⏮ Now, it's been at the heart of the city for hundreds of years, but this bank of England building, as it stands today, was rebuilt a hundred years ago, and it's the place where the UK's interest rate is set, which can affect us all through inflation, mortgage and savings rates.

现在，它几百年来一直处于城市的中心，但这座英格兰银行大楼，正如它今天的样子，是在一百年前重建的，它是英国利率设定的地方，这可以通过通货膨胀、抵押贷款和储蓄利率影响我们所有人。
