 basis point cut is most likely.

因此他们必须权衡#双重# #使命#，我认为25个基点的降息是最可能的选择。

00:17:17

▶ OK.

明白。

▶ Will, thank you.

威尔，谢谢您。

▶ On Monday, President Trump hailed two days of US-China trade talks as having gone very well.

本周一，特朗普总统称赞为期两天的中美贸易谈判进展非常顺利。

▶ And that he'll be speaking to *** on Friday.

并表示将于周五与***通话。

00:18:49

▶ One immediate offshoot from the talks is over TikTok's American ownership, with Treasury Secretary Scott Bessent saying the framework of a deal has been reached, potentially avoiding a future US ban.

谈判的直接成果涉及TikTok在美运营权问题，财政部长斯科特·贝森特表示已达成协议框架，可能避免该应用在美遭禁。

▶ But movement on the broader issue of tariffs is less clear.

但在更广泛的关税问题上进展尚不明朗。

▶ One sector desperate for clarity is farmers.

农业领域亟需获得#明确#信息。

▶ US soybean farmers in particular, they currently face a 34% levy on sales to China as part of retaliatory tariffs.

特别是美国#大豆#农户，目前因报复性关税政策，对华销售需承担34%的#税额#。

00:19:18

▶ Previously, a huge customer for US soybeans, the increased cost has seen China go elsewhere for its supplies, with Latin America, Brazil in particular reaping the rewards.

此前作为美国大豆最大客户的中国，因成本增加转而寻求其他供应源，拉美地区（尤其是巴西）从中获益。

▶ Bob Hema-Sath is a soybean farmer and President of US advocacy group, farmers for free trade.

鲍勃·赫马-萨斯是美国#大豆#种植户，也是自由贸易#倡导#组织"农民支持自由贸易"的主席。

▶ Bob, welcome to BBC News.

鲍勃，欢迎来到BBC新闻。

▶ Have you heard any detail at all about these talks that took place in Spain?

您是否获悉在马德里举行的谈判的具体细节？

00:19:47

▶ I have not heard much of anything to be honest with you.

说实话我没有听到任何具体消息。

▶ I'm curious to see what actually comes out of it.

我很期待最终能达成什么成果。

▶ Because I know you're pushing very, very hard for a deal when it comes to soybeans.

我知道您在大豆贸易协议方面一直在极力推动。

▶ Just explain how you've been impacted by these changes in tariffs.

请具体说明关税变动对您造成的影响。

▶ Well, so it boils down to, with the tariffs that have been imposed and the reciprocal tariffs that have been imposed by China.

归根结底，由于美国加征关税和中国实施的#对等#关税。

00:20:18

▶ Actually they have not imported any soybeans from the United States in the past few months and have gone elsewhere looking for them.

过去几个月中国实际上未从美国进口任何大豆，而是转向其他国家采购。

▶ As you mentioned, Brazil is probably the biggest supplier.

如您所言，巴西可能是最大供应国。

▶ That's concerning because number one, it's a lost market for our products.

这令人担忧：其一我们失去了产品市场。

▶ But also, as China and these countries look elsewhere for agricultural products that we normally have been exporting to them, it's awful hard to get those markets back once you've lost them.

其二当中国等国转向采购我们原本出口给他们的农产品后，失去的市场极难恢复。

00:20:53

▶ It's concerning on both parts and there's an urgency to it as well as to get it done as quickly as possible.

双重因素令人忧虑，迫切需要尽快解决这个问题。

▶ So it's not just a fall off in trade from China, you seeing it from other countries as well?

那么除了对华贸易下滑，其他国家是否也出现类似情况？

▶ Oh, yeah.

确实如此。

▶ There's definitely, there's issues all across the world with some of these tariffs.

这些关税政策确实在全球范围内引发了问题。

▶ So, yeah, we're seeing it with other countries as well.

其他国家的市场也在萎缩。

00:21:19

▶ So there's another products.

其他农产品也受影响。

▶ So do you need to see a deal soon?

所以您是否认为急需达成协议？

▶ Because as you say, if it doesn't come swiftly, China and other countries will basically form trade relationships with other suppliers that will then be difficult to unravel.

正如您所说，若不尽快达成协议，中国等国将与其他供应商建立难以瓦解的贸易关系。

▶ Yeah.

是的。

▶ So, yeah, China is actively seeking other opportunities or other places to get those products.

中国正在积极寻找其他机会或地区获取这些产品。

00:21:47

▶ So, the longer that we go on without an agreement, without these negotiations being settled, the further damage it does or the further lack of access to those markets for us and long-term, it means that we may lose those markets.

谈判僵局持续越久，我们的市场损失就越大，长期来看可能永久失去这些市场。

▶ Okay.

明白了。

▶ But I'm really sorry to hear that, but thank you for staying up to talk to us on BBC News or keep in touch with how things go.

很遗憾听到这些，感谢您深夜接受BBC新闻采访，请随时与我们保持联系。

00:22:16

▶ You're welcome.

不客气。

▶ Thank you.

谢谢。

▶ Now, one of those of you, now one, should I say, for those of you who enjoy wearing a sharp suit and I'm not talking about men necessarily, the cutting edge of bespoke tailoring is being celebrated as part of London Fashion Week in the capital.

现在要关注的是：对于热衷精致西装的人士（不限男性），定制剪裁工艺的巅峰正在伦敦时尚周期间得到展示。

▶ Royal Row tailors are marking 50 years of what's often called the Oscars of the tailoring world.

萨维尔街裁缝们正在#庆祝#被誉为"裁缝界奥斯卡"的金剪刀奖项五十周年。

00:22:41

▶ It's the golden shears awards for apprentices in a public exhibition.

这场公开展览展示来自全英的获奖作品与参赛作品。

▶ Award winners and entries from across the UK are on display showcasing the next generation of talent and I'm delighted to say we're joined by this year's winner, Joanna Spreadbury with us this morning who's an apprentice, co-maker at Savile Row's famous Huntsman.

展现了新生代匠人的才华。很高兴今年金奖得主乔安娜·斯普雷德伯里今早来到我们节目，她是萨维尔街著名品牌Huntsman的学徒合作裁缝。

▶ Congratulations.

恭喜您。

00:23:04

▶ Thank you very much.

非常感谢。

▶ So what does it mean to you to be the winner of this prestigious award?

获得这项# prestigious# (prestigious#) 奖项对您意味着什么?

▶ It was a lot.

意义重大。

▶ It's a privilege really to get to this point to be able to showcase the potential of bespoke tailoring nowadays.

能走到今天这个阶段，展示当代定制剪裁的潜力，实在是种#荣幸#。

▶ Now in our minds, when we think Savile Row, we traditionally see a man measuring up another man.

在我们印象中，萨维尔街传统上是男性为男性量体裁衣的场景。

00:23:28

▶ How many women are there within your world of tailoring on Savile Row?

如今萨维尔街的裁缝行业中有多少女性从业者？

▶ There are a lot actually.

其实有很多。

▶ It's true.

确实如此。

▶ It used to be male dominated as an industry but I think from my perspective, there are lots of women training and also cutting and making as well.

这个行业过去由男性主导，但据我观察，现在有大量女性在接受培训，从事剪裁和制作工作。

▶ And do women come to Savile Row to get suits made?

那么女性会来萨维尔街定制西装吗？

▶ Is that quite common now?

现在这种情况常见吗？

00:23:51

▶ It's all happened.

这已经成为现实了。

▶ Yes, we have a women's work at Huntsman and work with Magdalena.

是的，我们在Huntsman设有女装部，并与#玛格达莱娜#合作。

▶ The work has been fantastic.

成果非常出色。

▶ There are a lot of women coming because they want to have bespoke suits as well.

现在有很多女性前来，因为她们也想拥有#定制西装#。

▶ Yeah, absolutely.

确实如此。

▶ So business is booming.

所以生意非常红火。

▶ So talk us through your apprenticeship.

请说说你的学徒经历。

▶ You've won the Golden Shares, which is amazing.

你获得了#金剪刀奖#，这非常了不起。

00:24:13

▶ What does that mean for you in terms of your training and what's going on in the future for you?

这对你的培训意味着什么？你的未来发展规划是怎样的？

▶ Well, so I've been training as a Co-Matera apprentice for the last two years and the Golden Shares have an opportunity to essentially see what you can do generally with specialised in cutting or making.

过去两年我一直在接受Co-Matera学徒培训，而#金剪刀奖#本质上让你有机会全面展示自己在剪裁或制作方面的专长。

▶ And so I'm a maker.

我是一名制衣师。

00:24:37

▶ But the Golden Shares have an opportunity to design, cut and make your garments.

但#金剪刀奖#要求参赛者独立完成服装的设计、剪裁和制作。

▶ So for me, it was a real privilege and opportunity to ask questions, to push the boat out a little bit and see what was possible.

这对我来说是难得的机遇，可以大胆探索各种可能性。

▶ So for me, it was a real creative journey.

这是一段真正的创意之旅。

▶ I really enjoyed it.

我非常享受这个过程。

▶ To be working on Savile Row is for many an absolute dream.

在萨维尔街工作对许多人来说是终极梦想。

00:25:00

▶ How did you get to that point?

你是如何实现这个目标的？

▶ In particular, while in truth, I was, I sent emails and things at that, but actually it was walking up and down the street with CB.

其实我当时投过简历，但真正转机是带着CB在这条街来回走动。

▶ I was walking up and down.

我反复徘徊。

▶ I was praying about which one to go into.

心里默念着该进哪家店。

▶ And I really wanted to go into Huntsman, but I was a bit nervous.

我最想去Huntsman，但有些胆怯。

▶ So I left up to the end of the week.

所以一直拖到周末。

00:25:22

▶ And when I spoke to Campbell Carey, he's a creative director.

后来我和创意总监#坎贝尔·凯里#交谈时——

▶ He was so friendly, sound like a wonderful place to work with a lot of investment in the training.

他非常友善，这里像是理想的工作场所，且注重培训投入。

▶ So you literally just showed up with your CV and knocked on the door?

所以你真的是带着简历直接上门求职的？

▶ Yeah, I think you've been going in person and made such a difference.

是的，当面自荐确实改变了局面。

▶ Yeah, I think so.

我也这么认为。

00:25:41

▶ It paid off.

你的努力得到了回报。

▶ You're bravery and courage paid off.

你的勇敢和勇气获得了回报。

▶ Well, Joanna, congratulations.

乔安娜，恭喜你。

▶ Thanks for joining us this morning.

感谢今早接受采访。

▶ Good luck with your career.

祝你事业顺利。

▶ And that brings us to a close business today.

今日商业资讯到此结束。

▶ Have a lovely day.

祝大家度过愉快的一天。

▶ I will see you soon.

下次再见。

00:25:54

▶ Hello there.

大家好。

▶ It's been a noisy start to the week.

本周开局风雨交加。

▶ Strong to get forced wins in England and Wales.

英格兰与威尔士地区遭遇强风。

▶ Large waves as well.

还伴有大浪。

▶ But on Tuesday, it's not going to be as windy.

但周二#风力#会减弱。

▶ There'll be more sunshine around because there will be fewer showers.

由于降雨减少，阳光会更充足。

▶ This was the low pressure that brought the windy weather.

先前的低气压导致了#大风#天气。

▶ That's moving away into Scandinavia.

现在正移向斯堪的纳维亚半岛。

00:26:26

▶ Hence the winds easing.

因此风力逐渐减弱。

▶ But this next area of low pressure will bring some wet and windy weather overnight and into Wednesday.

但下一个低气压区域将在#夜间#至周三带来降雨和#大风#。

▶ Still got a few showers on Tuesday across Northern England in particular.

周二英格兰北部地区仍有零星降雨。

▶ A few from Northern Ireland moving away into South West Scotland.

北爱尔兰的降雨带将移至苏格兰西南部。

▶ A few showers from Northern Scotland.

苏格兰北部有零星阵雨。

▶ Otherwise sunny spells.

其他地区晴间多云。

00:26:43

▶ A lot of dry weather around.

大部分时间天气干燥。

▶ Although it will cloud over in the Southwest towards the end of the day.

不过#西南部#傍晚时分将转阴。

▶ But with the winds not as strong, it may feel a little bit warmer out there.

由于风力减弱，体感温度会略有回升。

▶ Attempts getting up to 18-19 degrees at best.

最高气温预计达18-19度。

▶ And then this next area of low pressure comes in from the Atlantic.

随后下一个低气压将从#大西洋#袭来。

▶ That strengthens the wind overnight and brings rain to many areas into Wednesday morning.

#夜间#风力增强，周三清晨多数地区将迎来降雨。

00:27:02

▶ So a bit of a wet start for some.

部分地区将在雨水中迎来清晨。

▶ This rain and cloud could hang on into the afternoon.

阴雨天气可能持续到下午。

▶ Of course, South Wales, the Midlands and Southern England.

尤其是南威尔士、中部地区和英格兰南部。

▶ But elsewhere, the rain pushes through.

其他地区降雨会逐渐停止。

▶ Sunshine comes out from North Wales, Northern England, and Northwards.

北威尔士、英格兰北部及以北地区将放晴。

▶ And it's warmer air in a Southwesternly wind.

西南风会带来暖空气。

▶ And so temperatures in the sunshine could get up to 20 or 21 degrees.

晴好地区气温可能升至20-21度。

00:27:22

▶ It's a bit messy through the rest of the week.

本周剩余天气有些#多变#。

▶ There's still going to be some rain hanging around for Northern and Western areas.

北部和西部地区仍有降雨。

▶ But get a bit more sunshine later in the Southeast.

但后期#东南部#阳光会更充足。

▶ And it should get a bit warmer.

气温也会有所回升。
