

Israeli Airstrike on Gaza Hospital Kills Journalists, Sparks International Outcry

【BBC World News America 20250826 加沙医院遭以军空袭，记者罹难引发国际震怒：以方称“悲剧性误炸” | 特朗普对俄乌峰会改口】

Summary: Israel faces global condemnation after a double strike on Gaza's Nasr Hospital killed at least 20 people, including five journalists from major international news outlets. The Israeli military called the incident a "tragic mishap" but defended its actions in an "extremely complex" combat environment. Meanwhile, President Trump reversed his earlier optimism about a meeting between Russian and Ukrainian leaders, threatening "big consequences" if they fail to negotiate. In a separate U.S. immigration case, Kilmar Abrego Garcia, wrongfully deported to El Salvador, was returned to federal custody days after reuniting with his family.
