▶ And that's because during the Grenfell Public Inquiry, bereaved families, survivors and local residents sat through countless public officials telling the inquiry that they did not recognize the public official.

🎧 You know, it's not guaranteed.

🎧 This is still going to work its way through Parliament.

🎧 There will be pushbacks, there will be people's attempts to water it down.

会有阻力，会有人试图稀释法案效力。

🎧 So, Ash, what happens next?

🎧 He'll also have a state, Banquets, and he'll be inspecting British troops.

他还将出席国宴并检阅英国军队。

 00:10:37

▶ But as far as we know at the moment, because of the big security barriers, the big fences which are in place, and also those very thick, ancient castle walls, all remembered the public will not be able to see President Trump in the flesh.

但由于严密的安全屏障、围栏以及厚重的古城墙，公众将无法亲眼见到特朗普本人。

▶ As far as we understand it, I think that really underlines the extent of the security concerns around this very brief state visits by Donald Trump.

这充分说明了此次特朗普短暂国访所引发的安全关切程度。

▶ For now, back to you.

现场交还演播室。

 00:25:15

▶ And you can see behind me that rain heading in our direction.

从我身后可以看到雨水正朝我们方向而来。

▶ It's not going to arrive just yet.

 00:25:30

▶ The minimum temperature, 12, 13 Celsius, relatively mild.

▶ Perhaps a little lighter, more drizzly, but it is going to stay cloudy.

 00:25:50

🎧 Again, the breeze is there, but it's not as noticeable as today.

依然有#微风#，但不如今天明显。

🎧 Temperatures tomorrow.

明日气温——

🎧 Similar though, it's not especially cold.

相似，不会特别冷。

🎧 19 Celsius despite that cloud and lack of sunshine.

尽管多云缺少阳光，仍有19摄氏度。

🎧 Now, to head overnight, Wednesday into Thursday, we've still got that cloud around a few clear as well.

周三#整晚#至周四，我们仍将处于多云间晴状态。

🎧 But you'll notice this front is waving around and doesn't really go anywhere very quickly.

但你会注意到这个锋面来回摆动，移动速度缓慢。

 00:26:11

🎧 So it's going to hang onto the cloud and it's going to stay with us as we head into Thursday itself.

因此云层会持续存在，伴随我们进入周四。

🎧 Now, it should be a largely dry day on Thursday.

周四应该基本是干燥的。

🎧 The cloud thinning a little.

云层会变薄一些。

🎧 It could even break.

甚至可能放晴。

🎧 So we'll get some brighter spells.

会有较晴朗的时段。

▶ Some sunny spells further south the thicker cloud remains.

南部地区有阳光，北部仍维持厚云层。

▶ The maximum temperature for Thursday is slowly starting to get a little bit warmer.

周四最高气温将缓慢回升。

 00:26:29

▶ Maximum of around 22 Celsius.

最高约22摄氏度。

▶ Now, as we head overnight, Thursday and into Friday, that cloud should start to disappear.

周四#整晚#至周五，云层应该开始消散。

▶ We've got a rigid high pressure building towards us.

有#稳定#的高压系统正向我们移动。

▶ And that's bringing in warm air from the continent, that front that was waving around before is moving further north.

这将从大陆带来暖空气，之前摆动的锋面正在北移。

▶ So at the moment, and this could change by the time we get to Friday, it is looking dry with plenty of sunshine.

目前看来周五将是干燥且阳光充沛的——不过到周五前可能还会有变化。

 00:26:49

▶ Actually that warm air that's coming in from the continent means we're looking at temperatures getting up potentially into the mid 20s on Friday, 25 maybe even 26 Celsius short lived.

实际上从大陆涌入的暖空气意味着周五气温可能升至25度左右，甚至短暂达到26摄氏度。

▶ However, as we get into Saturday, there are some showers around.

但到了周六，会有零星阵雨。

▶ Could see the cloud break.

可能见到云层散开。

▶ So a few sunny spells.

会有些许阳光。

▶ Temperatures at 21 Celsius risk.

气温21摄氏度左右。

 00:27:09

▶ So enjoy it.
