

U.S. Health Secretary RFK Jr. Grilled in Fiery Senate Hearing Over CDC Turmoil and Vaccine Policies

【BBC News 20250905 美国卫生部长听证会爆激烈交锋：肯尼迪遭两党议员围攻 | 疫苗政策引发全国健康危机 | CDC前官员痛斥“千刀万剐式破坏”】

Summary: U.S. Health Secretary Robert F. Kennedy Jr. faced intense questioning from senators regarding his controversial leadership decisions at the CDC. The hearing featured heated exchanges as lawmakers accused him of undermining public trust by dismissing top health experts and halting vaccine research. Over a thousand CDC staff have called for his resignation, citing concerns over the agency's shift from science-based policies. The secretary defended his actions as necessary for transparency, while critics warned of dire consequences for American public health.

摘要：美国卫生部长小罗伯特·肯尼迪因解雇疾控中心专家、叫停疫苗研究等争议举措遭参议院激烈质询。两党议员指责其破坏公众信任，千余名疾控中心员工联署要求其辞职。肯尼迪辩称改革旨在提升透明度，但专家警告此举将导致美国公共卫生系统面临“千刀万剐式破坏”。听证会暴露了美国医疗政策深层分歧，民众对疫苗信任度降至历史低点。

主席先生。

🎤 Senator, they deserve the truth and that's what we're going to give them for the first time in the history of that agency.

参议员，他们理应得到真相，而这正是我们将在该机构历史上首次提供给他们的东西。

 00:04:05

🎤 Well, Secretary Kennedy was also asked about his controversial sackings at the center's Ford Disease Control.

嗯，肯尼迪部长还被问及他在疾病控制中心有争议的解雇行为。

🎤 Here's what he had to say about that.

以下是他就此事的发言。

🎤 Americans of laws, faith and CDC and we need to restore that faith and we're going to do that by telling the truth and not through propaganda.

美国人对法律、对疾控中心抱有信仰，我们需要恢复那种信仰，我们将通过讲述真相而不是通过宣传来做到这一点。

🎤 I'm making them understand that everything that we say is truth.

我正在让他们明白我们所说的一切都是真相。

 00:04:28

🎤 We're going to tell them what we know.

我们将告诉他们我们所知道的。

🎤 We're going to tell them what we don't know and we're going to tell them what we're researching and how we're doing it.

我们将告诉他们我们所不知道的，我们还将告诉他们我们正在研究什么以及我们是如何进行研究的。

🎤 We're going to be transparent.

我们将保持透明。

▶ It's the only way to restore trust in the agency by making it trustworthy.

这是通过让该机构变得值得信赖来恢复对其信任的唯一途径。

▶ Well, let's speak to someone now who knows a lot about the workings of the CDC.

好吧，现在让我们和一位非常了解疾控中心运作的人谈谈。

 00:04:48

▶ We're joined live by Dr. Dan Jerenigan.

▶ Thank you very much for being with us here.

非常感谢您来到这里与我们在一起。

▶ We should say that you've resigned from that agency because you felt you were about to be fired as well.

我们应该说明，您从那家机构辞职是因为您感觉自己也即将被解雇。

▶ Can you tell me, after 30 years at the CDC, you saw presidents and secretaries of both parties come and go, why now?

您能告诉我吗，在疾控中心工作了30年后，您见证了来自两党的总统和部长来来去去，为什么是现在？

 00:05:12

▶ I think that's, you point out that I have been at the agency for 31 years.

我想那是，您指出我在该机构已经工作了31年。

▶ I've been through multiple different administrations, multiple different secretaries.

我经历了多届不同的政府，多位不同的部长。

▶ It worked very well.

当时运作得非常好。

▶ I think with the first Trump administration working with them during that period when they were doing Operation Warp Speed for the development of new vaccines, I was with them and saw the incredible work that they did at that time.

我认为与第一届特朗普政府合作期间，当他们为开发新疫苗而进行“曲速行动”时，我和他们在一起，并看到了他们当时所做的不可思议的工作。

bilibili 00:05:36

▶ So it's distressing to me to see where we are right now with the current secretary.

所以，看到我们与现任部长所处的现状，让我感到痛苦。

▶ At CDC, we have incredible scientists doing incredible work and I just can't stand by while this secretary tries to dismantle what I think is one of the global health leaders that makes policies that are based on science and not on ideology.

在疾控中心，我们有着杰出的科学家在做着卓越的工作，我无法袖手旁观，眼睁睁看着这位部长试图 dismantle 这个我认为是基于科学而非意识形态制定政策的全球卫生领导者之一。

▶ And you mentioned Operation Warp Speed there, which of course was that really fast tracking of vaccines during the COVID crisis.

您刚才提到了“曲速行动”，那当然是在COVID危机期间疫苗的快速研发。

bilibili 00:06:05

▶ There was praise for President Trump at the committee hearing today, indeed from Secretary Kennedy, but he went on to say, and we've seen from his actions, that he doesn't seem to believe in vaccines to the same extent anymore.

在今天的委员会听证会上，确实有来自肯尼迪部长对特朗普总统的赞扬，但他接着说道，并且我们从他的行动中也看到，他似乎不再像以前那样相信疫苗了。

▶ I think that's correct.

我认为那是正确的。

🎧 I think there's a lot that you can see from the secretary's past comments and with who he has as his current senior advisors or science around vaccines.

我认为从部长过去的评论以及他目前的高级顾问是谁，或者围绕疫苗的科学问题，你可以看出很多。

 00:06:29

🎧 There are individuals that are not in the mainstream, but also if they have alternate views or they want to look at data differently, we were willing to work with him on that to get to that data and understand it through some interagency processes working with academics and other groups outside of the federal government.

有一些人并非主流，但如果他们有不同观点或者想以不同方式看待数据，我们愿意与他合作，通过一些跨部门流程，与学术界和联邦政府以外的其他团体合作，来获取数据并理解它。

🎧 However, we don't know what's happening right now in terms of the evaluation of that data.

然而，我们不知道目前在对这些数据的评估方面正在发生什么。

🎧 And so that lack of transparency in what's happening with the science and with the firing of the CDC director because of her willingness to let science be the driver for decision-making, those two things really led me and two others to resign last week.

因此，在科学方面发生的事情缺乏透明度，以及因为疾控中心主任愿意让科学成为决策的驱动力而解雇她，这两件事最终导致我和另外两人在上周辞职。

 00:07:10

🎧 And indeed, the senator is today put to him many times that the vast majority of the medical and scientific community believe in vaccines and feel that the direction he's taking the CDC is not the correct one.

确实，参议员今天多次向他提出，绝大多数医学和科学界人士都相信疫苗，并认为他领导疾控中心的方向是不正确的。

🎧 He pushed back to that and said that medical professionals were essentially in the pocket of big pharmaceutical companies that they had somehow been bought off.

他对此进行了反驳，称医疗专业人士基本上都被大型制药公司收买了，他们 somehow 被收买了。

▶ What do you say to that allegation?

您对这种指控有何看法？

bilibili 00:07:34

▶ From my perspective, I don't know exactly what that's about.

从我的角度来看，我不完全清楚那指的是什么。

▶ Myself, the others that resided, all those that are at CDC and all those that participate in the advisory committee for immunization practices as CDC staff, all of our information is available online or can be requested.

我自己，其他辞职的人，所有在疾控中心工作的人，以及所有作为疾控中心工作人员参与免疫实践咨询委员会的人，我们所有的信息都可以在线获取或可以申请获取。

▶ I don't have any individual stocks.

我不持有任何个人股票。

bilibili 00:07:54

▶ I don't work with Farma.

我不与制药公司合作。

▶ So today, you have us thrown into a big bucket of potential contamination from Farma.

所以今天，你把我们扔进了一个可能被制药公司污染的大桶里。

▶ I just don't see that that's really the case.

我只是不认为情况真是如此。

▶ There were also a lot of remarks made from the senators today.

今天参议员们也发表了很多评论。

▶ Democrats and Republicans concerned about public health in the U.S. because of some of the policies that the secretary is enacting and some of the research that he has stopped

as well.

民主党和共和党人都对美国的公共卫生感到担忧，因为部长正在实施的一些政策以及他停止的一些研究。

 00:08:24

 Do you have concerns for the public health of Americans?

你对美国人民的公共卫生有担忧吗？

 I do.

我有。

 And after 31 years of working in public health, it's really concerning to me to see what really looks like death by a thousand cuts.

在公共卫生领域工作了31年后，看到这真正像是“千刀万剐”式死亡的情况，确实令我担忧。

 There are cuts to staff that have happened at the agency and across the department, cuts to the resources for those kinds of studies or for funding that goes out to state and local health departments.

该机构及整个部门都发生了人员裁减，用于此类研究或拨给州和地方卫生部门的资源资金也被削减。

 00:08:51

 And then the undercutting of science, which really I think undermines trust.

然后是破坏科学，我认为这确实破坏了信任。

 So all of those things really are moving in the opposite direction from what the secretary is wanting to do.

所以所有这些事情实际上都在朝着与部长想要做的相反的方向发展。

 And some of what he does want to do, particularly around vaccines and information policies and so on, how quickly will they have an impact on the public health?

而他确实想做的一些事情，特别是在疫苗和信息政策等方面，它们会对公共卫生产生多快的影响？

bilibili 00:09:13

🎧 And indeed, could they be reversed sort of future secretary hold a different view?

事实上，它们是否可能被逆转，比如未来的部长持有不同的观点？

🎧 Bring up an interesting point in that is do we really want to have vaccine policies that are determined only by a secretary, only to be overturned when the next secretary comes in?

这提出了一个有趣的观点：我们是否真的希望疫苗政策仅由一位部长决定，却在下一位部长上任时被推翻？

🎧 What would be better is to have a very unbiased advisory committee that's therefore a long for a period of time and can make those kinds of recommendations that are evidence-based and not at the whim of whatever the political changes may occur over time.

更好的做法是拥有一个非常公正的咨询委员会，其任期较长，能够提出那些基于证据的建议，而不是随着时间推移受政治变化的一时心血来潮所左右。

bilibili 00:09:45

🎧 So can things happen quickly because of the secretary?

那么，因为这位部长，事情能快速发生吗？

🎧 Yes, they already have decisions were made about the Amerisal containing vaccines at the last advisory committee without much engagement from the scientific community at all.

是的，它们已经发生了，在上次咨询委员会会议上，关于含有Amerisal的疫苗的决定是在科学界几乎没有参与的情况下做出的。

🎧 So changes can happen quickly.

所以变化可以迅速发生。

🎧 It undermines the trust that the American public should have in the advisory committee.

它破坏了美国公众本应对咨询委员会持有的信任。

bilibili 00:10:05

🎧 And it does not make us any safer and it does not necessarily protect Americans.

而且它并没有让我们更安全，也不一定能保护美国人。

🎧 Okay, Dr. Dan, during the former director of the National Centre for Emerging and Zoonotic Infectious Diseases at the CDC, do stay with us.

好的，丹博士，CDC国家新发和人畜共患传染病中心的前主任，请和我们在一起。

🎧 There we have our panel here with us and we'll get some thoughts from them now as well.

我们的专家小组也在这里，我们现在也要听听他们的想法。

🎧 Absolutely, yes.

当然，是的。

 00:10:23

🎧 Let's bring them in, Republican strategist Ashley Davis and David Tafuri, international lawyer and foreign policy advisor to the Obama 2008 campaign.

让我们请他们进来，共和党战略家阿什莉·戴维斯和大卫·塔富里，国际律师、2008年奥巴马竞选的外交政策顾问。

🎧 Thank you both very much for being with us today on the program.

非常感谢二位今天来到我们的节目。

🎧 Ashley, to you first of all, we heard there from Dr. Jörnagan, his extreme concern as he put it about the dismantling of the U.S. Global Healthcare System, a global health leader, he said the U.S. had been based on ideology, not on science.

阿什莉，首先问你，我们刚才听到了约纳根博士的话，他极其担忧，用他的话说，美国作为全球卫生领袖的全球卫生体系正在被 dismantling (dismantling)，他说这是基于意识形态，而不是科学。

 00:10:51

🎧 Do you see any evidence that RFK Jr. is really taking soundings from a variety of experts to come to the conclusions that he was talking about in that hearing earlier today?

你是否看到任何证据表明小罗伯特·F·肯尼迪（RFK Jr.）确实听取了各种专家的意见，才得出了他在今天早些时候的听证会上所谈到的结论？

▶ Well, first of all, thank you for having me on.

嗯，首先，谢谢你们邀请我。

▶ It's nice seeing everybody.

很高兴见到大家。

▶ I mean, this is political theater at its best and for those that are watching around the world, our U.S. system right now, a lot of the hearing today were senators, both on the Republican side and the Democrat side that were playing to the camera more than anything.

我的意思是，这是最佳状态的政治戏剧，对于世界各地观看的人来说，我们美国的体系现在就是这样，今天听证会的很多内容，无论是共和党还是民主党的参议员，都更多是在作秀。

 00:11:23

▶ The screaming and yelling is always quite interesting and happens a lot these days.

大喊大叫总是很有趣，而且最近经常发生。

▶ But listen, at the end of the day, RFK has one boss.

但是听着，归根结底，RFK只有一个老板。

▶ These senators can't really do anything.

这些参议员其实做不了什么。

▶ They can threaten funding, threaten funding.

他们可以威胁削减资金，威胁削减资金。

▶ They can, with the department, but RFK answers to one person in the United States.

他们可以对部门这样做，但RFK只向美国国内的一个人负责。

▶ And so far, he still has his complete support and you, JD Vance tweeted or X, whatever it's called these days, right after the hearing, criticizing some of the questions that he was asked and talked about his full support for RFK.

到目前为止，他仍然得到其全力支持，而且，JD·万斯在听证会后立刻在推特（或X，不管现在叫什么）上发文，批评了一些向他提出的问题，并谈到了他对RFK的全力支持。

bilibili 00:11:59

🎧 So, let's, vaccines in general, I am not an expert like our other guests.

所以，我们，总的来说，疫苗，我不像我们其他嘉宾那样是专家。

🎧 I'm not a CDC expert, but vaccines became very political when they were mandated after COVID or during COVID.

我不是CDC的专家，但当疫苗在COVID之后或期间被强制要求时，它们就变得非常政治化。

🎧 And obviously, Operation Warp Speed was something that America was able to create that was amazing for the country and the world.

显然，“曲速行动”是美国能够创造出来的东西，对国家和世界来说都是惊人的。

bilibili 00:12:22

🎧 But for some reason, and I have a lot of moms that are in that I'm associated with and parents that do not believe in the system of the bar of vaccines or they should be mandated.

但由于某些原因，我认识的很多妈妈和家长都不相信疫苗体系，或者认为它们不应该被强制接种。

🎧 So there are, then are Democrats.

所以有，嗯，也有民主党人。

🎧 So there are a lot of different untrust in general on both sides.

所以双方普遍都存在很多不同的不信任。

🎧 But RFK definitely is stirring the pot more than most.

但RFK绝对比大多数人更会搅局。

bilibili 00:12:44

🎧 And he has a lightning rod, but he also has a coalition that really, really supports what he does.

他是一个避雷针式的人物，但他也有一个真正、真正支持他所作所为的联盟。

▶ Let me bring David in and political theater, sure.

让我请大卫加入，政治戏剧，当然。

▶ But as I watched that hearing earlier, David, I kept thinking this must be absolutely terrifying to the average member of the American public who wants to get a clear direction on what is good for their health and what is not good for their health.

但当我早些时候观看那场听证会时，大卫，我一直在想，这对那些想明确知道什么对健康有益、什么对健康无益的普通美国公众来说，一定非常可怕。

bilibili 00:13:08

▶ I mean, how confusing is all of this for people as they watch this, if they were watching this?

我的意思是，对于观看这一切的人们来说，如果他们看了的话，这一切有多令人困惑？

▶ I think that's right.

我认为说得对。

▶ And a Senate hearing isn't necessarily the best place to be debating.

而参议院听证会未必是辩论的最佳场所。

▶ Something is complicated as to whether certain vaccines work or not.

像某些疫苗是否有效这样的事情很复杂。

▶ As your guest, Dr. Jernigan said that has to be based on evidence.

正如你的嘉宾杰尼根博士所说，这必须基于证据。

bilibili 00:13:28

▶ It has to be based on studies and data.

必须基于研究和数据。

▶ And it should be reviewed by experts.

并且应该由专家进行审查。

▶ And one of the questions that the senators were raising with the secretary is why did he fire the head of the CDC who is an expert who just a few months ago, he said was unassailable in her credentials.

参议员向部长提出的问题之一是，他为什么解雇了CDC的负责人，她是一位专家，就在几个月前，他还说她的资历是无懈可击的。

▶ And why did he why did they fire the advisors on vaccine and put in almost all people who are anti-vax?

为什么他（他们）解雇了疫苗顾问，并换上了几乎全是反疫苗的人？

 00:13:52

▶ That isn't what the American public believes.

这不是美国公众所相信的。

▶ If you look at polling most Americans believe in vaccines, there could be some debate here over which vaccines work and when they should be administered.

如果你看看民意调查，大多数美国人相信疫苗，可能会就哪些疫苗有效以及何时应该接种进行一些辩论。

▶ But to make it political is a big mistake.

但将其政治化是一个巨大的错误。

▶ The other thing that Dr. Jernigan, your guest mentioned, has nothing to do with policy.

你的嘉宾杰尼根博士提到的另一件事，与政策无关。

 00:14:14

▶ It's that he said that they're lowering the funding and decreasing the funding for CDC, which seems amazing to me.

他说他们正在降低和减少对CDC的资助，这在我看来令人惊讶。

▶ The CDC could go one way or the another on vaccines, but to decrease support for the CDC, especially when we just had a pandemic, a pandemic that started during the first Trump administration.

CDC在疫苗问题上可能这样或那样，但减少对CDC的支持，尤其是在我们刚刚经历了一场大流行之后，这场大流行始于第一届特朗普政府期间。

▶ So President Trump and the other Trump administration officials understand the impact of a pandemic.

所以特朗普总统和其他特朗普政府官员都理解大流行的影响。

bilibili 00:14:39

▶ The CDC is there to help avoid the next pandemic.

CDC的存在是为了帮助避免下一次大流行。

▶ And I think that's what the senators were raising as well.

我认为这也是参议员们提出的问题。

▶ And I also just want to mention, it wasn't all Democratic senators that were criticizing the secretary.

我还想提一下，并非所有批评部长的都是民主党参议员。

▶ Senator Cassidy, who's a Republican, was criticizing the secretary because he said his constituents in his state cannot get access to the coronavirus, including constituents that have pre-existing illnesses, that have cancer.

参议员卡西迪，一位共和党人，也批评了部长，因为他说他所在州的选民无法获得冠状病毒（此处可能指疫苗或治疗），包括患有既往疾病、患有癌症的选民。

bilibili 00:15:04

▶ And so he was also very critical.

因此他也非常批评。

▶ Ashley, there's a point there, isn't it?

阿什莉，这里有一个点，不是吗？

▶ I mean, when you're talking about choice and maybe some people you know don't want to have vaccines and so on, if you remove the vaccine mandate, the way things work in this country means that health insurance companies probably won't cover the cost of vaccines.

我的意思是，当你谈论选择，也许你认识的某些人不想接种疫苗等等，如果你取消了疫苗强制令，这个国家的运作方式意味着健康保险公司可能不会承担疫苗的费用。

 00:15:21

▶ So if parents want them, they could be several hundred dollars to pay for.

所以如果父母想要接种，他们可能需要支付几百美元。

▶ So you're kind of removing the choice from parents, then, if you're putting them out of reach financially.

那么，如果你让它们在经济上变得遥不可及，你其实是在剥夺父母的选择权。

▶ Yeah, and that's even more complicated to talk about.

是的，这谈起来就更复杂了。

▶ But yes, you're exactly right.

但是的，你说得完全正确。

▶ I mean, how are insurance companies and how different drugs are categorized or exactly how they're covered underneath certain insurance?

我的意思是，保险公司如何运作，不同的药物如何分类，或者它们具体如何在某些保险下获得覆盖？

 00:15:44

▶ So there is probably something that we could do in the federal government, especially for people that are ill or have long lasting diseases and issues that the federal government does pay for.

所以在联邦政府层面，我们或许可以做些什么，特别是对于那些生病或患有长期疾病和问题的人，联邦政府确实会支付费用。

▶ These vaccines, they're not that expensive anymore.

这些疫苗，它们现在已经不那么贵了。

▶ So they should be able to be able to the federal government could pay for them or they could be a generic version that's super cheap, but it is complicated to get them covered.

所以它们应该能够...联邦政府可以支付它们，或者它们可以是超级便宜的仿制版本，但要获得覆盖是很复杂的。

 00:16:06

 For sure.

确实。

 And also I just want to comment Senator Brassau, who's a doctor as well.

另外我还想评论一下布拉索参议员，他也是一名医生。

 He also was one of the

他也是其中之一

 Republicans that were super concerned today about the vaccine conversation.

共和党人今天对疫苗对话表现得非常担忧。

 So you know, and you watch Senator Cassidy as David was talking about, he's trying to walk this fine line of not completely blowing up the Trump world because he is up for election.

所以你知道，正如大卫所说，你看到参议员卡西迪正在努力走这条微妙的路线，既不完全破坏特朗普的世界，因为他即将面临选举。

 00:16:29

 And then also doing what he believes in, which is supporting the vaccines and kind of going after.

同时也在做他相信的事情，即支持疫苗并某种程度上进行追究。

 But actually just on that, is it the broader position of the Republican party now to undermine and undercut science and evidence in the way that the Secretary is?

但事实上，就在这一点上，现在共和党的更广泛立场是否就是要以部长那样的方式破坏和削弱科学与证据？

 And indeed, some of the, there were Republican senators who were extremely critical, but there were also others who were fully in support of Secretary Kennedy today.

确实，一些共和党参议员今天对肯尼迪部长极为批评，但也还有其他一些人完全支持他。

 00:16:54

▶ Yeah, absolutely.

是的，绝对如此。

▶ Well, first of all, I think there are, there are two different dynamics here.

首先，我认为这里有两种不同的动态。

▶ One, that the president, the Republicans are supporting the Republicans' nominee.

其一，总统，共和党人正在支持共和党的提名人。

▶ Right now, you see that starting to crack a little bit more as every month goes on.

现在，随着每个月过去，你看到这种情况开始出现更多裂痕。

▶ Remember, RFK was a very controversial pick.

记住，RFK（小罗伯特·肯尼迪）是一个非常有争议的选择。

 00:17:13

▶ He is not a Republican.

他不是共和党人。

▶ He was somebody that ended up endorsing Trump.

他是一个最终支持了特朗普的人。

▶ Obviously, there was some sort of deal discuss that he would become HHJ, just Secretary of He would win.

显然，之前讨论过某种交易，让他成为HHJ（卫生与公众服务部部长），就是他会被任命。

▶ But there is a lot of people that this stems from the mandate of the vaccine for the coronavirus.

但有很多人，这源于针对冠状病毒的疫苗强制令。

▶ And I'm telling you, I'm right or wrong, I'm not saying I believe in it, don't believe in it.

我告诉你，无论我对错，我不是说我相信它或不信它。

 00:17:36

 That's where a lot of things stem from in this conversation.

这就是这次对话中很多事情的根源。

 And if you just look at that purely from a political perspective, Republicans, a lot of the Republican base did not want to be mandated and told to do anything that they don't want to.

如果你纯粹从政治角度来看，共和党人，很多共和党的基本盘不想被强制要求去做任何他们不想做的事。

 But no, it's not the belief of the entire party that we don't believe in vaccines.

但不，不相信疫苗并不是整个党的信念。

 00:17:55

 And Dr. Jenigan, it's Anita here in London.

还有杰尼根博士，我是伦敦的安妮塔。

 I'd love to get your thoughts on what our panelists have been saying.

我很想听听您对我们小组成员所说内容的看法。

 And also just a brief thought on advice, really, for people in the U.S. who are wondering, you know, how they can access solid healthcare information, how they, how they do that.

同时也想简单听听您对于在美国那些想知道如何获取可靠医疗信息的人们有什么建议，他们到底该怎么做。

 It's a great question.

这是个很好的问题。

 00:18:16

 And we've seen over the last several weeks, the months, a continued sowing of uncertainty around vaccines.

而且在过去几周、几个月里，我们看到持续有人在疫苗问题上散布不确定性。

⏮ And so while you may or may not agree with whether somebody should get a vaccine, the data is there.

因此，无论你是否同意某人应该接种疫苗，数据就摆在那里。

⏮ So it should be that that data is acknowledged.

所以应该承认这些数据。

⏮ But unfortunately, the Secretary has not been using that information, but instead just asking lots of questions.

但不幸的是，部长一直没有使用这些信息，而只是提出大量问题。

 00:18:42

⏮ So we talked about death, by a thousand cuts.

所以我们谈到了“千刀万剐”式的死亡。

⏮ It's almost death by a thousand questions.

这几乎是“千问致死”。

⏮ And that really raises in the minds of parents, of older individuals with underlying conditions that need to get protected by vaccines.

这确实在那些需要疫苗保护的有基础疾病的老年人以及为人父母者的心中引起了疑虑。

⏮ They may have difficulty in getting access because of the way that we fund vaccines in the U.S.

由于美国资助疫苗的方式，他们可能难以获得疫苗。

 00:19:02

⏮ But also their physicians may not know what to do.

但他们的医生也可能不知道该怎么办。

⏮ So if the CDC's website on vaccines is not something that can be trusted, we need others.

因此，如果疾控中心关于疫苗的网站不再值得信赖，我们需要其他渠道。

🎤 We need the professional societies, the American Academy of Pediatrics, American Association of Family Physicians, American Medical Association, etc., all these folks that have scientists, have technical staff that can do that evaluation and make sure that if there are claims that are made that a citizen can go somewhere and see, is this a valid recommendation or not?

我们需要专业协会，如美国儿科学会、美国家庭医师学会、美国医学会等等，所有这些拥有科学家和技术人员的机构，他们可以进行评估，并确保如果出现某些说法，公民可以去某个地方查看，判断这是否是一个有效的建议。

bilibili 00:19:35

🎤 I think that's about the only way we can get around this.

我认为这大概是我们能解决这个问题的唯一方法。

🎤 We say also in the United States of regional groups coming together to develop their own recommendations in the Northwest, in the Northeast part of the United States.

我们也看到在美国，地区性团体聚集起来，在美国的西北部、东北部制定他们自己的建议。

🎤 So there are alternatives that may be developed.

所以可能会制定出一些替代方案。

🎤 My personal feeling would be, please, let's get back to where people will trust the CDC in one way to do that, is if the Secretary would stop undermining it and start looking to the science and using that to help promote those vaccines that we know are life-saving.

我个人的感觉是，拜托，让我们回到人们信任疾控中心的状态，实现这一点的一个方法是，如果部长能停止破坏它，并开始着眼于科学，利用科学来帮助推广那些我们知道能拯救生命的疫苗。

bilibili 00:20:08

🎤 Dr. Dr. Dan, thank you very much for joining us on the program and Ashley and David.

丹博士，非常感谢您参加我们的节目，还有阿什利和大卫。

🎤 We will be back with you very shortly after this break around the world and across the UK.

在世界各地和英国本土的这段休息之后，我们将很快回来与您相聚。

▶ This is BBC News.

这里是BBC新闻。

▶ President Trump has urged European countries to put economic pressure on China due to its support for Russia's ongoing invasion of Ukraine.

特朗普总统敦促欧洲国家因中国支持俄罗斯持续入侵乌克兰而对其施加经济压力。

bilibili 00:21:35

▶ That's according to the White House.

这是白宫方面的说法。

▶ The President joined a call of the coalition of the willing countries, led by French President Emmanuel Macron, who were meeting on security guarantees for Kiev in the event of a peace deal with Russia.

总统加入了一个由法国总统埃马纽埃尔·马克龙领导的“意愿联盟”国家的电话会议，这些国家正在开会讨论一旦与俄罗斯达成和平协议，如何为基辅提供安全保证。

▶ President Macron said that 26 countries have signed up to contribute to Ukraine's security.

马克龙总统表示，已有26个国家签署协议，承诺为乌克兰的安全做出贡献。

bilibili 00:21:54

▶ Once the ceasefire is achieved, these would be parts of what's called a reassurance force in Ukraine, essentially present on the ground in the sea or in the air.

一旦实现停火，这些将成为所谓的乌克兰“安抚部队”的一部分，基本上会出现在地面、海上或空中。

▶ Well, let's bring in our panelists for a thought on this, Ashley.

好吧，让我们请来我们的专家小组成员谈谈对此的看法，阿什利。

▶ Davis and David, to Fiori, David to you, first of all, obviously crucial to all of this, even though the focus has been on Europe today and that coalition of the willing, is what

President Trump will do next.

戴维斯和大卫，菲奥里，大卫，首先问你，显然对所有这一切都至关重要的，尽管今天的焦点在欧洲和那个“意愿联盟”，但关键是特朗普总统下一步会做什么。

 00:22:21

▶ And he seems, he said, to US media yesterday that he still has a very good relationship with President Putin, as well as President Zelensky.

他似乎，他昨天对美国媒体说，他仍然与普京总统以及泽连斯基总统保持着非常好的关系。

▶ Are you somewhat surprised that he hasn't run out of patience with President Putin yet?

你对他还没有对普京总统失去耐心感到有些惊讶吗？

▶ I don't know if I would say I'm somewhat surprised, but it's pretty incredible that he hasn't.

我不知道我是否会说有些惊讶，但他还没失去耐心确实相当不可思议。

 00:22:40

▶ Most people would have.

大多数人早就失去了。

▶ I would also note, though, that while President Trump is the one person that no one exactly knows what his position is on Ukraine and Russia, because it just vacillate a little bit, oftentimes leaning towards the side that he spoke to most recently.

不过我也要指出，虽然特朗普总统是那个没人确切知道他在乌克兰和俄罗斯问题上立场的人，因为他的立场总是有点摇摆不定，经常倾向于他最近交谈过的一方。

▶ What was very interesting today about this thing he said to the leaders of the European countries and to President Zelensky is he's now pushing Europe to cut off all buying of oil and gas from Russia.

今天非常有趣的是，他对欧洲国家领导人和泽连斯基总统说的这件事是，他现在正推动欧洲完全停止购买俄罗斯的石油和天然气。

 00:23:11

▶ And he's right to do that.

他这样做是对的。

▶ It's pretty incredible that any European countries are buying Russian oil and gas more than three and a half years after the illegal invasion of Ukraine by Russia.

在俄罗斯非法入侵乌克兰三年半多之后，竟然还有欧洲国家在购买俄罗斯的石油和天然气，这简直令人难以置信。

▶ And so what President Trump, I think, is saying is, yeah, you want me to do more sanctions.

所以我认为，特朗普总统的意思是说，是的，你们想让我实施更多制裁。

▶ And I might do that, but I want you to step up as well.

我可能会这样做，但我希望你们也采取行动。

 00:23:30

▶ And the two countries in particular in Europe that are buying Russian oil and gas are Hungary and Slovakia.

而欧洲尤其还在购买俄罗斯石油和天然气的两个国家是匈牙利和斯洛伐克。

▶ Interestingly, the leaders of both countries are friendly with President Trump.

有趣的是，这两个国家的领导人都与特朗普总统关系友好。

▶ They also seem to lean a little bit more towards Putin than the other European countries.

他们似乎也比其他欧洲国家更倾向于普京。

▶ So it's great that President Trump is putting pressure on them specifically.

所以特朗普总统特别向他们施压是件好事。

 00:23:49

▶ Now, what I think the European countries would hope is that if they do take further action against Russian purchases of oil, that the United States would go forward with what

President Trump threatened, which is new sanctions on Russia and what he calls secondary tariffs.

现在，我认为欧洲国家希望的是，如果他们确实对购买俄罗斯石油采取进一步行动，美国将会推进特朗普总统所威胁的事情，即对俄罗斯实施新的制裁以及他所谓的二级关税。

▶ Secondary tariffs would actually punish those

二级关税实际上将惩罚那些

▶ Countries that have companies that are buying Russian oil.

那些有公司在购买俄罗斯石油的国家。

bilibili 00:24:11

▶ And it actually is a tariff across all goods.

而这实际上是一项针对所有商品的关税。

▶ So it's highly coercive towards the country.

所以这对该国具有高度强制性。

▶ And then President Trump finally is very right to be putting a lot of focus on China, because China and India are the countries that are buying Russian oil.

然后，特朗普总统最终将大量注意力集中在中国身上是非常正确的，因为中国和印度是正在购买俄罗斯石油的国家。

▶ Okay.

好的。

▶ And of course, that deadline, he said, of two weeks expires today.

当然，他说的那个两周的最后期限今天到期。

bilibili 00:24:28

▶ So we'll wait to see if anything comes on those secondary sanctions later on.

所以我们拭目以待，看看之后是否会出台那些二级制裁。

▶ But Ashley, I want to ask you, because you were in the Bush White House when the original coalition of the willing was put together, the U.S. leading that, not the case now.

但是艾什莉，我想问你，因为最初的“自愿联盟”成立时，你正在布什的白宫任职，当时是美国领导，现在情况不同了。

▶ What's your view of what this conflict has meant for the U.S. position in the world?

你如何看待这场冲突对美国在世界上的地位意味着什么？

bilibili 00:24:46

▶ Well, Iraq was such an interesting time, because that was the first coalition of the willing for sure.

嗯，伊拉克时期是一个非常有趣的时期，因为那确实是第一个“自愿联盟”。

▶ And you're exactly right.

你说得完全正确。

▶ I think we had about 49 countries.

我想我们当时有大约49个国家。

▶ Obviously, it was a little bit different of a time.

显然，那是一个有点不同的时代。

▶ But David exists exactly right on everything he said.

但是大卫说的每一点都完全正确。

▶ I 100% agreed with him that Trump inherited a war, obviously, that he thought he could stop.

我百分之百同意他的观点，即特朗普显然继承了一场他以为自己能停止的战争。

bilibili 00:25:08

▶ And he has not been able to stop.

而他一直未能停止它。

▶ It's something that's been very difficult.

这是一件非常困难的事情。

▶ Obviously, the Biden administration tried to stop it as well.

显然，拜登政府也试图阻止它。

▶ You have members of Congress that want to, that are ready to put these extra sanctions on Russia.

你有国会议员想要、并且准备对俄罗斯实施这些额外的制裁。

▶ I think that Trump is trying, whether you agree with them or not, he is trying to walk this fine line.

我认为特朗普正在尝试，无论你是否同意他们，他正在尝试走这条微妙的路线。

 00:25:28

▶ And why the coalition of the willing did come today to an agreement to say, this is what we're going to do to protect Ukraine after a ceasefire, because that's one of the steps in regards to Ukraine actually signing on to a ceasefire with Putin.

这就是为什么“自愿联盟”今天确实达成了一项协议，说明这就是我们在停火后为保护乌克兰将要做的事情，因为这是乌克兰实际与普京签署停火协议的步骤之一。

▶ They need to know that Europe, and I'm sure the United States will be in there.

他们需要知道欧洲，而且我确信美国也会参与其中。

▶ They're not putting troops on the ground, but they'll do something, whether it's in the air or sea or both as well.

他们不会在地面部署部队，但他们会采取一些行动，无论是在空中、海上还是两者兼而有之。

 00:25:53

▶ But that step needs to be in place for Ukraine to feel confident.

但这一步需要到位，乌克兰才能感到自信。

▶ But I agree a thousand percent on the fact that Trump saying today this isn't his war.

但我百分之千地同意特朗普今天所说这不是他的战争这一事实。

🎵 Europe needs to step up just as much as everybody else, and we need to stop buying oil from Russia, not way Europe.

欧洲需要和其他所有人一样站出来，我们需要停止从俄罗斯购买石油，欧洲也不例外。
