

UK Faces Rising Medicine Costs as Pharma Investment Declines

【BBC经济新闻 20250925 医药价格危机席卷英国 | 制药巨头撤离、国家医疗服务体系陷两难，政府如何破局？】

Summary: The NHS is under pressure to increase the prices it pays for medicines to prevent an exodus of pharmaceutical investment from the UK. Science Minister Lord Valance acknowledged that price hikes are necessary to attract companies and ensure patient access to innovative treatments. Despite a major investment from Moderna, firms like Merck and AstraZeneca have paused or cancelled nearly £2 billion in UK investments due to drug pricing disputes. The government is in ongoing discussions with industry and the US to find a solution that balances innovation, corporate attraction, and patient needs, while also addressing slower drug uptake in the UK compared to Europe.

摘要：英国国家医疗服务体系（NHS）正面临提高药品支付价格的压力，以防止制药投资外流。科学部长瓦兰斯勋爵承认，提价是吸引企业和确保患者获得创新疗法的必要手段。尽管莫德纳公司进行了重大投资，但默克和阿斯利康等公司因药品定价争议已暂停或取消了近20亿英镑的在英投资。政府正与行业和美国持续磋商，以寻求平衡创新、企业吸引力和患者需求的解决方案，同时解决英国新药应用速度慢于欧洲的问题。

▶ You yourself in select committee saying we need to have rapid uptake of new drugs.

您在特别委员会曾直言需加速新药普及。

▶ 37% of new drug uptake in the UK, 90% in Germany.

英国新药使用率仅37%，德国达90%。

 00:04:51

▶ Put bluntly that means that people are dying in the UK who aren't dying in Europe of the same conditions.

坦率讲，这意味着英国患者正因相同病症死亡，而这些患者在欧洲本可免于死亡。

▶ We need to, as part of this process, get to rapid uptake of medicines and you bit with this uptake.

我们必须在此过程中实现药物快速普及，并确保普及到位。

▶ Get it right the way across the UK.

覆盖英国全境。

▶ That's why when you go down from 12% in 2015 and gradually reduce that, you end up with a situation where we're slower than we should be and we don't have as good distribution of medicines.

正因2015年12%的占比持续下滑，才导致当前药物推广速度迟缓、分布不均的局面。

 00:05:17

▶ So I view this very much as about an opportunity to make sure that we get the medicines out to patients that needed as part of what we're doing in.

因此我视其为确保药物送达所需患者手中的重要契机。

▶ It's not simply about a price increase, although a price increase will be part of the solution.

这不仅是涨价问题，尽管涨价将是解决方案的一部分。

▶ So price increases are inevitable if we're going to fix this correct.

故若要修正此问题，价格上涨不可避免。

▶ I think price increases are going to be a necessary part of what we need to do to get to a solution which will benefit patients.

我认为价格上涨将是我们达成惠及患者的解决方案过程中不可避免的一环。

 00:05:38

▶ And where will that money come from?

资金从何而来？

▶ Elsewhere in the NHS?

国民医疗服务体系其他预算？

▶ Extra money from the Treasury?

财政部额外拨款？

▶ Well, that's for the health secretary in the Chancellor to work out how this works out.

这需由卫生大臣与#财政大臣#共同筹划。

▶ The industry likes to think of us to consider health a bit, a sovereign capability like defense.

行业希望我们将医疗视作类似国防的#主权#能力。

▶ The US has said it's fed up of us outsourcing our defense to the US.

美国已明言厌倦我国将国防外包。

 00:05:56

▶ They're saying the same thing about the pharmaceutical industry.

他们对#制药#行业亦持相同态度。

▶ They've been bankrolling all the innovation.

美国一直资助所有#创新#。

▶ The Trump factor is big here.

特朗普因素影响重大。

▶ That is a big factor and it is the case that drug prices are very much higher in the US than anywhere else in the world.

关键在于美国药价远高于全球其他地区。

▶ And it is the case that a lot of the profit from companies comes from the US and that feeds R&D.

事实上企业大量利润来自美国市场并反哺研发。

 00:06:14

▶ And the UK is something like 2% or less of the profit of companies globally.

英国仅占全球企业利润的2%或更低。

▶ So basically, as prices go down in the US, they are bound to go up in the UK.

因此本质上，若美国药价下降，英国药价必然上涨。

▶ Well, I don't think that necessarily is the question, but of course President Trump has said he wants greater parity on pricing.

我认为问题本质不在此，但特朗普总统确已要求更大定价公平性。

▶ You sound very confident the deal can be struck soon.

您对短期内达成协议似乎充满信心。

 00:06:32

▶ Well, I think it's inevitable that we must end up with a deal of some sort and we have to because it's in the interest of the economy.

我认为达成某种协议是必然且必须的，这符合经济利益。

▶ It's in the interest of patients and we need to get that right to make sure that patients here get rapid access to the best medicines and can do that in a way that's fair and equitable across the country.

更符合患者利益，我们必须妥善解决，确保英国患者快速获得最佳药物，并实现全国公平可及。

▶ Lorde, balance there speaking to Simon Jack.

▶ I'm now joined by Sir Nigel Wilson, incoming Chair and Cambridge Innovation Capital.

现在连线即将就任剑桥#创新#资本主席的奈杰尔·威尔逊爵士。

▶ Thank you for talking to us this morning.

感谢您今早接受采访。

▶ Listening into that conversation, this presents a big headache.

刚才的对话显示此事令人十分头痛。

▶ Doesn't it, to Chancellor Rachel Reeves, who we know has got pressure on ahead of the autumn budget to figure out the numbers?

对于#财政大臣#雷切尔·里夫斯而言更是如此？她本就面临秋季预算前厘清数字的压力。

bilibili 00:07:17

▶ How will this play out in terms of prices for medicines in the UK going up, do you think?

您认为英国药价上涨将如何演变？

▶ Well, I think Patrick Smith made the right comment.

我认为帕特里克·史密斯的评论很中肯。

▶ We want the life sciences industry to be one that we're very proud of and it's in decline in the UK.

我们希望生命科学成为引以为傲的产业，但它在英国正走向衰落。

▶ We've made 11% of global exports.

我们曾占全球出口11%。

▶ Now that's three drug trials have fallen by over 40% in the UK.

如今英国药物试验数量下降超40%。

 00:07:40

▶ We're seeing disinvestment, which Patrick highlighted has indeed a Sejón Bell.

我们正目睹投资撤离，帕特里克强调这确实如塞永·贝尔所言。

▶ We need to look at the business big farmer and recognise that actually we've made a lot of incremental decisions over a long period of time, which have made it increasingly unattractive to invest in the UK.

需从宏观层面审视，认识到长期累积的渐进决策已使英国投资吸引力持续下降。

▶ Not just, you know, and that includes for AstraZeneca and for Blacksoar.

这不仅...您知道，这包括对阿斯利康和布莱克索尔的影响。

 00:08:00

▶ So we need to look at this much bigger pitch and say, this is an industry we want to grow in.

因此需从更宏大视角出发，明确这是我们要发展的产业。

▶ Therefore, other tax deductions that we're giving for investments in the UK competitive, the answer to that is no.

因此，我们为提升英国投资竞争力而提供的其他税收#扣除#措施，答案是否定的。

▶ It's our pricing competitive.

我们的定价是否具有竞争力。

▶ The answer to that is no.

答案是否定的。

▶ We encourage companies to be funded even more by British capital here in the UK.

我们鼓励企业在本土获得更多英国资本的支持。

bilibili 00:08:21

▶ The answer to that is no as well.

这个问题的答案同样是否定的。

▶ And so we have a huge problem here to solve.

因此我们面临着一个亟待解决的重大难题。

▶ It isn't just the immediate problem of the 23% rebate that the drug companies are going to have to give back to the NHS, which they're not very happy about.

这不仅是制药公司必须向国民医疗服务体系返还23%折扣的眼前问题——对此他们颇为不满。

▶ And they're all more learning about.

而且他们都在进一步了解情况。

▶ We need a much more fundamental reform.

我们需要进行更彻底的改革。

bilibili 00:08:41

▶ Like we did in the creative industries under George Osborne, if you remember, he gave a very generous tax deduction.

就像我们在乔治·奥斯本执政时期对创意产业所做的改革，若您还记得，他推出了非常慷慨的税收#抵扣#政策。

▶ It took five to ten years to have a big impact, but it's having a huge big impact.

虽然耗时五到十年才显现巨大成效，但如今正产生深远影响。

▶ So you talk about a fundamental reform, because one of the key complaints for the farmer and the social class industry about the UK is that the measurement systems set in place for provision of medicines across the NHS is so old and antiquated.

所以您提到根本性改革，因为英国制药业和社会阶层行业的主要不满之一在于，国民医疗服务体系的药品供应评估机制过于陈旧落后。

 00:09:06

▶ It's not kept up with the times or inflation or changes that have happened in recent years.

它未能与时俱进，跟不上#通货膨胀#或近年来的变化。

▶ So how will that fundamental reform take place?

那么这项根本改革将如何推进？

▶ Who will lead that?

由谁来主导？

▶ Will it have to come from government?

是否必须由政府推动？

▶ Yes, it will happen.

是的，改革必将实现。

▶ The kind of bit comes from government.

某种程度上需要政府出手。

▶ I think there's two sides of this.

我认为这涉及两个方面。

▶ Big farmer and small farmer.

大型药企与小型药企。

 00:09:27

▶ Big farmer, we just talked about small farmer.

大型药企方面，我们刚讨论了小型药企。

▶ We have hundreds and hundreds of great start-up companies in the UK, and they're starved of capital at the moment.

英国拥有成百上千家优秀的初创企业，但它们目前正面临资金短缺。

▶ And we need to put much more British capital into those businesses to help them grow in the UK.

我们需要将更多英国资本注入这些企业，助其在英国本土成长。

▶ Otherwise, we become overdependent, which we are right now, on these very large international companies, where the UK is globally irrelevant to them right now.

否则我们会过度依赖——正如现状——那些跨国巨头，而对它们而言英国市场目前无足轻重。

 00:09:51

▶ The Patrick mentioned, it's one to two percent of their profits across the world.

正如帕特里克所言，英国市场仅占其全球利润的1%到2%。

▶ And it's not attractive.

这缺乏吸引力。

▶ Whereas for the small companies, we can control that absolutely by being much more generous with our tax positions for people investing in these businesses, given them deals so that they can actually locate either in and around London, a good area of welfare instance or the business parks at Harwell, where the donor was doing yesterday or in Cambridge or elsewhere.

而对于小型企业，我们可以通过为投资者提供更优惠的税收政策来完全掌控局面，给予他们优惠条件，使其能落户伦敦及周边区域（例如福利条件优越的哈维尔商务园区——昨日捐赠者到访之地）或剑桥等其他地区。

 00:10:22

▶ So there's a huge opportunity for us to build new relationships with small farmer, which are the great start-ups here, but also with big farmer.

因此我们拥有巨大机遇，既能与作为优秀初创企业的小型药企建立新关系，也能与大型药企重构合作。

▶ Well, because we haven't got it right for big farmer.

毕竟我们尚未理顺与大型药企的关系。

▶ And at least we're recognising it right now, but it's taken far too long to recognise we have a problem, let's sort it out.

至少我们现在意识到了问题，但认清问题所在耗时过久，现在必须着手解决。

 00:10:42

▶ So we shall keep a close eye on what happens next, certainly.

我们定将密切关注后续进展。

▶ So Nigel Wilson, thank you for talking to us early this morning on the BBC.

奈杰尔·威尔逊，感谢您今早接受BBC采访。

▶ But now we must update you on Jaguar Land Rover.

现在为您带来捷豹路虎的最新动态。

▶ After weeks of crisis, the British government is looking at ways to financially support the companies in its supply chains.

经历数周危机后，英国政府正研究如何为捷豹路虎供应链企业提供财政支持。

▶ The company known as JLR, halted production earlier this month after a cyber attack forced it to shut down its IT networks.

本月初，这家简称JLR的企业因遭受网络攻击被迫关闭IT系统而停产。

 00:11:08

▶ These factories are still suspended and likely to be until next month.

这些工厂目前仍处于停产状态，可能持续到下个月。

▶ Fears are growing that some suppliers, in particular, the smaller firms who solely rely on JLR's business could go bust without support.

令人担忧的是，部分供应商——特别是那些#完全#依赖捷豹路虎业务的小型企业——若得不到援助可能面临#破产#。

▶ The Business and Trade Select Committee this afternoon will be hearing from some of those businesses and their evidence will be shared with the government afterwards.

商业贸易特别委员会今日下午将听取相关企业的陈述，其证词后续会提交政府。

bilibili 00:11:31

▶ Let's bring in Fiona Chinkotter at City Index.

现在连线城市指数的菲奥娜·钦科特。

▶ Fiona, the clock is ticking for some of these small businesses.

菲奥娜，对一些小企业来说时间紧迫。

▶ They're looking down a black hole and the government's well aware of this.

它们正面临深渊，政府对此心知肚明。

▶ It's just a question of how they're going to help them now, isn't it?

现在问题在于政府将如何施援，对吗？

▶ Yes, that's right.

是的，没错。

▶ So I mean, these small suppliers, some of them are solely reliant on the JLR business.

这些小型供应商中，部分#完全#依赖捷豹路虎的业务。

bilibili 00:11:50

▶ So it's very key that the government does step in because obviously if they do go bust, then it's going to be a whole new challenge trying to find new suppliers, but especially given the quantities of the suppliers that they do often supply.

因此政府介入至关重要，因为若它们破产，寻找新供应商将带来全新挑战，尤其考虑到其日常供货量之大。

▶ So the government's meeting to address or consider options a couple on the table of being considered such as the COVID-Furlough style scheme, but that's considered to be extremely expensive.

政府正在开会商讨方案，考虑中的选项包括疫情式带薪休假计划，但该方案被认为成本过高。

▶ Then there's the idea of government backed loans to help these suppliers, but those suppliers aren't actually that keen on that idea.

另有政府担保贷款的建议，但供应商对此并不热衷。

 00:12:22

▶ And then there's also that idea that maybe the government can actually buy up the supplies and stockpile them.

还有观点认为政府可收购并储备这些零部件。

▶ But then when we think about the logistics of that, that's very difficult.

但考虑到#物流#环节，实施难度极大。

▶ The JLR business is very dependent on the right part, arriving at the right time in the right place.

捷豹路虎的生产高度#依赖#特定零部件在特定时间送达特定地点。

▶ So that does mean that it doesn't look like there's a very obvious solution, but they are going to be on the case today to try and find one.

这意味着目前尚无明确解决方案，但今日他们会全力寻求突破。

 00:12:43

▶ I mean, we're talking about 130,000 jobs here.

这关系到13万个就业岗位。

▶ Aren't we 30,000 directly employed by JLR, but 100,000 who work for firms supply this car maker?

捷豹路虎直接雇佣3万人，而为其供货的企业雇有10万人？

▶ I mean, this is huge, isn't it?

这影响巨大，不是吗？

▶ Yes, I mean, it's absolutely massive, the number of employment that we're talking about here.

是的，涉及的就业规模确实庞大。

▶ As pointed out, not just in the factories, also the suppliers.

正如所指出的，不仅涉及工厂，还包括供应商。

 00:13:05

▶ I mean, even if you just take a dashboard, for example, a dashboard is made up of around 100 components with 20 different suppliers.

以仪表盘为例，一个仪表盘由约100个部件构成，涉及20家不同供应商。

▶ But then you've also got other businesses, for example, businesses which would take the workers from, for example, the city to the factories.

此外还有相关产业，例如负责将工人从市区运送至工厂的运输公司。

▶ There's lots of ripple effects that can be felt across the close by economy for this.

这对周边经济会产生诸多#涟漪#效应。

 00:13:24

▶ Fiona, thank you so much.

非常感谢菲奥娜。

▶ And we'll see you again soon.

稍后再见。

▶ Fiona, Ching-Cottahair from City Index.

▶ Now plans to extend high-speed rail across the North of England have been delayed further and will not be announced by the Prime Minister at the Labour Party Conference next week.

目前，横贯英格兰北部的高铁延伸计划再度延期，首相不会在下周的工党大会上宣布该计划。

▶ Concerns over the long-term costs of the line, earmark between Liverpool and Manchester, have pushed back the revival of Northern Powerhouse Rail.

对利物浦至曼彻斯特段线路长期成本的担忧，推迟了北方经济引擎铁路的#复兴#计划。

bilibili 00:13:48

▶ New train lines in Britain have had a mixed record in recent years.

近年来英国新建铁路线路成效参差不齐。

▶ This is where in a decade's time, HS2 trains, travelling at 200 miles per hour, should emerge from under the Chilterns on their way from London to Birmingham.

这里是十年后HS2高铁列车以每小时200英里速度穿越奇尔特恩山脉驶向伯明翰的预定地点。

bilibili 00:14:09

▶ But is the vast expense of this project that's now leading to some caution on what was to be a connected new line across the North of England, including some parts of the cancelled HS2 line near Manchester.

但正是该项目的巨额开支导致政府对规划中横跨英格兰北部的新线路——包括曼彻斯特附近已取消的HS2路段——采取审慎态度。

▶ This is what is known as Northern Powerhouse Rail from Liverpool to Manchester, and then with line upgrades on to whole.

这就是所谓的利物浦至曼彻斯特的北方经济引擎铁路，后续还有通往整个地区的线路升级。

▶ This had long been planned by successive governments as an answer to help make Northern England an economically cohesive counterweight to the southeast of England.

历届政府长期规划此项目，旨在使英格兰北部成为能与东南部经济抗衡的 cohesive 经济体。

 00:14:36

▶ The current government had been expected to be enthusiastic backers and the announcement for the new line has not got off the starting blocks on multiple occasions, including at the June spending review.

现任政府原本被寄望积极支持该项目，但新线路的宣布多次受阻，包括六月的支出评估会议。

▶ In the coming weeks, I will set out this government's plan to take forward our ambitions for Northern Powerhouse Rail.

未来几周我将公布本届政府推进北方经济引擎铁路的规划。

▶ Insiders have been told that a plan for the line would be a big announcement at the Labour Party conference in Liverpool, coinciding with the 200th anniversary of Stevenson's debut of passenger rail travel.

内部人士曾获悉该线路计划将在利物浦工党大会上作为重大消息宣布，届时正值斯蒂芬森开通客运铁路200周年。

 00:15:05

▶ But that is currently not the plan, as the government continues to consider its options.

但由于政府仍在权衡选项，目前这不是既定计划。

▶ They call people from here for tables.

他们称这里的人为餐桌而生。

▶ For data people.

为数据而生。

▶ Yeah, yeah, yeah.

是的，没错。

▶ Each recipe tells its own unique story, bringing a fresh perspective on our changing world.

每份#食谱#都在讲述自己独特的故事，为我们这个变化中的世界带来全新视角。

▶ Join me, Nick Quet, for discovering the world's table.

跟随我尼克·奎特，一起探寻世界餐桌文化。

▶ Watch on I Player.

请在I Player平台观看。

▶ The electronics giant, Phillips, is saying Artificial Intelligence is already helping to curb long waiting lists and lengthy procedures in hospitals around the world.

#电子#巨头飞利浦表示，人工智能已在帮助缩短全球医院漫长的候诊名单和#冗长#的诊疗流程。

▶ Our Asia Business Correspondencer and Jonas Jamaより has been hearing from Phillips' Chief Innovation Officer.

本台亚洲商业记者乔纳斯·贾马正在采访飞利浦首席#创新#官。

▶ o6ores the European Union side.

(此句为乱码，保留原文) o6ores the European Union side.

▶ On 4-5, covepwing fifteen million jobs will protect misinformation.

(此句含乱码) On 4-5, covering fifteen million jobs will protect misinformation.

⏮ has been hearing from Philips' chief innovation officer.

正在采访飞利浦首席#创新#官。

bilibili 00:16:42

⏮ So here we're looking at the images of the heart.

现在我们看到的是心脏影像。

⏮ And for example, one of the things we need to do is to measure the strain, stress on the heart.

比如我们需要测量心脏的应变和压力。

⏮ And normally, you would have to freeze frame the picture and then click through every image manually, frame by frame of a movie to be able to calculate the stress on the heart.

通常需要逐帧定格图像，手动点击电影般的每一帧才能计算心脏压力。

⏮ Now, AI with one click just presses one button and automatically, what it does is it identifies all the frames and will apply all the automatic outlining of every part of the heart wall that's necessary.

现在人工智能只需一键点击，就能自动识别所有帧，并对必要的心壁各部分进行自动轮廓描记。

bilibili 00:17:16

⏮ And then gives you an image of the strain on the heart.

随后生成心脏应变图像。

⏮ This process that I did with one click normally takes 20 minutes.

这个一键完成的过程以往通常需要20分钟。

⏮ We've been hearing for a very long time that there are supercomputers doing some of these functions.

我们早就听说超级计算机能实现部分功能。

⏮ I mean, what has changed now in terms of AI integrated into these medical devices?

那么如今人工智能集成到医疗设备中带来了哪些改变？

▶ What you see now happening is with the introduction of a generative AI.

当前的变化源于#生成式#人工智能的引入。

 00:17:39

▶ So what you really have is the chatGDP phenomenon.

实质上出现的是ChatGDP#现象#。

▶ The same language is called knowledge language models that helps with chatGDP.

辅助ChatGDP的是知识语言模型。

▶ We have vision models that are for images.

我们还有专用于图像的视觉模型。

▶ And this technology now allows it to be embedded directly within the scanners that wasn't available before generative AI became available.

这项技术如今能直接嵌入扫描仪，这在#生成式#人工智能问世前是无法实现的。

▶ In this part of the world, there will be a lot of concerns about job losses.

在这个地区，人们会非常担忧失业问题。

 00:18:00

▶ Is that something that is a consideration for Philips?

这是飞利浦会考虑的问题吗？

▶ That's a question I get all the time is that is AI going to replace doctors?

我经常被问：人工智能会取代医生吗？

▶ And the reality is actually we live in a time where there's such a shortage of physicians and nurses.

而现实是我们正处在医生护士#短缺#的时代。

▶ So I think what you see is that AI is a tool that allows more face-to-face time between physicians and patients.

因此我认为人工智能是能增加医患面对面时间的工具。

bilibili 00:18:18

▶ So I do not believe that AI is going to replace physicians.

我不认为人工智能会取代医生。

▶ And in fact, I think it's going to reduce cognitive load, reduce burnout, and allow that special time of patient physicians to actually become more common.

事实上，它能减轻认知负荷和职业倦怠，让宝贵的医患交流时间变得更普遍。

▶ So that's the exciting aspect of artificial intelligence.

这就是人工智能令人振奋的一面。

▶ Let's look at some of the challenges earlier this month.

来看看本月早些时候的一些挑战。

bilibili 00:18:38

▶ AI startup and the topic agreed to pay authors what's thought to be the biggest ever copyright settlement.

某人工智能#初创#公司同意向作者支付据信是史上最高额的#版权#和解金。

▶ Authors had brought a class action lawsuit accusing the startup of large-scale theft by illegally using their work to train its chatbot known as Claude.

作者们提起集体诉讼，指控该公司通过非法使用其作品训练名为Claude的聊天机器人实施大规模侵权。

▶ Anthropic is backed by Amazon and worth some \$180 billion.

该初创公司Anthropic获亚马逊支持，估值约1800亿美元。

bilibili 00:19:02

▶ The settlement totals \$1.5 billion, but a federal judge has expressed grave concerns over the deal and will hold a hearing later in San Francisco today either to approve it or send it to trial.

和解总额达15亿美元，但联邦法官对此协议表示严重关切，今日晚些时候将在旧金山举行听证会决定批准或进入审判。

▶ His concerns include Anthropic may be getting off lightly from a deal which could see authors earn just \$3,000 per work.

法官担忧包括作者每部作品仅获3000美元，Anthropic可能借此轻易脱身。

▶ For the near half a million books used by the AI software, William Anderson is a principal analyst at more insights and strategy, a tech industry researcher.

针对AI软件使用的近50万本书籍，科技行业研究机构"更多洞察与策略"的首席分析师威廉·安德森将进行分析。

 00:19:38

▶ Welcome to the program.

欢迎来到节目。

▶ So this is an interesting case, isn't it?

这是个有趣的案例对吧？

▶ Because it could well set a precedent.

因为它很可能确立#先例#。

▶ Is that right?

是这样吗？

▶ Yeah, I believe it sets a precedent for the penalties.

是的，我认为这为处罚力度设立了#先例#。

▶ Essentially, Anthropic took the data and they knowingly took data that was copyright protected.

本质上Anthropic明知故犯地使用了受#版权#保护的数据。

▶ It wasn't applicable under free use law.

这并不适用合理使用原则。

bilibili 00:19:59

▶ And \$3,000, if you think about it, if that's consumer data or some other form of data besides a book, everything to AI is data.

试想若涉及消费者数据或其他非书籍类数据——对AI而言万物皆数据。

▶ So if it's a different type of data, that the \$3,000 would be a very low price for certain types of breaches.

3000美元对于某些类型的数据侵权将是非常低廉的代价。

▶ So I think they're more concerned about the precedent than maybe the specific titles that were might have been taken in this particular instance.

因此我认为他们更担忧先例效应而非本案中具体被侵权的作品。

bilibili 00:20:20

▶ So what do you think will be the outcome in the end?

您认为最终结果会如何？

▶ Will the authors get more money per work?

作者每部作品能获得更多赔偿吗？

▶ I think it's quite possible they will.

我认为很有可能。

▶ I don't know if I could speculate on how much, but I do think that this judge may send them back to the drawing board.

具体金额难以推测，但法官很可能要求双方重新协商。

▶ Yes.

是的。

🎧 And it sounds like Anthropic has got deep pockets, so could afford this.

听起来Anthropic资金雄厚，应该承担得起。

 00:20:42

🎧 Well, you brought up \$180 billion of valuation.

您提到1800亿美元估值。

🎧 That doesn't mean they have \$180 billion of cash.

但这不意味着他们有等额现金。

🎧 So they probably can bridge this, but what will end up happening is that that money would probably be used to fund other new innovations or further training of their models.

他们或许能应付，但最终这笔钱可能会用于资助其他创新或模型训练。

🎧 So it may slow them down a bit, but I don't necessarily think they're going to be severely damaged financially.

因此可能会稍受拖累，但我不认为会遭受重创。

 00:21:07

🎧 And the outcome of this could it influence a few check cases because I'm sure creators are watching this very closely, whether they're an author or they create music or they're an artist.

本案结果会影响其他类似案件吗？我相信创作者们都在密切关注，无论是作家、音乐人还是艺术家。

🎧 Yeah, I do think that it's being very closely watched, but there are a lot of people who think that this is directly applicable to fair use laws.

是的，确实备受关注，但许多人认为这直接关联合理使用法则。

🎧 And in this case, this was actually a breach of a fair use law.

而本案实际上是对合理使用法则的#违反#。

 00:21:32

▶ So it's a little bit of a different situation.

所以情况有所不同。

▶ I also think that it's very tricky with AI because essentially, when an AI model is trained, it's essentially bringing in inspiration for ideas for what the AI model then generates.

同时我认为AI领域非常复杂，因为模型训练本质上是为AI的生成内容汲取灵感。

▶ Right?

对吧？

▶ So it's very difficult to put a price tag on innovation versus something more clear, such as, you know, theft.

因此很难为#创新#明码标价，这与更明确的#盗窃#行为不同。

 00:21:55

▶ Jason Anderson, thanks for explaining.

杰森·安德森，感谢您的分析。

▶ We shall watch how that progresses later.

我们将持续关注进展。

▶ Thank you.

谢谢。

▶ Now, what could emerge as the world's most valuable coin goes up for auction today?

今日拍卖的可能是世界上最珍贵的硬币？

▶ It is known as the Crown Coin, her masterpiece, and it's a one-of-a-kind tribute to Queen Elizabeth II.

这枚被称为“皇冠币”的#杰作#是向伊丽莎白二世女王致敬的独一无二的#献礼#。

▶ Last valued at 16 million pounds, or 21 and a half million dollars, it has a face value of 10,000 pounds.

最新估值1600万英镑（约2150万美元），面值1万英镑。

 00:22:23

🎧 Well, joining me now is Neil Paisley, managing director at Baldwin's Coins and Bullion, auctioning the coin, it's right there with you.

现在有请负责拍卖的鲍德温钱币与金条公司董事总经理尼尔·佩斯利，硬币就在您手边。

🎧 So do show it to us because I assumed it would be the size of a 10-pence piece, but it's a lot bigger than that.

请向我们展示一下，我原以为它只有10便士硬币大小，但实际大得多。

🎧 No, no, it's much bigger.

不，它要大得多。

🎧 It's more the size of a plate.

更接近盘子的大小。

🎧 Yes, let me show you.

是的，我展示给您看。

 00:22:45

🎧 So...Is it very heavy as well?

那么...它也很重吗？

🎧 3.61 kilograms of gold.

3.61公斤黄金。

🎧 Wow。 And there are 6406 diamonds。

哇。镶嵌了6406颗钻石。

🎧 Oh, wow。 4803 carrots。

哦，哇。4803克拉。

🎧 That is incredible。

太不可思议了。

▶ Yeah, it's a good way。

确实如此。

▶ I've got gloves on and I'll try not to drop it。

我戴着手套，会小心拿稳。

▶ Yeah, no, don't。

千万别失手。

bilibili 00:23:07

▶ Please don't。

请一定拿稳。

▶ Online television, that wouldn't be good。

要是掉在线上直播镜头前可就糟了。

▶ It's just ahead of auction。

拍卖即将开始。

▶ So...Who do you think is wanting to win this today?

那么...您认为今天谁会想竞得这枚硬币?

▶ Well, I'm...

这个...

▶ There's two aspects of it。

有两个层面。

▶ It's a new mesmasic coin, but also it is a work of art。

它既是新梅西克钱币，也是艺术品。

▶ And so when new mesmasic collection may well be interested, or anyone who, typically loves Elizabeth II, there's so many people did, it was made to commemorate the Plasma Jubilee in 2022。

因此新梅西克收藏家可能感兴趣，还有众多伊丽莎白二世女王的仰慕者——这枚硬币是为2022年白金禧年铸造的。

bilibili 00:23:44

▶ And a lot of work went into it。

投入了大量心血。

▶ 2008-200 hours, eight countries were involved。

耗时2008-200小时，涉及八个国家。

▶ And yeah, it's just exquisite, really。

是的，非常#精美#。

▶ It's very sort of blingy。

非常璀璨夺目。

▶ It will appeal to a lot of people。

会吸引很多人。

▶ Young, middle-aged, the elder generation.

年轻、中年、#长者#一代。

▶ You know, it's just a delightful piece.

要知道，这真是件#令人愉悦#的作品。

▶ And it is likely, isn't it, to go for many, many millions, do you think?

而且它很可能，不是吗，会拍出几百万的高价，您觉得呢？

bilibili 00:24:09

▶ Well, we would hope so.

嗯，我们希望能如此。

▶ We would hope so.

我们确实这样期待。

▶ I mean, it's so difficult to value something like this.

我的意思是，这类物品实在难以估价。

▶ It's unique, but it is a coin.

它独一无二，但终究是一枚硬币。

▶ It's £10,000 space value.

它的面值是一万英镑。

▶ And then all the words gone into it.

再加上所有镌刻其上的文字。

▶ So really, the only way you can value it is by auction.

所以实际上，唯一的估价方式就是通过#拍卖#。

▶ And if you have two... two... bidders on the day who really, really wants it, who knows what it could go for.

如果当天有两位...两位...真心渴望得到它的竞拍者，天知道会拍出什么价格。

 00:24:35

▶ And I assume, Neil, the security is pretty tight.

我猜，尼尔，安保措施非常严密吧。

▶ In my mind, I'm just thinking of Hollywood films.

我脑海里已经浮现出好莱坞电影的场景了。

▶ You know, The Pink Panther or something like that.

比如《粉红#豹#》之类的。

▶ Someone who wants to scoop this coin.

有人想#巧取#这枚硬币。

▶ Well, no, definitely.

哦不，绝对严防。

▶ I mean, we hadn't even been to the other ads.

我们甚至都没靠近过其他广告位。

▶ And then where we housed the coin was actually underneath the ventilation.

存放硬币的地方其实就在#通风系统#下方。

bilibili 00:24:53

▶ And a lot of people were saying they could picture someone coming through the ventilation.

好多人都说能想象有人从#通风管道#潜入的画面。

▶ Tom Cruise-style mission impossible.

汤姆·#克鲁斯#式的《碟中谍》情节。

▶ That kind of thing.

诸如此类。

▶ Exactly.

一点没错。

▶ And I would have loved to have brought the coin to the studio, but again, you know, with insurance, it just wasn't an option.

我本很想把硬币带到演播室，但考虑到保险问题，这实在不可行。

▶ No, we would have loved to have had it here as well.

是啊，我们也非常希望能在这里展示它。

bilibili 00:25:10

▶ It would have been fascinating.

那一定会#引人入胜#。

▶ Well, good luck today, Neil.

那么，尼尔，祝您今天好运。

▶ Thank you so much for...

非常感谢您...

▶ No, thank you very much.

不，该谢谢您。

▶ Sharing that stunning and one of a kind coin with us this morning.

今早与我们分享这枚惊艳绝伦的孤品硬币。

▶ Good luck today with that auction.

祝今天的#拍卖#顺利。

▶ Thank you.

谢谢。

▶ Thank you very much.

非常感谢。

 00:25:24

▶ Thank you for having me.

谢谢邀请。

▶ You're welcome.

不客气。

▶ Wow, imagine that in the studio.

哇，想象一下它在演播室的样子。

▶ All those diamonds, amazing.

那些钻石，太神奇了。

▶ We have got so much more detail on our website.

我们的网站上有更详尽的信息。

▶ And the BBC News app, of course, on our top business news.

当然，BBC新闻应用的头条商业新闻也有报道。

▶ The JLR story, there is a write-up by Chris Mason, our political editor and Simon Jack, our business editor on what the government is considering.

关于捷豹路虎的报道，我们的政治编辑克里斯·梅森和商业编辑西蒙·杰克撰文分析了政府的考量。

 00:25:51

▶ Do take a look and have a lovely day.

请务必查看，祝您度过愉快的一天。

▶ I'll see you soon.

稍后见。

▶ Hello there.

大家好。

▶ It's been a week of late September sunshine, quite widely across the country.

这是遍及全国大部分地区的九月末阳光充沛的一周。

▶ And there's more to come, yes, Thursday, another day of sunny spells.

而且好天气还将持续，是的，周四仍是晴间多云的一天。

▶ And it will feel pleasantly warm with light winds generally across the country.

全国大部分地区微风轻拂，会感觉温暖舒适。

▶ Or because of high pressure that's centering itself now across Scandinavia.

这是由于目前笼罩斯堪的纳维亚半岛的高气压所致。

 00:26:27

▶ But the ice of ours opening up, the winds remain light, and it's blocking weather fronts for the time being, arriving from the Atlantic.

但随着我们的冰层消融，风力保持微弱，高气压暂时阻挡了来自#大西洋#的天气锋面。

▶ Bit of a breeze pushing in across parts of Essex and Kent as we go through the day.

今天白天，埃塞克斯郡和肯特郡部分地区会有轻微#微风#。

▶ But clear skies elsewhere, temperatures will start to respond.

但其他地区天空晴朗，气温将开始回升。

▶ There'll be a southerly breeze, albeit light across Northern England into Scotland.

英格兰北部至苏格兰将有轻微的偏南#风#。

 00:26:47

▶ Temperatures in Aberdeen should be up as high as 18 degrees.

阿伯丁的气温应会升至18度。

▶ Generally, we're looking around 16 to 18 Celsius, quite widely across the country.

总体而言，全国大部分地区气温将在16至18摄氏度左右。

▶ So very pleasant indeed for the final few days of September.

对于九月的最后几天来说，确实非常宜人。

▶ That Eastley breeze may well drive in a little more cloud coming in off the North Sea, as we go into the early hours of Friday morning.

进入周五凌晨，东风可能会从北海带来更多云层。

 00:27:06

▶ Clearing skies elsewhere will allow those temperatures to fall away once again into single figures.

其他地区天空#放晴#后，气温将再次降至个位数。

🎵 So a fresh start may be a little bit of mist around away from that breeze coming in off the North Sea.

因此清晨时分，在远离北海吹来的#微风#的地方，可能会有些许#薄雾#。

🎵 But there is a change to come into the weekend.

但周末天气将发生变化。

🎵 On Saturday, we'll have this weather front bringing outbreaks of rain, stretching its way from West East across the country.

周六，这道天气锋面将自西向东横跨全国，带来阵雨。

 00:27:25

🎵 Once it's cleared through, though, it's not going to last because there'll be a lot more in the way of dry and settled weather returning from Sunday onwards.

不过阵雨过后天气不会持续如此，因为从周日开始干燥稳定的天气将重新占据主导。

🎵 Take care.

保重。
