

US Job Figures in Focus as Europe Launches Supercomputer and Music Industry Fears AI Threat

【BBC Business Today 20250905 全球聚焦美国8月就业数据 | 欧洲超级计算机上线 | 音乐界联手抗议AI侵权 | 美联储独立性受挑战】

Summary: All eyes are on the U.S. job market as August figures are set to reveal the health of the world's largest economy. Meanwhile, Europe launches Jupiter, its first exascale supercomputer, promising breakthroughs in AI and climate science. The music industry, backed by stars like Elton John, protests the UK's data bill, fearing unchecked AI exploitation of copyrighted work. Additionally, concerns grow over Federal Reserve independence amid political appointments and cyber attacks disrupt major firms like Jaguar Land Rover.

摘要：全球聚焦美国8月就业数据，这将揭示世界最大经济体的健康状况。欧洲首台百亿亿次超级计算机“木星”正式启用，有望推动AI与气候科学突破。音乐行业获艾尔顿·约翰等巨星声援，抗议英国数据法案纵容AI侵权。美联储独立性因政治任命受质疑，捷豹路虎因网络攻击停产，银行业裁员风波持续。

▶ Now last month President Donald Trump fired Ericka McIntyre who was the commissioner of the Bureau for Labor Statistics claiming that the numbers had been rigged to make the Republicans and himself look bad, he said.

上个月，唐纳德·特朗普总统解雇了劳工统计局专员埃里卡·麦金太尔，声称数据被操纵，以使共和党人和他本人看起来糟糕，他是这么说的。

▶ Now on Thursday figures from ADP showed private payrolls increased by just 54,000 in August and that's short of the 75,000 estimate from economists pulled by Dow Jones.

周四，ADP的数据显示，八月份私营部门工资单仅增加了54,000人，这低于道琼斯调查的经济学家预估的75,000人。

▶ However, a number of journalists are predicting today's figure, we'll also report that figure with 75,000 new job openings in August which is on par with the 73,000 new openings in July.

然而，一些记者预测今天的数字，我们也将报道该数字，即八月份有75,000个新职位空缺，这与七月份的73,000个新空缺基本持平。

▶ Lovely to have you with us here on BBC News.

很高兴您能来到BBC新闻与我们在一起。

▶ So let's just start off first off with the firing of Miss McIntyre.

那么，我们就从麦金太尔女士被解雇这件事开始吧。

▶ How significant was that in the build up to the release of these figures?

在准备发布这些数据的过程中，这件事有多重要？

▶ Well, I think it was quite significant.

嗯，我认为这相当重要。

 00:02:02

▶ I mean, this is the first time that I can remember where a BLS commission was fired.

我的意思是，这是我记忆中第一次有劳工统计局专员被解雇。

▶ But I think the important thing to keep in mind is that the BLS numbers, I mean, they do
omens work and try to calculate the change in employment in a \$30 trillion economy.

但我认为需要记住的重要一点是，劳工统计局的数据，我的意思是，他们做着繁重的工作，试图计算一个30万亿美元经济体的就业变化。

▶ Because revisions are normal, there's no political bias, any evidence of that.

因为修订是正常的，没有任何政治偏见的证据。

 00:02:23

▶ I do think it's going to raise some question marks no matter what the jobs number are, is reported later today.

我确实认为，无论今天早些时候报告的就业数据如何，这都会引发一些疑问。

▶ But at least in the near term, I'm not overly concerned that these numbers are going to be, you know, fudged in any manner.

但至少在短期内，我并不十分担心这些数字会以任何方式被篡改。

▶ And in terms of the replacement for the new bureau, the names in the hat, can you tell us who's likely to be appointed to that role?

关于新局长的接替人选，那些可能的人选，你能告诉我们谁有可能被任命担任该职务吗？

 00:02:47

▶ Well, I mean, there's a lot of these being floated out there.

嗯，我的意思是，有很多名字在流传。

▶ And I want to speculate on who's going to get the job.

我不想猜测谁会得到这份工作。

▶ I mean, the most important thing is that whoever does become the next BLS commissioner demonstrates that, you know, they're politically independent.

我的意思是，最重要的是，无论谁成为下一任劳工统计局专员，都要证明他们在政治上是独立的。

▶ I do think in, at least in the near term, we don't have to be overly concerned about that because the BLS has a lot of civil servants that have been there for years or decades.

我确实认为，至少短期内，我们不必过分担心这一点，因为劳工统计局有很多已经在那里工作多年或数十年的公务员。

 00:03:08

▶ And, you know, they are not going to cave to political pressure, whether it was a Republican president or a Democrat.

而且，你知道，他们不会屈服于政治压力，无论是共和党总统还是民主党总统。

▶ You know, their job is to try to do their best to calculate employment, changes in employment on a multiple, multiple basis, which is a herculating task.

你知道，他们的工作是尽力在多方面、多基础上计算就业、就业变化，这是一项极其艰巨的任务。

▶ But we'll see what the number is later this morning.

但我们将在今天上午早些时候看到数字是多少。

 00:03:27

▶ But there is going to be a lot of speculation of what or not this is, the true number.

但会有很多关于这是否是真实数字的猜测。

▶ But, you know, I think markets understand this, you know, economists understand this is their first estimate.

但是，你知道，我认为市场理解这一点，经济学家也明白这是他们的首次估计。

▶ It's going to get revised and this is, you know, normal.

它会被修订，这是，你知道，正常的。

▶ And in fact, I would argue that the revisions are good because it signals that the BLS is doing everything they can to get these numbers right in the end.

事实上，我认为修订是好事，因为它表明劳工统计局正在尽一切努力最终得到正确的数字。

 00:03:46

▶ Ryan, I wonder if you could just explain that for us.

瑞安，我想知道你是否能为我们解释一下。

▶ So you probably have said it in your response there.

你可能已经在你的回答中说过了。

▶ But you said there's still going to be speculation.

但你说仍然会有猜测。

▶ There are still going to be questions once these figures are released.

这些数字发布后，仍然会有问题。

▶ What exactly?

具体是什么？

▶ Well, I think any time you fire the BLS commissioner, which, again, I think took a lot of people by surprise.

嗯，我认为任何时候你解雇劳工统计局专员，这，再次强调，我认为让很多人感到惊讶。

 00:04:06

▶ And you're trying to, you know, there's a lot of pressure on the BLS.

而且你试图，你知道，劳工统计局面临很大压力。

▶ You know, markets are going to question the numbers, whether or not there was any political influence that there won't be.

你知道，市场会质疑这些数字，质疑是否存在任何政治影响，尽管可能并没有。

▶ But the fact that you put some doubt into market's minds or economists or businesses, I think does some damage.

但你在市场、经济学家或企业心中埋下了一些怀疑，我认为这确实造成了一些损害。

▶ But in the end, I do think the numbers that we get tomorrow are going to be the BLS's best, you know, first estimate at the change in employment for August.

但最终，我确实认为我们明天得到的数字将是劳工统计局对八月份就业变化的最佳的，你知道，首次估计。

⌂ Obviously, the Federal Reserve has been in the news.

显然，美联储一直是新闻焦点。

⌂ Now you're saying there's going to be question marks in terms of the independence of the Bureau of Labor statistics.

现在你说劳工统计局的独立性方面将存在问号。

⌂ How much damage is all of this doing to the wider US economy?

所有这一切对更广泛的美国经济造成了多大损害？

⌂ Well, so far not a lie.

嗯，到目前为止损害不大。

bilibili 00:04:54

⌂ But I do think, you know, shipping away at the independence of the central bank, I think is an enormous risk to financial markets in the US, but also the US economy.

但我确实认为，你知道，侵蚀中央银行的独立性，我认为这对美国金融市场以及美国经济都是一个巨大的风险。

⌂ I mean, there's a whole litany of economic and academic research that shows that countries with independent central banks typically have lower unemployment rates, lower inflation.

我的意思是，有大量的经济和学术研究表明，拥有独立中央银行的国家通常失业率更低，通货膨胀率更低。

⌂ And so, you know, it's very, very, it's paramount that the Fed maintains its independence for the US economy and for also, you know, the trust globally, the trust in the US central bank.

因此，你知道，美联储保持其独立性对于美国经济以及，你知道，全球信任，对美国中央银行的信任至关重要。

 00:05:27

▶ I think, you know, President Trump has had plenty of appointees to the Federal Reserve Board.

我认为，你知道，特朗普总统已经任命了很多进入联邦储备委员会。

▶ I think, you know, those that have made it through the confirmation process have ended up being very good governors.

我认为，你知道，那些通过确认程序的人最终都成为了非常优秀的理事。

▶ I think, you know, the confirmation hearing this, you know, on yesterday, I don't think that's going to tip the scales on the Fed's independence or, you know, tip the Fed's hand one way from the other when it comes to monetary policy.

我认为，你知道，昨天的确认听证会，我不认为那会改变美联储独立性的天平，或者，你知道，在货币政策上迫使美联储偏向某一方。

 00:05:51

▶ But what's going on with governor, Lisa Cook, I think, is raising a lot of eyebrows because this could open up Pandora's box where, you know, this would be the first, you know, central firing of a Fed governor.

但丽莎·库克理事的情况，我认为，引起了很多侧目，因为这可能打开潘多拉魔盒，你知道，这将是第一次，你知道，解雇一位美联储理事。

▶ And that would put, you know, other Fed governors at risk potentially being fired for cause.

那将会使，你知道，其他美联储理事面临可能因故被解雇的风险。

▶ So that's something we're keeping a close eye on.

所以这是我们正在密切关注的事情。

 00:06:08

▶ But as we're right now, I think, you know, the Fed's independence, the institution remains strong.

但就目前而言，我认为，你知道，美联储的独立性，这个机构仍然强大。

▶ And, you know, I don't think we need to be overly concerned that the Fed is going to get politicized, at least to the rest of this year and into next.

而且，你知道，我认为我们不需要过分担心美联储会被政治化，至少在今年剩余时间和明年不会。

▶ Professor, hello and welcome to the program.

教授，您好，欢迎来到节目。

▶ How excited should we be about the super computer?

我们应该对这台超级计算机感到多兴奋？

▶ Thanks.

谢谢。

▶ We should be very excited, but at the same time, very worried, because this is essentially a geostrategic move that are only officially four super computers of that side with these exescale capacities and three United States.

我们应该非常兴奋，但同时也很担忧，因为这本质上是一次地缘战略行动，官方上只有四台具有这种百亿亿次级计算能力的超级计算机，其中三台在美国。

 00:08:27

▶ This is the first one in European land, let's say, and Germany, the super computer center in Eulich tries to make a bet to recover some dominance and influence into AI.

这是欧洲大陆上的第一台，可以说，德国于利希的超级计算中心试图通过这次尝试来重获在人工智能领域的一些主导地位 and 影响力。

▶ And also to capital, this super computer to the current quantum computers that we are building in Europe.

同时也要利用这台超级计算机，与我们正在欧洲建造的量子计算机进行协同。

▶ When you say it's a geostrategic move, are you saying that regions around the world are being forced to catch up?

当你说这是一场地缘战略行动时，你是否在说世界各地正被迫迎头赶上？

 00:08:54

▶ Essentially, yes, due to the, as you know, the unstable situation with unexpected wars appearing and the clear distrust between North America, Europe, and China.

本质上是的，原因是，如你所知，不稳定的局势、突然出现的战争以及北美、欧洲和中国之间明显的不信任。

▶ So somehow, the technological sovereignty is now back, not a cold war, but somehow Europe is trying to get some sovereignty and some independence such that in case all the shutdown the access to advanced technology, we can survive, compete and build our own resources.

所以在某种程度上，技术主权现在又回来了，这不是冷战，但欧洲正试图获得一些主权和独立性，以便在万一（他们）全部切断对先进技术的访问时，我们能够生存、竞争并建立我们自己的资源。

▶ Professor, I'm just wondering, I mean, this is described as an exescale supercomputer.

教授，我只是在想，我的意思是，这被描述为一台百亿亿次级超级计算机。

 00:09:36

▶ We know that there are question marks over the amount of energy that these processors take.

我们知道这些处理器的能耗存在问号。

▶ Surely there needs to be a backup system as well, doesn't that?

当然也需要一个备用系统，不是吗？

▶ Isn't that, you know, introduce more issues, more problems?

这是否会，你知道，引入更多的问题，更多的麻烦？

▶ That's exactly the point, you know, the advertisement of two-pitter, this super computer, which is true and can be followed, consumes less energy, let's say, than the American versions, exescale machines in US.

这正是关键所在，你知道，这台超级计算机的宣传点是它的能耗更低，这是真实且可验证的，可以说，比美国的百亿亿次级机器能耗更低。

 00:10:07

▶ At the same time, we are trying to save energy.

与此同时，我们正试图节约能源。

▶ AI is requiring so much energy that some companies in US have considered the possibility to build nuclear plants just to provide energy to these computers.

人工智能需要如此多的能源，以至于美国一些公司已经考虑建造核电站来专门为这些计算机提供能源。

▶ So somehow, this is like a chicken and egg problems, text sovereignty on one side, quantum computers will use less energy and the idea is to couple these quantum computers to super computers, but it doesn't look like we are trying to get rid of excess use of energy.

所以在某种程度上，这就像一个鸡和蛋的问题，一方面是技术主权，量子计算机将使用更少的能源，并且想法是将这些量子计算机与超级计算机耦合，但这看起来我们并非在试图摆脱过度的能源使用。

你的评估是什么？

▶ What do you make of Mr. Trump's pick?

你对特朗普先生的选择怎么看？

▶ Hi, good morning.

嗨，早上好。

▶ Thanks for having me.

谢谢邀请我。

▶ I mean, I can understand why some market参与者 are fearful of the threat to Fed reserves independence, because Stephen Myron clearly is still employed by the White House, and if he is in store into the Fed, then clearly there could be some threat to independence.

我的意思是，我能理解为什么一些市场参与者担心美联储独立性的威胁，因为斯蒂芬·迈伦显然仍受雇于白宫，如果他进入美联储，那么显然会对独立性构成一些威胁。

bilibili 00:14:46

▶ And of course, we know that President Trump has been banging on about the Fed to cut interest rates.

当然，我们知道特朗普总统一直在喋喋不休地要求美联储降息。

▶ He's been very, very vocal about that.

他对此一直非常非常直言不讳。

▶ And he has previously tried to get rid of Jay Powell, for example, the Fed chair, and also clearly tried to finally set, Koko is a sitting independent Fed together.

而且他之前曾试图摆脱杰伊·鲍威尔，例如美联储主席，并且显然也试图最终让，科科（原文可能有误）是一位在任的独立美联储成员。

bilibili 00:15:05

▶ And so I think there is some reason to understand why the financial markets can feel nervous about it, because if the Fed independence is threatened, then clearly the credibility to US monetary policy system is at risk.

因此，我认为有理由理解为什么金融市场会对此感到紧张，因为如果美联储的独立性受到威胁，那么显然美国货币政策体系的可信度就面临风险。

▶ I mean, we've had the Bank of England governor, Andrew Bailey, but also Europe's Christine Lagarde warning about the need to keep the independence.

我的意思是，我们不仅有英国央行行长安德鲁·贝利，还有欧洲的克里斯蒂娜·拉加德都警告需要保持独立性。

▶ Just how much confidence or credibility do the markets have in what is taking place in the United States?

市场对美国正在发生的事情有多少信心或可信度？

bilibili 00:15:37

▶ I mean, does it matter?

我的意思是，这重要吗？

▶ What are the general trends?

总体趋势是什么？

▶ Yeah, I think it obviously clearly matters because the credibility on the Fed reserves independence to keep inflation at 2% target is very important.

是的，我认为这显然很重要，因为美联储独立性维持通胀在2%目标的可信度非常重要。

▶ Once you lose that credibility, people would believe that inflation may get out of control.

一旦失去这种可信度，人们会相信通胀可能失控。

▶ And that's clearly very damaging.

而这显然是非常有害的。

bilibili 00:15:58

▶ And we can see some nervousness in the financial markets, particularly in the dollar.

我们可以在金融市场看到一些紧张情绪，尤其是在美元方面。

▶ For example, the dollar has weakened markets this year.

例如，美元今年已经削弱了市场。

⏮ And also the bond market, particularly the longer term government borrowing costs has been rising.

还有债券市场，特别是长期政府借贷成本一直在上升。

⏮ And we can also see that in gold prices, so gold prices have reached a record high, indicating that investors are seeking other assets that can protect them from the risk of inflation and the risk of erosion of credibility in US monetary policy.

我们也可以从金价中看到这一点，金价已创下历史新高，这表明投资者正在寻找其他资产，以保护自己免受通货膨胀风险和美元货币政策可信度被侵蚀的风险。

⏮ 00:16:29

⏮ But then on the other hand, US surprises actually have reached another record high.

但另一方面，美国股市实际上也创下了另一个历史新高。

⏮ So you can see some nervousness, but I think investors are not panicky, I will say.

或许并不令人意外的是，今年有很多关于人工智能的讨论，以及它将如何连接我们家中不同的电器。

 00:17:18

▶ Take, for example, the kitchen, where the fridge knows what's in it and can suggest some recipes for you to cook.

以厨房为例，冰箱知道里面有什么，并可以为你建议一些烹饪食谱。

▶ But not just that, the AI can then set the oven to preheat to make the food on time.

但不仅如此，人工智能还可以设置烤箱预热，以便准时做好食物。

▶ And then the dishwasher can tidy up after you, all without you having to press any buttons.

然后洗碗机可以帮你收拾残局，所有这些都无需你按下任何按钮。

▶ Of course, with that level of AI integration comes lots of concerns about data and how much these manufacturers are going to know about us.

当然，这种程度的人工智能集成也带来了许多对数据的担忧，以及这些制造商将会了解我们多少信息。

 00:17:45

▶ They tell us that they will use it responsibly, but that isn't always enough to reassure consumers who are worried about having this level of integration in their lives.

他们告诉我们他们会负责任地使用它，但这并不总是足以让那些担心生活中存在这种集成程度的消费者放心。

🎧 Uniquely to other tech conferences, IFA allows the public in here to see some of these concepts.

与其他科技会议不同的是，IFA允许公众进入这里观看一些这样的概念。

🎧 And that will be an interesting chance for these companies to find out if consumers really want this level of AI integration in their lives.

这对这些公司来说将是一个有趣的机会，去了解消费者是否真的希望生活中拥有这种程度的人工智能集成。

 00:18:08

🎧 Now for many companies, President Trump's tariffs are causing a major rethink of supply chains and where they make their products in the first place.

现在对许多公司来说，特朗普总统的关税正在导致对供应链以及最初生产产品地点的重大反思。

🎧 And to add to the uncertainty caused this week, Mr Trump has said that he might have to unwind trade deals that he's already made with the European Union as well as others.

而加剧本周所造成的不确定性的是，特朗普先生表示，如果他在一起关于其合法性的最高法院案件中败诉，他可能不得不取消他已经与欧盟及其他各方达成的贸易协议。

🎧 If he loses a Supreme Court case about their legality, well like so many others, it's become a top concern for Sweden's Hussvana.

和许多其他公司一样，这已成为瑞典富世华公司的首要关切。

 00:18:36

🎧 It's one of the world's biggest makers of lawn mowers, but also garden tools, but it's been moving some of its manufacturing out of China to ease the burden of Mr Trump's tariffs.

它是世界上最大的割草机制造商之一，也生产园艺工具，但一直在将其部分制造业务迁出中国，以减轻特朗普先生关税的负担。

🎧 Well, my colleague Ben Thompson has been speaking to the CEO Glen Einstein and has been asking him just how big a problem the tariffs are proving.

我的同事本·汤普森一直在与首席执行官格伦·爱因斯坦交谈，并一直在问他关税被证明是一个多大的问题。

▶ It's pretty sizable.

这是相当可观的。

bilibili 00:18:57

▶ We haven't fully quantified it externally if I want to put it that way, but we've been offsetting this through way of price in many cases, which of course then passes on to the end user through resourcing as you alluded to earlier.

如果我们想这样说的话，我们还没有在外部完全量化它，但在许多情况下，我们一直在通过价格方式来抵消这一点，这当然会通过资源调配（如您之前提到的）转嫁给最终用户。

▶ So we do resource and start to put more and more production in the US.

所以我们确实在进行资源调配，并开始将越来越多的生产放在美国。

▶ And that could be the final assembly or actually components.

这可能是最终组装，或者实际上是零部件。

bilibili 00:19:20

▶ So we do need to reassess our supply chains as we navigate our way through this current situation.

因此，在我们应对当前形势的过程中，我们确实需要重新评估我们的供应链。

▶ Now, I know the US, you know, your single biggest market, isn't it?

我知道美国是你们最大的单一市场，对吧？

▶ I think on your numbers about 25% of all sales, you used to have a factory in Nashville in the US, but you closed that at the end of last year.

根据你们的数据，约占全部销售额的25%，你们过去在美国纳什维尔有一家工厂，但你们在去年年底关闭了它。

bilibili 00:19:37

🎧 I mean, now given everything that's gone on, that was a bit of a costly mistake, wasn't it?

我的意思是，考虑到发生的这一切，那是一个代价高昂的错误，不是吗？

🎧 Hi, Einstein is a wonderful thing.

嗨，事后诸葛亮是件好事。

🎧 I still believe in our long-term manufacturing footprint that we've done.

我仍然相信我们所做的长期制造布局。

🎧 We moved some of those on that final assembly actually into South Carolina into a factory in Orangeburg.

我们实际上将其中一些最终组装业务转移到了南卡罗来纳州奥兰治堡的一家工厂。

🎧 So still within the US, where we're still making the final assembly of those handheld units that were in Nashville.

所以仍然在美国境内，我们仍在进行那些原本在纳什维尔的手持设备的最终组装。

 00:20:00

🎧 Nashville are conserved, by the way, that we moved them from, but then into South Carolina in a place called Orangeburg.

顺便说一下，纳什维尔的（业务）被保留了，我们是从那里搬走的，但后来又搬到了南卡罗来纳州一个叫奥兰治堡的地方。

🎧 So we still kept the US final assembly aspect there.

所以我们仍然保留了在那里的美国最终组装环节。

🎧 It's a super important market for us.

这对我们来说是一个超级重要的市场。

🎧 We'll continue to be that.

我们将继续如此。

🎧 Of course, we're going through different, cyclical impacts if I can put it like that.

当然，我们正在经历不同的、周期性的影响，如果我可以这样说的话。

 00:20:18

▶ But I believe we're offsetting pretty well through different mitigating actions.

但我相信我们通过不同的缓解措施抵消得相当好。

▶ Again, some unfortunately comes through a way of price.

同样，不幸的是，其中一些是通过价格方式实现的。

▶ We need to pass on to our channel partners and on to end consumers.

我们需要转嫁给我们的渠道合作伙伴，并最终转嫁给终端消费者。

▶ And when you talk about mitigating that, you know, and by having to put up prices in whatever way, I mean, have you looked at how much the consumer can bear here?

当你谈到缓解这一点时，你知道，通过以任何方式提高价格，我的意思是，你们有没有研究过消费者在这里能承受多少？

 00:20:39

▶ You know, how much can you afford to put up prices before those consumers say, you know, well, I just can't afford this anymore.

你知道，在那些消费者说“我再也买不起了”之前，你们能把价格提高多少？

▶ No, we see that.

不，我们看到了这一点。

▶ And of course, competitors are reacting at different times as well in terms of how they mitigate this existing situation.

当然，竞争对手也在不同的时间做出反应，以应对他们如何缓解这种现有局面。

▶ So we need to stay competitive in the marketplace as well.

所以我們也需要在市场上保持竞争力。

 00:20:56

▶ You know, we cannot just pass on everything and hope the consumer is going to take it.

你知道，我们不能只是把一切都转嫁出去，并希望消费者会接受。

▶ We need to stay competitive in the marketplace and really obviously assess what the competitors are doing with their pricing and their offering.

我们需要在市场上保持竞争力，并且非常明显地评估竞争对手在定价和产品供应方面的做法。

▶ And I'm Stone of Husqvarna and you can see more of that interview on Talking Business this weekend.

我是富世华的斯通，您可以在本周末的《谈商业》节目中看到更多该采访内容。

 00:21:16

▶ Now, let's have a change of tune and focus on the music industry because the UK government's data bill passed through Parliament earlier this summer without an amendment granting copyright holders transparency over the scrapping of their intellectual property despite a vocal campaign supported by Alton John, Paul McCartney and Jua Lipa.

现在，让我们换个话题，关注音乐产业，因为今年夏初，英国政府的数据法案在未通过一项修正案的情况下获得了议会通过，该修正案本应授予版权所有者对其知识产权被 scraping（数据抓取）的透明度，尽管有埃尔顿·约翰、保罗·麦卡特尼和杜阿·利帕支持的一场声势浩大的运动。

▶ Now artists had argued that tech firms will now be able to use copyrighted work from the UK to train their AI products without paying for it.

艺术家们认为，科技公司将能够使用来自英国的受版权保护的作品来训练他们的人工智能产品，而无需付费。

▶ So Alton John said it could result in theft and thievery on a high scale.

因此埃尔顿·约翰表示，这可能导致大规模的盗窃和偷窃行为。

 00:21:54

▶ While joining us now is Manon Dave, who is the chief product officer at True Rights and he's worked with the likes of Will I Am, Idris Alba, Snoop Dogg and many others in his capacity as a producer.

现在加入我们的是马农·戴夫，他是True Rights的首席产品官，并曾以制作人身份与威尔·艾姆、伊德里斯·艾尔巴、史努比·狗狗等许多人合作过。

▶ Manon, I love the little smile there.

马农，我喜欢你那个小小的微笑。

▶ I mean those are some big names that you've worked with.

我的意思是，这些都是你合作过的一些大人物。

▶ How worried are they?

他们有多担心？

 00:22:14

▶ Well, thank you so much for having me on.

非常感谢邀请我参加节目。

▶ And yeah, I saw a smile because it feels amazing to collaborate with people of that ilk and honestly the history of the music industry is what's enabled them to also, I think, along the way leverage technology and have the successes that they've had Will I Am in particular is a massive proponent of emerging technologies.

是的，我露出了微笑，因为与那样的人合作感觉太棒了，而且说实话，音乐产业的历史也是让他们能够一路走来利用技术并取得他们已有成功的原因，威尔·艾姆尤其是新兴技术的巨大支持者。

▶ And so I think there is a spectrum.

所以我认为存在一个光谱。

 00:22:39

▶ I think some people are worried in the industry and rightfully so the likes of Alton John and Dua Lipa have raised their voice about this.

我认为行业中的一些人感到担忧，这是理所当然的，像埃尔顿·约翰和杜阿·利帕这样的人已经对此发出了声音。

▶ But I think that an optimistic view on it really is creativity is very resilient.

但我认为一个乐观的看法是，创造力是非常有韧性的。

🎵 And I think the music industry artists in particular are resilient and there is no industry without the artists.

而且我认为音乐产业的艺术家尤其具有韧性，没有艺术家就没有这个产业。

 00:22:58

🎵 I think more and more so over the last decade or two, you've seen folks in the music industry really kind of, I think, harness technology in a meaningful way.

我认为在过去的十年或二十年里，越来越多地，你看到音乐界人士真正地、有意义地利用技术。

🎵 And the goal of True Rights and other organisations, like True Rights is to really help creators take control of their rights and of their music through technology.

而True Rights以及其他类似True Rights的组织的目标，是真正帮助创作者通过技术掌控他们的权利和他们的音乐。

🎵 Manon, you say that it's a very resilient or the artists are very resilient.

马农，你说它非常有韧性或者说艺术家非常有韧性。

 00:23:25

🎵 Are you saying that a lot of the models that are used now within the music industry and copyright protection of their creativity?

你的意思是，现在音乐行业内使用的许多模式以及对他们创造力的版权保护？

🎵 Will that have to change or has it already changed?

那将必须改变，还是已经改变了？

🎵 Well, I think you've seen a couple of things happen.

嗯，我认为你已经看到几件事情发生了。

🎵 Much like the advent of streaming, all of a sudden people who are on mass rights holders, labels, publishers have taken a particular interest in these platforms, the likes of Suno and Udio and they're actually trying to take part.

很像流媒体出现时的情况，突然间，大规模权利持有者、唱片公司、出版商对这些平台产生了特别的兴趣，比如Suno和Udio，他们实际上正试图参与其中。

 00:23:54

▶ There's also reports that they're suing those organisations at the same time as trying to cut deals.

也有报道称，他们在试图达成协议的同时，也在起诉那些组织。

▶ Whatever the truth is, I think what's happening and what's emerging quickly is the models and the folks who are building these models do need to coexist with the industry.

无论真相如何，我认为正在发生和迅速显现的是，这些模型和构建它们的人确实需要与行业共存。

▶ And they know that and I think there is an interest in particular with a couple of those organisations I'm sure to take artists along for the ride with them and actually give artists a voice in how this technology plays a part in the process of music making.

他们知道这一点，而且我认为，特别是其中一些组织肯定有兴趣让艺术家与他们同行，并真正让艺术家在技术如何参与音乐制作过程的问题上有发言权。

 00:24:25

▶ And I'm seeing that every day in the studio, you know, it's become somewhat of a toolset for a lot of people who have kind of harnessed that technology and started to already weave it into their artwork.

我在工作室里每天都看到这种情况，你知道，对于许多已经驾驭了这项技术并开始将其融入自己艺术作品的人来说，它已经成为一种工具集。

▶ Manon, can I just jump in very quickly?

玛农，我能非常快地插句话吗？

▶ Well, if you could put a figure as to how much is worth to these artists, but also your role as a producer, is AI threatening that?

那么，如果你能给出一个数字，说明这对这些艺术家的价值有多大，还有你作为制作人的角色，人工智能是否威胁到了这一点？

🎵 Well, a figure is very hard to put your finger on.

嗯，很难确定一个具体的数字。

🎵 I mean, we know that the creative or creator economy is into the hundreds of billions of worth of hundreds of billions of pounds now and we're not just talking about music.

我的意思是，我们知道创意或创作者经济现在的价值已达数千亿英镑，而且我们谈论的不仅仅是音乐。

🎵 You know, AI is really penetrating, I think, all creative forms.

你知道，我认为人工智能确实正在渗透到所有创意形式中。

🎵 So it's not insignificant by any means.

所以这绝非无关紧要。

🎵 But I think with all the noises kind of, you know, that have been coming out over the last few years around how little artists are earning from streaming, you know, touring and merchandising has become more of a prominent source of revenue for a lot of creators.

但我想，考虑到过去几年里出现的所有关于艺术家从流媒体中收入多么微薄的议论，你知道，巡演和商品销售已经成为许多创作者更重要的收入来源。

🎵 I think that there is an opportunity here to be involved in this next evolution of music making and earn your slice and then to answer your last question as a music producer and specifically of the music groups of my skillset, which I have to admit, I'm not a virtuoso musician.

我认为这里存在一个机会，可以参与到音乐制作的下一次演进中，并赚取你应得的一份，然后回答你的最后一个问题，作为一个音乐制作人，特别是我这种技能类型的音乐人，我必须承认，我不是一个音乐大师。

🎵 I learned how to make music through technology.

我是通过技术学会制作音乐的。

▶ So if somebody like me, I do see it, I do see this kind of optimistic view on what role and what, if you're like an instrument, AI can become.

所以，对于像我这样的人，我确实看到了，我确实对这种乐观的看法持赞同态度，即人工智能可以扮演什么角色，可以成为什么，就像一件乐器一样。

▶ I don't know.

我不知道。

▶ Thank you very much.

非常感谢。

▶ And I hope AI stays away from your front door.

我希望人工智能远离你的家门。

▶ Thank you very much indeed.

真的非常感谢。

▶ At news is coming up next at the top of the aisle.

接下来是新闻，在过道顶部播出。
