▶ Why has the United States until now been offering medical evacuations all the way from Gaza to the U.S.?

▶ Of course returning home being Gaza is now virtually impossible so the majority of these children are returning to Egypt, many of whom have family there or at least the network of friends and acquaintances where they feel more comfortable living amongst than remaining here in the United States.

当然，返回加沙的家现在几乎不可能，因此这些孩子大多返回埃及，其中许多人在那里有家人，或至少有朋友和熟人的网络，他们觉得在那里生活比留在美国更舒适。

 00:11:26

▶ The State Department says it is reviewing this process.

国务院表示正在审查这一流程。

▶ As an immigration lawyer yourself, perhaps you could also speak to what that process usually has looked like until now.

作为移民律师，或许你也能谈谈迄今为止这一流程通常是什么样子的。

▶ If that were the case, I mean in January the administration issued a ban on visas for seven countries and they gave justifications for why they've halted the issuance of visas for these countries.

如果是这样，我指的是政府在1月份对七个国家的签证实施了禁令，并给出了暂停向这些国家发放签证的理由。

 00:11:50

▶ The majority of these reasons were overstays, just the level of nationals from these particular countries who overstayed their visas.

大多数理由与逾期居留有关，即这些特定国家的公民逾期居留签证的比例。

▶ Other reasons that were given were that there is a lack of cooperation on the part of these governments with the United States in areas like security, check security clearances, etc.

其他给出的理由是这些国家的政府在与美国的安全、安全检查等领域缺乏合作。

▶ Gaza was not amongst those seven.

加沙并不在这七个国家之列。

bilibili 00:12:13

▶ Gaza is not a country in and of itself and they're using the same reasoning that they're vetting.

加沙本身并不是一个国家，而他们正在用同样的理由进行审查。

▶ But more disturbing is that what led to Gaza being one of these, let's call it a country for lack of a better word, a being banned from obtaining visas for their nationals was because there was a cohort of children that were issued humanitarian visas and came to the United States for medical care.

但更令人不安的是，导致加沙被列入这些——姑且称之为“国家”——禁止其国民获得签证的原因，是因为有一批儿童获得了人道主义签证，并来到美国接受医疗护理。

▶ And for some reason that raised a red flag that triggered what we're seeing today.

出于某种原因，这引发了警报，导致了今天我们看到的情况。

bilibili 00:12:51

▶ So the ban of all visas, visitors visas for all people from Gaza was the result of the administration wanting to look at the small group of children, children who were issued visas specifically for medical treatment.

因此，对加沙所有人的所有签证（包括访问签证）的禁令，是政府希望审查这一小群儿童——那些专门因医疗护理获得签证的儿童——的结果。

▶ Do you have a sense of the timeline we could be looking at now?

你对目前可能的时间表有概念吗？

▶ Why is the State Department reviews this process?

为什么国务院要审查这一流程？

bilibili 00:13:15

▶ Well if the process is reviewing these children, which you can count on your fingers, in my opinion and in my experience that should take no longer than a day or two.

如果审查的对象是这些孩子——数量屈指可数——以我的观点和经验，这应该不超过一两天。

▶ How long does it take the government to be able to vet and review the process of how a visa was issued to a child that came to the United States specifically for medical care?

政府需要多长时间才能审查并核实一个专门来美国接受医疗护理的儿童签证发放流程？

▶ And let me tell you, most of these children have their medical care set up before they arrive in the United States.

让我告诉你，这些孩子大多数在抵达美国前就已安排好医疗护理。

bilibili 00:13:42

▶ That's a prerequisite in a requirement by the U.S. State Department.

这是美国国务院的一项要求前提。

▶ One of these is issued that the government knows where they are coming to for what purpose where treatment will be had and when they expect the depart.

其中一项要求是政府知道他们来美国的目的、接受治疗的地点以及预计的离境时间。

▶ So all of this information should be available to the State Department and should they should be able to review it in short order.

因此，所有这些信息都应提供给国务院，他们应该能够迅速审查。

bilibili 00:14:01

🎤 We understand El Fashir has been for a long time under siege now.

我们知道El Fashir已被围困很长时间。

🎧 Who among the population is bearing the brunt of the effects of not getting that access to food?

在无法获得食物的情况下，哪部分人口受影响最严重？

🎧 Well really like if you see the images coming from Dakaya and from the people or from the like service delivery points specifically the central community kitchen you will see the women and children among the most population that are still suffering there in El Fashir and in around El Fashir.

如果你看到来自Dakaya和民众或服务分发点（尤其是中央社区厨房）的图像，你会发现妇女和儿童是El Fashir及周边地区仍在受苦的主要人群。

 00:18:31

🎧 So these are the vulnerable population who are suffering a lot and also we don't forget the elderly people who cannot leave the city if they want to.

这些是最脆弱的群体，他们承受着巨大痛苦，同时我们也不能忘记那些即使想离开也无法离开老人。

🎧 So these are the population and the community members who are bearing the burden in most.

因此，这些人群和社区成员承受了最大的负担。

🎧 So yeah it is a general and all population are affected but what community members that I have mentioned are the most affected in the in the current crisis in Sudan and specifically in El Fashir.

是的，所有人都受到影响，但我提到的这些群体在苏丹当前危机中——尤其是El Fashir——受影响最严重。

 00:19:01

🎧 And speaking of the vulnerable we are hearing reports from medical workers that there has been another attack on the Abu Shuk Camp in Darfur by the RSF.

谈到脆弱群体，我们听到医务人员的报告称，快速支援部队再次袭击了达尔富尔的Abu Shuk营地。

▶ Have you heard those reports or from any colleagues on the ground about what is going on there?

你听到这些报告或从当地同事那里了解到情况了吗？

▶ Sadly we heard about that and we confirmed that the the the desert is serving casualties almost real and the third part of this is also that so many like all those casualties died because of the lack of transportation of the injured people to us so the hospital attack which is not more than like 10 to 15 minutes drive.

不幸的是，我们听到了这一消息并确认伤亡情况几乎实时发生，第三点是许多伤亡者因无法将伤者送往医院而死亡——医院距离袭击地点仅10到15分钟车程。

 00:19:46

▶ However due to lack of fuel and by the way, staff have provided an ambulance for those population since last year or however due to lack of the fuel and and and also the maintenance of those vehicles.

然而由于燃料短缺——顺便一提，工作人员自去年起就为这些人提供了救护车——但由于燃料短缺以及车辆维护问题.....

▶ People are suffering in transporting their medical emergency cases to the hospitals to to to receive the medical care that they need.

人们在将紧急医疗病例送往医院以接受所需护理时面临困难。

▶ So most of them are died unfortunately because of that and also so many are died directly due to the attacks and and that's really tragic story.

因此，不幸的是，大多数人因此死亡，也有许多人直接死于袭击，这真是悲剧。

 00:20:20

▶ We confirm with so many people in the ground we have so many connections we communicate with the people every day they are we understand really that is like a tragic incident that we hope not to see again.

我们与许多当地人员确认，我们有许多联系，每天与他们沟通，我们理解这确实是一场悲剧，希望不再发生。

⌂ A tragedy for doctors like yourself who are working there and seeing this conflict drag on in your view what needs to happen to bring an end to the fighting.

对于像你这样在那里工作并目睹冲突持续的医生来说，这是一场悲剧。在你看来，需要采取什么措施来结束战斗？

⌂ Could there be more effective international pressure?

是否可以有更有效的国际压力？

bilibili 00:20:50

⌂ Yeah of course this one of the of the of the of the main pillars of of at least like a discolating the conflict and and ensuring that the safe and restricted and conditional access of humanitarian aid to our fashion and all other areas which are really seek from long time and also we speak about North Dakota fan West Dakota fan and Darfur so yeah we need such a kind of pressure but also we need some kind of international agonsoatherity beyond just condemnation of the incidents to do some more practical steps to save lives who are dying every day because of diseases because of the conflict because of lack of medical supplies and so on.

是的，这当然是至少缓解冲突的主要支柱之一，并确保人道主义援助安全、有条件地进入EI Fashir和其他长期急需援助的地区——包括北达尔富尔、西达尔富尔和达尔富尔。因此，我们需要这种压力，但也需要国际社会超越仅仅谴责事件，采取更实际的措施来拯救每天因疾病、冲突、医疗物资短缺等原因死亡的生命。

⌂ Well Hurricane Erin has rapidly intensified into a rare category 5 hurricane packing maximum sustained winds of 160 miles per hour and its forecast to gain even more strength.

飓风Erin已迅速增强为罕见的5级飓风，最大持续风速达每小时160英里，预计还会进一步增强。

⌂ Now Erin's in the Caribbean and going to make its way across the Atlantic bringing the potential for flash flooding and mudslides.

目前Erin位于加勒比海，将横跨大西洋，可能引发山洪和泥石流。

bilibili 00:21:53

⌂ It's the first hurricane of the 2025 Atlantic season and is not expected to make landfall on the mainland of the United States.

这是2025年大西洋飓风季的第一个飓风，预计不会在美国大陆登陆。

▶ But from where on this I've been speaking with Andrew and Kozak a meteorologist with CBS News.

关于这一点，我一直在与CBS新闻气象学家Andrew Kozak交谈。

▶ So this looks like the start of the Atlantic hurricane season.

看来这是大西洋飓风季的开始。

▶ What can you tell us about Hurricane Erin?

关于飓风Erin，你能告诉我们什么？

 00:22:12

▶ Yeah it's been a very slow start and now all of a sudden we're ramping up.

是的，起初非常缓慢，但现在突然加速。

▶ Erin just a little bit more than 24 hours ago is a tropical storm and in just a little bit more than a day it went from that to now a very powerful category 5 as of Saturday morning.

仅仅24小时前，Erin还是热带风暴，而在一天多的时间里，它已增强为非常强大的5级飓风（截至周六上午）。

▶ The winds over 160 miles per hour just north of the Luerne Islands.

在Luerne群岛以北，风速超过每小时160英里。

 00:22:31

▶ It's a small but very powerful eye and this storm looks like it's continued not just to grow in intensity but in areas as well.

它的风眼虽小但非常强大，这场风暴看起来不仅在强度上持续增强，范围也在扩大。

▶ Do we know which direction it's headed and where is most likely to feel the impact?

我们知道它的行进方向以及哪些地区最可能受到影响吗？

▶ So right now it is headed a little further west northwest and because of high pressure out in the Atlantic Ocean that acts as kind of a steering mechanism it's going to go up and kind

of get close to the coast of the US and then move out to sea.

目前它正向西北偏西方向移动，由于大西洋的高压起到某种引导机制的作用，它将北上接近美国海岸，然后转向海洋。

 00:22:57

 We are not expecting a US landfall but we are going to have its issues.

我们不预计它会登陆美国，但仍会带来问题。

 We're going to be talking about areas like Puerto Rico right now experiencing rain and wind landslides potential coastal flooding and rip currents and then next week even as the storm veers off to sea and away from the mainland US we're going to be looking at rip tides and coastal flooding and very large waves from Florida all the way up to Maine.

目前波多黎各等地区正经历风雨、潜在山体滑坡、沿海洪水和离岸流，而下周即使风暴转向海洋并远离美国大陆，我们仍将关注从佛罗里达到缅因州的离岸流、沿海洪水和巨浪。

 And Puerto Rico of course has a history of experiencing natural disasters very acutely.

波多黎各当然有遭受自然灾害的深刻历史。

 00:23:25

 What can people do to prepare for a storm of this nature?

人们如何为这样的风暴做准备？

 All right especially down in the islands where of course it's a little bit more limited on what you can do.

尤其是在岛屿上，能做的准备相对有限。

 We are expecting two to six inches of rain before all is said it on this weekend in places like Puerto Rico.

在波多黎各等地，本周末预计降雨量将达到2到6英寸。

 So it's obviously just one of those things where you just kind of hunker down stay inside lowest level of your home.

显然这只是那种你需要蹲守、待在屋内最低层的情况之一。

bilibili 00:23:44

▶ we're likely to see potentially some water spouts and even with we typically see with hurricanes some tornadoes and things like that.

我们可能会看到一些水龙卷，甚至像通常在飓风中看到的一些龙卷风之类的东西。

▶ but right now the effects will be compared to how powerful this storm actually is.

但目前的影响将与这场风暴的实际强度相比较。

▶ Minimal across Puerto Rico but we could prepare for power outages and things like that.

在波多黎各影响较小，但我们可以为停电之类的事情做好准备。

▶ so you need to make sure especially if you have friends or family down there that they have extra water batteries all the emergency preparedness is always good.

所以你需要确保，尤其是如果你有亲友在那里，他们有额外的水、电池，所有的应急准备总是好的。

bilibili 00:24:09

▶ It's better to be more prepared than less prepared and then by this time Monday we should be in the clear.

准备充分总比准备不足好，到周一这个时候我们应该就安全了。

▶ Absolutely preparation is key here.

毫无疑问，准备是关键。

▶ How does this compare to what we've seen in past hurricane seasons?

这与我们过去飓风季节看到的情况相比如何？

▶ Is it pretty much on track that we would see something like hurricane, air and taking form right now in August?

我们现在在8月份看到像飓风“亚伦”这样的形成是否基本符合预期？

bilibili 00:24:27

🎧 I mean listen you know we've all seen this right where lately it just seems like the last couple of years that storms are getting more and more powerful.

我是说，听着，我们都知道最近几年风暴似乎变得越来越强。

🎧 It was a little surprising to some people especially when you look at what time of year it is and the fact that we haven't had until now a pretty powerful storm like this but this intensified so rapidly.

这让一些人有点惊讶，尤其是考虑到现在是一年中的什么时候，以及我们直到现在才遇到这样一场相当强的风暴，但它迅速增强。

🎧 The water over right now where the hurricane is 86 to 89 degrees and that's like fuel to the fire.

目前飓风所在区域的水温是86到89华氏度，这就像火上浇油。

 00:24:54

🎧 so when you factor that in and also the fact that the atmosphere is just going to continue to surge and give this category five hurricane the strength that remain this strong for at least the next 24 to 48 hours.

所以当你考虑到这一点，再加上大气将继续涌动，给这场五级飓风提供力量，使其在未来至少24到48小时内保持这种强度。

🎧 It's certainly on the higher end of storms but not out of the realm of reality of where we've been especially the last couple of hurricane seasons.

这当然是风暴中较强的一类，但并没有超出我们过去几个飓风季节的现实范围。

🎧 And we know climate change often increases the frequency of natural disasters and also the severity of them.

我们知道气候变化通常会增加自然灾害的频率和严重程度。

 00:25:21

🎧 Are hurricanes in that category that could be directly impacted by a warming world?

飓风是否属于那种可能直接受全球变暖影响的类别？

▶ Not even in it but really close to the top of the list because you know what is most of this planet?

不仅属于，而且几乎排在榜首，因为你知道地球的大部分是什么吗？

▶ Water and as we continue to seek climate change take effect and warm our planet well most of the planet being water that water gets warmer.

水，随着气候变化的持续影响和地球变暖，地球大部分是水，这些水会变得更暖。

bilibili 00:25:42

▶ and as I mentioned the water over where the hurricane is right now Aaron 86 to 89 degrees and we have water bodies of water at the Atlantic the Gulf of Mexico where we are looking at temperatures that have been in many cases five six seven degrees warmer now versus 10 or 20 years ago.

正如我提到的，飓风“亚伦”目前所在区域的水温是86到89度，而大西洋和墨西哥湾的水体温度在许多情况下比10或20年前高了五六七度。

▶ then that makes it easier for these storms to not only form but rapidly intensify and that is what we've been seeing the last couple of seasons and of course hurricane Aaron no different.

这使得这些风暴不仅更容易形成，而且迅速增强，这就是我们过去几个季节看到的情况，当然飓风“亚伦”也不例外。
