

RFK Jr. Faces Bipartisan Grilling in Senate Hearing Over Vaccine Stance

【CNN The Lead 20250905 美国卫生部长小罗伯特·肯尼迪在参议院听证会上遭到两党激烈批评，民主党人指责他无知，共和党人对其疫苗怀疑立场表示担忧】

Summary: U.S. Health Secretary Robert Kennedy Jr. faced intense bipartisan criticism during a Senate hearing, with Democrats labeling him ignorant and Republicans expressing deep concern over his vaccine skepticism. The hearing addressed FDA approval changes that may limit COVID-19 vaccine access, despite administration claims of universal availability. Kennedy endorsed controversial claims about vaccine dangers and clashed with senators over school shooting theories and CDC turmoil. FDA Commissioner Marty McCarry acknowledged vaccine benefits but emphasized needing updated data on risks for young people, revealing ongoing investigations into rare child deaths post-vaccination.

摘要：美国卫生部长小罗伯特·肯尼迪在参议院听证会上遭到两党激烈批评，民主党人指责他无知，共和党人对其疫苗怀疑立场表示深切担忧。听证会讨论了FDA批准变更可能限制新冠疫苗获取的问题，尽管政府声称疫苗全民可用。肯尼迪支持关于疫苗危险的争议性说法，并就校园枪击理论及CDC混乱与议员发生冲突。FDA局长马蒂·麦卡里承认疫苗益处，但强调需要更新年轻人风险数据，并透露正在调查接种后罕见儿童死亡病例。

▶ Here's just a simple question for our viewers at home.

这里有一个简单的问题想问我们的观众。

▶ Did the vaccines produced as a result of President Trump's operation warp speed save lives?

作为特朗普总统“曲速行动”成果的疫苗是否拯救了生命？

▶ I think they did.

我认为它们确实拯救了生命。

 00:04:19

▶ They reduced the severity of illness at the time, but we're five years out from the original beginning of the pandemic.

它们当时降低了疾病的严重程度，但距离大流行最初开始已经五年了。

▶ And it's a very different time.

现在是一个非常不同的时期。

▶ Back then, the vaccine was a very good match for the circulating virus at the time.

当时，疫苗与当时流行的病毒非常匹配。

▶ And there was low population immunity.

而且人群免疫力很低。

▶ So people are appropriately asking today, if I'm healthy, do I need to take another booster shot?

所以人们现在恰当地在问，如果我身体健康，我需要再打一针加强针吗？

 00:04:43

▶ 85% of healthcare workers did not take a booster shot last year because I think they want to see data.

85%的医护人员去年没有接种加强针，因为我认为他们想看到数据。

▶ So at the FDA, when we approved the latest version of the COVID vaccine by three different companies, Pfizer, Moderna, and Novavax, the traditional vaccine platform, we asked the companies to go back and do a clinical trial with healthy subjects this flu season, this year, and to read out the results by May.

因此在FDA，当我们批准了三种不同公司（辉瑞、Moderna和采用传统疫苗平台的Novavax）的最新版COVID疫苗时，我们要求这些公司回去，在今年这个流感季，用健康受试者进行临床试验，并在五月前读出结果。

▶ And they agreed.

他们同意了。

 00:05:06

▶ And I think that's going to help answer the question a lot of parents have.

我认为这将有助于回答许多父母心中的问题。

🎧 If you have a six-year-old girl, does she need 70 more shots in her average lifespan?

如果你有一个六岁的女孩，她在她平均寿命期内还需要接种70多针疫苗吗？

🎧 Or is the population immunity, natural immunity, and the current circulating virulence?

还是说人群免疫力、自然免疫力以及当前流行的病毒毒力？

🎧 That is the severity of the virus circulating now, more like a common cold and is the protection transient.

即当前流行病毒的严重程度，更像普通感冒，以及保护作用是否是短暂的。

 00:05:25

🎧 And what is the true death rate, or myocarditis rate, or serious adverse event rate, of the COVID shot in a young, healthy male today?

以及如今对于年轻健康的男性，COVID疫苗的真实死亡率、心肌炎发生率或严重不良事件发生率是多少？

🎧 We do know at the FDA because we've been looking into the VAERS database of cell for reports that there have been children who have died from the COVID vaccine.

我们在FDA确实知道，因为我们一直在查看VAERS（疫苗不良事件报告系统）数据库中的报告，确实有儿童因COVID疫苗死亡。

🎧 And so we're doing a proper investigation.

因此我们正在进行适当的调查。

 00:05:45

🎧 How many?

有多少人？

🎧 We're going to release a report in the coming few weeks and we're going to let people know.

我们将在未来几周内发布一份报告，并告知大家。

🎧 We're doing an intense investigation.

我们正在进行深入的调查。

▶ We're talking to the primary sources, the family members who lost a child.

我们正在与主要信息来源，即失去孩子的家庭成员交谈。

▶ We're talking, we're reviewing the autopsy reports.

我们正在，我们正在审查尸检报告。

▶ We're having physicians do the investigation.

我们让医生进行调查。

▶ And we think the public deserves to have that information.

我们认为公众有权获得这些信息。

 00:06:05

▶ It was not released in the last administration and it should have been.

上一届政府没有公布这些信息，而他们本应公布。

▶ So without question, transparency on all things, 100 percent.

所以毫无疑问，在所有事情上都要保持透明，百分之百透明。

▶ As you know, there are often side effects and deaths when it comes to any vaccine, any medicine.

如你所知，任何疫苗、任何药物都常常会有副作用和死亡案例。

▶ It's sad and regrettable.

这是悲伤和令人遗憾的。

▶ Because it means that we take them off the market.

因为这并不意味着我们要将它们撤市。

 00:06:21

▶ We just issue warnings.

我们只是发布警告。

🎧 Kennedy said today that he agrees with the idea that the COVID vaccine caused serious harm, including death, quote, especially among young people.

肯尼迪今天说，他同意COVID疫苗造成了严重伤害包括死亡的观点，引用原话，尤其是在年轻人中。

🎧 So not just that it has happened, which is awful, but that young people are more susceptible, more at risk.

所以不仅仅是发生了（这很可怕），而且是年轻人更容易受到影响，风险更大。

🎧 And I'm wondering if there's a reliable, credible study behind that claim because we went to the CDC website and almost all the studies there, if not all the studies there, suggested the opposite that kids were generally not poorly affected by the vaccine and that it was rare.

我想知道这个说法背后是否有可靠、可信的研究，因为我们查看了CDC的网站，那里几乎所有的研究，如果不是全部的话，都表明相反的情况，即孩子们通常受疫苗的不良影响不大，而且这种情况很罕见。

 00:06:58

🎧 And again, one death from anything is too much.

再次强调，任何原因导致一例死亡都太多了。

🎧 But is there any reliable data saying the kids are especially at risk?

但是，是否有任何可靠的数据表明孩子们尤其面临风险？

🎧 Yes, there is because they're at higher risk, particularly males for myocarditis.

是的，有，因为他们面临更高的风险，尤其是男性患心肌炎的风险。

🎧 It can be as high as one in 2600 young males between the ages of 17 and 24.

对于17至24岁的年轻男性，风险可能高达2600分之一。

🎧 Now, that incidence may decrease with the current vaccine that's on the market.

现在，随着目前市面上的疫苗，这个发生率可能会降低。

▶ We don't know.

我们不知道。

▶ But that's in the New England Journal of Medicine.

但这是《新英格兰医学杂志》上刊登的。

▶ I can tell you when we have asked for the CDC to give us data.

我可以告诉你，当我们要求CDC给我们数据时。

▶ Since we came into office early on in the first few months, we got blocked and we were given different excuses and told the wait and we can't do it.

自从我们上任初期头几个月开始，我们就受到了阻挠，他们给出了各种借口，告诉我们等待，并且说他们做不到。

▶ And it was those individuals who resigned from the CDC that were in leadership that gave us the hard time about getting the data.

正是那些从CDC领导层辞职的人给我们获取数据制造了困难。

▶ We want to get good data so people can, as you said, make a risk to benefit analysis for their age group.

我们想要获得好的数据，这样人们就可以，如你所说，为他们所在的年龄段进行风险效益分析。

▶ And so that is the ultimate question.

所以这才是最终的问题。

▶ We shouldn't be using dogma to say everybody should get it.

我们不应该教条地说每个人都应该接种。

▶ And regardless of your circumstance, the American people are not there.

无论你的情况如何，美国人民还没有到那一步。

▶ 90% obviously we know a lot more about COVID now than we knew five years ago when it first hit the United States during the first Trump administration.

显然，我们现在对COVID的了解比五年前它首次在美国特朗普政府期间爆发时要多得多。

bilibili 00:08:08

▶ I want to ask you about the idea about who can get the COVID vaccine.

我想问你关于谁可以接种COVID疫苗的看法。

▶ Everybody?

每个人都可以吗？

▶ Well, you said that, but the FDA limited those approved to get the most updated COVID-19 to seniors, people 65 and older, and anyone six months older who has an underlying health condition that makes them more susceptible to having serious illness from COVID.

嗯，你是这么说的，但FDA将批准接种最新COVID-19疫苗的人群限制为老年人，即65岁及以上的人，以及任何六个月以上、有潜在健康问题而更容易因COVID患上严重疾病的人。

bilibili 00:08:32

▶ That's not everybody.

那不是每个人。

▶ I mean, that is everybody over 65 and everybody with an underlying health condition.

我的意思是，那是所有65岁以上的人以及所有有潜在健康问题的人。

▶ And Dr. Jerome Adams, who served as the surgeon general during the first Trump administration, he said the claim by RFK Jr., that anybody can get it.

而在第一届特朗普政府期间担任卫生局长的杰罗姆·亚当斯博士说，小罗伯特·F·肯尼迪声称任何人都可以接种。

▶ Or the you just said, he said, quote, 11% of US citizen adults are uninsured and lack access to a doctor.

或者就像你刚才说的，他说，引用，“11%的美国成年公民没有保险，也缺乏看医生的途径。”

▶ So it seems not everyone who wants a shot can get one, math doesn't add up.

所以看来并不是每个想打疫苗的人都能打到，这笔账算不过来。

▶ That's an additional issue having to do with insurance.

这是一个与保险有关的额外问题。

▶ So what's your response?

那么你的回应是什么？

▶ And why do you say everyone can get it if you're only recommending it for certain people?

如果你只推荐特定人群接种，为什么你说每个人都可以接种？

▶ Any doctor can prescribe it.

任何医生都可以开处方。

▶ Because anybody can get a prescription.

因为任何人都可以得到处方。

▶ That's right.

没错。

▶ And that means like I right now can't go to the CVS and get a COVID shot.

这意味着像我现在就不能去CVS药店接种COVID疫苗。

▶ Well, most pharmacies will sort of prescribe and administer the vaccine by themselves.

嗯，大多数药店会自行开具处方并接种疫苗。

▶ Only in a couple of states are pharmacies not allowed to prescribe something if it's not on the CDC right now.

目前只有少数几个州不允许药店开具CDC清单之外的处方。

🎵 cases you need to go to your physician, but 20% of drugs in America are given off label.

在某些情况下你需要去找你的医生，但美国20%的药物是超说明书使用的。

bilibili 00:09:30

🎵 That is the doctors are not prescribing it for the narrow indication the FDA gives.

也就是说医生开药并非仅用于FDA批准的狭窄适应症。

🎵 Our job at the FDA is to allow pharmaceutical companies to make claims based on the data they present to us.

我们FDA的工作是允许制药公司根据他们提交给我们的数据来提出声明。

🎵 So if they're not presenting data on healthy subjects, we can't just, we're not going to just keep rubber stamping the approvals that then lead to this incredible march and chant every year.

因此，如果他们不提交关于健康受试者的数据，我们不能，我们不会只是不断地橡皮图章式地批准，从而导致每年这种令人难以置信的游行和口号。

去年90%的孩子没有接种COVID加强针，因为我理解，但你的建议意味着，假设我想接种COVID疫苗。

🎵 You kind of just downplayed it.

你有点轻描淡写。

🎵 You said well CVS, like they can do it if they want to do it.

你说CVS药店，如果他们愿意，他们可以做。

▶ They're like 14 states where CVS and I think Walgreens, another major chain are not giving shots unless you have a prescription.

大概有14个州，CVS和我想另一家大连锁店沃尔格林（Walgreens）都不提供接种，除非你有处方。

bilibili 00:10:18

凯泽医疗（Kaiser）不论年龄组一律支付费用，密歇根蓝十字蓝盾（Blue Cross, Blue Shield of Michigan）、其他蓝十字蓝盾计划、医疗保险（Medicare）、医疗补助（Medicaid）也是如此。

▶ So you can't get it just anywhere in the United States.

所以你并不是在美国任何地方都能接种。

▶ The point is you're limiting it, not everybody can get it and the way that they used to be able to get it until this year.

关键是你限制了它，不是每个人都能接种，而且不像他们直到今年以前都能接种的方式。

bilibili 00:10:39

▶ We had a call with CVS and we said what you're explaining by saying we're not making it available because of regulatory uncertainty.

我们和CVS通过电话，我们说你们解释说不提供疫苗是因为监管不确定性。

▶ It wasn't really fair because it's approved.

这不太公平，因为它是获批的。

▶ It's approved so they can fill it with a doctor's prescription legally.

它已获批，所以他们可以合法地凭医生处方提供疫苗。

▶ There's no legal barrier for somebody to come in and say, hey, my doctor wants me to get it and therefore they are enabled to allow that person to get it.

有人进来并说“嘿，我的医生希望我接种”，因此他们能够允许那个人接种，这没有法律障碍。

为什么你认为这么多美国医学会（AMA）和其他组织的医疗专业人员不同意你的这个决定以及小罗伯特·F·肯尼迪发表的评论？

▶ Why do you think so many of them think that you're actually limiting the ability of people to get a COVID shot and they seem to think that you should be able to get a COVID shot every year, the same way people get a flu shot every year?

为什么你认为他们中有那么多人认为你实际上限制了人们接种COVID疫苗的能力，而且他们似乎认为你应该能够每年接种一次COVID疫苗，就像人们每年接种流感疫苗一样？

▶ Well, 85% of healthcare workers did not get the COVID booster for themselves last fall.

嗯，85%的医护人员自己在去年秋天没有接种COVID加强针。

bilibili 00:11:29

▶ So that tells you what the real consensus is.

所以这告诉你真正的共识是什么。

▶ I'm the son of a doctor in a nurse.

我是一个医生和一个护士的儿子。

▶ It doesn't really tell you anything.

这其实并不能说明任何问题。

▶ Doctors and nurses tend to be a little bit more lazy, fair when it comes to their medical assistance.

医生和护士在对待自己的医疗援助时往往有点更懒，公平地说。

🎵 Well, I think people should distinguish the sort of healthy discussion we have in the medical field about the evidence.

嗯，我认为人们应该区分我们在医学领域关于证据进行的这种健康讨论。

bilibili 00:11:46

🎵 Let's be honest, there is no evidence.

老实说，没有证据。

🎵 There's no clinical trial to support a COVID shot in healthy subjects that's not four years old and that was very mixed data four years ago.

没有一项不是四年前的临床试验来支持为健康受试者接种COVID疫苗，而且四年前的数据也非常混杂。

🎵 So it's a different time.

所以时代不同了。

🎵 I think you're seeing people now say, I'm going to question some of these recommendations and instead talk about it with my doctor.

我认为你现在看到人们说，我要质疑其中一些建议，转而与我的医生讨论。

bilibili 00:12:07

🎵 We want that discussion to live there because the American Academy of Pediatrics, I'm glad they're issuing their own recommendations that's a free country we should have a civil discourse.

我们希望这种讨论在那里进行，因为美国儿科学会（American Academy of Pediatrics），我很高兴他们发布自己的建议，这是一个自由的国家，我们应该进行文明的讨论。

🎵 That's the same group that insisted schools stay shut down and the CDC lost credibility by saying the schools have to stay shut for a year and eight months in many states and they had a document that they claimed was science.

正是同一个组织坚持学校应关闭，而CDC（美国疾病控制与预防中心）也因声称学校在许多州必须关闭一年零八个月而失去了信誉，他们还有一份他们声称是科学的文件。

▶ That's true, science.

那是真的，科学。

bilibili 00:12:32

▶ President Trump said schools should shut down.

特朗普总统曾说学校应该关闭。

▶ Like, nobody holds him responsible for that.

就像，没人让他为此负责。

▶ Initially, but then he said it should be open and people who just, you know, are contrary and said, well, then we got to oppose him.

最初是，但后来他说应该开放，而那些只是，你知道，持相反意见的人说，那么我们就得反对他。

▶ I'm saying data changes when facts.

我是说数据随着事实而变化。

▶ What was a generational error that affected the learning of no argument from me on that?

什么是影响学习的世代错误？在这一点上我毫无异议。

bilibili 00:12:49

▶ It was a massive colossal failure.

那是一次巨大的、严重的失败。

▶ CDC cheered it on.

CDC还为之欢呼。

▶ The American Academy of Pediatrics, many of these physician groups that are not representative of their members, they have their own activist leadership and we're promoting a civil discourse.

美国儿科学会，许多这类医师团体并不代表其成员，他们有自己的活跃的领导层，而我们正在促进文明的讨论。

🎵 All right.

好吧。

🎵 Well, more discourse is good and please come back when you have those studies about kids in the COVID vaccine because the data is what we need.

嗯，更多的讨论是好的，当你们有了关于儿童接种COVID疫苗的那些研究时请再来，因为数据才是我们需要的。

bilibili 00:13:10

🎵 A data is what we need.

数据才是我们需要的。

🎵 All right.

好吧。

🎵 Marty McCarrie, thank you so much.

马蒂·麦卡里，非常感谢你。

🎵 We're going to bring in CNN chief medical correspondent Dr. Sanjay Gupta on this next plus CNN live in Venezuela, what people there are telling us about the Trump administration's deadly strike this week on an alleged narco terrorist drug boat.

▶ Why, particularly in Gaza, why is leadership failed here?

为什么，特别是在加沙，这里的领导力失败了？

▶ Selfish short-term interest.

自私的短期利益。

▶ The allegations, I mean, this is chilling stomach-churning stuff.

这些指控，我的意思是，这是令人不寒而栗、反胃的东西。

▶ Yes, it is.

是的，确实如此。

 00:15:21

▶ What happens, Marie-Claude Moshada?

会发生什么，玛丽-克洛德·莫沙达？

▶ What happens if you're arrested?

如果你被捕了会发生什么？

▶ We work taking one day at a time.

我们工作，一天一天来。

▶ What would it take, Mr. President, for Serbia, to acknowledge Kosovo's independence?

总统先生，塞尔维亚需要什么才能承认科索沃的独立？

▶ And it is here, on these grounds, same Peter Square, that his funeral will be held.

就是在这里，在这个地方，同一个彼得广场，将举行他的葬礼。

▶ This is what 18 months of war has done for the children of Gaza.

这就是18个月的战争对加沙儿童造成的影响。

 00:15:43

▶ Where do you find empathy with some of these autocrats?

你如何对这些独裁者中的一些人产生同理心？

▶ Have you used charity to write any songs?

你有没有利用慈善来写歌？

▶ Not yet.

还没有。

▶ The genocide in Rwanda made you almost quit photography.

卢旺达的种族灭绝几乎让你放弃了摄影。

▶ Tell us about that moment.

告诉我们那一刻。

▶ How does this story shape all of you who are the future?

这个故事将如何塑造你们这些未来的人？

▶ To understand the world, we need to know the truth.

要了解这个世界，我们需要知道真相。

▶ And that's why we follow the facts.

这就是我们追寻事实的原因。

 00:16:11

▶ Wherever they lead, no matter how far we have to go.

无论它们指向何方，无论我们得走多远。

▶ Off the coast of Zanzibar is one of the most unusual restaurants in the world.

在桑给巴尔海岸附近，有世界上最不寻常的餐厅之一。

▶ It is called the rock, and it stands proud on top of a natural formation.

它叫做“岩石餐厅”，它骄傲地矗立在一个天然形成的岩石之上。

▶ I'm told the food is magnificent.

我听说那里的食物非常美味。

▶ The owners saw the rock, realized its potential, and convinced the locals to let them build without destroying the environment.

店主们看到了这块岩石，意识到了它的潜力，并说服了当地人让他们在不破坏环境的情况下进行建造。

 00:16:49

▶ So this is our crab bravjali, I feel it with a blue spear on it.

所以这是我们的螃蟹布拉夫加利，我觉得上面有一根蓝色的长矛。

▶ Oh, that is really good.

哦，那真的很好吃。

▶ It's when I leave that I discover the rock's quirk.

直到我离开时，我才发现了这块岩石的奇特之处。

▶ At high tide, the ocean rushes in surrounding the restaurant, and the only way off is by boat.

涨潮时，海水会涌上来包围餐厅，唯一的离开方式就是乘船。

▶ Oh, look at that.

哦，看那个。

▶ Can I take a picture?

我能拍张照片吗？

▶ That is absolutely quite something.

这绝对是非同寻常。

 00:17:20

▶ I'm Natasha Bertrand at the Pentagon, and this is CNN.

我是五角大楼的娜塔莎·伯特兰，这里是CNN。

▶ Back with our health lead and the fallout from today's contentious Senate hearing with Health and Human Services Secretary Robert of Kennedy, Jr.

回到我们的健康主题，以及今天与卫生与公众服务部部长小罗伯特·肯尼迪进行的充满争议的参议院听证会所带来的后续影响。

▶ Let's bring in CNN chief medical correspondent Dr. Zanzibar.

让我们请进CNN首席医疗记者桑贾伊·古普塔博士。

▶ We've heard a lot today, both from RFK, Jr. and just now from FDA Commissioner, Dr. Marty McCarry.

我们今天听到了很多，既来自小罗伯特·F·肯尼迪，也刚刚来自FDA专员马蒂·麦卡里博士。

 00:17:42

▶ What struck you about anything that Dr. McCarry just said, especially about access to COVID vaccines and the death of kids that got the vaccine?

麦卡里博士刚才说的什么话让你印象深刻，特别是关于COVID疫苗的获取以及接种疫苗的儿童死亡事件？

▶ Look, he's a very sharp guy, very data driven.

你看，他是个非常敏锐的人，非常注重数据。

▶ I think he's asking for more data.

我认为他是在要求更多的数据。

▶ I was struck by the idea that I think he suggested the CDC was not providing data to the FDA.

让我印象深刻的是，我认为他暗示CDC没有向FDA提供数据。

 00:18:03

▶ That obviously is alarming if that's the case.

如果情况属实，那显然令人担忧。

▶ I mean, I think that sort of gets at a bigger problem overall with just how data is being shared.

我的意思是，我认为这某种程度上触及了一个更大的整体性问题，即数据是如何被共享的。

▶ You made the point that it is very challenging, if not impossible, in 16 states plus DC to get COVID shots right now, and you're right.

你指出了观点，即在目前16个州加上哥伦比亚特区，获得COVID疫苗非常具有挑战性，甚至不可能，你是对的。

▶ We've done some homework on that this afternoon and looked into that.

今天下午我们做了一些功课，并调查了此事。

 00:18:24

▶ In part because in many of those states, pharmacists, they're trying to take their cues from the advisory committee.

部分原因是在许多这样的州，药剂师们正试图从咨询委员会那里获取指引。

▶ This committee that was dismantled and may or may not have a meeting sometime later this month.

这个委员会已经被解散，并且可能在本月早些时候开会，也可能不开。

▶ It's right now difficult, if not impossible.

目前是困难的，甚至是不可能的。

▶ A lot of people don't go to their doctor to get a prescription for a shot.

很多人不会去找医生开处方来打针。

 00:18:43

▶ That can be really challenging.

这真的会很有挑战性。

▶ Those are real things.

这些都是真实存在的问题。

▶ He did say, as RFK said as well, this idea that there's been a significant number of young people who have died from COVID vaccines.

他确实说过，就像RFK也说过的那样，这个观点认为有相当数量的年轻人死于COVID疫苗。

▶ When you pushed them on that a little bit, he said, we're going to present that data at some point.

当你对此稍加追问时，他说，我们会在某个时候提交这些数据。

▶ I would obviously love to see that data.

我当然很想看到那些数据。

 00:19:04

▶ I know there has been an increased risk of myocarditis and inflammation around the heart, but generally those were pretty mild cases, pretty self-limited.

我知道心肌炎和心脏周围炎症的风险有所增加，但通常这些都是相当轻微的病例，具有自限性。

▶ If there have been more serious consequences, I'm surprised that we have not heard about that from either the pharmaceutical companies or from the FDA as of yet.

如果有更严重的后果，我很惊讶我们至今还没有从制药公司或FDA那里听到相关消息。

▶ So we want to see those reports as well.

所以我们也想看到那些报告。

 00:19:24

▶ Yeah, and when somebody, whether it's Martin McCarrie or RFK Jr. or whoever, makes a comment like that.

是的，当有人，无论是马丁·麦卡里还是小罗伯特·F·肯尼迪或是其他任何人，做出这样的评论时。

▶ Without the data to present, it's very difficult to figure out how serious a case it is.

如果没有数据来呈现，就很难弄清楚情况有多严重。

▶ I mean, he said something about one out of every 2600 kids.

我的意思是，他说了一些关于每2600个孩子中就有一个的话。

▶ Does that mean that they died?

这是否意味着他们死了？

▶ I don't think one out of 2600 kids died.

我不认为每2600个孩子中就有一个死亡。

 00:19:46

▶ Does that mean that they got this illness that in a few cases led to death?

这是否意味着他们得了这种病，并且在少数情况下导致了死亡？

🎧 It's a very stark claim to make as a headline without the underlying article, you know?

你知道，在没有 underlying article（支撑文章/数据）的情况下，把它作为头条新闻是一个非常直白的说法。

🎧 That's right.

没错。

🎧 And I think he was referring to myocarditis, but I think your point is exactly the point that I sort of heard from RFK Jr. today, which is that we're going to cast doubt on vaccines as a whole.

我认为他指的是心肌炎，但我觉得你的观点正是我今天从小罗伯特·F·肯尼迪那里听到的那种观点，即我们要对整个疫苗提出质疑。

 00:20:09

🎧 And there are all these ways that are casting doubt.

而且有所有这些方式都在散布怀疑。

🎧 I think what Dr. McCarrie said about, look, we're in a different place now versus five years ago.

我认为麦卡里博士说的是，看，我们现在的情况与五年前不同了。

🎧 Absolutely.

绝对是的。

🎧 COVID is spread.

COVID传播开了。

🎧 There's a lot of natural immunity out there.

那里有很多自然免疫力。

🎧 There were a lot of people who got vaccinated originally, who have not subsequently gotten boosters, because the severity of the new strains has not been there.

有很多人最初接种了疫苗，但后来没有接种加强针，因为新毒株的严重性已经不存在了。

bilibili 00:20:30

▶ But I think what we're seeing in the country in places like Florida is the repercussions now of that doubt that's being sewn.

但我认为我们在国内像佛罗里达这样的地方所看到的，正是现在播下的这种怀疑所产生的 repercussions（后果）。

▶ And Florida, they're saying we're just not going to recommend our mandate vaccines for school age children anymore.

而佛罗里达州，他们说我们不再建议为学龄儿童强制接种疫苗了。

▶ That obviously is a huge problem.

这显然是一个巨大的问题。

▶ And I think it's sort of the origins of that sort of thinking start with what you just heard.

而且我认为这种想法的起源某种程度上就从你刚刚听到的内容开始的。

bilibili 00:20:52

▶ Yeah.

是的。

▶ And the cost-benefit analysis that the medical community makes in parents, I guess, are able to make in places like Florida should be data-driven.

而医学界所做的成本效益分析，我想父母们在像佛罗里达这样的地方也能够做出的分析，应该是数据驱动的。

▶ So if there is a one, I'm just going to make something up like a, let's say, the kudis.

所以如果有一个，我就编一个，比如说，库迪斯病。

▶ Okay, for the vaccine for kudis, there's a one in a million chance that that vaccine will cause you harm.

好吧，对于库迪斯病的疫苗，该疫苗对你造成伤害的几率是百万分之一。

bilibili 00:21:09

🎧 But kudis is spreading, and there's a one in five hundred chances you will die of kudis.

但是库迪斯病正在传播，你死于库迪斯病的几率是五百分之一。

🎧 Well, those are the computations that doctors and scientists make to not have that data before you put out, oh, the COVID vaccine is killing kids, seems really questionable.

嗯，这些就是医生和科学家们进行的计算，在你发布“哦，COVID疫苗正在杀死孩子”这样的消息之前，没有那些数据，似乎真的很值得怀疑。

🎧 Yes, that's right.

是的，没错。

🎧 I mean, everything is a risk-benefit analysis in life, but certainly in medicine.

我的意思是，生活中一切都是一项风险效益分析，但在医学上肯定如此。

 00:21:32

🎧 And I think what we have seen, and I don't know if we have the Commonwealth data, I just want to put this up for a second.

我认为我们所看到的，我不知道我们是否有联邦基金的数据，我只是想把这个展示一下。

🎧 People will often ask, well, what was the benefit of COVID vaccination over the time that those vaccines were released, those first couple of years?

人们经常会问，嗯，在那些疫苗发布后的头几年里，接种COVID疫苗的好处是什么？

🎧 And by the way, we go to, I don't know if we have that, put that up.

顺便说一下，我们会去，我不知道我们是否有那个，把它放出来。

 00:21:48

🎧 In the Commonwealth, we go to organizations like this because there is a trust issue when it comes to the pharmaceutical companies, there is a trust issue when it comes to the government.

在联邦基金，我们去找这样的组织，因为当涉及到制药公司时存在信任问题，当涉及到政府时也存在信任问题。

🎵 So we go to these private organizations that are independently funded, not beholden to any other organization, and this is what they come up with between December of 2020 and November 2022.

所以我们去找这些私人组织，它们由独立资金资助，不依附于任何其他组织，这就是他们在2020年12月至2022年11月期间得出的结果。

🎵 So two years, this is the United States, just the US, prevented 18.5 million hospitalizations and avoided 3.2 million deaths.

所以两年时间，这是在美国，仅仅美国，就预防了1850万住院病例并避免了320万人死亡。

 00:22:17

🎵 And that's significant, and I bring it up because at those hearings today, if you were watching that as I did for three hours, some people may have walked away thinking, wait, was the vaccine more dangerous than COVID?

这意义重大，我提到这一点是因为在今天的听证会上，如果你像我一样观看了三个小时，有些人可能会离开时在想，等等，疫苗比COVID更危险吗？

🎵 That's what some people may have thought watching those hearings today.

这就是一些人在观看今天那些听证会时可能产生的想法。

🎵 That's absolutely not the case, and there's independent good, non-beholdened data to prove that point.

事实绝对并非如此，而且有独立的、良好的、不受制于人的数据来证明这一点。

 00:22:39

🎵 Dr. Sanjay Gupta, we're going to see you back soon with a big project you're working on.

桑杰·古普塔博士，我们很快将再次见到你，并讨论你正在从事的一个大项目。

🎵 We're going to have Venezuela live after that deadly strike and an alleged narcotic drug vote, how people there are reacting to the Trump administration's stark move.

接下来我们将直播委内瑞拉，在那次致命袭击和所谓的毒品恐怖主义投票之后，看看那里的人们对特朗普政府的强硬举措有何反应。
