

New Era of Trade Rivalry Begins with Sweeping Global Tariffs

【BBC经济新闻 20250808 贸易战新纪元：全球关税风暴来袭 | 芯片产业震荡 | 印度经济受冲击 | 能源转型加速】

Summary: The global trade landscape is undergoing a seismic shift as sweeping U.S. tariffs take effect, targeting most of America's trading partners. President Trump has threatened a 100% tariff on chip imports unless companies relocate manufacturing to the U.S., while India faces a 50% tariff hike over Russian oil purchases. Meanwhile, the Bank of England is expected to cut interest rates despite stubborn inflation, and the energy sector explores micro-reactors as a sustainable alternative.

摘要：全球贸易格局正经历巨变，美国对多数贸易伙伴加征关税正式生效。特朗普威胁对芯片进口征收100%关税，除非企业将生产迁至美国；印度因购买俄罗斯石油面临50%关税上调。英国央行预计降息以应对经济疲软，而能源行业则将微型核反应堆视为可持续替代方案。

请记住，从今天起，这些企业已经面临25%的关税。

▶ So let's go and hear from some of them.

让我们去听听他们的一些看法。

▶ We have Vidur Nathya who owns a manufacturing unit which is for makes garments and you also have a sizable exposure to the US market, Vidur.

我们有维杜尔·纳提亚，他拥有一家服装制造厂，并且对美国市场有相当大的敞口，维杜尔。

▶ What does this mean?

这意味着什么？

▶ There's 50% tariffs which we could see in about three weeks from now.

大约三周后，我们可能会面临50%的关税。

 00:03:37

▶ Right.

是的。

▶ So if the tariffs stay, our hope is that, you know, the system free, but if the tariffs stay, then I think the impact will be pretty significant and the disastrous for the textile industry, given that the US is a major market for India, almost 30% of exports go to the US.

如果关税维持，我们希望系统能自由，但如果关税维持，我认为影响将非常重大，对纺织业来说是灾难性的，因为美国是印度的主要市场，近30%的出口流向美国。

▶ And even the human social impact has pretty significant given that the textile industry, employed almost about 100 million people in India and is the largest employer after agriculture.

考虑到纺织业在印度雇佣了近1亿人，是农业之后的最大雇主，其社会影响也非常重大。

 00:04:04

▶ So there's a lot of stake for India, you know, with these tariffs.

因此，这些关税对印度来说关系重大。

▶ And for your business particularly, how are you trying to manage these uncertain times?

特别是对您的企业来说，您如何应对这些不确定时期？

⌂ 00:04:26

Well, you know, it's a wait and watch policy for now, but I think in the long term, what we have to do is diversify into other markets like the US and, sorry, like Europe, I mean, and the UK.

目前我们采取观望政策，但从长远来看，我们必须多元化进入其他市场，比如欧洲和英国。

⌂ 00:04:26

⌂ 00:04:26

And we've just done an FTA with the UK and we are hoping that a similar FTA will come in soon with Europe as well.

我们刚刚与英国达成了自由贸易协定，希望很快也能与欧洲达成类似的协定。

⌂ 00:04:26

So, you know, once those FTAs are there, then we will push our products into those countries and try to diversify geographically in terms of our product.

一旦这些自贸协定生效，我们将把产品推向这些国家，并在地理上实现产品多元化。

⌂ 00:04:26

So lots of one-on-one deals of the free trade agreements that you are looking out for, but for now for the next few months, because these are long processes, isn't it?

所以您期待许多一对一的自由贸易协定，但未来几个月，因为这些是长期过程，对吧？

⌂ 00:04:52

⌂ 00:04:52

For the next few months, what's the contingency plan that you have?

未来几个月，您的应急计划是什么？

⌂ 00:04:52

Because you're facing competition from Vietnam, Bangladesh, which will have lower tariffs essentially than India.

因为您面临来自越南和孟加拉国的竞争，它们的关税将比印度低得多。

⌂ 00:04:52

50% is quite a big deal to compete within the American market.

50%的关税在美国市场竞争是一个大问题。

⌂ 00:04:52

So, you know, unfortunately, in this scenario, there's not much that we can do.

不幸的是，在这种情况下，我们能做的并不多。

 00:05:10

▶ These countries definitely have a tariff advantage over India.

这些国家肯定比印度有关税优势。

▶ And we saw the same thing happen with China that when the tariffs were put on China, we've got a huge deluge of inquiries coming to India.

我们看到中国也发生了同样的事情，当对中国加征关税时，大量询价涌向印度。

▶ So, now we're looking at the reverse happening, unfortunately, where business could go to the Southeast Asian countries.

不幸的是，现在我们看到相反的情况，业务可能流向东南亚国家。

▶ And I would also say that for India, it's like a once-in-a-lifetime opportunity because China has been the principal supplier and we can be that alternate supplier to India, to US.

我还要说，对印度来说，这是一个千载难逢的机会，因为中国一直是主要供应商，我们可以成为美国和印度的替代供应商。

 00:05:37

▶ And I also feel that it's not really in the interest of US because we are the main viable alternative supplier to China and given that the US consumer is paying for these two teeth.

我还认为这并不符合美国的利益，因为我们是中国的可行替代供应商，而美国消费者正在为此买单。

▶ So, would you have to say increase the cost of your products or are you in a position to absorb some of these not-sales?

那么，您是否必须提高产品价格，还是有能力吸收部分成本？

▶ You know, the textile industry is a very price sensitive industry and I would say that the margins are pretty minimal to begin with.

纺织业是一个对价格非常敏感的行业，利润率本来就很低。

 00:06:03

▶ So, I don't see that question with us or the retailer to really, you know, absorb these duty hikes and it would have to be passed to the consumer.

因此，我不认为我们或零售商能够真正吸收这些关税上涨，它必须转嫁给消费者。

▶ And in the industry, do you see smaller businesses also facing tougher decisions in the coming weeks ahead if there's no negotiation?

在该行业中，如果没有谈判，您认为小企业未来几周也会面临更艰难的决定吗？

▶ Absolutely.

绝对是的。

▶ This could lead to a lot of job losses in the industry and then we have to put our hiring plans on hold and our expansion plans on hold.

这可能导致该行业大量失业，我们将不得不暂停招聘和扩张计划。

 00:06:26

▶ So, you know, the impact will be pretty significant.

因此，影响将非常重大。

▶ Well, thank you for that view and this is what we are looking for now that if there could be negotiations, just what we need is what many businesses are hoping for.

感谢您的观点，我们现在关注的是是否会有谈判，许多企业都希望如此。

▶ Two sides could come to the table in the next three weeks and look out for those sticking points, energy import from Russia and also the agriculture sector that India has been protective about whether they can be a decision here to move ahead.

双方可能在接下来的三周内回到谈判桌，关注那些关键问题，比如从俄罗斯进口能源以及印度一直保护的农业领域，是否能达成协议。

 00:06:49

▶ Devina, thank you so much.

德维娜，非常感谢。

🎧 Good to get the very latest from India as that huge economy faces potentially very high tariffs.

很高兴从印度获得最新消息，因为这个庞大的经济体可能面临极高的关税。

🎧 Another tariff salvo from President Trump announcing he's to impose 100% tariffs on chip imports, but this won't apply to companies who manufacture it in the US.

特朗普总统再次宣布对芯片进口征收100%关税，但这不适用于在美国制造的公司。

🎧 Our North America business correspondent Michelle Flurry has the details from New York.

我们的北美商业记者米歇尔·弗洛里从纽约发回详细报道。

 00:07:17

🎧 President Trump is ramping up the pressure on the tech sector, threatening 100% tariffs on all imported semiconductors with one caveat.

特朗普总统正在加大对科技行业的压力，威胁对所有进口半导体征收100%关税，但有一个例外。

🎧 Companies that commit to building manufacturing infrastructure in the United States like Tech giant Apple, or they could avoid the tax altogether.

像科技巨头苹果这样承诺在美国建设制造基础设施的公司可以完全避免这项税收。

🎧 We're going to be putting a very large tariff on chips and semiconductors, but the good news for companies like Apple is if you're building in the United States or have committed to build without question committed to build in the United States, there will be no charge.

我们将对芯片和半导体征收很高的关税，但对苹果这样的公司来说，好消息是如果你在美国建厂或承诺在美国建厂，就不会被征税。

 00:07:54

🎧 Alongside the President for the announcement was Apple Boss Tim Cook who pledged a new 100 billion dollar investment to boost US manufacturing, including a new academy in Detroit, building new server-planting Houston, as well as more data centers around the country.

苹果老板蒂姆·库克与总统一起宣布了这一消息，他承诺投资1000亿美元促进美国制造业，包括在底特律建立新学院、在休斯顿建设新服务器工厂以及在全国建设更多数据中心。

▶ Thanks to President Trump's vision and with his help in his first term, we also led the way to bring TSMC to Arizona by committing to be their first and largest customer.

多亏特朗普总统的愿景和他在第一任期内的帮助，我们通过承诺成为台积电的第一个也是最大的客户，引领了将台积电引入亚利桑那州的进程。

▶ Today, they're producing tens of millions of chips for Apple using one of the most advanced process technologies in America today.

如今，他们正在使用美国最先进的工艺技术为苹果生产数千万芯片。

 00:08:33

▶ We're going to keep working with our suppliers to move even more of this incredibly advanced work to America.

我们将继续与供应商合作，将更多这种极其先进的工作转移到美国。

▶ Donald Trump has spent much of this year pressuring Apple, even threatening higher tariffs if the company didn't shift more iPhone production back to American soil.

唐纳德·特朗普今年大部分时间都在向苹果施压，甚至威胁如果该公司不将更多iPhone生产转移回美国本土，将提高关税。

▶ But there is skepticism.

但有人持怀疑态度。

▶ Apple has made several headline grabbing pledges before.

苹果之前曾多次做出引人注目的承诺。

 00:08:55

▶ In 2018 during Trump's first term, Apple said it would contribute \$350 billion to the US economy.

2018年，在特朗普的第一个任期内，苹果表示将为美国经济贡献3500亿美元。

▶ In 2021, under President Biden, that number jumped to \$430 billion.

2021年，在拜登总统任内，这一数字跃升至4300亿美元。

🎧 And earlier this year, yet another announcement of \$500 billion investment.

今年早些时候，又宣布了5000亿美元的投资。

🎧 Critics argue it's hard to tell how much of this is really new money and how much is simply existing business activity being rebranded.

批评者认为，很难分辨其中有多少是真正的新资金，有多少只是现有业务活动的重新包装。

 00:09:22

🎧 Still, this new move does appear to have helped Apple curry favor with a White House that's been vocal about boosting domestic investment.

尽管如此，这一新举措似乎确实帮助苹果赢得了白宫的好感，白宫一直直言不讳地支持增加国内投资。

🎧 It will, after all, be spared the tariff pain from semiconductors.

毕竟，它将免受半导体关税的痛苦。

🎧 And Wall Street seemed to like the sound of it.

华尔街似乎对此表示欢迎。

🎧 Apple shares jumped more than 5%.

苹果股价上涨超过5%。

🎧 Michelle Flurry there.

米歇尔·弗洛里报道。

 00:09:42

🎧 So, and that big move for Apple shares, of course, caused Wall Street to see a rise overall.

苹果股价的大幅上涨当然带动了华尔街整体上涨。

🎧 The now-stack closing up quite a bit also, the S&P 500, the broader market.

纳斯达克指数和标普500指数等更广泛的市场也大幅收高。

▶ And for financial markets, this actually is known normally as the summer silly season when many are away on holidays, trading volumes are thin.

对金融市场来说，这通常被称为夏季淡季，许多人外出度假，交易量清淡。

▶ And therefore, we see a lot of funny movement taking place.

因此，我们看到很多异常波动。

bilibili 00:10:06

▶ This year traders, though, are glued to their screens.

但今年的交易员们却紧盯着屏幕。

▶ And for many, holidays are being cancelled as the global markets try and keep up with every twist and turn on this global tariff's story.

对许多人来说，假期被取消了，因为全球市场试图跟上全球关税故事的每一个转折。

▶ Let's talk to Michael Field, European Equity Strategist at Morning Star.

让我们连线晨星的欧洲股票策略师迈克尔·菲尔德。

▶ Hello to you, Michael.

你好，迈克尔。

▶ It's unbelievably busy for all of you, isn't it, at the moment, because we've got today's news in terms of tariffs coming into force.

对你们所有人来说，现在非常忙碌，因为今天有关于关税生效的消息。

bilibili 00:10:33

▶ But also, we're now coming to the end aren't we?

而且我们现在也接近尾声了，对吧？

▶ Of all the earnings news out from companies as well.

所有公司的财报新闻也即将结束。

▶ You said it, Sally.

你说得对，莎莉。

▶ It's a new day, a new tariff threat.

新的一天，新的关税威胁。

▶ So, all was something to be keeping an eye on.

因此，这些都是需要关注的事情。

▶ And as you said, we've had a pretty busy earnings season.

正如你所说，我们经历了一个相当繁忙的财报季。

▶ There's been quite a few surprises to keep an eye on, which isn't always the usual case.

有很多值得关注的意外情况，这并不常见。

 00:10:54

▶ But thankfully, you know, next week that's pretty much coming to an end.

但幸运的是，下周这一切将基本结束。

▶ So, we should have all the information we need for the next month or so by then.

因此，到那时我们应该掌握了未来一个月左右所需的所有信息。

▶ But also, though, something that you all have to keep an eye on is whatever is coming out of the White House when it comes to, for example, yesterday's announcement of this 100 percent tariffs on chips.

但你们还需要关注白宫发布的任何消息，比如昨天宣布的对芯片征收100%关税。

 00:11:13

▶ Potentially, we're waiting for a pharmaceuticals announcement.

我们可能还在等待制药行业的公告。

▶ There's various sectors, isn't there?

涉及多个行业，对吧？

▶ And there's a lot of detail still to come.

还有很多细节有待公布。

▶ Absolutely.

绝对是的。

▶ And you've seen that come through an earnings season already.

你已经看到这一点在财报季中体现出来。

▶ Some of the big movers or the big surprises in Europe have been around exporters with the euro high against the dollar.

欧洲的一些大变动或大意外与出口商有关，欧元对美元汇率走高。

 00:11:32

▶ And indeed, those industries affected by tariffs.

当然，还有那些受关税影响的行业。

▶ So, all those, for instance, as well, there's been some big results in terms of, you know, some of the losses that they've made or some of the actions those companies have had to take.

例如，所有这些公司在损失或采取的行动方面都取得了一些重大结果。

▶ And as you said, if indeed there's a 200 percent tariff or a 100 percent tariff put on, semi-conductors are 200 percent tariff put on farmer.

正如你所说，如果真的对半导体征收200%的关税，或对农民征收100%的关税。

 00:11:55

▶ These are significant tariffs that we're talking about.

我们谈论的是非常高的关税。

▶ It's not a simple 10 or 15 percent.

这不是简单的10%或15%。

▶ Blanket one, as with regard to the EU or the UK.

这是全面性的，涉及欧盟或英国。

▶ And these could massively affect profitability for these industries over the next year or two.

这些关税可能会在未来一两年内对这些行业的盈利能力产生巨大影响。

▶ But do you think, in general, markets in recent weeks have been actually playing this fairly rationally despite the flurry of news and activity when it comes to trade deals?

但总体而言，你认为最近几周市场在面对贸易协议的大量新闻和活动时表现得相当理性吗？

 00:12:23

▶ To some degree, they have that, you know, up to now, there's relatively been the taco trade that's paid off.

在某种程度上，到目前为止，市场相对采取了“观望”策略，并且取得了回报。

▶ So, the market's been rewarded for not getting hugely excited either positively or negatively about tariffs.

因此，市场因对关税既不过度乐观也过度悲观而获得了回报。

▶ And I think that's following through clearly, clearly, some of these threats have a bit more teeth as of late.

我认为这一点很明显，最近这些威胁变得更加有力。

 00:12:43

▶ But certainly, the market's still close to all time eyes in Europe or the UK at the moment.

但毫无疑问，目前欧洲或英国的市场仍接近历史高点。

▶ So, they are definitely shrugging off those tariff threats.

因此，市场显然对这些关税威胁不屑一顾。

▶ Whether that trade continues to pay off in the coming months is another question, but up to now, it's worked.

这种策略是否会在未来几个月继续奏效是另一个问题，但到目前为止它是有效的。

🎧 So, why stop, I suppose, is the question those investors are asking themselves?

所以，投资者们可能会问自己：为什么要停下来呢？

 00:13:04

🎧 Okay, Michael, thank you very much indeed for your time.

好的，迈克尔，非常感谢你的时间。

🎧 We will speak to you again soon.

我们很快会再联系你。

🎧 I am sure.

我相信会的。

🎧 So, as we hit today's tariffs deadline, we're now witnessing US import duties at their highest level in a century with the devil in the detail as we were just hearing.

随着今天的关税截止日期到来，我们现在看到美国的进口关税达到了一个世纪以来的最高水平，细节中隐藏着许多问题。

🎧 And each country is weighing up their position and the cost of the levees on their goods headed to the US as President Trump has just posted on truth social.

各国正在权衡自己的立场以及商品进入美国时的关税成本，正如特朗普总统刚刚在Truth Social上发布的。

 00:13:34

🎧 It's midnight, billions of dollars in tariffs are now flowing into the United States of America.

午夜时分，数十亿美元的关税现在正流入美国。

🎧 Let's discuss this with Christopher Nisner, Professor of Economics at the University of California, Davis and a Research Associate at the National Bureau of Economic Research.

让我们与加州大学戴维斯分校经济学教授、美国国家经济研究局研究员克里斯托弗·尼斯纳讨论这个问题。

▶ Christopher, good to have you on the program.

克里斯托弗，欢迎来到节目。

▶ I mean, from your perspective, is this, is this a historic moment when we think about global trade and the world order when it comes to the movement of goods around the world?

从你的角度来看，这是否是全球贸易和世界秩序的一个历史性时刻？

bilibili 00:14:08

▶ Absolutely.

绝对是。

▶ We are at a big turning point right now.

我们现在正处于一个重大转折点。

▶ We have not seen tariffs this high in the United States since 1930.

自1930年以来，美国从未见过如此高的关税。

▶ Over the last 100 years or so, tariffs have been generally low, but that is no longer the case with these new tariffs.

在过去100年左右的时间里，关税普遍较低，但这些新关税改变了这一情况。

▶ This is a big change, a monumental change.

这是一个巨大的变化，具有里程碑意义的变化。

▶ And when the President says, you know, hundreds of billions of dollars will be flowing into the US economy, what is your take on that statement and what that means?

当总统说数千亿美元将流入美国经济时，你对此有何看法？

bilibili 00:14:43

▶ Well, that remains to be seen.

这还有待观察。

▶ The usual impact of tariffs is going to be to raise prices for consumers to reduce the variety of products that consumers have available to them.

关税的通常影响是提高消费者价格，并减少消费者可选择的商品种类。

▶ But sure, some companies will gain from this in particular American companies that have less competition with foreign businesses.

但可以肯定的是，一些公司会从中受益，尤其是那些与外国企业竞争较少的美国公司。

▶ They're going to gain the US tax bill is going to rise and government revenue is going to rise.

它们将受益，美国的税收和政府收入将会增加。

 00:15:20

▶ So there will be big changes of foot.

因此，将会有重大变化。

▶ Unfortunately, the consumer is going to bear most of the costs of this round of tariffs.

不幸的是，消费者将承担这轮关税的大部分成本。

▶ And when will that happen?

这种情况何时会发生？

▶ When will the US consumers start to feel the hit, do you think?

你认为美国消费者何时会开始感受到冲击？

▶ Well, they're already starting to feel it despite the headlines about the delayed reaction.

尽管头条新闻称影响会延迟，但他们已经开始感受到了。

▶ I think the new data that have come in in the last week have shown pretty clearly that prices where the tariffs have gone up have started to rise.

我认为上周的新数据清楚地表明，关税提高的商品价格已经开始上涨。

 00:15:50

 So prices are going up.

因此，价格正在上涨。

 Jobs are going down.

就业正在减少。

 Payrolls are going down.

工资正在下降。

 Growth is slowing.

增长正在放缓。

 So it's starting to kick in and it's going to intensify in the next six months of these tariffs stay around.

因此，影响已经开始显现，如果这些关税持续下去，未来六个月影响还会加剧。

 Okay.

好的。

 Well, Christopher, thank you for your analysis and your thoughts on this.

克里斯托弗，感谢你的分析和见解。

 And just to say that a little later in this program, we will be hearing from an American company that's doing very well.

稍后在本节目中，我们将听到一家表现非常出色的美国公司的消息。

▶ Absolutely.

绝对是的。

▶ I think the market has thought there's, you know, a near 100% chance for a while.

我认为市场已经认为降息的可能性接近100%。

▶ So they really would shock the market if they didn't cut rates today.

因此，如果他们今天不降息，真的会让市场感到震惊。

▶ And I think they will.

我认为他们会降息。

▶ They don't want to do shop tactics at all at the Bank of England.

英国央行根本不想采取任何策略性手段。

▶ But the problem is, Kathleen, what are they going to do next?

但问题是，凯瑟琳，他们接下来会做什么？

bilibili 00:18:17

▶ Because there is so much out there that we cannot predict, not least, the tariff situation, the impact on the UK economy and the global economy.

因为有许多不可预测的因素，尤其是关税形势及其对英国经济和全球经济的影响。

▶ But also what's what's coming from the Treasury later this year, the Chancellor in the autumn budget?

还有财政部今年早些时候的秋季预算会带来什么？

▶ Yeah, I mean, this will be the first time if the bank does cut rates today.

是的，如果央行今天降息，这将是第一次。

▶ It will be the first time that UK interest rates have been below US interest rates for a while.

这将是英国利率一段时间以来首次低于美国利率。

bilibili 00:18:40

▶ So actually having that lower interest rate than the US and if they continue to cut rates for it to go even lower, that could really try and bolster the UK economy from these tariff threat from the US.

因此，如果利率低于美国并继续下调，这可能会帮助英国经济抵御来自美国的关税威胁。

▶ But I think you're right.

但你是对的。

▶ There's, you know, there's so many risks out there.

外面有太多风险。

▶ The inflation is elevated to be cutting rates when inflation is at 3.6%.

通胀率为3.6%时降息需要很大勇气。

 00:19:00

 That takes a lot of guts.

这需要很大勇气。

 But as you said, there's also tax rises potentially coming in October and that supports more rate cuts.

但正如你所说，10月份可能还会增税，这将支持进一步降息。

 So we are going to expect quite a lot of divisions that the bank as well.

因此，我们预计央行内部也会有很多分歧。

 And we could see a three way split of this meeting.

这次会议可能会出现三方分歧。

 So it will be difficult to tell where rates will go next.

因此，很难预测利率的下一步走向。

 And it feels like, you know, Andrew Bailey and his team are in a similar position, not as difficult, nowhere near as difficult as Jerome Powell and the Federal Reserve.

安德鲁·贝利和他的团队似乎处于类似但不如杰罗姆·鲍威尔和美联储那么困难的境地。

 00:19:27

 But there's split in the Fed.

但美联储内部也存在分歧。

 We've got splits in the Bank of England.

英国央行内部也有分歧。

 There's difference of opinion as to what to do next.

对于下一步行动存在不同意见。

 Yeah, absolutely.

是的，绝对如此。

⏮ Because you've got those people who are really worried about the inflation outlook and just think this is going to, you know, if we cut rates, if they cut rates too far, that's just going to lead to another explosion of inflation, which is no good for anyone.

因为有些人非常担心通胀前景，认为如果降息幅度过大，可能会导致通胀再次飙升，这对任何人都没有好处。

 00:19:46

⏮ But then interest rates do take quite a long time to actually hit the real economy up to about two years.

但利率确实需要很长时间（大约两年）才能真正影响实体经济。

⏮ So today's inflation rate doesn't necessarily impact the bank in terms of when they're thinking much, your policy will hit.

因此，当前的通胀率并不一定会影响央行对政策效果的预期。

⏮ So they can cut rates when inflation is high as long as they think that the outlook is for weaker inflation.

因此，只要他们认为通胀前景趋弱，他们就可以在高通胀时降息。

 00:20:09

⏮ And they will actually send out their inflation report today as well.

他们今天还将发布通胀报告。

⏮ So we will see what their inflation forecasts are for the future.

因此，我们将看到他们对未来通胀的预测。

⏮ They could see inflation rising actually to 4% in September, October time.

他们可能会预测通胀在9月或10月升至4%。

⏮ But then falling back very sharply.

但随后会急剧回落。

▶ And that would allow them the Bank of England to open the door to more rate cuts in 2026.

这将为英国央行在2026年进一步降息打开大门。

bilibili 00:20:28

▶ Okay, Kathleen, thanks for getting up so early.

好的，凯瑟琳，感谢你早起参加节目。

▶ And needless to say, we'll be across that news when it comes here on the BBC.

不用说，我们会在BBC上跟进相关新闻。

▶ But let's now focus on energy supply.

但现在让我们关注能源供应。

▶ Micro reactors are small, transportable, nuclear reactors that generate electricity and heat, typically producing up to 20 megawatts of thermal energy.

微型反应堆是小型、可运输的核反应堆，可发电和供热，通常产生高达20兆瓦的热能。

bilibili 00:20:48

▶ They're significantly smaller than traditional nuclear reactors and can be deployed in a variety of locations, including remote areas and disaster stricken regions, to provide a reliable and clean energy source.

它们比传统核反应堆小得多，可以部署在偏远地区和灾区等多种地点，提供可靠且清洁的能源。

▶ So what role do these play in the mix?

那么它们在能源结构中扮演什么角色？

▶ As governments, as companies all attempt to pivot away from fossil fuels, well, nano, nuclear energy is a company focused on developing micro reactors and its chief executive James Walker joined me now.

随着政府和公司都试图摆脱化石燃料，纳米核能公司专注于开发微型反应堆，其首席执行官詹姆斯·沃克现在加入了我们。

bilibili 00:21:17

🎧 Welcome, James.

欢迎，詹姆斯。

🎧 So where are these already happening?

那么这些反应堆已经在哪些地方投入使用？

🎧 And just talk us through, you know, is it safe and how sustainable is this?

并请告诉我们，它是否安全，可持续性如何？

🎧 Well, when it comes to safety, I always like to try and point out that if you were to look at all power systems, all energy always we defies energy and look at it in terms of deaths per gigawatt hour, nuclear is already the safest beating out wind and solar.

在安全性方面，我想指出，如果从每千兆瓦时的死亡人数来看，核能已经是最安全的能源，超过了风能和太阳能。

bilibili 00:21:41

🎧 And these new generation of reactors are safer still.

而这些新一代反应堆更加安全。

🎧 All of the old accident scenarios that are possible with big civil nuclear power plants are just not possible with these smaller systems.

大型民用核电站可能发生的所有事故场景在这些小型系统中都不可能发生。

🎧 So you're taking the safest energy system and you're making it still safer.

因此，你在最安全的能源系统基础上进一步提高了安全性。

🎧 And it really does feature into the big energy mix, as you say.

正如你所说，它确实在能源结构中扮演重要角色。

bilibili 00:21:59

▶ So as governments are looking to transition away from fossil fuels, like there are big challenges.

随着政府试图摆脱化石燃料，存在许多重大挑战。

▶ One of them is obviously the electrification of countries.

其中之一显然是国家的电气化。

▶ There's a massive increase of power that's required and something like that means massive infrastructure upgrades, but with something like these micro reactor systems, that might not be necessary.

电力需求大幅增加，这意味着需要大规模基础设施升级，但有了这些微型反应堆系统，可能就不需要了。

 00:22:19

▶ You could install these things in remote locations, off grid and just have your own micro grid.

你可以将这些系统安装在偏远地区，脱离电网，建立自己的微电网。

▶ The tech industry is very big on reactor systems for this exact reason.

科技行业非常青睐反应堆系统，正是出于这个原因。

▶ They can co-locate with them.

他们可以与反应堆系统共址。

▶ They can power their data centers off them.

他们可以用这些系统为数据中心供电。

▶ So where are you seeing demand for this, James?

那么你在哪些地方看到了需求，詹姆斯？

▶ Mostly.

主要是哪里？

▶ Where is it coming from?

需求来自哪里？

 00:22:38

▶ The big demand we can see at the moment is the tech industry.

目前我们看到的最大需求来自科技行业。

▶ Their projected energy demands are enormous, like gigawatts and gigawatts of power for data centers for AI.

他们的能源需求预计非常巨大，比如为人工智能数据中心提供数千兆瓦的电力。

▶ What they're worried about is that the sophistication of their systems isn't dependent on the technology.

他们担心的是，他们系统的复杂性并不依赖于技术。

▶ It's dependent on the energy.

而是依赖于能源。

▶ They're already seeing that they'll plateau in terms of the sophistication of their tech in two or three years.

他们已经看到，他们的技术复杂性将在两三年内达到瓶颈。

 00:23:04

▶ They're desperate for power.

他们迫切需要电力。

▶ A lot of the conversations we have with the big tech industry, they need power.

我们与大型科技行业的许多对话都表明，他们需要电力。

▶ They want to co-locate with nuclear and they've essentially settled on this is the solution for them.

他们希望与核能共址，并已基本确定这是他们的解决方案。

▶ Okay, James, thanks for talking to us.

好的，詹姆斯，感谢你的分享。

🎧 I wish we had more time because it really sounds fascinating.

我希望我们有更多时间，因为这听起来非常有趣。

 00:23:21

🎧 I'm sure we will check in with you again as this all progresses.

我们一定会随着事态的发展再次与你联系。

🎧 But now as promised, let's bring you detail on the company that seems to be doing really well out of these changes in tariffs in the US.

但如之前承诺的，现在让我们为你详细介绍这家似乎从美国关税变化中获益良多的公司。

🎧 On North America Business Correspondent Aaron Delmore has been talking to ex-celldryers chief operating officer William Gannon about what he thinks about the tariff policies.

北美商业记者亚伦·德尔莫尔一直在与Excel干手器公司的首席运营官威廉·甘农讨论他对关税政策的看法。

 00:23:46

🎧 We're like the poster child for what President Trump is trying to do.

我们就像是特朗普总统试图实现的目标的典范。

🎧 Help small American businesses thrive domestically and help export more internationally.

帮助美国小企业在国内蓬勃发展，并在国际上增加出口。

🎧 How specifically is your company benefiting from tariffs?

具体来说，贵公司如何从关税中受益？

🎧 We're basically 100% sourced and manufactured in the United States.

我们基本上100%的原材料和制造都在美国完成。

🎧 So we are not feeling the effects of increased costs on materials or delayed shipments of materials.

因此我们没有感受到材料成本上升或材料运输延迟的影响。

 00:24:17

▶ And we've been able to hold our pricing against all of our competitors which have had to raise their pricing due to tariffs.

而且我们能够保持价格稳定，而我们的竞争对手由于关税不得不提高价格。

▶ So it's significantly helping us.

所以这对我们帮助很大。

▶ And tell me how your company is doing now versus six months ago or a year ago.

请告诉我贵公司现在与六个月或一年前相比的情况。

▶ So we are doing much better this year versus last year up.

我们今年的表现比去年好得多。

▶ I would say almost 20% and another benefit of the tariffs as we are sold globally is the reduction of tariffs into other countries which has been a significant barrier for an American big product in several regions we sell in.

我可以说增长了近20%，另一个关税的好处是，由于我们在全球销售，其他国家的关税降低了，这在我们销售的几个地区曾经是美国大型产品的重要障碍。

 00:24:59

▶ Do you mind if I ask if you voted for President Trump?

你介意我问你是否投票给了特朗普总统吗？

▶ Sure I did.

当然投了。

▶ One of the major reasons was because of our American manufacturing business and knew that he would be a better president for us.

主要原因之一是美国的制造业业务，并且知道他会成为对我们更有利的总统。

▶ Now across the board economists say that tariffs could cause consumer prices to go up.

现在经济学家普遍认为关税可能导致消费者价格上涨。

🎧 So if you find that your consumers become more stretched economically maybe less able to afford things as they were could you see your own sales decrease?

所以如果你发现消费者在经济上更加拮据，可能不如以前那样能负担得起商品，你会看到自己的销售额下降吗？

bilibili 00:25:28

🎧 Well the nice thing about our product is that it's a 95% cost savings or paper towels.

我们产品的一个优点是它能节省95%的成本，或者说比纸巾更经济。

🎧 So even in a recession we are an easy cost-cutting solution.

因此即使在经济衰退时期，我们也是一个简单的节省成本的解决方案。

🎧 There you go the chief operating officer of Excel drives there explaining why he thinks the tariffs policy is a good plan.

以上就是Excel干手器公司的首席运营官解释为什么他认为关税政策是一个好计划。

🎧 That is all from business today thanks for your time I'll see you again soon.

以上就是今天的商业新闻，谢谢你的时间，我们很快会再见面。
