

剑桥雅思11 | 听力真题 Test 1 Section 3 | Gender and Physics: How Writing Tasks Can Improve Women's Performance

【剑桥雅思11 | 听力真题 Test 1 Section 3 | 突破性别偏见 | 心理学实验揭秘：写作任务如何让女生物理成绩从C跃升B | STEM领域的性别差异研究】

Summary: A study by Akira Miyaki and his team explored why women underperform in introductory physics courses. Female students believed male peers assumed they were bad at physics, affecting their confidence. Researchers introduced a "values affirmation" writing task, which significantly improved women's grades from C to B. The study suggests psychological factors heavily influence performance, but some details were omitted. Lisa and Greg plan to replicate the study to verify the results.

摘要：一项研究发现，女性在物理课程中表现不佳可能与心理因素有关。女生误以为男生认为她们物理差，导致紧张影响发挥。研究者通过"价值观确认"写作任务（如撰写关于音乐或重要人的文章）使女生成绩从C提升到B。心理学学生Lisa和Greg讨论该研究，指出实验细节缺失，并计划设计新实验验证写作任务是否真为关键因素。他们还将考虑样本量、评估方式等研究设计问题。

▶ Section 3 You will hear two psychology students called Lisa and Greg discussing a project they have to do.

第3部分 你将听到两位心理学学生Lisa和Greg讨论他们必须完成的一个项目。

▶ First, you have some time to look at questions 21 to 27.

首先，你有时间看一下第21到27题。

🎧 Now listen carefully and answer questions 21.

现在请仔细听并回答第21题。

🎧 Okay Greg, so I finally managed to read the article you mentioned.

好的Greg，我终于读了你提到的那篇文章。

🎧 The one about the study on gender and physics.

那篇关于性别与物理学的研究。

 00:01:13

🎧 About the study of college students done by Akira Miyaki and his team.

关于Akira Miyaki及其团队对大学生进行的研究。

🎧 Yeah, I was interested that the researchers were actually a mix of psychologists and physicists.

是的，我对研究人员实际上是心理学家和物理学家的组合很感兴趣。

🎧 That's an unusual combination.

这是一个不常见的组合。

🎧 Yeah, I got a little confused at first about which students the study was based on.

是的，我一开始对研究基于哪些学生有点困惑。

🎧 They weren't actually majoring in physics.

他们实际上并不是主修物理。

 00:01:37

🎧 They were majoring in what's known as the STEM disciplines.

他们主修的是所谓的STEM学科。

🎧 That's science, technology, engineering and...

即科学、技术、工程和.....

▶ And math.

以及数学。

▶ Yes, but they were all doing physics courses as part of their studies.

是的，但他们都在学习物理课程作为他们学习的一部分。

▶ That's correct.

没错。

▶ So, as I understood it Miyaki and Ko started from the fact that women are underrepresented in introductory physics courses at college.

所以，据我理解，Miyaki和Ko从女性在大学物理入门课程中代表性不足这一事实出发。

 00:02:04

▶ And also, that on average, the women who do enroll on these courses perform more poorly than the men.

而且，平均而言，参加这些课程的女性表现比男性差。

▶ No one really knows why this is the case.

没有人真正知道为什么会这样。

▶ Yeah, but what the researchers wanted to find out was basically what they could do about the relatively low level of the women's results.

是的，但研究人员想弄清楚的是，他们能对女性成绩相对较低的情况做些什么。

▶ But in order to find a solution, they needed to find out more about the nature of the problem.

但为了找到解决方案，他们需要更多地了解问题的本质。

 00:02:29

▶ Right.

对。

▶ Now, let's see if I can remember.

现在，让我看看我是否记得。

▶ It was that in the physics class, the female students thought the male students all assumed that women weren't at any good at physics.

在物理课上，女学生认为男学生都认为女性不擅长物理。

▶ Was that it?

是这样吗？

▶ And they thought that the men expected them to get poor results in their tests.

她们认为男性期望她们在考试中取得糟糕的成绩。

▶ That's what the women thought, and that made them nervous, so they did get poor results.

这就是女性的想法，这让她们紧张，所以她们确实取得了糟糕的成绩。

 00:02:55

▶ But actually, they were wrong.

但实际上，她们错了。

▶ No one was making any assumptions about the female students at all.

没有人对女学生做出任何假设。

▶ Anyway, what Miyaki's team did was quite simple.

无论如何，Miyaki的团队所做的相当简单。

▶ Getting the students to do some writing before they went into the physics class.

让学生在进入物理课之前写一些东西。

▶ What did they call it?

他们称之为？

▶ Values affirmation.

价值观肯定。

▶ They had to write an essay focusing on things that were significant to them.

他们必须写一篇关于对他们重要的事情的文章。

bilibili 00:03:19

▶ Not particularly to do with the subject they were studying, but more general things like music or people who mattered to them.

不一定与他们学习的科目有关，而是更普遍的事情，比如音乐或对他们重要的人。

▶ Right.

对。

▶ So the idea of doing the writing is that this gets the students thinking in a positive way.

所以写作的想法是让学生以积极的方式思考。

▶ And putting these thoughts into words can relax them and help them overcome the psychological factors that lead to poor performance.

将这些想法用语言表达出来可以让他们放松，并帮助他们克服导致表现不佳的心理因素。

bilibili 00:03:43

▶ Yeah.

是的。

▶ But what the researchers in the study hadn't expected was that this one activity raised the women's physics grades from the sea to the B-range.

但研究人员没有预料到的是，这一活动将女性的物理成绩从C提高到B范围。

▶ A huge change.

巨大的变化。

▶ Pity it wasn't to an A, but still.

可惜没有达到A，但仍然不错。

▶ No, but it does suggest that the women were seriously underperforming beforehand in comparison with the men.

不，但这确实表明，与男性相比，女性之前的成绩严重不佳。

▶ Yes.

是的。

▶ Mind you, Miyaki's article left out a lot of details.

请注意，Miyaki的文章遗漏了很多细节。

 00:04:11

▶ Like, did the students do the writing just once or several times?

比如，学生是只写一次还是写几次？

▶ And had they been told why they were doing the writing?

他们是否被告知为什么要写作？

▶ That might have affected the results.

这可能会影响结果。

▶ You mean if they know the researchers thought it might help them to improve, then they just try to fulfill that expectation?

你是说，如果他们知道研究人员认为这可能有助于他们提高，那么他们就会努力满足这一期望？

▶ Exactly.

正是。

▶ Before you hear the rest of the discussion, you have some time to look at questions 28 to 30.

在听剩下的讨论之前，你有时间看一下第28到30题。

 00:04:56

▶ Now listen and answer questions 28 to 30.

现在请听并回答第28到30题。

🎧 So anyway, I thought for our project we could do a similar study, but investigate whether it really was the writing activity that had that result.

所以无论如何，我认为我们的项目可以做类似的研究，但调查是否真的是写作活动产生了这一结果。

🎧 Okay.

好的。

🎧 So we could ask them to do a writing task about something completely different, something more factual?

所以我们可以让他们做一个关于完全不同的事情的写作任务，更事实性的？

🎧 Like a general knowledge topic?

比如常识性话题？

 00:05:26

🎧 Maybe, or we could have half the students doing a writing task and half doing something else like an oral task?

也许，或者我们可以让一半学生做写作任务，另一半做其他事情，比如口头任务？

🎧 Or even, half do the same writing task as in the original research and half do a factual writing task.

或者甚至，一半做与原始研究相同的写作任务，另一半做事实性写作任务。

🎧 Then we'd see if it really is the topic that made the difference or something else.

然后我们就能看出是否真的是主题造成了差异或其他因素。

🎧 That's it.

就是这样。

 00:05:50

🎧 Good.

好的。

🎧 So at our meeting with the supervisor on Monday, we can tell him we've decided on our project.

所以在周一与导师的会议上，我们可以告诉他我们已经决定了我们的项目。

🎧 We should have our aims ready by then.

到那时我们应该准备好我们的目标。

🎧 I suppose we need to read the original study, the articles just a summary.

我想我们需要阅读原始研究，文章只是一个摘要。

🎧 And there was another article I read by Smolinsky.

我还读了Smolinsky的另一篇文章。

🎧 It was about her research on how women and men perform in mixed teams in class, compared with single sex teams and on their own.

这是关于她对男女在课堂混合团队中表现的研究，与单性别团队和单独表现相比。

 00:06:19

🎧 Let me guess, the women were better at teamwork.

让我猜猜，女性更擅长团队合作。

🎧 That's what I expected.

这正是我所期望的。

🎧 But actually, the men and the women got the same results, whether they were working in teams or on their own.

但实际上，无论男女是在团队中工作还是单独工作，结果都是一样的。

🎧 But I guess it's not that relevant to us.

但我想这与我们不太相关。

🎧 What worries me anyway is how we're going to get everything done in the time.

无论如何，我担心的是我们如何在时间内完成所有事情。

▶ We'll be okay now we know what we're doing.

既然我们知道自己在做什么，我们会没事的。

 00:06:42

▶ Though I'm not clear how we assess whether the students in our experiment actually make any progress or not.

不过我不清楚我们如何评估实验中的学生是否真的有进步。

▶ No, we may need some advice on that.

是的，我们可能需要一些建议。

▶ The main things to make sure we have the right size sample not too big or too small.

主要是确保我们有合适的样本量，不要太大或太小。

▶ That shouldn't be difficult.

这应该不难。

▶ Right, what do we need to do next?

好的，我们接下来需要做什么？

▶ We could have a look at the timetable for the science classes.

我们可以看看科学课的时间表。

 00:07:09

▶ Or perhaps we should just make an appointment to see one of the science professors.

或者也许我们应该预约见一位科学教授。

▶ That'd be better.

那样会更好。

▶ Great.

太好了。

🎧 And we could even get to observe one of the classes.

我们甚至可以观察一堂课。

🎧 What for?

为什么？

🎧 Well, okay, maybe let's just go with your idea.

好吧，也许我们还是按你的想法来。

🎧 Right, well, I think that's everything for now.

好的，我想现在就这样了。

🎧 That is the end of section three.

第3部分到此结束。

 00:07:33

🎧 You now have half a minute to check your answers.

现在你有半分钟时间检查答案。

🎧 Now turn to section four.

现在请翻到第4部分。
