🎧 Well, something that really stands out from my reporting activities today is that I have had a conversation via, you know, remotely because he's in America with a retired American special forces Lieutenant Colonel Anthony Aguilar.

今日报道中最突出的是我与美国退役特种部队中校安东尼·阿吉拉尔的远程对话。

 00:15:09

🎧 Now, he left the military earlier on this year.

他今年初退役。

🎧 He was very experienced combat soldier, special forces, as I say.

他是经验丰富的特种部队士兵。

🎧 And he was signed up to be one of the security guards at the, this Gaza humanitarian foundation distribution site.

他签约成为加沙人道主义物资分发点的安保人员。

🎧 He thought it was going to go on to humanitarian mission.

原以为这是人道主义任务。

🎧 It was very concerned about the way that it was being run.

但他对运作方式深感忧虑。

 00:15:31

🎧 It didn't appear to be rules of engagement.

似乎没有明确的交战规则。

🎧 And since it all started in May, more than, according to the UN, more than 1,000 Palestinians trying to get food have been killed, shot dead at those sites.

据联合国统计，自五月以来已有超千名巴勒斯坦人在领取食物时遭射杀。

🎧 There are four of them.

▶ And the Israelis have consistently denied that the IDF have their forces have been targeting civilians.

▶ And the people behind this Gaza humanitarian foundation, which is a sort of joint venture between Israel and the Americans, have saying that their people are also not killing.

该基金会（以美合资）称其人员也未杀人。

bilibili 00:16:05

▶ However, our Colonel, Colonel Aguilar has, he left after being there in May and June in disgust because he said he saw the, the America, some of his American colleagues, not all some.

但阿吉拉尔中校五月至六月在场时目睹部分美国同事和以军向平民开火，愤而离职。

▶ And also the IDF opening fire on crowds of civilians.

以军向平民人群开火。

▶ In one case, he said firing a tank shell from the main armament, the main gun of a big tank at a car that was leaving with people in it in a crowded area.

他称曾见以军坦克主炮向载人车辆开火。

bilibili 00:16:34

▶ People were killed.

造成人员死亡。

▶ He's seen artillery and mortars and live ammunition being used effectively for crowd control.

他还目睹火炮和实弹被用于人群控制。

▶ And so what he said to me, and this all this is going to be in my report, is that in his very long military career, with actually many years of continuous combat service, he has never seen such brutality.

他在漫长军旅生涯中从未见过如此暴行。

▶ He used very strong language for something that clearly he found even as a man who'd seen a lot in the world, he found really shocking.

这位见多识广的军人用激烈言辞表达震惊。

 00:17:03

▶ And did you put these points to the Israeli government?

 00:17:25

▶ We've given it to them already in general terms.

▶ They were waiting to see what they say.

▶ You hear that the whole time in Israel.

这在以色列常被提及。

▶ The kernel that we were speaking to is deeply skeptical about assertions like that.

受访中校对此深表怀疑。

 00:17:49

▶ And, you know, he makes the point that in professional armies, like the one he served in for, I think, 25 years, they have regular instruction about the laws of war.

他指出专业军队定期接受战争法培训。

▶ And also, something he found shocking when he joined this protection force for the for the Garzae-Maliterian Foundation.

加入保护部队时发现无明确交战规则。

▶ There are also rules of engagement.

应有交战规则。

▶ What if you're confronted with a group of civilians?

面对平民群体该如何应对？

 00:18:14

▶ What do you do?

具体操作规范？

▶ And, you know, essentially, there was nothing.

实际上毫无规范。

▶ He said they repeatedly asked.

他们多次询问。

▶ They were essentially told that if you feel that anyway threatened you, note them fire.

仅被告知"感到威胁即可开火"。

▶ Now, you know, that is not the way to run a professional law-abiding army.

这不符合专业守法军队的准则。

▶ And this I stress was the GHF.

强调这是GHF的情况。

▶ It wasn't the IDF.

非指以国防军。

▶ But he also says, and he knows what he's looking for.

但他明确表示——

 00:18:38

▶ He says he saw the IDF opening fire on civilians.

目睹以国防军向平民开火。

▶ And, frankly, there is a lot of other corroboratory evidence, which is separate, in terms of certainly Medics I've spoken to, who have dealt with a huge stream of casualties coming from those so-called humanitarian sites, a militarized aid program in an area in a in a in a in a war zone, that they've seen dead and wounded coming out of those in great numbers.

其他证据也显示这些"人道主义站点"造成大量伤亡。

▶ So there is this growing body of evidence.

证据不断累积。

 00:19:12

▶ And this eyewitness testimony is only one small part of it, that far from trying to protect the lives of civilians, which is a legal obligation for belligerence in a war.

与保护平民的法律义务背道而驰。

▶ In fact, they have been using live ammo and but just guns, but heavier stuff as well, as a form of crowd control, to try to control these streams of thousands of desperate people.

实际使用轻重武器进行人群控制。

▶ And Jeremy, from all the information and evidence that you and your colleagues have been able to gather, how critical now is this lack of food?

当前粮食短缺有多严峻？

 00:19:52

▶ We have seen the images, we've heard the voices, we're seeing the numbers revealed, but just how critical are things there now?

根据现有信息如何评估？

▶ Well, of course, it would be much better from a journalistic point of view, if we were inside guys ourselves, than able to go from house to house, 10 to 10, in the hospital, speak to the doctors, the ways that you normally would in these things, but Israel doesn't allow us to go in.

以色列禁止记者进入实地调查。

▶ But putting that one, putting that aside, a lot of evidence is coming out.

但大量证据已浮现。

 00:20:20
