▶ So we're all feeling pretty silky in eastern parts of Australia.

所以我们澳大利亚东部地区的人都感觉湿漉漉的。

 00:05:37

▶ What is the forecast?

预报怎么说？

▶ Yeah, certainly feeling soggy.

是的，确实感觉很潮湿。

▶ It's been a prolonged run of rain this week for many eastern areas, and that's continuing today.

本周许多东部地区经历了长时间的降雨，而且今天还在继续。

▶ Another very wet one for Thursday across the East Coast of New South Wales, but there is a little bit of good news in sight.

对于新南威尔士州东海岸来说，周四又是一个非常潮湿的日子，但有一点好消息在望。

▶ It's not too long until that rain will finally make its way off of the land over the water and move away from the country.

用不了多久，这场雨最终将从陆地上空转移到水面上，然后离开这个国家。

▶ So it is still going to be wet for the next several hours, but it will be clearing over inland places through this afternoon into this evening, lingering on the coast into this evening and into the night.

所以在接下来的几个小时内仍然会潮湿，但今天下午到晚上，内陆地区天气将转晴，而沿海地区的降雨将持续到晚上和夜间。

▶ But between about midnight to night and 6am tomorrow, the vast majority of that rain will finally be clearing away from the country.

但在大约午夜到明天早上6点之间，绝大部分降雨将最终离开这个国家。

▶ So as you get up and get into your day tomorrow on Friday, much drier weather across New South Wales, maybe one or two much lighter showers, but we will have lost the persistent widespread and heavy rainfall.

所以当你明天周五起床开始新的一天时，新南威尔士州大部分地区的天气会干燥得多，也许还会有一两次非常轻微的小雨，但持续性的、大范围的强降雨将会结束。

▶ That'll be all done by our tomorrow morning.

到明天早上这一切都会结束。

▶ Okay, we've just heard about the situation in the Tamworth area, which of the other regions were flooding as an issue or a risk?

好的，我们刚刚听到了塔姆沃斯地区的情况，还有哪些地区存在洪水问题或风险？

▶ Yeah, flooding remains a risk for quite a lot of Eastern New South Wales, actually.

是的，实际上，洪水对新南威尔士州东部很多地区仍然构成风险。

▶ So Tamworth is more broadly part of the northwest slopes and plains, and we expect to see a number of rivers across that region, see moderate or even major flooding in the next couple of days, based on the recent rain that has fallen.

塔姆沃斯更广泛地属于西北坡地和平原地区，根据最近的降雨，我们预计该地区的一些河流在未来几天会出现中度甚至严重洪水。

bilibili 00:06:52

⌂ But there's also an extensive flood risk across coastal parts through the northern rivers, mid-north coast and the hunter region.

但沿海地区，包括北部河流地区、中北海岸和猎人地区，也存在广泛的洪水风险。

⌂ All of these places have experienced flooding, either in recent weeks or in recent months.

所有这些地方都在最近几周或几个月内经历过洪水。

⌂ And there was some quite heavy rainfall last night, overnight into this morning, around Sydney and even down into the llawara.

而且昨晚到今天凌晨，悉尼甚至一直到伊拉瓦拉地区都下了相当大的雨。

bilibili 00:07:10

⌂ So there's a chance we could also see some flooding impacts around the Sydney area.

所以我们也有可能看到悉尼周边地区出现一些洪水影响。

⌂ There's already a minor flood warning for the NAPI in river, and we could see some other rivers in that broader Sydney Metro region, potentially sea river level rises and up to those flood levels as well.

内皮安河（NAPI in river）已经发布了轻微洪水警告，在更广的悉尼都市区，我们可能会看到其他一些河流的水位也上升到洪水水位。

⌂ So basically, anyone in Sydney or north of Sydney on the eastern side of New South Wales, definitely worth keeping an eye on the forecast and the warnings over the next few days because flooding is possible across such a broad area.

所以基本上，任何在悉尼或悉尼以北、新南威尔士州东部的人，都绝对值得在未来几天关注预报和警告，因为在如此广阔的区域都有可能发生洪水。

bilibili 00:07:35

⌂ And this rain band stretches so far, doesn't it anger up to something Queensland down to the south of New South Wales?

而且这条雨带延伸得如此之远，不是吗？从昆士兰某处一直到新南威尔士州南部？

🎧 It covers a lot of ground, and it's been relatively slow moving, which is why we've seen not necessarily such heavy rain, but widespread rain over the past 48 to 72 hours.

它覆盖了很大范围，并且移动相对缓慢，这就是为什么我们在过去48到72小时内看到的未必是特别大的雨，而是范围广泛的降雨。

🎧 As you say, parts of Queensland have felt it.

正如你所说，昆士兰州的部分地区也感受到了。

 00:07:56

🎧 It's been very wet around the Gold Coast.

黄金海岸周围非常潮湿。

🎧 Not so wet in Brisbane itself, but other parts of the southeast have seen a really notable drop of rain.

布里斯班本身没那么湿，但东南部的其他地区降雨量非常显著。

🎧 As have inland parts up around the Darling Downs, Granite Belt and Southern Border Ranges of Queensland.

昆士兰州的达令唐斯、花岗岩带和南部边境山脉的内陆地区也是如此。

🎧 As for New South Wales, it's hit pretty much the entire east coast from the very far north there around Tweed Heads and Byron Bay, all the way down to Bateman's Bay on the far south east.

至于新南威尔士州，它几乎袭击了整个东海岸，从最北端的特威德黑德和拜伦湾，一直到最东南的贝特曼斯湾。

 00:08:18

🎧 And we've even seen a little hint of rain in parts of eastern Victoria, although the numbers have been much lower down there.

我们甚至看到维多利亚州东部部分地区有少量降雨，尽管那里的降雨量要低得多。

🎧 As James was saying, everything's made worse because this is the second sustained drought of rain that's hit this month.

正如詹姆斯所说，一切都变得更糟，因为这是本月第二次持续的降雨。

▶ We've had a brief reprieve last week, but now it's started up again.

上周我们有过短暂的喘息，但现在又开始了。

bilibili 00:08:34

▶ Yeah, this is...

是的，这是...

▶ That's right, the rain that's coming in this week is falling onto saturated soil because of, as you say, the rain and flood event that happened about three weeks ago.

没错，本周到来的降雨正落在已经饱和的土壤上，因为，正如你所说，大约三周前发生了降雨和洪水事件。

▶ But more broadly, August so far has been incredibly wet for eastern New South Wales.

但更广泛地说，到目前为止，八月对新南威尔士州东部来说异常潮湿。

▶ Even down in Sydney, they've had about four times their typical August rainfall already, and that's obviously getting topped up at the moment with even further rainfall.

即使在悉尼，他们的降雨量也已经达到通常八月降雨量的四倍左右，而且目前显然还有更多的降雨在补充。

bilibili 00:08:57

▶ And that's just one area across the east coast, which has seen well, well, well above average rainfall of recent weeks.

而这只是东海岸的一个地区，最近几周的降雨量远高于平均水平。

▶ And that means that when the rain arrives or as it's coming down now, it can't soak into the ground because the ground is already waterlogged, so that rain that does fall, it flows downhill, it goes straight into the river network, and it means that we do see those river rises much quicker than we would otherwise see if it hadn't been so wet previously.

这意味着当雨水到来或像现在这样下着时，它无法渗入地下，因为地面已经积水，所以降下的雨水会流向山下，直接进入河网，这意味着我们确实看到河流水位上涨的速度比之前如果不是那么

潮湿的情况下要快得多。

🎧 So next week should be drier, Angus, and then what's due to happen longer term?

所以下周应该会更干燥，安格斯，那么长期来看预计会发生什么？

bilibili 00:09:26

🎧 More rain to come, please say no.

还会有更多雨吗？请说不。

🎧 Well, yeah, in the short term, it is tending much drier.

嗯，是的，短期来看，天气正趋向于更加干燥。

🎧 So tomorrow will be a much drier day, maybe a couple of little showers here and there.

所以明天会是干燥得多的一天，也许这里或那里会有一两次小阵雨。

🎧 The weekend is generally looking to be dry and mostly sunny, as is the majority of next week.

周末看起来总体上是干燥且以晴天为主，下周大部分时间也是如此。

🎧 So we will get a little bit of a chance to dry out, hopefully lose a little bit of water out of those rivers, also out of the soil, with a more prolonged run of drier weather in the next week or so.

所以我们将会有点机会让东西变干，希望河流和土壤中的水分能减少一些，因为接下来一周左右会有更长时间的干燥天气。

bilibili 00:09:51

🎧 But if we're shifting from a weekly focus to more of a seasonal focus, the next three months from September, October, into November, while the signal for that three month period is, unfortunately, looking highly likely that we will see a return to wetter than average conditions across eastern Australia, including New South Wales, but really the entire eastern coastline from Northern Queensland down to Tasmania, shaping up and having probably wet weather into and through the springtime months.

但如果我们从每周关注转向更季节性的关注，那么从九月、十月到十一月的未来三个月，不幸的是，这段时间的信号看起来极有可能，我们将看到澳大利亚东部恢复到比平均更潮湿的状况，包括新南威尔士州，但实际上是从北昆士兰到塔斯马尼亚的整个东海岸线，正在形成并可能在整个春季月份都有潮湿天气。

▶ Okay, Angus Highlands, thank you so much.

好的，安格斯·海兰兹，非常感谢你。

▶ Thank you.

谢谢。

 00:16:17

我想这就是我们要表达的观点。

▶ And what's been the reaction from the state governments, Rommie?

我们想确保不会发生的事情之一是，任何需要这些支持的孩子都不会被遗漏。

▶ And I think this morning there are probably very many parents who will be distressed about the uncertainty that yesterday has created for them because there was a lot of headline in yesterday.

我想今天早上可能有很多父母会对昨天给他们带来的不确定性感到痛苦，因为昨天有很多头条新闻。

澳大利亚工会理事会秘书萨莉·麦克马纳斯早些时候也向媒体发表了讲话，她对该交锋提供了更多一些见解。

🎧 There was a bit of a political exchange that went on that felt a bit like in question time and that the rest of us sort of said, oh just you know, Ted and Jim, yeah, and it was like okay guys like you can do that in question time.

发生了一些政治交锋，感觉有点像质询时间，我们其他人都有点像在说，‘哦，你知道的，特德和吉姆，是的’，就像‘好吧，伙计们，你们可以在质询时间那样做’。

🎧 The rest of us here don't normally get to do that.

我们这里的其他人通常不会那样做。

 00:20:02

🎧 So yeah, it was a bit of a backwards and forwards on that and two very different views about you know how you know whether or not you need to have rules and that Jim clearly saying that well we have well and truly exceeded you know what was in place in the 1980s and 1990s which people have always thought it wasn't possible.

所以，是的，在那一点上有点来回争论，关于是否需要规则有两种非常不同的观点，吉姆明确表示，我们已经远远超过了80年代和90年代的水平，人们一直认为这是不可能的。

🎧 When anyway I'll let them have that.

不管怎样，我会让他们去争论。

🎧 ACTS, Secretary Sally McManus speaking there so some of that consensus that we saw during the first couple of days of this round table is perhaps been tested as participants navigate some tricky issues in budget sustainability and tax reform.

澳大利亚工会理事会秘书萨莉·麦克马纳斯在那里发言，所以我们在圆桌会议头几天看到的一些共识可能受到了考验，因为与会者在应对预算可持续性和税收改革中一些棘手的问题。

 00:20:45

🎧 We are anticipating that Treasurer Jim Chalmers will speak later today where we hope that he will provide some insight into what outcomes will come from this round table as well as the next steps.

我们预计财政部长吉姆·查默斯将在今天早些时候发言，我们希望他能就本次圆桌会议将产生什么成果以及下一步措施提供一些见解。
