🎵 Also happening this morning, it is Apple's launch of the new iPhone 17, its first noticeable overhaul of the smartphone in about 4 years.

同样在今早发生的是苹果公司新款iPhone 17的发布，这是该智能手机约4年来首次显著的#升级换代#。

▶ You can see that they're at the flagship store in Manhattan on Fifth Avenue clapping everybody who's been, I guess, camping out and waiting in line, which is where we also find Bloomberg Tech co-host Caroline Hyde this morning.

你可以看到他们在第五大道的曼哈顿旗舰店，为所有我想是露宿排队的人鼓掌，我们的彭博科技栏目联合主持人卡罗琳·海德今早也在那里。

▶ Caroline, it's my understanding you did not camp out and I think that was the right move.

卡罗琳，据我所知你没有露宿排队，我认为这是正确的做法。

▶ What has early reception for this new iPhone looks like?

这款新iPhone的早期反响如何？

▶ I got here early, not that early, but really the palpable feeling of excitement was real and the queue snaking around the building, as you see, not just in New York, but over in London, over in Beijing and Singapore, people are excited to get in the stores and touch and feel these new products.

我到得很早，但也没那么早，不过那种实实在在的兴奋感是真的，队伍绕着大楼蜿蜒，正如你所见，不仅在纽约，在伦敦、北京和新加坡，人们都兴奋地想要进店触摸和感受这些新产品。

▶ Now, it's interesting, there's actually quite a few protesters here as well, which I will make clear, and that was more around child safety.

现在，有趣的是，这里实际上也有不少抗议者，我需要说明一下，这更多是围绕儿童安全问题的。

▶ But most people were here to congratulate.

但大多数人在这里是为了祝贺。

▶ Finally, a bit of an overhaul in the look and the feel of an iPhone 17.

终于，iPhone 17在外观和手感上有了一点#革新#。

▶ Now, remember, it's really the pros that everyone is very excited about.

记住，真正让大家兴奋的是Pro款。

 00:01:02

▶ The price point is about \$100 more expensive than the last year.

其定价比去年贵了大约100美元。

▶ But there is much better the battery, much better camera.

但电池好多了，摄像头也好多了。

而这正是人们想要入手的原因。

▶ On the other hand, look, it's \$100 cheaper, \$999.

另一方面，看，它便宜了100美元，售价999美元。

▶ But it is very thin, very light, and therefore doesn't offer perhaps some of the capabilities that you really want from a camera and from a battery life.

但它非常薄，非常轻，因此可能无法提供你在摄像头和电池续航方面真正想要的一些功能。

 00:01:20

▶ But it is a new overhaul,

但这确实是一次新的#大改款#，

▶ It's a new look, and it's a competition that we're finally seeing with Samsung, which has had that very thin, sleek look for a little while already.

这是一个新外观，也是我们终于看到的与三星的竞争，三星拥有那种非常轻薄、时尚的外观已经有一段时间了。

▶ And remember, Samsung is on its seventh round of foldable phones.

⏮ But there have been a few worries, particularly in China, about the aluminium that's back and forth on the box and the scratch ability of that to look out for some of those reports.

但也有一些担忧，尤其是在中国，关于包装盒上反复使用的铝材及其易划伤性，需要注意一些相关报道。

⏮ But really people are rushing to get and being able to walk out with their products.

但人们确实在争先恐后地购买，并能带着产品离开。

⏮ I was stood next to an influencer who had 3 million followers who gets in a van and drives around the U.S. telling stories, and he had his moment with Tim Cook, as I would have, and got his phones really signed by the CEO.

我当时站在一位拥有300万粉丝的影响者旁边，他开着一辆货车环游美国讲故事，他和蒂姆·库克有了一段互动时刻（换作我也会这样），并让CEO在他的手机上签了名。

 00:02:02

⏮ That, for many, is a bit of a legend.

对许多人来说，这有点#传奇#色彩。

关键问题是，他们能否提振销量，尤其是在中国？他们在本季度前夕销量下滑了6%。

⏮ You know, it's I know that we've been talking about this since the introduction, but it is pretty impressive that Apple has managed to keep the price so low, you know, relative to what it was last year with these tariffs in effect.

你知道，我知道我们从发布之初就一直在谈论这个，但苹果公司能在这些关税生效的情况下，将价格保持在相对于去年如此低的水平，是相当令人印象深刻的。

▶ Right.

没错。

▶ Because it still makes the lion's share of these phones in China and India, both of whom have massive tariffs in place.

因为它仍然在中国和印度生产这些手机的大部分，而这两个国家都征收高额关税。

▶ I think you're so right to point that out.

我认为你指出这一点非常正确。

▶ Matt And many felt they were caught between a rock and a hard place.

马特，很多人都觉得他们陷入了进退两难的境地。

▶ And not only the administration doesn't want them to talk about price increases because the tariffs, but Google hadn't increased the prices of that phone.

不仅政府不希望他们谈论因关税导致的涨价，而且谷歌也没有提高那款手机的价格。

▶ Neither had Samsung, and both of them pre-empted the launch of the iPhone 17.

三星也没有，而且这两家公司都抢在iPhone 17发布之前行动了。

▶ You did see that \$100 increase just on the iPhone pro particular.

你确实看到了只有iPhone Pro款涨了100美元。

▶ But more broadly, when you're looking at the watches and the AirPods and the phone somehow managed to keep pretty resilient, the price point, the question is what happens next year and the year after?

但更广泛地说，当你看到手表、AirPods和手机的价格点都设法保持了相当的韧性时，问题是明年和后年会发生什么？
