

IELTS 10 Test 3 Section 4

【IELTS 10 Test 3 Section 4】

Summary: Self-Regulatory Focus Theory explores how individuals are motivated by either pursuing pleasure (promotion focus) or avoiding pain (prevention focus). Leaders' styles—transformational or transactional—significantly influence which focus followers adopt. Transformational leaders inspire promotion focus through vision and passion, while transactional leaders emphasize rules and consequences, fostering prevention focus. The theory suggests neither focus is inherently better; each suits different contexts, like innovation-driven roles (promotion) or high-stakes jobs like surgery (prevention).

摘要：自我调节焦点理论揭示了人们受"趋利"（促进焦点）或"避害"（预防焦点）驱动的心理机制。领导风格会深刻影响团队动机：变革型领导通过愿景激励员工追求成就，而交易型领导则通过规则强化风险规避。研究表明，两种模式无优劣之分——创新岗位需要促进思维，而外科医生等高风险职业更需要预防性谨慎。该理论为领导者提供了塑造团队行为的新视角。

▶ Section 4.

第四节。

▶ You will hear part of a lecture about leadership introducing a theory called Self-Regulatory Focus Theory.

你将听到关于领导力的讲座部分内容，介绍一种称为自我调节焦点理论的理论。

▶ First, you have some time to look at questions 31 to 40.

首先，你有时间看一下第31至40题。

▶ Now listen carefully and answer questions 31 to 40.

现在请仔细听并回答第31至40题。

▶ Today, I want to talk about Self-Regulatory Focus Theory and how the actions of leaders can affect the way followers approach different situations.

今天，我想谈谈自我调节焦点理论，以及领导者的行为如何影响追随者在不同情境中的应对方式。

 00:01:40

▶ Self-Regulatory Focus Theory is a theory developed by Tory Higgins.

自我调节焦点理论是由托里·希金斯提出的理论。

▶ He says that a person's focus at any given time is to either approach pleasure or avoid pain.

他认为，人在任何特定时刻的焦点要么是追求快乐，要么是避免痛苦。

▶ These are two basic motivations that each and every one of us has and they cause us to have different kinds of goals.

这是我们每个人都有的两种基本动机，它们使我们拥有不同类型的目标。

▶ Promotion goals in different life situations emphasize achievement.

促进目标在不同生活情境中强调成就。

 00:02:12

▶ Prevention goals are oriented towards the avoidance of punishment.

预防目标则倾向于避免惩罚。

▶ In a specific situation, our thoughts might focus more on promotion goals or more on prevention goals.

在特定情境中，我们的想法可能更侧重于促进目标或预防目标。

▶ First, there is a chronic factor.

首先，存在一个长期因素。

▶ This factor is connected to a person's personality and says that each person has a basic tendency to either focus more on promotion goals or focus more on prevention goals as part of his or her personality.

这一因素与人的个性相关，表明每个人作为其个性的一部分，都有更倾向于促进目标或预防目标的基本倾向。

 00:02:59

▶ Second, there is a situational factor which means that the context we are in can make us more likely to focus on one set of goals or the other.

其次，存在情境因素，这意味着我们所处的环境可能使我们更倾向于关注某一类目标。

▶ For example, we are more likely to be thinking about pleasure and to have promotion goals when we are spending time with a friend.

例如，当我们与朋友共度时光时，更可能考虑快乐并拥有促进目标。

▶ In contrast, if we are working on an important project for our boss, we are more likely to try to avoid making mistakes and therefore have more prevention goals in our mind.

相比之下，如果我们正在为老板做一个重要项目，更可能试图避免犯错，因此在脑海中会有更多预防目标。

 00:03:38

▶ Research has shown that the goals we are focusing on at a given time affect the way we think.

研究表明，我们在特定时间关注的目标会影响我们的思维方式。

▶ For example, when focusing on promotion goals, people consider their ideal self, their aspirations and gains.

例如，当关注促进目标时，人们会考虑他们的理想自我、抱负和收益。

▶ They don't think about what they can lose, so they think in a happier mode, they feel more inspired to change.

他们不考虑可能失去什么，因此以更快乐的方式思考，感到更有动力去改变。

 00:04:08

▶ When people are focusing on prevention goals, they think about their ought self.

当人们关注预防目标时，他们会考虑他们的应然自我。

▶ What are they supposed to be?

他们应该成为什么样的人？

▶ What are people expecting from them?

人们对他们有什么期望？

▶ They consider their obligations to others.

他们会考虑对他人的义务。

▶ As a result, they experience more anxiety and try to avoid situations where they could lose.

因此，他们会感到更多焦虑，并试图避免可能失败的情境。

▶ Now that I have talked about the two focuses and how they affect people, I want to look at the idea that the way leaders behave or their style of leading can affect the focus that followers adopt in a specific situation.

既然我已经讨论了这两种焦点及其对人的影响，我想探讨领导者的行为方式或领导风格如何影响追随者在特定情境中采用的焦点。

 00:04:55

▶ In talking about leadership, we often mention transformational leaders and transactional leaders.

在讨论领导力时，我们常提到变革型领导者和交易型领导者。

▶ Transformational leaders, when interacting with their followers, focus on their development.

变革型领导者与追随者互动时，关注他们的发展。

▶ In their words and actions, transformational leaders highlight change.

在他们的言行中，变革型领导者强调改变。

▶ Their speech is passionate and conveys a definitive vision.

他们的演讲充满激情，传达明确的愿景。

 00:05:25

▶ All of these things can encourage followers to think about what could be.

所有这些都能鼓励追随者思考可能性。

▶ In other words, they inspire a promotion focus in their followers.

换句话说，他们在追随者中激发了促进焦点。

▶ In contrast, transactional leaders focus on developing clear structures that tell their followers exactly what is expected of them.

相比之下，交易型领导者专注于建立明确的结构，告诉追随者对他们的确切期望。

▶ While they do explain the rewards people will get for following orders, they emphasize more how a follower will be punished or that a follower won't get rewarded if his or her behavior doesn't change.

尽管他们会解释遵循命令将获得的奖励，但他们更强调追随者若不改变行为将如何受到惩罚或无法获得奖励。

 00:06:09

▶ In short, they emphasize the consequences of making a mistake.

简而言之，他们强调犯错的后果。

▶ This emphasis will clearly lead followers to focus on avoiding punishment and problems.

这种强调显然会导致追随者专注于避免惩罚和问题。

▶ This is clearly a prevention focus.

这显然是一种预防焦点。

▶ In conclusion, it is important to understand that one focus is not necessarily better than the other one.

总之，重要的是要理解一种焦点并不一定比另一种更好。

▶ For a designer who works in a field where a lot of innovation is needed, a promotion focus is probably better.

对于在需要大量创新的领域工作的设计师来说，促进焦点可能更好。

 00:06:45

▶ In contrast, a prevention focus which causes people to work more cautiously and produce higher quality work might be very appropriate for a job like a surgeon, for example.

相比之下，预防焦点使人更谨慎地工作并产出更高质量的作品，可能非常适合外科医生等工作。

▶ The main point of the research though is that the actions of leaders can greatly influence whether people approach a situation with more of a promotion focus or more of a prevention focus.

然而，这项研究的重点是领导者的行为可以极大地影响人们是以促进焦点还是预防焦点应对情境。

▶ That is the end of section 4.

第四节到此结束。

 00:07:21

▶ You now have half a minute to check your answers.

现在你有半分钟时间检查答案。

▶ That is the end of the listening test.

听力测试到此结束。

🎵 In the IELTS test, you would now have 10 minutes to transfer your answers to the answer sheet.

在雅思考试中，你现在有10分钟时间将答案誊写到答题纸上。
