我们的政治记者苏珊娜·门东索现在和我在一起。

▶ Hi Susanna.

你好，苏珊娜。

▶ Tell us how does this affect people in and around the capital?

告诉我们这如何影响首都及周边地区的人们？

▶ Well it has an impact on how much councils have to spend on all the services that we use like bin collections for example, libraries.

这会影响议会有多少钱用于我们使用的所有服务，例如垃圾收集、图书馆。

▶ Now this investigation by the BBC shared data unit shows that the debt burden for London has risen much more than in other parts of the country.

现在，BBC共享数据部门的这项调查显示，伦敦的债务负担增长幅度远高于英国其他地区。

 00:12:05

▶ So of ten councils to see the largest overall rise in debt, six were here in London.

因此，在债务总体增幅最大的十个议会中，有六个在伦敦。

▶ They include Newham, Greenwich, Barking and Dagenham, Lambeth, Croydon and Haringey.

它们包括纽汉区、格林威治区、巴金-达格南区、兰贝斯区、克罗伊登区和哈林盖区。

🎧 And it isn't just London boroughs, Woking and Spelthorne, in fact, had the highest level of debt per person in the country and Thirupurambur in Essex.

而且不仅仅是伦敦的自治市，抱歉，是沃金和斯佩尔索恩，它们的人均债务水平是全国最高的，还有埃塞克斯郡的瑟洛克。

 00:12:22

🎧 Well it saw its debt level dip.

它的债务水平有所下降。

🎧 That's expected to rise again next year.

预计明年会再次上升。

🎧 Now it's important to note that councils do incur debt in order to develop infrastructure projects.

需要注意的是，议会确实会为了开发基础设施项目而承担债务。

🎧 So if you look at Barking and Dagenham for example, £1.5 billion worth of debt, they pointed out to me that most of that is being spent on housing.

例如，如果你看看巴金-达格南区，15亿英镑的债务，他们向我指出，其中大部分都用于住房建设。

 00:12:42

🎧 Where the problem arises is when councils are getting into debt in order to pay for day-to-day services and also where they're spending on infrastructure that they can't afford.

问题在于，当议会为了支付日常服务而负债，以及当他们投资于负担不起的基础设施时。

🎧 So if you take Croydon for example, it's found itself effectively bankrupt three times now.

以克罗伊登为例，它现在已经实际上破产了三次。

🎧 It's had to sell off community assets like this building in which was home to a local boxing club.

它不得不卖掉社区资产，比如这栋曾经是当地拳击俱乐部所在地的建筑。

 00:13:03

🎧 Now it's in debt to the tune of around £1.4 billion.

现在它的债务高达约14亿英镑。

🎧 It has to spend something like £71 million just paying for the interest on that debt.

它必须花费大约7100万英镑仅仅用于支付这些债务的利息。

🎧 Now I spoke to the former leader of Croiden Council who was in charge when the council effectively went bankrupt the first two times.

我与克罗伊登议会的前领导人进行了交谈，她在议会前两次实际破产时负责。

🎧 She told me that when councils are indebted in this way, it means that there's less value for money for members of the public.

她告诉我，当议会以这种方式负债时，意味着公众获得的资金价值降低了。

 00:13:25

🎧 Need within our communities is outstripping the funding available to meet that need.

我们社区内的需求正在超过可用于满足这些需求的资金。

🎧 So residents are paying more and more for their council tags and of course they're getting less and less and seeing the sort of fabric around them deteriorate.

因此，居民为他们的市政税支付得越来越多，当然他们得到的越来越少，并看到周围的设施状况恶化。

🎧 It feels like a breaking down of the local social contracts.

这感觉像是地方社会契约的崩溃。

🎧 So that said, what is the solution here?

既然如此，解决方案是什么？

 00:13:45

▶ The solution is about money, isn't it?

解决方案在于钱，不是吗？

▶ We know there isn't enough of that around.

我们知道钱不够用。

▶ Now the government has said that it's put £3.4 billion into local services.

政府表示已向地方服务投入了34亿英镑。

▶ But the local government finance experts that I've been speaking to have said that actually what needs to happen is a change in how councils can actually raise money.

但我一直与之交谈的地方政府财政专家表示，实际上需要改变的是议会筹集资金的方式。

 00:14:00

▶ The system of local government finances broken and the government has got to come up with a new way of funding local government.

地方政府财政体系已经崩溃，政府必须想出资助地方政府的新方法。

▶ It needs to think about tax raising powers.

它需要考虑增税权力。

▶ It needs to think about should London have tourism taxes or should it charge more for its services at the moment?

它需要考虑伦敦是否应该征收旅游税，或者目前是否应该为其服务收取更多费用？

▶ Local government finance isn't sustainable.

地方政府财政是不可持续的。

 00:14:20

▶ Now so far the government has shied away from the idea of actually letting councils raise taxes.

到目前为止，政府一直回避真正让议会提高税收的想法。

▶ What it has said is that it's changing the funding system in terms of how money is divided up between different parts of the country.

它所说的是，它正在改变资金如何在国家不同地区之间分配的资金体系。

▶ That in itself is a controversial issue for London councils because they're worried that London boroughs might actually end up with less money as a result.

这对伦敦的议会本身就是一个有争议的问题，因为他们担心伦敦各自治市最终可能因此获得更少的资金。

🎵 Junior has done a lot to raise awareness for retinoblastoma, from doing like dances online, and sharing videos, and talking to other people about his condition.

朱尼尔为提高对视网膜母细胞瘤的认识做了很多事，比如在网上跳舞、分享视频、和别人谈论他的病情。

 00:24:07

🎵 The hospital let one parent stay with me, and then one parent had to go in the little house outside.

医院让一位家长陪我，然后另一位家长必须去外面的小房子里。

🎵 Me and Junior wrote a book together, we illustrated it, just to show other families about the journey that Junior went through, and it is available online.

我和朱尼尔一起写了一本书，我们为它配了插图，只是为了向其他家庭展示朱尼尔所经历的旅程，这本书可以在网上买到。

🎵 So I think Junior has deserved one of the BBC make a difference award, because he's shown extra bravery, and he's gone that extra mile to talk about his condition, and raise awareness, and show others that he is just a strong, brave little boy.

所以我认为朱尼尔应该获得BBC“有所作为”奖的其中一个奖项，因为他表现出了额外的勇气，他不辞辛劳地谈论他的病情，提高人们的认识，并向他人展示他只是一个坚强、勇敢的小男孩。

 00:24:39

他确实是，而且我喜欢他现在五岁多一点。

🎧 Now, I hope you had a lovely bank holiday.

现在，我希望你度过了一个愉快的银行假日。

🎧 00:24:56

🎧 It was a bright and sunny one, wasn't it?

那是一个阳光明媚的日子，不是吗？

🎧 Is it all changed this week?

这周天气全变了吗？

🎧 Alex Dolen has got the weather for us.

亚历克斯·多伦将为我们带来天气预报。

🎧 Hello, provisional statistics from the Met Office show that summer 2025 will almost certainly be the warmest on record for the UK, with four heat waves recorded.

你好，英国气象局的临时统计数据显示，2025年夏天几乎可以肯定将是英国有记录以来最热的夏天，共记录了四次热浪。

🎧 It is changing now.

现在天气正在变化。

🎧 We are seeing something a little more autumnal, we're just about held on to the sunshine and warmth in London today, but over the next few days, a more changeable forecast on the way.

我们正看到一些更秋意盎然的天气，今天伦敦勉强维持了阳光和温暖，但在未来几天，预报将变得更加多变。

🎧 00:25:27

🎧 This air-of-low pressure is what remains of Hurricane Erin, so it is moving into the UK and pushing these weather fronts in our direction, and today we had some showers.

这片低压区是飓风“艾琳”的残余，所以它正在向英国移动，并将这些天气锋面向我们的方向推进，今天我们已经下了一些阵雨。

⏮ Over the next few days, still the potential for cool and unsettled weather with further showers and also the risk of thunder.

未来几天，仍然有可能出现凉爽和多变的天气，伴有进一步的阵雨，还有打雷的风险。

⏮ So this evening, it is looking largely dry out there, a good deal of clear sky.

所以今晚，大部分地区看起来会保持干燥，会有大量晴朗的天空。

 00:25:49

⏮ Perhaps an isolated shower later in the night, but most places should have a dry night.

也许深夜会有零星的阵雨，但大部分地区应该会有一个干燥的夜晚。

⏮ And overnight temperatures will be a little lower than they were last night, but still in double figures around 12 or 13 degrees.

夜间气温将比昨晚略低，但仍保持在两位数，大约12或13度。

⏮ So tomorrow's weather.

所以明天的天气。

⏮ This area of low pressure is starting to move further in.

这片低压区开始进一步向内移动。

⏮ We've got this weather system pushing in from the west, so initially a dry start to the day with some early sunshine.

我们有一个天气系统从西边推进，所以开始时白天会是干燥的，伴有清晨的阳光。

 00:26:12

⏮ But as the day goes on, we'll see increasing amounts of cloud from the southwest, the winds picking up, and also some of this rain could be heavy and possibly thundery as it moves through, and it may take its time to clear eastwards.

但随着一天的过去，我们将看到来自西南方向的云量增加，风力增强，而且一些降雨在移动过程中可能很大，并可能伴有雷声，并且它可能需要时间才能向东清除。

▶ So for some of us, we might hold on to a lot of cloud into the afternoon and evening with further outbreaks of rain.

所以对我们中的一些人来说，我们可能会在下午和晚上持续多云，并有进一步的降雨。

▶ Temperatures cooler around 20 to 22 degrees.

气温较低，大约20到22度。

bilibili 00:26:34

▶ So this is where the rain is likely to be by the afternoon and into the evening, accompanied by that brisk southwestern wind, perhaps some late evening sunshine for some of us.

所以这就是下午到晚上可能下雨的区域，伴随着那股强劲的西南风，也许我们中的一些人傍晚时分能见到一些阳光。

▶ But most places will still see some more unsettled weather as we move into Friday.

但随着我们进入周五，大部分地区仍将看到更多不稳定的天气。

▶ Thursday and Friday, both looking like we'll see some sunshine but also some showers that could be heavy and thundery, accompanied by some gusty winds and that unsettled weather is continuing into the weekend in the start of next week.

周四和周五，看起来我们都将看到一些阳光，但也会有一些可能很大并伴有雷声的阵雨，同时还伴有阵阵大风，而这种不稳定的天气将持续到周末和下星期初。

bilibili 00:27:01

▶ So a rather autumnal end to August and into September.

所以八月底和九月初会相当有秋意。

▶ So all change.

所以全变了。
