这是私人#租赁#领域最大规模的改革之一。

⏮ Among some of the changes along the way, the government wants to ban landlords from evicting tenants without a reason, stop landlords from discriminating if tenants have children or are on benefits, stop tenants from paying over the advertised price, so stop bidding wars and making it easier for tenants to request pets.

改革内容包括：禁止房东无理由驱逐租客；禁止因租客有子女或领取福利金而歧视；禁止要求租客支付高于广告价格的租金以遏制竞价行为；并简化租客饲养宠物的申请流程。

英国当前需要更多经济适用房。

▶ What we don't need is the private rented sector being contracted because landlords are scared.

 He also added solar panels.

他还加装了太阳能板。

 He then got the building assessed and it received an EPC rating of B.

随后房屋评估获得B级能源绩效证书#评级#。

🎧 EPC's rate of homes energy efficiency, A is the best, G is the worst.

🎧 Michael then got more solar panels and a heat pump installed.

迈克尔又增装太阳能板并安装了热#泵#。

🎧 This is what gives us hot water, keeps us warm in winter, super green heating, super cheap.

这设备提供热水、冬季供暖，既环保又经济。

 00:13:21

🎧 But when you got the building assessed for a second time, his EPC rating fell from B to C.

🎧 I was totally surprised.

🎧 It seemed impossible.

不明白为何降级，结果却得了C级。

🎧 Most people wouldn't know whether their EPC rating was correct or not.

多数人根本不知道自己的能源绩效证书#评级#是否准确。

 00:13:45

🎧 That's exactly the point.

这正是问题所在。

▶ Because I've made so many measurements, I'm very confident in exactly the performance of the house.

因为我做过大量检测，对房屋性能了如指掌。

▶ And I could see that this was completely wrong.

 00:14:10

▶ I spent three hours on site, three hours off to do that particular one.

bilibili 00:15:00

▶ Can I pick up on what we heard there?

能否就刚才的报道展开讨论？

▶ The government is looking at reforming the system of EPCs.

政府正考虑改革能源绩效证书体系。

▶ But in the meantime, what's the advice to people and why are they so important?

但#目前#对公众有何建议？为何该证书如此重要？

▶ Yeah, great to see you again, the reason they're important is that it lets you know before you buy your rental property, how much it's going to cost to have energy and have power in that home.

很高兴再次见面。其重要性在于能让您在购房或租房前了解房屋的能源消耗成本。

▶ And so obviously the lower it is, you know, it's going to cost you more.

显然评级越低，能源开销越大。

▶ So the better it is, the lower cost you're going to have.

评级越高，开销就越小。

▶ Because again, sometimes you just think about buying the house, but then it's the maintenance of that house as well.

因为人们往往只考虑购房成本，却忽略了房屋维护开销。

▶ So EPC is really important to have that comparison.

所以能源绩效证书对成本比较非常重要。

▶ So you have that knowledge beforehand.

这样才能#提前#掌握信息。

▶ And sometimes you can use it to actually bargain if it's low.

若评级较低，还可用作议价依据。

▶ You know you've got work to do.

您知道需要实施改造。

▶ So you can get it down at a cheap price.

从而以更低价格成交。

▶ The majority of people clearly don't have thousands to spend on making their homes energy efficient.

显然大多数人无力花费数千英镑提升房屋能效。

▶ As we approach colder months, your advice or tips?

寒冷季节临近，您有哪些建议？

▶ Yeah, simple things, you know, things like bleeding the heaters and you know making sure the radiator is good.

有些简易方法，比如给暖气设备排气，确保#散热器#工作正常。

bilibili 00:15:58

▶ And again, there's loads of stuff on YouTube and online to help you do it.

而且，YouTube和网上有大量资源可以帮助你完成这件事。

▶ So you don't necessarily have to pay for you know Plama or so forth to do that.

所以你不一定需要为此支付所谓的普拉玛或#等等#的费用。

▶ You can watch a few videos like that.

我向你保证我是个笨手笨脚的人，但我自己完成了，要知道我为自己感到非常骄傲。

bilibili 00:16:12

▶ So no, it definitely can be done.

所以不，这绝对是可以做到的。

▶ But then also things like making sure you service your boiler.

但还有比如确保你的#锅炉#得到维护。

▶ You know that that is really important.

你知道这确实非常重要。

▶ The longer it takes to heat your house, the more it's going to cost you.

房屋加热时间越长，你的花费就越多。

▶ Making sure things are not in front of the of the heat of the radiators.

确保散热器前方没有堆放物品。

▶ And even just putting down the temperature by one by going down by one because say you set an extra 70 pounds a year.

甚至只是将温度调低一度，据说每年就能节省70英镑。

bilibili 00:16:31

▶ Okay.

▶ Now that does all sound great on paper.

这些在理论上听起来都很棒。

▶ You know what it's all about yourself.

▶ Notivation.
